PROCEEDINGS
OF THE
BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS
FOR THE
Year Ending, August 31, 1903.

MEETING OF SEPTEMBER 9, 1902.

The Board of Trustees of the University of Illinois met in the Trustees' room, library building, Urbana, Illinois, at 9:00 o'clock a. m., Tuesday, September 9, 1902.

The members present were Messrs. Bayliss, Bullard, Hatch, McKay, McLean, Nightingale and Smith and Mrs. Carriel, Mrs. Abbott, and Mrs. Alexander; absent, Governor Yates and Mr. Conrad. President Draper was absent.

The minutes of the meeting of June 9, 1902, and the adjourned session of same held June 30, 1902, were approved, as presented by the Secretary.

Mr. Anderson, of the firm of Hack & Anderson, printers of the University catalog for the year 1901-02, was heard with regard to the reduction demanded by the Board of Trustees (see page 122 of the proceedings of the meeting of June 9, 1902) in the bill for the same. The motion to reconsider the vote previously taken was lost by the following vote: Yeas, Bayliss, McLean, Smith, Nightingale, and Mrs. Abbott; nays, Bullard, McKay, Hatch, Mrs. Carriel and Mrs. Alexander.

PAPERS FROM PRESIDENT DRAPER.

The secretary presented the following papers which had been transmitted to him by President Draper :

LAKE MOHONK, NEW YORK, September 5, 1902.

To the Board of Trustees.

I have the honor to recommend the following appointments to take effect September 1st, unless otherwise noted. In nearly or quite every case authority to make these appointments has been conferred upon me heretofore, but I report them as usual for confirmation and regularity. These appointments do not involve any increase in the number of persons upon the instructional force, nor in the expense.

1. Floyd Rowe Watson, as Instructor in Physics for ten months from September 1st, at \$100 a month.

Dr. Watson, who has visited me, is thirty years old, is a graduate of the State Normal School at Los Angeles, California, and of the State University of California, and took his Ph.D. degree at Cornell University in June last.

2. Frank W. Scott, as Instructor in Rhetoric, for ten months from September 1st, at \$75 a month.

Mr. Scott held the same position at the same pay last year. He would have been reappointed before but for the fact that his appointment was a late one last year, and in consequence his name did not appear in the regular list.

3. George D. Arnold, as Assistant in the Men's Gymnasium, for ten months from September 1st, at \$60 a month.

This appointment is in place of that of Mr. Kreikenbaum, who declined.

4. Elliott Judd Northrup, as Assistant Professor in the College of Law, at \$1,500 a year.

This appointment is to the place formerly held by Professor Tooke. Mr. Northrup is a graduate of Amherst College and of the Law School of Cornell University. He has been in active law practice for seven years at Syracuse, New York, in company with his father, who is a lawyer of considerable distinction in the state of New York. He is thirty-two years of age, and a man of much culture and promise. He is exceedingly anxious to succeed as a teacher and writer of the law, and I have considerable confidence that he will. In case his first year with us is satisfactory I have promised to recommend that his salary be \$1,600 the second year.

5. Katherine O'D. Manley, Order Clerk in the Library, in place of W. O. Walters, resigned, at \$900 a year.

Miss Manley is already in the service of the Library, and this is a promotion.

6. Harriet E. Howe, Loan Desk Assistant in the Library, at \$720 a year.

Miss Howe is a graduate of the Library School, 1902.

7. Clarence Green, Messenger in the Library, half time and all of Saturday, at \$20 a month.

Mr. Green will be a senior next year in the College of Literature and Arts.

8. Charles S. Crandall, Instructor in Horticulture and Chief Assistant in Pomology, at a salary of \$1,200, of which \$600 shall be paid from the College fund, and \$600 from the State station fund.

This appointment is in place of Mr. Stubenrauch. Mr. Crandall is fifty years of age, and graduated at the Michigan Agricultural College in 1873. He did some teaching there between 1885 and 1890. From 1890 to 1900 he was Professor of Botany and Horticulture in the Colorado Agricultural College. I regret to say

that I have not seen him. My recommendation is based upon the confidence of Deans Burrill and Davenport that the appointment is the best step that is open to us.

9. Jennie M. Latzer, as Laboratory Assistant in Bacteriology, at \$50 a month, for nine months, to commence September 15, and that \$200 of the whole amount be paid from the Agricultural College fund, and \$250 from the State station fund.

This is the arrangement arrived at by Professor Burrill to make up for the absence of Mr. Ward.

10. Eugenie Goldery, as Assistant upon the Piano in the School of Music, at \$70 a month for ten months.

This is the place of Mr. Eisner. The appointee is a young woman who is a graduate of Carlton College and the Chicago Conservatory of Music, and has been the last year a teacher of the piano at Carlton College. It has not been practicable for me to see her, but Director Lawrence represents her to be a woman of good culture, with the advantages of foreign travel, and a fine teacher.

11. George Foss Schwartz, as Instructor upon the Violin, at \$80 a month for ten months.

Mr. Schwartz is a graduate of the University of Wooster, Ohio, and of the New England Conservatory of Music. He is thirty years of age. He has taught the violin, viola and 'cello, as well as theory, harmony and the history of music in institutions of considerable prominence for seven or eight years. He is undoubtedly a man of very good general scholarship as well as of marked professional attainments. I have not seen him myself, but have had the benefit of a very full correspondence with him, and Director Lawrence has been to Ohio to see him. I am confident the appointment is a good one.

12. There are two or three other appointments, notably the assistant professor of electrical engineering, and the high school visitor, caused by recent resignations, and perhaps two or three minor ones, which I have not yet been able to determine upon, and I recommend that you authorize me to make them as soon as practicable.

13. Dean Davenport has recommended the appointment of Mr. Newell J. Morehouse as an instructor in animal husbandry with special reference to horses. I have not seen Mr. Morehouse, but accept the statements of Deans Burrill and Davenport, who have. From their statements it seems that he has been a successful breeder and dealer in horses for a number of years, that he is a man of sound character and likable ways, that he attended Albion College for two years, but has never finished a college course, and that his college work was in literary subjects. It is clear that he has never made the breeding of horses the subject of scientific study.

Under these circumstances I cannot recommend Mr. Morehouse for appointment to a University instructorship. I, however, accept Dean Davenport's statements that there are no available men scientifically prepared in this line of work and that the College of Agriculture is in need of the practical help of a man of Mr. Morehouse's qualities and experience, and I act upon suggestions made by him in answer to my objections, and recommend that Mr. Morehouse be employed from month to month, at \$120 per month, to commence when he begins work, but without faculty position or title, or definite tenure of office. In this way we obviate a difficulty which seems to me very substantial, and in time we shall doubtless know better what it is wise to do.

14. I transmit herewith the estimates for the College of Agriculture and the Experiment Station for the quarter ending December 31, 1902, and recommend that they be approved as follows:

From College Funds—		From United States Experiment Station Fund—	
Salaries.....	\$4,200 00	Salaries.....	\$1,775 00

15. My secretary, Miss Lillie Heath, has tendered her resignation, and I have accepted it to take effect October 1st, with only nominal service or leave of absence until that time. The step was made necessary by ill health, which has not been improved as we hoped by a long vacation. She has gone to a sanitarium at Kenosha, Wisconsin, as the officers of the institution say, for an indefinite length of time.

The duties of secretary to the President have become heavy and responsible, calling for the strength and temperament of a young man in good health, of college training, and of versatility and resourcefulness in managing affairs. The physical disability under which I, myself, must now rest makes the position of much more importance to me and to the University. For a man who can fill the place we shall doubtless have to pay \$1,600 or \$1,800 per year. While I have given considerable thought to the subject I do not know where the right man is. I therefore respectfully ask the Board to authorize me to make such temporary arrangements for getting along as may be practicable, and to make a permanent appointment at such salary as may be necessary when I am able to do so. This upon the understanding, of course, that no more than necessary will be paid, and that in any event the amount I have named above will not be exceeded.

PERSONAL.

It is a great satisfaction to me to be able to advise the Board that there is no reason to doubt my ability, as it will be my very great pleasure to resume regular work in the office at the 1st of October. My health is good and my strength has been steadily returning to me. I am now able to get about with considerable facility on crutches and an artificial leg. The summer has been a happy one to me, but I value the power to labor and to be useful more than ever before, and the day when I shall resume all my usual relations with the people and affairs of the University will be a happier one than any which has gone before it. Again I tender the Board my grateful thanks for its kindly and sympathetic consideration, and for each of its members I pray the full measure of health and prosperity.

Very sincerely yours,

A. S. DRAPER,
President.

On the motion of Mr. Smith the recommendations of the President were adopted and appointments and appropriations were made as proposed.

Mr. Smith reported that Judge Wright had granted the Urbana Street Railway Company permission to stretch temporarily a feed wire along the line of the old track from Wright street east through the University grounds.

The following resolution offered by Mrs. Carriel was adopted:

Resolved, That Miss Lillie Heath be employed as assistant secretary to the President, to render such services from time to time as required, at \$50 a month for twelve months.

The board adjourned to meet at 3:00 o'clock p. m.

AFTERNOON SESSION, SEPTEMBER 9, 1902.

When the board met pursuant to adjournment the same members were present as in the morning.

COAL CONTRACT.

The Committee on Buildings and Grounds made the following report which was accepted and approved:

URBANA, ILLINOIS, September 9, 1902.

To the Board of Trustees.

Your Committee on Buildings and Grounds begs leave to report as follows concerning the contracts for furnishing and hauling coal for the University during the year ending August 31, 1903:

July 11th an advertisement was inserted in two Champaign, one Urbana and three Chicago papers asking for proposals for coal. The same was mailed to about thirty dealers in Illinois, known to us, and a letter was sent to them calling their attention to the advertisement. The attention of the Wabash and Illinois Central Railroad officials was also called to the advertisement by letter. July 29th your committee received the following sealed proposals:

O'Gara, King & Company, Chicago.....	\$1 49 a ton.
Bell & Zoller Coal Company, Chicago	1 50 a ton.
Springside Coal Mining Company, Pana	1 35 a ton.
Riverton Coal Company, Chicago	1 17 a ton.
St. Louis & Big Muddy Coal Company, Carbondale, washed pea	1 93 a ton.
Madison Coal Company, and Mt. Olive Coal Company, St. Louis, mixed nut, pea and slack	1 25 a ton.

Your committee awarded the contract to the Riverton Coal Company at \$1.17 a ton, f. o. b. cars Urbana, as it was the lowest and best proposal.

At the same time and place proposals were asked and received for hauling coal for the year ending August 31, 1903, from the railroad tracks to the heating plant. Only one bid was received, that from Renner Brothers, Urbana, for twenty cents a ton from Urbana or Green street, Champaign; twenty-five cents from Illinois Central yards, Champaign; thirty cents from the Wabash tracks, Champaign. The proposal for hauling coal from the Urbana tracks was accepted.

The price of the coal is one cent less than last year, and the price of the hauling the same as last year. The contractors in both cases are the same who had the contract last year. Each gave good satisfaction on last year's contract. A good bond has been furnished by the Riverton Coal Company, and the contract has been executed, and all the papers have been filed with Secretary of this Board.

Respectfully submitted,

CONTRACT WITH WATER WORKS COMPANY.

The Committee on Buildings and Grounds made the following report which was adopted, and the committee was authorized to make the contract proposed:

URBANA, ILLINOIS, September 10, 1902.

To the Board of Trustees.

Your Committee on Buildings and Grounds, to which was referred the communication of the City Water Works Company, offering to provide for further fire protection, begs leave to report recommending that your committee be authorized to enter into a contract for ten years with the said company for all the service it may be able to render us for protection during fires at \$150 a year.

Respectfully submitted,

NEW CHEMICAL BUILDING.

The Committee on Buildings and Grounds submitted the following report.

URBANA, ILLINOIS, September 9, 1902.

To the Board of Trustees.

Your Committee on Buildings and Grounds begs leave to report concerning the new Chemical Laboratory that V. Jobst & Sons, contractors, have completed their contract and that the building has been turned over to the University. Mr. Spencer, the architect, reports that the work of the contractors has been good in every respect, and your committee is well satisfied with the work throughout. We recommend the acceptance of the building by the Board.

During the progress of the work on the building a number of changes were found necessary and were made. These comprise mostly changes and enlargement in the facilities for ventilation, and in the preparation of the basement for storage purposes. The former amounted to an addition of \$1,600 or more, and the latter to \$1,170 for the concrete floor covering basement.

The total amount for extra work is.....	\$3,344 20
Deduct work omitted.....	284 55
Net total for extra work.....	\$3,059 65

This extra work was not permitted by the committee until we had fully examined into the necessities therefor, and were convinced that it was not only desirable but necessary for the best use of the building as a laboratory, and that the expenditures proposed were reasonable for the amount of work to be done.

We therefore recommend the payment of this amount to the contractors.

Respectfully submitted,

S. A. BULLARD,
A. F. NIGHTINGALE,
F. M. MCKAY,
MARY T. CARRIEL,

Committee on Buildings and Grounds.

The report of the committee was adopted and the charge for extras, \$3,059.65, was ordered paid.

COLLEGE OF LAW BUILDING.

Mr. Bullard, chairman of the Committee on Buildings and Grounds, reported that the work of remodeling the old chemical laboratory for the use of the College of Law was nearly completed, and that the building would be ready for occupation by the 15th inst. He stated that Professor White, who had the supervision of the work, reported that \$100 in excess of the \$8,000 appropriated would be needed to complete the job, and moved that that amount be appropriated for that purpose, and the motion was adopted.

It was also voted to pay Professor White \$300 for his services in connection with this work.

WOMEN'S GYMNASIUM.

The Committee on Students' Welfare made the following report, and a sum not to exceed \$1,000 was appropriated for fitting up the gymnasium.

URBANA, ILLINOIS, September 9, 1902.

To the Board of Trustees.

The Committee on Students' Welfare begs leave to report that it has examined the room in the second story of the Testing and Hydraulic Laboratory, and finds it admirably suited for a gymnasium. Your committee therefore recommends that the Board order its immediate preparation, so that it may be ready for use by the opening of the fall semester.

Respectfully submitted,

COLLEGE OF PHYSICIANS AND SURGEONS.

The special committee to which had been referred certain matters concerning the relations between the College of Physicians and Surgeons and the University of Illinois made the following report, and the report of the committee was adopted on motion duly made and carried.

URBANA, ILLINOIS, September 9, 1902.

To the Board of Trustees of the University of Illinois.

GENTLEMEN: Your special committee upon transfer of the West Side High School property, Chicago, Illinois, from the College of Physicians and Surgeons, of Chicago, to the University of Illinois, desires to report that your committee engaged Mr. John P. Wilson, attorney, of Chicago, to examine and prepare all the papers in the case, and we have them all to present at this time to the Board.

It became necessary, in the opinion of Mr. Wilson, that certain resolutions be passed by the College of Physicians and Surgeons and the University so that the existing contract between the two corporations be recognized, and all the acts of either party be in conformity to that contract.

We present the papers as a part of this report.

Extract from the minutes of the meeting of the Board of Directors of the College of Physicians and Surgeons, of Chicago, held July 22, 1902:

On motion duly made and carried the following resolution was adopted:

Whereas, This corporation has heretofore, in pursuance of and in accordance with the terms and provisions and conditions of a certain agreement and lease, dated February 9th, 1900, and entered into between it and the University of Illinois, purchased the premises described as lots one (1) to seven (7) and lots one (1) to seven (7) in subdivision of lots nineteen (19) to twenty-five (25), in block twenty-three (23), and the vacated alley running north and south through said block, in Ashland second addition to Chicago; and

Whereas, The Trustees of said University of Illinois have requested this corporation to, and it is proper that it should, make and enter into an agreement with the said University of Illinois, setting forth the interest of said University of Illinois in said premises, and to make a deed conveying said premises to said University of Illinois, and place the same *in escrow* with the Secretary of said State of Illinois;

Therefore, Resolved, That the President and Secretary of this corporation are hereby authorized and directed to make and enter into an agreement with the University of Illinois, setting forth its interest in said premises under and in pursuance of and in accordance with the terms and conditions of said agreement and lease; and to make, execute and acknowledge a deed conveying said premises to the University of Illinois, and to deliver the same to the Secretary of State of Illinois *in escrow*, with directions to deliver the same in the manner, for the purpose and upon the conditions stated and set forth in said agreement and lease, at the same time and under the same conditions as the deed heretofore delivered to said Secretary of State by this corporation under said agreement and lease.

We present the following resolution and recommend its adoption by the Board:

Whereas, The College of Physicians and Surgeons, of Chicago, has heretofore, in pursuance of and in accordance with the terms and provisions and conditions of a certain agreement and lease, dated February 9, 1900, and entered into between it and this corporation, purchased for the sum of one hundred and eighty-six thousand dollars (\$186,000.00) the premises edscribed as lots one (1) to seven (7), and lots one (1) to seven (7) in subdivision of lots nineteen (19) to twenty-five (25), in block twenty-three (23), and the vacated alley running north and south through the block, in Ashland second addition to Chicago; and

Whereas, It is desirable that an agreement should be entered into between said College of Physicians and Surgeons and this corporation, setting forth the interest of this corporation in said premises, and that a deed should be made by said College of Physicians and Surgeons conveying said premises to this corporation, and the same be placed *in escrow* with the Secretary of State of Illinois; therefore

Resolved, That the President and Secretary of this corporation are hereby authorized and directed to enter into an agreement with said College of Physicians and Surgeons, setting forth the interest of this corporation in said premises, under and in pursuance of and in accordance with the terms and conditions of said agreement and lease; and to procure from said College of Physicians and Surgeons a deed of said premises, and have the same delivered to the Secretary of State of Illinois, *in escrow*, and to join in an *escrow* agreement directing said Secretary of State to deliver said deed to this corporation in the manner, for the purpose and upon the conditions stated and set forth in said agreement and lease, at the same time and under the same conditions as the deed heretofore delivered to said Secretary of State by said College of Physicians and Surgeons under said agreement and lease.

The agreement referred to in the above resolution is as follows:

ARTICLES OF AGREEMENT, Made and entered into this twenty-sixth day of June, A. D. 1902, between the College of Physicians and Surgeons, of Chicago, the party of the first part, and the University of Illinois, the party of the second part,

WITNESSETH, That, whereas, the parties hereto did execute certain articles of agreement and lease, bearing date of February 9, 1900, in and by which the said party of the first part did demise and agree to sell to said party of the second part lots numbers fifteen (15), sixteen (16), seventeen (17) and eighteen (18) in Balestier's subdivision of block number twenty-three (23) in Ashland's second

addition to Chicago, and other property, upon the terms and for the purposes and subject to the conditions in said articles of agreement and lease set forth and stated; and

WHEREAS, It was provided in and by said articles of agreement and lease that the said party of the first part might purchase and acquire additional property upon the terms and subject to the conditions therein set forth, which should be subject to the provisions of said articles of agreement and lease and to the sale therein and thereby made and agreed to be made to said party of the second part; and

WHEREAS, The said party of the first part has, in pursuance of and in accordance with the terms and provisions and conditions of said articles of agreement and lease, and by and with the approval of the said party of the second part, purchased certain real estate in the city of Chicago, to be held, owned and controlled by the terms and provisions of said articles of agreement and lease; and

WHEREAS, The said parties are desirous of evidencing the fact of said purchase as aforesaid by an instrument in writing:

NOW, THEREFORE, This indenture witnesseth that the said party of the first part has purchased of the city of Chicago the West Division High School property, described as lots one (1) to seven (7), inclusive, in block twenty-three (23); also also sub-lots one (1) to seven (7), inclusive, of lots nineteen (19) to twenty-five (25), inclusive, in block twenty-three (23), and the vacated alley running north and south through said block twenty-three (23), in Ashland's second addition to Chicago, in the west one-half of the northeast quarter of section eighteen (18), township thirty-nine (39), north, range fourteen (14) east of the third principal meridian, including the buildings thereon, together with the furniture, fixtures, and apparatus therein, for the purposes of a college of medicine of the University of Illinois, under and in accordance with article 12 of said agreement and lease entered into between the parties hereto bearing date the 9th day of February, A. D. 1900, at and for the purchase price of one hundred and eighty-six thousand dollars (\$186,000.00), and that the rights of the parties hereto in and to the said property are to be controlled and governed by the terms and provisions of the said articles of agreement and lease dated February 9th, 1900, in all respects the same as though said property had been owned by the said party of the first part at the date of the said articles of agreement and lease bearing date the 9th of February, 1900, and had been described therein, and had also been described in the deed of conveyance from the said party of the first part to the said party of the second part mentioned in said articles of agreement and lease and deposited in *escrow* in accordance with the provisions thereof; and for the better accomplishment of the said end the said party of the first part has this day executed a deed conveying the said premises to the said party of the second part, which has this day been placed in *escrow* for delivery at the same time and upon the same terms as the original deed from the said party of the first part to said party of the second part executed and placed in *escrow* at the date of the execution and delivery of the said articles of agreement and lease bearing date February 9th, 1900; it being expressly covenanted and agreed between the parties hereto that the amount of rent and purchase price to be paid by the said party of the second part to the said party of the first part shall be, by reason of the purchase of said property by the said party of the first part, increased to the amount and paid in the manner provided for in said articles of agreement and lease bearing date February 9th, 1900.

IN WITNESS WHEREOF, The undersigned officers of the respective parties hereto, authorized by resolution of their respective boards, have hereunto attached their signatures as official representatives of the parties hereto, and the corporate seals of said parties, at the city of Chicago, in the State of Illinois, on the day and year first above written.

TRANSFER OF WEST DIVISION HIGH SCHOOL PROPERTY.

The committee on transfer of West Division High School property made the following report, which was adopted:

URBANA, ILLINOIS, October 24, 1902.

To the Board of Trustees.

Your special committee on the transfer of the West Division High School property desires to report that an error in the recommendations of your committee in its report made at the last regular meeting, September 9, 1902, should be corrected. The committee at that time reported all the papers necessary to the transfer and recommended that the deed be recorded in the recorder's office in Cook county and then sent to the Secretary of State to be held *in escrow* by him; whereas, to conform to the method followed in the first transfer, the recommendation should have been that the contract be recorded in the recorder's office of Cook county and the deed sent to the office of the Secretary of State at Springfield, to be held *in escrow* by him till the contract had been fulfilled. As the deed has been recorded as was recommended, in order to correct the mistake thus made, your committee recommends that the officers of this Board be authorized and instructed to have drawn and executed a quit claim deed of the said West Division High School property from the University of Illinois to the College of Physicians and Surgeons and to have it recorded in the recorder's office of Cook county, and that in exchange for this deed, they be instructed to accept another warranty deed for the same property from the College of Physicians and Surgeons to the University of Illinois, which deed our officers are instructed to have placed *in escrow* in the hands of the Secretary of State of Illinois, in accordance with the contract reported to the meeting of this Board on September 9th last; and further, that they be instructed to have the said contract recorded in the recorder's office in Cook county.

Respectfully submitted,

S. A. BULLARD,
THOMAS J. SMITH,
ALEX. MCLEAN,
CARRIE T. ALEXANDER,
Committee on Transfer.

SCHOLARSHIPS IN THE COLLEGE OF MEDICINE.

It was ordered that the money, \$4,000 in amount, received on contracts for scholarships in the College of Physicians and Surgeons (see item 13 of President Draper's communication below) be deposited with the Treasurer and invested by the Business Manager.

RELATIONS WITH THE COLLEGE OF MEDICINE.

The Committee on the College of Medicine made the following report which was adopted:

URBANA, ILLINOIS, October 24, 1902.

To the Board of Trustees.

Your Committee on the College of Medicine, to which was referred the estimates of expense of the College for the year 1902-1903, which was submitted by the Actuary at the regular meeting in June, submits its report. Owing to the absence of the chairman of the committee from the State for several months subsequent to the presentation of the estimate by the Actuary, this report is delayed to this date.

Bearing in mind the terms of the contract between the University and the College of Physicians and Surgeons, your committee has been actuated by a desire to join in scrupulously seeking the completion of that contract within the period set forth in the contract itself, namely, twenty-five years. And we believe that the purposes of the College of Physicians and Surgeons are to the same end, and that the organization and the members of the faculty and officers of the College will manifest the sincerity of those purposes by aiding this Board in every way possible to bring this contract to a successful termination within the specified time.

The amount of the purchase as stated in the original contract is \$217,000. This amount has been increased \$186,000 by the purchase of the property known as the West Division High School, and more than \$100,000 by improvements made in that and in the original property, and further, by \$17,000 through the starting of the Dental School, which together make the total amount of contract considerably above \$500,000 at the present time .

In estimating the amount of money to be acquired by the University yearly in order that the original amount of \$217,000 should be provided within twenty-five years it was found that approximately the sum of \$5,250 was necessary. It was estimated that that amount would be required annually from the net profits of the College. When the purchase of the High School property was contemplated it was estimated by the committee of this Board and the committee of the Medical College that the enlargement of the school resulting therefrom and its increased income would enlarge the net income to the University to an amount sufficient to insure the fulfillment of the contract within twenty-five years, the period stated in the contract. This Board thereupon authorized the purchase of the High School property and the increase of the amount of the contract, \$186,000. By the organization of the Dental School this committee and the officers of the Medical College again concluded that the increased net income to the University would provide for the payment of the increased obligations, within the stated period, made necessary through the organization of this school. During the summer of 1901 the fire that occurred in the Medical College building made great repairs necessary and in the changes made at that time the spirit of improvement found its way into the High School property as well, and improvements were made in both far beyond any amount contemplated at the time of the purchase. This additional expense, together with the other expenditures which were authorized by this Board, has made the amount of the obligations in the contract exceed considerably the sum of \$500,000, as stated at the beginning of this report.

Now, estimating on the basis of \$528,000 as the amount of the contract, which is approximately correct, it will require a net profit of \$12,800 annually as the University's share to complete the contract within the specified time. However, two years of the contract have already passed, and the third year is well on its way. The contract went into effect May 1, 1900, and the completion is stated for May 1, 1925. The two years of the contract that have elapsed have not fulfilled expectations. The results are not what has been desired, nor what was confidently expected. Several things have conspired to cause this disappointment. We can see them now but did not foresee them. First, the unsettled condition always accompanying a rapid enlargement of a school makes it next to impossible accurately to estimate income and to hold the expense down proportionate to income. Again, the purchase of additional property and the enormous cost of its improvement, the fire in the original building, and the rebuilding and improvement of that building and equipping it for the Dental School have caused all concerned to lose sight for a time of the increased net profits which must necessarily be required to fulfill the contract in due time. Again, the unusual conditions arising in the administration of the contract, in the like of which the President, faculty of the Medical College, and the members of this Board were inexperienced, have induced and material features of the school and allow a very loose rein in its financial affairs.

But the experience gathered from the two years past will prove of large value in the conduct of this great enterprise to its termination.

The first year of the contract resulted in a total net profit of 12,000 dollars, of which the University received 4,000 dollars. This amount fell 1,250 dollars short

of the amount necessary to carry the original amount of 217,000 dollars to completion in 25 years. Your committee finds no good reason for this shortage other than those above stated. The year was a good one in attendance, no expensive improvements were made and no large amount of apparatus was purchased. The unusual expense came in the increase of operating expenses. The income for the year was \$70,655.38, and the expense, \$58,655.38. The second year of the contract resulted in a total net profit of \$9,000, the University receiving for its share \$3,000. The attendance for the year in the Medical College was 100 more than the year previous, the total being 708 students. The attendance of the Dental School this first year was 134 students. The income from these two sources was \$94,958.51, as reported by the Business Manager. The operating expenses by the same report were \$85,958.51. The year was the most prosperous ever reached by the Medical College, the combined increase of students being 38.4 per cent over the attendance of the year previous. The income was 34.4 per cent over the previous year and the operating expense 46.5 per cent increase. It will be noticed that the year's record also shows an abnormal increase in the operating expenses.

The estimates of the Actuary for the present year (third year of contract) are \$104,000 for income and \$95,182.92 for operating expenses. The net gain for the year, therefore, is estimated at \$8,817.03, of which the University's share would be \$2,939.01. The estimated increase of students is not given in the Actuary's estimate so that a comparison can not be made with the attendance of last year. The estimated increase in income is 9.3 per cent over the preceding year and the estimated increase in expenses which this Board is asked to confirm is 10.7 per cent over that of last year. It will be noticed that the per cent of increase in the expenses in these three years is in every instance greater than the increase in income, and that the amount of net profits continually decreases in the same period. This must be a matter of great regret to every one connected with the Medical College and the University, and it is with the serious purpose of changing this condition of things that your committee makes so elaborate a report. Your committee realizes that the loss of a single year's net income is not a matter of any grave importance, though the loss would necessarily postpone the termination of your contract another year. Such a loss may be occasioned by a stress of hard times which may reduce the attendance seriously, so that there may be no surplus; or, by an unavoidable calamity, which may enormously increase the expense. It proves to be a matter of deep concern, however, when in the most prosperous times, with attendance increasing and income increasing beyond all precedents, the expense should be allowed to increase beyond all proportion to either. The precedents established by such a course, the habits of extravagance engendered, and the quiet indifference in which the recurring failures to fulfill each annual part of the contract is contemplated by all concerned are matters which your committee believes to be of the gravest importance.

Your committee in confirming the estimates of the income of the present year, as reported by the Actuary, has estimated on an increase of 15 per cent in the attendance in both the Medical College and Dental School. This allows an increase of 106 medical students (a total of 814) and 20 dental students (a total of 154). The income for the year, therefore, would be \$120,780. Now, by reducing the estimates of expense to \$82,380 there will be a surplus of \$38,400 of which the University's share would be \$12,000, which is the necessary amount contemplated in the contract.

Your committee, therefore, recommends that the estimate of the Actuary be returned with the request that the executive faculty of the Medical College and the President of the University reduce the estimated expenses to \$82,380 for the present year, or as nearly to that sum as existing contracts will allow, and that they be instructed, in submitting hereafter the estimates of the Actuary, to make the annual expense within \$38,400 of a conservative estimate of the income for that year. Your committee believes that this can be done without any real injury to the Medical College or Dental School and will aid largely in a healthful and natural growth in all their parts.

Your committee further recommends that each year the estimates for the next year's income and expenses of the College of Medicine be submitted to this Board for consideration at its regular March meeting

The members of this committee desire in closing this report to record their candid belief that the State of Illinois can not with honor to itself, for longer than a temporary period, employ a private corporation to educate for it the young men and women of the State; and we believe that the Chief Executive and the legislature of Illinois will not, and this Board of Trustees should not, look with approval upon the suggestion that the contract herein referred to be allowed to continue indefinitely. The business of this contract should be pursued with the conscientious purpose of fulfilling it at the earliest possible time. This result would no doubt be to the financial advantage of the College of Physicians and Surgeons and the educational enlargement of the University, and we hope, therefore, that this Board and the Board of Directors of the College of Physicians and Surgeons will labor harmoniously together to this end.

Respectfully submitted,

ALEX. MCLEAN,
S. A. BULLARD,
F. M. MCKAY,

Committee on Medical College.

LEGISLATIVE APPROPRIATIONS.

It was voted to appoint a committee of five who should, with President Draper, present to the Board at its next regular meeting proposals with regard to appropriations to be asked for at the next session of the General Assembly. The persons whose names follow were appointed on this committee: Messrs. Bullard, McKay, and Smith and Mrs. Alexander and Mr. Nightingale.

COMMUNICATION FROM PRESIDENT DRAPER.

URBANA, ILLINOIS, October 24, 1902.

To the Board of Trustees:

I have the honor to lay before you the following business:

1. I recommend that Mr. Harlan H. Horner, Instructor in Rhetoric, be appointed Secretary to the President, at \$1,100 a year, to commence October 1st.

2. I recommend that Mr. Frederick Gates Fox, of the class of 1898, be appointed instructor in the Department of Rhetoric in the place of Mr. Horner, at \$75 a month to commence October 1st.

3. I recommend that Mr. Horace A. Hollister be appointed High School Visitor in place of Stratton D. Brooks, resigned, at \$1,600 a year, to commence November 1, 1902, and continue until September 1, 1903.

Mr. Hollister is now superintendent of school at Sterling, Illinois. He is a graduate of the University of Iowa, classical course, and took his second degree there. He has taught twenty years, twelve as principal of a high school, and six as a superintendent. He has spent some time in graduate work at the University of Chicago. He is scholarly, and experienced in school administration; has done some institute work, and is strongly commended by those who have heard him as an excellent public speaker on school subjects.

4. I recommend the appointment of Mr. William Cullen Dennis as an instructor in the College of Law, at \$100 a month, for ten months, to commence September 1, 1902.

Mr. Dennis is an A. B. and LL. B. of Harvard University, and has been at work here since the opening of the semester. The appointment is made to fill the vacancy caused by the resignation of Mr. Holmes, which was made necessary by ill health.

5. Professor Gerdtzen, in charge of the work in machine design in the Department of Mechanical Engineering, has been obliged to resign on account of ill

health. I recommend that Mr. William Gordon Fraser, Instructor in the Machine Shop, be appointed Instructor in Machine Design for ten months from September 1, at \$100 a month.

6. I recommend that Robert Clayton Matthews be appointed Assistant in Genral Engineering Drawing at \$70 a month, for ten months, to commence September 1, 1902. He has been at work from the opening of the semester.

7. I recommend that Miss Isabel Jones be appointed Assistant in the Department of Art and Design on part time, at \$30 a month, for ten months from October 1, 1902.

8. I recommend that Miss Edna L. Goss be appointed Reviser in the Library and Library School at \$500 from October 1st to commencement; and that Frank W. Bumstead be appointed messenger in the Library at the rate of \$20 a month from the time he commences work until commencement.

9. I recommend that Mr. Perry Barker be appointed Assistant on the Water Survey at \$50 per month for nine months, beginning October 1, 1902.

10. I recommend that Mr. Edwin Gardner Greenman be appointed Instructor in Mechanical Engineering at \$75 a month from October 20, 1902, to July 1, 1903.

11. I recommend that Horticulture and Dairy Husbandry be recognized as independent departments entitled to representation in the University Senate.

12. I recommend that Professor Katharine L. Sharp be granted leave of absence till November 1st on account of ill health; and that Professor Lewis A. Rhodes be granted leave of absence until January 1, 1903, on account of the illness of his wife, upon the condition that their work be provided for without expense to the University and to the satisfaction of the President.

13. I transmit herewith certain contracts made by the officers of the College of Medicine, subject to the approval of your Board, with the Woman's Presbyterian Board of Missions of the Northwest, with the Woman's Board of Missions of the Interior, and with the Northwestern Branch of the Woman's Foreign Missionary Society of the Methodist Episcopal church for establishing scholarships, four in all, and each in the sum of one thousand dollars, in the College of Medicine, for the education of medical missionaries, and I recommend that the agreements be approved.

14. Some time ago the Board requested me to procure suitable portraits of certain gentlemen heretofore connected with the University. Having made a general arrangement with Professor Newton A. Wells to do the work, I am able to present the first portrait to the Board for its acceptance at this meeting. It is of Professor George Espy Morrow, Professor of Agriculture from 1877 to 1894. It is a crayon portrait, as it had to be made from a photograph, and it was not possible to execute it in oil. It seems to me quite as satisfactory as could be expected, and if it is approved by the Board, I recommend that Professor Well's nominal charge for his work, and the cost of framing, amounting in all to \$34.00, be paid.

15. For some years there has been much dissatisfaction in University circles at the almost unlimited extent to which it is said the authorities of the city of Champaign have allowed liquor to be sold, and particularly the extent to which they have allowed the Sabbath to be desecrated in violation of law, and to the humiliation of all good citizens. That there is abundant ground for indignation is clear enough to every observer. The trouble is continuous and flagrant. It is manifest every day, and doubly so every Sunday. An intolerable offense, perhaps more unbearable than the others, although it comes but once a year, is the license given for a band tournament each year on the Sunday which comes just at the time students are gathering for the fall semester. On this Sunday brass bands, numbering perhaps twenty or thirty, come with miscellaneous crowds by special trains from all parts of the State for a day of recreation if not of dissipation. It is said that upon the trains coming hither this year handbills were distributed announcing that the saloons would be found open through the day.

The matter has recently been reported upon to the Council of Administration by its Committee on Students' Welfare. The Council feels that the committee

does well to express the indignation of the University community, but feels that any official steps to be taken in such matter should be taken by the highest authority of the University, the Board of Trustees.

No one will doubt that the city of Champaign owes to itself to protect the students of the University from annoyance or temptation. Our relations with the people of the city have been very agreeable, and I have no doubt but that by far the greater part of the residents of the city will be glad of any help we may give to the good cause or order and decency among them. I submit the matter to the Board that it may take such action as it thinks well in the premises.

Respectfully submitted,

A. S. DRAPER,
President.

The several items of this report as read were adopted, except the last.

The appointment of Mr. Hollister (item No. 3) was made upon the following vote: Yeas, Bullard, Smith, McLean, Abbott, Alexander, Bayliss; nays, Hatch and McKay.

The last item was referred to a special committee consisting of Messrs. Bayliss, Bullard and Hatch.

The scholarship contracts referred to in item 13 are in form like the following copy of one of them:

“THE GRACE CHANDLER SCHOLARSHIP.”

KNOW ALL MEN BY THESE PRESENTS:

That the College of Physicians and Surgeons, of Chicago, the College of Medicine of the University of Illinois, in consideration of one thousand dollars, paid to it by the Woman's Board of Missions of the Northwest, the receipt whereof is hereby acknowledged, does hereby grant, bargain, and convey to the said Woman's Presbyterian Board of Missions of the Northwest, a perpetual scholarship in said College to be known and designated as “The Grace Chandler Scholarship,” subject to the following specifications and conditions:

I.

Said scholarship shall entitle said Board of Missions to one student annually in the College of Physicians and Surgeons, of Chicago, the College of Medicine of the University of Illinois. And if said Board should fail to send one student to said College for any one or more years it shall be entitled in any subsequent year or years to such a number as will be equivalent to one annually.

II.

If ever the said College of Physicians and Surgeons, of Chicago, the College of Medicine of the University of Illinois, ceases, or fails to provide complete medical education for women according to the standard required by other regular schools of medicine in good standing, then the money for the establishment of the foregoing scholarships shall be paid to the Woman's Presbyterian Board of Missions of the Northwest, or its successor or successors.

III.

The student or students entering such College under said scholarship shall be entitled free of charge to all that the regulations of said College require or may require of other students of the same stage of advancement, including matriculation, final examinations, materials necessary for illustration and practical work, and all college and hospital instruction—or such of these as may be required by

said College for the year or years such student or students may be in attendance. Any student who has been a beneficiary of this scholarship for one or more years shall be entitled in any subsequent year to enter said College as a student on the same conditions as are required of a non-beneficiary student of the same grade.

IV.

The student entering said College under said scholarship must be recommended by the said Woman's Presbyterian Board of Missions of the Northwest, or its successor or successors, in preparation for the work of a medical missionary, and must be subject to all the conditions required for admission and graduation, responsibility for the breakage of furniture and laboratory appliances, and to all other rules and regulations of the said College, except as above provided in regard to fees.

IN WITNESS WHEREOF, The said College of Physicians and Surgeons, the College of Medicine of the University of Illinois, has on this sixteenth day of September, in the year of our Lord one thousand nine hundred and two, signed, sealed and delivered the foregoing instrument by its Dean, and affixed the seal of the said corporation thereto.

The College of Physicians and Surgeons, of Chicago, the College of Medicine of the University of Illinois.

[SEAL]

WM. E. QUINE,
Dean.

The Board adjourned.

ALEXANDER McLEAN,
President, Pro Tem.

W. L. PILLSBURY,
Secretary.

MEETING OF DECEMBER 9, 1902.

The Board of Trustees of the University of Illinois met in the Trustees' room, Library building, Urbana, Illinois, at 9:00 o'clock a. m., Tuesday, December 9, 1902.

The members present were Messrs. Bayliss, Bullard, Hatch, McKay, McLean, Nightingale and Smith and Mrs. Carriel, Mrs. Abbott and Mrs. Alexander; absent, Governor Yates and Mr. Conrad. President Draper was present.

The minutes of the meeting of September 9, 1902, and the adjourned sessions of the same held October 1, 1902, October 11, 1902, and October 25, 1902, were approved as presented by the Secretary.

Mrs. Charles W. Spalding was heard in behalf of the parole from the penitentiary of her husband, Mr. Charles W. Spalding.

PAPERS PRESENTED BY PRESIDENT DRAPER.

UNIVERSITY OF ILLINOIS, December 9, 1902.

To the Board of Trustees.

1. I respectfully recommend the appointment of William Henry Williams to the position of Assistant Professor of Electrical Engineering at the rate of \$1,500 a year, salary to commence upon his reporting for duty.

Professor Williams is thirty-six years old; born in Wisconsin; is married; graduated at Battle Creek College, Michigan, in 1886; was principal of high school at New Richmond, Wisconsin, 1887-1891, teaching physics and mathematics; was superintendent of schools at Antigo, Wisconsin, 1891-1893, teaching physics and chemistry; took mechanical and electrical engineering course, University of Wisconsin, and graduated, 1896; has been professor of electrical engineering at Montana State College since 1896; he has purchased and installed the shop and laboratory equipment at that institution, and has worked in somewhat responsible capacities for several prominent electrical companies in his summer vacations. It has not been practicable for me to see him, but his letters are very creditable to him, and his colleagues at Montana State College, and Professor Jackson, of the electrical department of the University of Wisconsin, commend him very cordially.

2. I have received letters from a committee appointed by the Governor to report a scheme for applying civil service regulations to the several State institutions, requesting a classified list of all the employees of the University. As I am of the opinion that the University should not be classed with institutions subject to civil service regulations I have advised the committee that I do not feel at liberty to comply with their request without the approval of the Board of Trustees, and that I would submit the matter to the Board at the next meeting. Accordingly the correspondence is herewith submitted.

3. At a recent meeting of the Board I called attention to violations of the laws against liquor selling, particularly on a Sunday given over to a band tournament in the city of Champaign just at the opening of the semester. It ought

to be added that since doing so the grand jury of Champaign county has indicted more than twenty of the saloon keepers of that city for selling liquor on the day referred to, and the circuit court has imposed a fine of \$200 upon each of them. This action has been warmly approved by the supporters of law and decency in the city, and must be very gratifying to us. I am still of the opinion, however, that it would be well for the committee of the Board appointed to consider the matter to forward a judicious communication to the city council, regretting the frequent violations of the law, commending the action of the court, urging restrictions upon the liquor interests, and protesting against the granting of privileges for desecrating the Sabbath, and suggesting a non-partisan and more efficient police department. It ought to be urged by the Board that the interests of a great university claim unusual care in these regards in a university city. Such a communication from the Board would be welcomed by and would help a great body of good citizens who are much interested in the subject.

4. At the last meeting of the Board action was taken looking to more care in expenditures at the College of Physicians and Surgeons.

Responding to this the executive faculty of the College has taken action as follows:

- (a) Reducing the salaries of all teachers and demonstrators in both the medical and dental departments twenty-five per cent from December, 1902.
- (b) Discharging Mr. Dryer's helper December 1, 1902.
- (c) Requiring the Curator to give his entire time to the duties of his office.
- (d) Reducing the salary of the Superintendent of the Dental Department twenty-five per cent from December 1, 1902.
- (e) Discontinuing the teaching of laboratory physiology June 1, 1903.
- (f) Appropriating \$210 for the purchase of county hospital tickets for forty-two senior dental students.
- (g) Requiring Dr. Bauman to refund \$75 paid him through error.
- (h) Discharging the Curator's helper.
- (i) Discharging the carpenter.

It is the opinion of the Business Manager that this action will save some thing like \$4,500 in the remainder of the present fiscal year.

5. I transmit estimates for the College of Agriculture and the Agricultural Experiment Station and recommend that they be approved as follows:

From College Funds—		From U. S. Station Funds—	
Salaries	\$5,450 00	Salaries	\$1,775 00
Agronomy	850 00	Agronomy	375 00
Animal husbandry	650 00	Animal husbandry	375 00
Dairy husbandry	650 00	Dairy husbandry	375 00
Horticulture	650 00	Horticulture	375 60
Household science	125 00	Thremmatology	75 00
Veterinary science	25 00	General office.....	400 00
Thremmatology	50 00		
College extension	100 00	From Receipts—	
General office.....	75 00	Agronomy	\$477 30
		Horticulture	294 31
From Receipts—			
Dairy husbandry.....	\$1,500 00		
Household science	100 00		

Respectfully submitted,

A. S. DRAPER,
President.

1. Mr. William Henry Williams was appointed assistant professor of electrical engineering, as recommended.

2. The matter of the communication from the commission appointed by the Governor to report on civil service regulations for State

departments and institutions was referred to a special committee consisting of Messrs. Smith, Bullard and McLean, with President Draper.

3. The recommendations with regard to the violations of the license law in the city of Champaign were referred to the special committee appointed at the last meeting of the Board to consider this subject.

The committee made the following report, which was adopted:

URBANA, December, 9, 1902.

To the Board of Trustees:

Your committee appointed to consider certain phases of lawlessness in the city of Champaign begs leave to recommend that it be instructed to send an address to the city council of Champaign following in it the lines of President Draper's communication.

Respectfully submitted,

ALFRED BAYLISS,
S. A. BULLARD,
F. L. HATCH,

Committee.

5. Appropriations were made for the College of Agriculture and Agricultural Experiment Station, as recommended.

Mr. Smith reported in regard to the Schmitz case against Kelly & O'Brien (see meeting of October 25, page 146) that, in order to protect the interests of the University, he had entered an appearance in the case.

He also reported with regard to the injunction against the street railway (meeting of March 11, 1902, page 53) that evidence would be taken in behalf of the plaintiff this month and evidence in behalf of the defense in the month of January.

The Committee on Buildings and Grounds, together with President Draper, was requested to investigate carefully the street railway problem so far as it concerns the University, with a view to protecting University interests and lessening, so far as practicable, the traffic through University grounds, and to report to the Board.

The Board adjourned to 2 o'clock p. m.

AFTERNOON SESSION, DECEMBER 9, 1902.

When the Board met pursuant to adjournment the same members were present as in the morning.

Mr. Smith offered the following resolution and moved its adoption.

Resolved, That the Board of Trustees of the University of Illinois, while it does not recommend to the Board of Pardons to give Mr. Chas. W. Spalding the benefit of the parole law, yet does not oppose such action.

A motion to lay the resolution on the table prevailed by the following vote: Yeas—Messrs. Bayliss, McLean, Bullard, McKay and Mrs. Alexander, Mrs. Carriel and Mrs. Abbott. Nays—Messrs. Smith, Hatch and Nightingale.

Upon the recommendation of President Draper, Miss Edna N. Work, of Rushville, and Miss Alice Abbott, of Urbana, were granted scholarships in the University, on the ground that they were the children of deceased soldiers in the Union army in the War of the Rebellion.

LIBRARY SCHOOL.

President Draper presented the following recommendation from the Council of Administration with reference to the degrees to be conferred in the Library School, and the recommendation was adopted.

1. The degree of bachelor of arts in library science may be given upon the conditions named in the catalog for graduation in the specialized courses, (see pages 73ff and 109ff).

2. The degree of bachelor of library science may be given to those holding the degree of bachelor of arts in library science for one year's additional work, so distributed that two full years of library work shall be accomplished by the candidate.

The first resolution will place a special course in library science in the College of Literature and Arts and in the College of Science, and will enable students in either of these colleges to specialize to a certain extent in library science in the course for the first degree.

By the second resolution the student will be required to spend five years to get the degree of bachelor of library science instead of four as at present.

These two resolutions together require that the candidate for the degree of bachelor of library science shall have, as now, at least two years of library work proper, and three years of preliminary liberal training instead of only two years as now.

MICHIGAN TELEPHONE COMPANY BONDS.

Mr. Nightingale, from the Committee on Finance, reported that there had been a default in the payment of interest on the Michigan Telephone Company's bonds held by the University as part of the Edward Snyder fund, and that he had received from N. W. Harris & Co., of whom the bonds were purchased, a letter with regard to the matter, and that, as it required immediate attention, the committee had instructed Mr. Keith, Treasurer of the Board, to comply with the recommendations contained in the letter.

The letter and reply are as follows:

N. W. HARRIS & COMPANY BANKERS

67 MILK STREET, EQUITABLE BUILDING, BOSTON, July 10, 1902.

DEAR SIR: We send you enclosed a copy of the agreement under which the holders of Michigan Telephone Company consolidated mortgage 5 per cent bonds, due 1929, are asked to deposit their bonds.

The committee has been formed to enable the bondholders to unite so that action for their protection may be taken.

If you have not already sent your bonds in, we recommend that they be deposited with the Old Colony Trust Company before July 21st, which may be done direct or through us. The Trust Company will issue a negotiable receipt.

It is not necessary to sign the agreement; by depositing your bonds you become a party to the contract.

Yours very truly,

N. W. HARRIS & COMPANY.

CHICAGO, ILL., July 18, 1902.

MR. E. G. KEITH, *Treasurer, Board of Trustees, University of Illinois, City.*

DEAR SIR: Referring to the above communication which we hand you herewith, you are instructed and directed to proceed in accordance with the suggestions contained in the letter of N. W. Harris & Co., and the three thousand dollars in bonds belonging to the Board of Trustees are to be turned over to them with the understanding that they are to be deposited with the Old Colony Trust Company; and you are hereby directed to take the Trust Company's negotiable receipts therefor.

Yours very truly,

A. F. NIGHTINGALE,
*President Board of Trustees, University of Illinois.*F. M. MCKAY,
Chairman of Finance Committee.

The action of the committee was approved and confirmed.

The Committee on Students' Welfare recommended that the University pay \$130.85, or so much thereof as might be needed, on account of sundry purchases and repairs made for the dining hall by Mr. Miller, and the recommendation was adopted.

THE COLLEGE OF ENGINEERING.

The Committee on the College of Engineering, appointed at the meeting of June 30th (page 123) made the following report, which was referred to President Draper:

URBANA, ILL., December 8, 1902.

To the Board of Trustees of the University of Illinois.

GENTLEMEN: Your special committee appointed to report upon the needs of the College of Engineering, submits the following for your consideration.

The University of Illinois was established primarily for the education of our people in agriculture and mechanic arts. Your committee is of the opinion that whatever may be done in extending the scope of the University, to meet the growing demands of our complex civilization, it should be the settled policy of this Board, upon whom the responsibility rests, to place the emphasis strongly upon these fundamental branches of industrial education.

The most notable fact in the educational history of this country during the last thirty years is the rapidly increasing demand for education in the applied sciences. Technical schools everywhere are overcrowded, and the demand for their graduates greatly exceeds the supply. The old line classical institutions, recognizing the demands of the new education, are struggling to establish and build up technical departments to enable them to hold their places in the ranks of the educational forces of the country. Wealthy men and women are founding new technical institutions, and endowing them with untold millions. Our country seems to have become aware of the fact that education for life means more than familiarity with languages, mathematics and rhetoric. The man who knows and can do things is the man of the hour. Thirty years after the establishment of the land grant colleges, it seems the people are just beginning to appreciate the value of the education they offer. The marvelous advance of the United States in manufacturing and in commerce, during the last decade, has astonished and alarmed the statesmen and political economists of the old world. Our country

has become a competitor in the markets of all nations. The long established supremacy of Europe in financial and commercial affairs is threatened. The United States is now recognized as the most potent factor in the affairs of the world. The cause for this apparently sudden industrial awakening in our country is being sought. It is discovered by the philosophers that the secret is in our system of education. Close observation reveals the fact that our technical schools are real fountains from which our national prosperity has come. The founding of the land grant colleges was the beginning of a national system of education in the applied sciences that has wrought such wonders in the development of our great natural resources. The untold wealth hidden in our soil awaits only the magic touch of science to come forth in all the varied forms of vegetation to supply the wants of man. The possibilities of steam and electricity in doing the world's work are yet unknown. The schools that give this knowledge are to be the schools of the future.

Your committee after a careful study of the methods of instruction and the equipment of the leading technical schools in this country is of the opinion that the College of Engineering ought to have additional buildings, a large increase in equipment, some increase in the instructional force, and some changes in the course of study and methods of instruction. We, therefore recommend the following as pressing needs of the College:

<ol style="list-style-type: none"> 1. A separate building for physics \$150,000 00 2. A mechanical engineering laboratory 50,000 00 3. A railway engineering laboratory 20,000 00 4. A foundry building..... 12,000 00 	<p>EQUIPMENT.</p> <ol style="list-style-type: none"> 1. Equipment of mechanical engineering laboratory \$100,000 00 2. Equipment of an applied mechanics laboratory 90,000 00 3. Equipment for machine shops 15,000 00 4. Architecture 16,000 00 5. Civil engineering 14,250 00 6. Electrical engineering 63,000 00
--	--

F. M. MCKAY,
S. A. BULLARD,
A. F. NIGHTINGALE,
Committee.

A petition from editors of agricultural newspapers published in Illinois, asking that the Board endeavor to get from the legislature an appropriation sufficient to enable the University to make tuition absolutely free, was referred to President Draper.

Mr. Bullard from the Committee on Buildings and Grounds, recommended an appropriation of \$200.00, or so much thereof as might be needed, to pay the balance due Mr. C. A. Loyde for wiring and lighting the Chemistry Building, and the appropriation was made.

LEGISLATIVE APPROPRIATIONS.

The Committee on Legislative Appropriations appointed at the meeting of October 25th (page 151) offered the following report, which was first considered by the Board in committee of the whole.

URBANA, ILLINOIS, December 9, 1902.

To the Board of Trustees.

Your special committee appointed at the last meeting of the Board to consider what appropriations should be asked for at the coming session of the legislature,

begs leave to report recommending the Board to ask for appropriations for purposes named, as follows:

Annual Appropriations—		Annual Appropriations—Concluded.

Respectfully submitted,

S. A. BULLARD,
 F. M. MCKAY,
 T. J. SMITH,
 CARRIE T. ALEXANDEB,
 A. F. NIGHTINGALE,
 A. S. DRAPER,

Committee.

It was moved that the item for equipment of the College of Engineering be made \$10,000.00, and that the item for a Physics Laboratory be stricken out.

This motion prevailed by the following vote: Yeas—Messrs. Bayliss, McLean, Bullard and Smith and Mrs. Alexander, Mrs. Carriell and Mrs. Abbott; nays— Messrs. McKay, Hatch and Nightingale.

The report was then adopted.

It was voted that the sum of \$300,000.00 be asked for in a separate bill for the enlargement of the College of Engineering.

President Draper was asked to prepare bills in accordance with the foregoing action.

It was voted that an advisory committee be appointed which, with President Draper, should have charge of University bills before the legislature.

The following were appointed on this committee: Messrs. Bullard, McKay, Smith and Hatch and Mrs. Alexander.

TREASURER'S REPORT.

The Secretary presented the Treasurer's report, which was referred to the Finance Committee.

Under the authority given by the action of the Board October 11, 1902, the \$4,000.00 received for scholarships in the College of Physicians and Surgeons has been invested in six per cent bonds of that corporation. The bonds are as follows: No. 99, \$500.00; No. 100, \$500.00; No. 105, \$500.00; No. 106, \$500.00; No. 36, \$100.00; No. 37, \$100.00; No. 38, \$100.00; No. 39, \$100.00; No. 40, \$100.00; No. 95, \$500.00; No. 201, \$1,000.00. They have been registered by the Secretary of the Board and deposited with Mr. E. G. Keith, Treasurer.

Respectfully submitted,

S. W. SHATTUCK,
Business Manager.

A. F. NIGHTINGALE,
President.

MEETING OF MARCH 10, 1903.

The Board of Trustees of the University of Illinois met in the Trustees' Room, Library Building, Urbana, Illinois, at 9:00 o'clock a. m., Tuesday, March 10, 1903.

Of the old members, there were present Messrs. Bullard, Hatch, McLean and Nightingale and Mrs. Abbott and Mrs. Alexander; absent, Governor Yates and Messrs. Dickirson and Bayliss. Mr. L. H. Kerrick, of Bloomington, and Mrs. Laura B. Evans, of Taylorville, new members, were present, they having first taken the oath of office. President Draper was present.

The minutes of the meeting of December 9, 1902, were approved as presented by the Secretary.

ELECTION OF OFFICERS.

The election of officers being then in order, Mr. F. L. Hatch was elected President; Mr. W. L. Pillsbury was elected Corresponding and Recording Secretary and also was appointed Registrar; Messrs. McLean and Nightingale were elected to constitute, with the President of the Board, the Executive Committee of the Board.

Mr. E. G. Keith was re-elected Treasurer, and his bond was fixed at \$600,000. The Executive Committee was instructed to see to the giving of the bond and to make an examination of his accounts as Treasurer and to report the bond and the result of the examination to the Board.

Dr. A. S. Draper was re-elected President of the University.

COMMUNICATIONS FROM PRESIDENT DRAPER.

Upon the recommendation of President Draper Mr. Joel Stebbins was appointed instructor in Astronomy and director of the Observatory for the twelve months beginning September 1, 1903, at a salary of \$100.00 a month, with a vacation of one month.

President Draper presented a communication from Mr. L. C. Miller with regard to the University Dining Hall, and at the same time recommended the discontinuance of the Dining Hall after July 1st. The recommendation was adopted, and Mr. Miller's letter was referred to the Committee on Student's Welfare.

The President asked authority to terminate at the end of any month, the employment of Mr. N. J. Morehouse, an employe in the Department of Animal Husbandry. The authority was given.

President Draper spoke of the report made by a special committee on the Engineering College, which had been referred to him (see page 31 of the minutes of the meeting of December 9, 1902) and said that he did not see that under present conditions any further consideration of the report was needed now. This statement was acquiesced in by the Board.

UNIVERSITY FEES.

With regard to the petition for the doing away of fees in the University, made by the editors of agricultural newspapers published in Illinois (see page 161 of the minutes of the meeting of December 9, 1902) the President made the following report:

To the Board of Trustees:

At the last meeting of the Board a petition requesting the Board to ask the legislature for appropriations which would enable the University to abolish all student fees, and signed by the editors of several agricultural papers in the state, was referred to me for report.

Not since the first year or two of my association with the University have I had any doubt of the wisdom of continuing student fees. My views have never been carried into public discussion, for I am distinctly opposed to the public agitation of internal questions of University policy. Two years ago I thought it wise to subordinate my opinion upon this matter for the time being to what I believed to be the inconsiderate action of the Board. But the Board has been well aware of my attitude upon the subject, and I have construed the reference of the petition to me as the expression of a disposition to have me express myself fully and formally in reference thereto.

In preparing to do this I have had in mind not only the standing and influence of the petitioners, but their great interest in the affairs of the University, and the large measure of kindness and helpfulness which they have given it. The regret at the necessity of opposing their views has only been equalled by the conviction that such opposition is vital to the future standing and effectiveness of the University. Accordingly I have gone over the whole subject anew and with care.

This examination leads me to set forth the following reasons why the request of the petitioners should not be acceded to:

I.

This is not, and ought not to be held to be, merely a Land Grant College of Agriculture and the Mechanic Arts. It is a State University as well. Under all the surrounding circumstances of the case it is not conceivable that Illinois intended to go no farther than grasp the avails of the National Land-Grant Acts. All her neighboring states had already founded state universities. If this was not very clearly expressed in the early legislation it has been made so by the later action of the legislature and the common feeling of the people. The association of ideas and practices commonly embodied in a state university with the theories and purposes of the Land-Grant Acts in one organization and one group of buildings is a matter of great importance and advantage to Illinois. The association has been of marked advantage to every interest involved. Each line of work has modulated and stimulated every other. The arrangement has bound together the higher educational interests of the state. It has resulted in a University where every child of the state may find instruction in any study and at the same time have the untold benefit of the indirect influence of all the other studies which are in progress. It is not the institution of a class. It is not a poor man's University more than a rich man's University. It is not an industrial University more than a culturing University; it is not a University for

doing, more than it is for searching and for thinking; it is for helping on the thinking and the doing; it is for improving the living and for quickening the thinking along lines that are rational and true; it is bound to be as cosmopolitan as our mixed population, and as comprehensive as all of their intellectual and material resources taken together; it is to uplift every intellectual and industrial and commercial and professional interest of the commonwealth through the application of scientific and philosophical principles and through the interaction of one interest upon another; it is the University of a whole people, a state's University.

II.

But the whole people cannot attend it. Only a small percentage is so favored. The University does not stand on the same footing as the common school. It is not within reach of every citizen's home, and is not available to all. Not all can spend the time to pursue its work. The expense of instructing each student is eight or ten times as much as the student has ever been charged in fees. The fees are but a small part of the general expense of the student, and are seldom burdensome. There is no injustice in requiring those who do attend to pay these small fees. They constitute but an insignificant special contribution to the support of a great enterprise by those who get the infinitely larger benefits thereof. The students do not complain. Two years ago when the Board asked the legislature to abolish the fees the students said, "Let the fees remain, but give us more libraries and equipment."

III.

There is abundant special provision through some hundreds of scholarships for young men and women of merit who find the fees in the least burdensome, and these scholarships are not all filled.

IV.

There is a distinct advantage to the tone and feeling and character of the student body through the payment of these incidental fees. One does not appreciate what he gets for nothing. The more he gets for little or nothing the more he claims. There is wide difference in the common thought between common school education and University training. One is expected to be free under the necessities of the state; the other is expected to cost some money and much labor and to be possible only through private or public munificence. One of the great difficulties in state university administration is the fact that the graduates do not feel sufficiently the necessity of giving to institutions which have educated them and are supported by the state. Yet state universities, like other universities, are dependent upon this giving. The appropriation bills of a state do not contain the items which round out the organization and enrich the life of a University. The vital strength of a University comes through the men and women who have given their life's best work or their money to it. Is this difficulty to be made greater or less through the abolition of fees?

V.

The State University is bound to let live as well as to live. We have many other colleges and universities in the state which are all a part of the State educational system. They all have to charge tuition fees which are several times larger than our incidental fees. It is a wise policy for us to aid and help them whenever we can. Their growth and their good will are matters of much concern to us. These small fees help keep things balanced between us, and an attempt at their abolition would be taken by private and weaker institutions as a move by the State to take students from them, and otherwise to push them to the wall. Is it necessary or wise to start it?

VI.

The University cannot dispense with these fees. They amount to nearly \$50,000 a year. While we are asking so much from the state we cannot hope to add this considerable sum to our appropriation bills without suffering at other points. The presentation of the matter to the legislature is likely to lead to a discussion which does not fully appreciate the whole matter and may prove hurtful. The very common sentiment of the state is with us; but sentiment is precarious, and frequently acts impulsively and on but partial information. We are bound to move with extreme care and deliberation. No one outside our council chambers can appreciate how much money we need, or how much we need more than we have. It is no time to think of abandoning any source of revenue, and particularly any revenue raised in a way which those familiar with the subject think is very advantageous to the institution.

VII.

The legal right to collect incidental fees is not open to question. They have been collected from the beginning in all land-grant institutions. The fathers of the movement established the practice and never expressed any doubt of the right. It was a necessary deduction from the congressional legislation. That legislation provided that the avails of the act should not be used for buildings; all the money from this source was to be used for research or instruction. The states were to provide buildings. There was no legal provision for the maintenance of buildings. It was the common understanding that incidental fees should be collected for the care of property and for materials consumed.

In this state the act of the legislature providing for the organization of this University expressly authorized the Board of Trustees to fix the fees to be paid by students.

VIII.

With hardly an exception the state universities and land-grant institutions collect incidental fees. No institution of this class is known to me which does not collect fees for one thing or another. Generally speaking these fees in other states average higher than with us. And it is noticeable that in the state universities which are the largest and strongest institutions, marked for their efficiency and the vigorous devotion of their graduates, such as Michigan, Wisconsin, Minnesota, Nebraska, and California, the fees are decisively the larger and the system is unquestioned.

IX.

I have asked the opinion of the presidents of many state universities upon this subject. All are to the same general effect and strongly support the views resulting from my own experience. I take the space to present the opinions of the Presidents of the Universities of Michigan, Wisconsin, Minnesota, and Nebraska.

President Angell says:

“I think we have never had occasion to consider the question of charging a fee for students, because from the beginning of this University there has always been a small fee. We have been obliged to increase that from time to time in order to replenish our treasury, until now it is materially higher than yours. I have never heard any public objection to charging a small fee. The question has been a good deal discussed whether we ought not to charge students from other states a much larger fee. We do in fact discriminate by charging students from other states higher fees than we charge those in Michigan. But I do not see any objection on principle to charging a moderate fee to every student, since the state even then furnishes his education at far less than what it costs. Is it not true also that the student appreciates somewhat more highly the education for which he has had to pay something?”

President Birge says:

"Replying to your circular letter of December 16th, I would say that the University of Wisconsin now exacts an incidental fee of \$10 per semester (\$20 annually) from each student in the College of Letters and Science, and \$15 (\$30 annually) in the College of Engineering. We have always believed here that a moderate fee of this kind was an excellent thing for the students, quite apart from the question of revenue. I believe that the total abolition of fees in a state university would work injury to the tone of the students. I think it would also be bad policy for the institution in its relations to the state. It is right to recognize the fact that those who make use of the privilege of the university are specially favored, and, while the fee should be placed so low as not to exclude any deserving students, it is right that those who enjoy so liberal a bounty from the state should contribute themselves the very small sum which the payment of these fees involves. The state ought to give absolutely free education, so far as it is practicable, to all children of such an age that they are unable to appreciate the value either of education or of money. When, however, this age is past, and the youth has reached an age at which, under other circumstances, he would be supporting himself, in whole or in part, no such reason exists for an absolutely free gift, and the moral and intellectual advantages are wholly on the side of a small charge."

President Northrop says:

"We have always had an 'incidental fee' of five dollars paid by each student on entering the academic department of the University. Two years ago it was increased to \$7.50 a semester, and at the last meeting of the Regents it was increased to \$20 a year.

Generally speaking, what costs nothing is not valued. To pay nothing for a college course tends to make shiftless, unpatriotic, selfish students, as it appears to me. They get so much for nothing that they want and expect the earth, for less than nothing."

Chancellor Andrews says:

"I am strongly in favor of the plan requiring certain reasonable fees of all students to cover incidental expenses connected with the teaching and to enlarge and enrich apparatus beyond what can be obtained by legislative grant. This leaves the money which comes from the government and the state free to be applied in teaching and for the apparatus indispensably connected therewith, which was no doubt the idea at the bottom of the state university movement. But the effect on the students is an equally important consideration. It is well even for the poorest student to feel that, while the state pays the expense involved in his education, he himself also contributes."

X.

All connected with the Instructional force of this University are, so far as I know, of the opinion that it would be unwise to discontinue the policy of collecting student fees. And there has been considerable discussion of the matter and some apprehension about it.

More than a year ago the Council of Administration unanimously expressed an opinion adverse to the proposition. In the early part of this year the University Senate unanimously adopted the following resolution:

"Resolved, That it is the judgment of the Senate that the abolition of the incidental fees now charged at the University would be detrimental to the University, and subversive of the self-reliance, self-respect and independence of students, and that for both reasons any agitation of the subject is to be deprecated."

XI.

The discussion or agitation of this subject is not helpful in University administration. It takes much time which may be better occupied. It starts into activity the most disagreeable traits in the student body. It is attended with much confusion and misunderstanding. The action of the Board two years ago led many students to neglect to pay their fees when they had received the money for the purpose. They believed or pretended to believe that the fees were to be abolished and that the brighter ones would anticipate that fact and keep their money. Of course these were not students who have the most difficulty in paying fees, but those who have most money, and are most disposed to overreach. All the same, the general effect was demoralizing among the students, made collections more difficult, and resulted in a very considerable moneyed loss to the University.

In view of all these facts I trust that the Board will say decisively that it is not prepared to take the step proposed by the petitioners, and will express the confidence that they are good enough friends of the University to let the matter drop.

Respectfully submitted,

A. S. DRAPER.

This paper was discussed at considerable length by the members of the Board. Mr. Nightingale opposed the conclusions reached by President Draper.

Upon the question of adopting the report, the vote stood as follows: Yeas—Messrs. Bullard, Kerrick, McLean and Mrs. Abbott, Mrs. Alexander, and Mrs. Evans; nays—Messrs. Hatch and Nightingale; absent, Governor Yates and Messrs. Bayliss and Dickirson.

PORTRAIT OF PROFESSOR EDWARD SNYDER.

President Draper presented the portrait of Professor Snyder, which had been painted by Professor Wells, and asked that the portrait be accepted, and that Professor Wells' bill of \$120.00 be paid. It was so ordered. (See p. 52, meeting of March 11, 1902.)

TELEPHONES.

President Draper stated that the telephone service at the University was entirely unsatisfactory, and asked that he be given authority to deal with this condition of things as should seem to him best, and the authority was given.

President Draper presented the following communication from the Council of Administration:

UNIVERSITY OF ILLINOIS, March 9, 1903.

President A. S. Draper:

Dear Sir: I send you herewith the action of the Council pertaining to several matters for presentation to the Board of Trustees in accordance with University regulations.

The Council of Administration makes the following recommendations:

1. Concerning entrance requirements in mathematics. The distribution of the nine credits now assigned to algebra, plane, solid and spherical geometry as follows: To algebra 5 credits, to plane geometry 3 credits, to solid and spherical geometry 1 credit. At present the distribution is algebra 4 credits, plane geometry 3, solid and spherical 2. It is the opinion of the Council that the distribution recommended is more in accordance with the actual state of affairs in the high schools and a truer estimate of the relative values of the subjects.

2. The Council further recommends that the action of the Board of Trustees, printed in the current catalog on page 56 as a foot note, whereby candidates for the colleges of Literature and Arts, Science, Agriculture, and Law, may offer in lieu of solid and spherical geometry three additional credits in history or foreign language be changed to read as follows: "Candidates for the Colleges of Literature and Arts, Science, Agriculture and Law, may offer in lieu of solid and spherical geometry an equivalent amount of work in any subject in the elective list which is accepted for one credit."

3. The Council further recommends that household science scholarships be open to women in any college or school of the University, as set forth in the following memorandum:

It seems that the main use of the scholarships in household science is to encourage students to take the household science courses, and that if a proportionate and sufficient number of students were taking these courses without the inducement of free scholarships, no such scholarships would be offered.

In view of the fact that this is a new department, and that its work may reasonably be expected to contribute largely to the welfare of the people of the state, that the kind of instruction which it offers is very little known, and that its purposes and values are but little understood, we are of the opinion that the offer of free scholarships to students registered in that department is helpful; especially as a convincing expression of the University view of the im-

portance of its work. On the other hand, it seems to be the general wish of the University that the offer of free scholarships shall not be unduly extended or made in any case where the object in view does not fully justify the sacrifice; and we therefore recommend that these scholarships be made available, on equal terms, to all women of the University, and that their continuance be conditioned upon their taking not less than eight hours' work each year in household science or in courses in science strictly precedent to them."

4. The Council further recommends the appointment of the following people to fellowships in the departments indicated: In Botany, Edna D. Day, of Painesville, Ohio; Entomology, G. I. Reeves; in History, O. M. Dickerson; Botany, Wm. Crocker; Economics, L. W. Zartman; Architecture, J. W. Wilson.

Respectfully submitted,

DAVID KINLEY,
Secretary of Council.

The first and second of these recommendations were adopted.

The Board refused to open the Household Science scholarships to women in other colleges than the College of Agriculture.

The recommendations of the Council with regard to the fellowships for the year 1903-1904 were adopted.

President Draper reported to the Trustees the names of certain persons approved by the University Senate and Council for honorary degrees to be conferred upon at commencement next June.

The Board then adjourned to 2:00 o'clock p. m.

AFTERNOON SESSION, MARCH 10, 1903.

When the Board met pursuant to adjournment the same members were present as at the morning session.

The following resolutions were adopted:

AUTHORITY TO ISSUE REQUISITIONS.

Resolved, That the President and Secretary be directed to draw upon the Auditor of Public Accounts such requisitions as the law requires in order that he may issue to the Treasurer of the University his warrants upon the said Treasurer for the sums of money appropriated by the Legislature to the University of Illinois or to any of its departments.

AUTHORITY TO RECEIVE MONEYS.

Resolved, That the Treasurer of the Board of Trustees of the University of Illinois is hereby authorized to receive and receipt for all moneys, and to endorse all orders, drafts, and checks due and payable to the said Board of Trustees, or to the said University of Illinois, and especially all drafts drawn by the Treasurer of the United States, payable to the said Board of Trustees, or to the said University of Illinois, on account of the Agricultural Experiment Station of the said University.

The Secretary presented reports from the Registrar of fees due from students of the University and the Preparatory School for the first semester of 1902-03, and they were referred to the Finance Committee.

BUSINESS MANAGER'S REPORT.

The Secretary presented the Business Manager's report, which was referred to the Committee on Finance.

SUIT AGAINST THE URBANA & CHAMPAIGN RAILWAY CO.

The following communication was presented by the Secretary with regard to the suit against the Urbana & Champaign Railway Company:

STATE OF ILLINOIS, }
 Champaign County. } In the Circuit Court, March Term, 1903.

University of Illinois }
 vs. }
 Urbana and Champaign Rail- }
 way, Gas & Electric Co. }

To the Board of Trustees:

I have the honor to report that we have completed the taking of the evidence in the above case.

It only remains to present the evidence and make argument of the case to the Court.

It is not likely that we shall be able to submit the case in time to get a decision of the Court at the present term. The Court will not decide the case before the September term. We think that the evidence makes a stronger case for the University than we had hoped for. We have strong grounds for believing that our view will be sustained by the Court.

THOMAS J. SMITH,
 J. L. RAY,
Sols. for University of Illinois.

The bill of Mr. J. W. Porter, Clerk of the Circuit Court, for copies of articles of incorporation, amount, \$2.50, was ordered paid.

The Board granted the request of the Champaign and Urbana Typographical Union that the union label be printed on such University publications as should be printed by union labor.

The report of the Finance Committee on vouchers was adopted.

UNIVERSITY OF ILLINOIS, December 13, 1902.

To the Board of Trustees:

Your Finance Committee begs leave to report that it has examined the vouchers submitted by the Business Manager for the three months ending September 30, 1902, on which warrants have been issued as follows:

- General University, Nos. 1 to 925 inclusive.
- Agricultural Experiment Station, Nos. 1 to 77 inclusive.
- School of Pharmacy, Nos. 1 to 25 inclusive.
- College of Medicine, Nos. 1 to 186 inclusive.

We have found the above vouchers in due form and properly received, except the following vouchers not presented at this time:

GENERAL UNIVERSITY.

660, Sept. 20, 1902, Urbana Feed & Coal Co., Grinding.....	\$3 10
907, Sept. 30, 1902, J. C. Drake, Expense.....	31 55

We recommend the same for your approval.

Respectfully submitted,

F. M. MCKAY,
 ALEXANDER MCLEAN,
Committee on Finance.

HARVEY MEDICAL COLLEGE.

The request of Dr. Frances Dickerson, that a committee of three be appointed to consider the absorption of Harvey Medical College was granted, and Messrs. Bullard, Nightingale, and McLean were appointed on the committee.

Mr. Kerrick reported a letter of thanks from Miss Lillie Heath for the considerate action of the Board in her case.

CONTRACT WITH THE CHAMPAIGN AND URBANA WATER COMPANY.

The Committee on Buildings and Grounds made the following report which was adopted:

AGREEMENT.

URBANA, ILL., March 10, 1903.

To the Board of Trustees:

Your Committee on Buildings and Grounds reports that following the instructions of the Board, it has made a contract with the Champaign and Urbana Water Company and submits the same as a part of this report.

This agreement made this first day of October, 1902, by and between the Champaign and Urbana Water Company, of Champaign, Ill., the party of the first part, and the University of Illinois, the party of the second part,

Witnesseth—1. That the first party will, in case of need during fire on the property of the second part, furnish water and pressure, as furnished to the Cities of Champaign and Urbana, for the purpose of extinguishing such fire in any or all buildings or other property of the said second party as may be needed for a period of ten years from the date of this instrument. It being the intention of this agreement that the private fire service of second party shall in all cases be used, the services of the party of the first part to be auxiliary to that of the party of the second part. The party of the second part or the cities' fire department to decide when such services are needed from the party of the first part. In addition the first party agrees to furnish the second party water for other purposes than for fire purposes, as hereinafter provided for.

2. The water for fire purposes will be supplied through the mains of the first party, located in Springfield avenue, Mathews avenue, and Wright street, in the Cities of Champaign and Urbana, Illinois, by means of connections now connecting the pipe system of the second party to that of the first party, to-wit: One 6 inch connection at the intersection of John and Wright streets, one 6 inch connection to the main on Mathews avenue near the Natural History building, and one 6 inch connection at the intersection of Wright street and Springfield avenue, being such connections as now exist, said connections to be controlled by means of gate valves now in place at said connections, and to be opened in case of fire for that purpose only.

The second party agrees to place a new 6 inch valve and a valve stand connecting the pipe system of the first party to that of the second party at the corner of Wright street and Springfield avenue, on or before the first day of July, 1903, to be certified to by A. N. Talbot when completed, under a forfeiture of one quarter's rent which will be deducted if the valve stand is not put in by that date, and the said second party agrees to keep all the connecting valves in proper working order.

3. The use of water by the said second party from any of the hydrants on the mains of the first party for fire purposes as set forth in this agreement, is expressly allowed, also from any additional hydrants put in by the said first party or by the direction of either of the Cities of Champaign or Urbana, and further, the second party may put in two additional hydrants at its own expense on the lines of the first party, now laid, the work to be done under the supervision of the said first party.

4. The said second party may use the water from all its fire hydrants as specified and may from time to time extend its water pipes and increase the number of its hydrants as it may find necessary to best protect their property without increase in the annual rate herein mentioned.

5. The authority to open the three connecting valves designated under article 2 of this agreement and turn water from the mains of the first party into the mains of the second party, shall be invested in the said first party, said second party, and the two fire departments of the Cities of Champaign and Urbana, for the purpose as set forth in this agreement.

6. The said second party agrees to pay One Hundred and Fifty Dollars per year to the first party, for the fire protection provided under this agreement in quarterly payments, in January, April, July and October of each year, for ten years.

7. The party of the second part agrees to set a meter on the two inch pipe connection now existing between the mains of the second party and the mains of the first party on Wright street, and all water used for any other purpose than for the extinguishing of fires to be taken through this meter, the second party agreeing to pay the first party for all water so used at the rate of fifteen cents per one thousand gallons, to be paid quarterly.

The deed was recorded in the office of the recorder of deeds of Cook County, Book 8,220, p. 28.

The Board of Directors of the College of Physicians and Surgeons on the 23d day of December, 1902, authorized the execution of another deed for this property to the University. A copy of this action follows:

“Resolution adopted by the Board of Directors of the College of Physicians and Surgeons, Chicago, December 23, 1902.

Whereas, The special committee of the Board of Trustees of the University of Illinois on transfer of the West Division High school property, reported that an error in the recommendation of said committee in its report made at the regular meeting September 9, 1902, should be corrected. The committee at that time reported all the papers necessary to the transfer, and recommended that the deed be recorded in the Recorder's office of Cook County and then sent to the Secretary of State, to be held in escrow by him—whereas, to conform to the method followed in the first transfer, the recommendations should have been, that the contract be recorded in the Recorder's office in Cook County and the deed sent to the office of the Secretary of State at Springfield, to be held in escrow by him until the contract had been fulfilled, and in order to correct the error they made in recording the deed instead of the contract, the Board of Trustees of the University of Illinois at the regular meeting held October 24, 1902, authorized and instructed the officers of their Board to have drawn and executed a quit-claim deed of the said West Division High School property, from the University of Illinois to the College of Physicians and Surgeons of Chicago, and to have it recorded in the Recorder's office of Cook County, and that in exchange for this deed they be instructed to accept another warranty deed for the same property from the College of Physicians and Surgeons to the University of Illinois, which deed their officers were instructed to have placed in escrow in the hands of the Secretary of State of the State of Illinois in accordance with the contract report at the meeting of their Board September 9th last, and further that they be instructed to have said contract recorded in the Recorder's office in Cook County, Illinois, therefore be it

Resolved, That the proper officers of the College of Physicians and Surgeons of Chicago are hereby duly authorized and empowered to accept from the University of Illinois said quit-claim deed and to give in exchange for it to the University of Illinois a warranty deed to the West Division High School property in accordance with the recommendations of the Trustees of the University of Illinois at their meeting October 24, 1902, and the proper officers of the College of Physicians and Surgeons are instructed to also receive from the University of Illinois the original deed recorded in Cook County, but in error in the recommendation of the special committee on transfer of the Board of Trustees.

D. A. K. STEELE, President.”

Under this authority the following deed was executed by the officers of the College of Physicians and Surgeons:

The Grantor, THE COLLEGE OF PHYSICIANS AND SURGEONS OF CHICAGO, a corporation organized under the laws of the State of Illinois, for and in consideration of the sum of one hundred and eighty-six thousand dollars (\$186,000.00), in hand paid, conveys and warrants to the UNIVERSITY OF ILLINOIS, a corporation organized under the laws of the State of Illinois, the following described real estate, lying and being in the City of Chicago, County of Cook, and State of Illinois, known and described as follows, to-wit:

Lots one (1) to seven (7), inclusive, in Block twenty-three (23), also Sub-Lots one (1) to seven (7), inclusive, of Lots nineteen (19) to twenty-five (25), in Block twenty-three (23), and the vacated alley running North and South through said Block twenty-three (23), in Ashland Second Addition to Chicago, in the West one-half of the Northeast quarter of Section eighteen (18), township thirty-nine (39) North, Range fourteen (14) East of the Third Principal Meridian, including the buildings thereon, together with the furniture, fixtures, and apparatus therein.

Dated this thirteenth day of January, A. D. 1903.

I, E. Evelyn Ballard, a Notary Public, in and for said County, in the State aforesaid, do hereby certify that D. A. K. Steele, President, and Wm. Allen Pusey, Secretary of the College of Physicians and Surgeons of Chicago, who are personally known to me to be the same persons whose names are subscribed to the foregoing instrument, and who are personally known to me to be such President and Secretary as aforesaid, appeared before me this day in person, and acknowledged that they signed, sealed and delivered the said instrument as their free and voluntary act and as the free and voluntary act of the said College of Physicians and Surgeons of Chicago, for the uses and purposes therein set forth, in accordance with a resolution duly passed by its Board of Directors at a legal meeting of such Board.

Given under my hand and Notarial Seal this 27th day of January, A. D. 1903.

E. EVELYN BALLARD,
Notary Public.

The officers of the College of Physicians and Surgeons and the officers of this Board united in sending this deed to James A. Rose, Secretary of State, at Springfield, to hold in escrow.

Their letter of transmissal follows:

To the Secretary of State of Illinois:

DEAR SIR: The College of Physicians and Surgeons of Chicago and the University of Illinois do hereby deliver to you a certain deed bearing even date herewith, wherein the said College of Physicians and Surgeons is grantor and the said University of Illinois is grantee, which deed is delivered to you in escrow, to be held and delivered at the time, and in the manner, for the purpose and upon the conditions stated and set forth in certain articles of agreement and lease between the parties hereto, bearing date February 9, 1900, and at the same time and under the same conditions as the deed between the said parties mentioned in said articles of agreement and lease and heretofore delivered to you under the said articles of agreement and lease.

Chicago, January 13, 1903.

Secretary of College of Physicians and Surgeons.

The University of Illinois by

[SEAL]

AUGUSTUS F. NIGHTINGALE,

President of Board of Trustees.

W. L. PILLSBURY,

Secretary of Board of Trustees.

In response the Secretary of State acknowledged the receipt of the letter and deed in the following letter:

February 16, 1903.

W. L. Pillsbury, Secretary, University of Illinois, Urbana, Illinois:

DEAR SIR: I acknowledge receipt on the 14th of your favor of the 12th enclosing deed from the College of Physicians and Surgeons to the University of Illinois, together with the accompanying letter to me stating said deed is delivered to me in escrow.

Yours very truly,

JAMES A. ROSE,
Secretary of State.

Our officers also had the contract between the University of Illinois and the College of Physicians and Surgeons reported to the Board by this committee September 9, 1902, recorded in the recorder's office in Cook county, thus making complete the contract and transfer of the West Division High School property.

Your committee would further report that it has examined and audited the expenditures of the College of Physicians and Surgeons in improving the new West Division High School property and in restoring and improving the original college building after the fire of June 25, 1901, and preparing it for use of the Dental School, and find the same to be the sum of \$108,415.69. From this sum is to be deducted the sum of \$34,049.34, which was received for insurance on the building and contents, and \$164.80 received from the sale of furniture, making a total deduction of \$35,114.14. This makes the net expenditures to be \$73,301.55. A part of this amount, \$5,000.00, was authorized on recommendation of your Committee on Medical College on November 9, 1900, and again \$47,000.00 on September 28, 1901. This leaves a balance unauthorized of \$21,301.55, which your committee now recommends that this Board authorize.

With the authorization of this amount the obligations under the contract with the College of Physicians and Surgeons stand as follows:

Amount of original contract.....	\$217,000 00	
Amount of West Division High School purchase.....	186,000 00	
Amount of Dentistry School purchase.....	17,000 00	
Amount of authorized improvements in New Medical College and Dental School buildings.....	73,301 55	
Total.....		\$493,301 55

The indebtedness of the College of Physicians and Surgeons reported in the original contract was \$70,700.00. This was increased by the purchase of the High School building \$186,000.00, and by the purchase of the Dental School \$17,000.00, which makes a total of \$273,700.00. The large improvements in the Medical School and the Dental School buildings have made necessary an increase in the indebtedness, said increase amounting to \$33,650.00, which is in the form of unsecured notes. Your committee recommends that an increase of \$33,650.00 in the unsecured indebtedness be authorized by this Board. This will make the total amount of indebtedness authorized \$307,350.00.

It is reported to this committee by the officers of the College of Physicians and Surgeons that the indebtedness of the said College on January 1st, 1903, was as shown below, and that since then to this date said indebtedness has not been increased:

First Mortgage on High School property.....	\$ 88,000 00	
Bonds on High School property.....	109,000 00	
Bonds on original property.....	21,000 00	
Bonds on original property.....	39,000 00	
Notes to bank.....	20,000 00	
Notes to individual members of College.....	32,350 00	
Total.....		\$307,350 00

All of which is respectfully submitted.

S. A. BULLARD,
CARRIE T. ALEXANDER,
ALEX. MCLEAN,

BILLS ORDERED PAID.

Sundry bills were ordered paid as follows:

Field, Shorb & Company, for wiring in the Chemical Laboratory, amount, \$89.00. The Beardsley, for entertainment of the visiting committee of the state legislature; amount, \$116.50. Ray & Dobbins, for services in the University vs. Kelly & O'Brien; amount, \$20.00. Mitendorf & Kiler, for chairs; amount, \$38.30.

An appropriation of \$158.60 was made for the payment of the bill of L. A. Weaver, Special Master in Chancery, for stenographic report of the evidence taken in the case against the Urbana and Campaign Street Railway Company; but the bill was referred to the Committee on Buildings and Grounds, and the Committee was requested to look into the matter of counsel for the University in the Street Railway case, and was given power to use its discretion in protecting the interests of the University.

An appropriation of \$500.00 was made to complete the wiring for the electric lighting in the Law Building, Chemical Laboratory, and Agricultural buildings.

President Hatch appointed standing committees as follows:

FINANCE.

The significant items are those for ordinary operating expenses, for the Library, for equipment, instruction, and experimentation in the agricultural work, for liberally extending the equipment of the College of Engineering and for the erection of a Woman's building.

These appropriations mean very much to the future of the University, and make it very desirable that we proceed with care and upon full knowledge. We have expanded so rapidly in recent years that it has been exceedingly difficult to keep within our means or to refrain from mortgaging the future. I am advised by the Business Manager that we have anticipated our income to an extent which now places us in debt to future revenues by as much as \$25,000. While this sum is not large in comparison with our total cost of operation, still it would be more healthful if we had so much surplus rather than so much deficit, and I think we should aim to have it so a year hence. Ordinary prudence requires that we proceed upon plans which will leave us a financial balance to protect us against emergencies, or to enable us to take advantage of special opportunities which occasionally present themselves.

The University salaries have to be considered at this time of the year. The industrial activity which is unprecedented in the country has created a special demand for the services of competent men in engineering lines of work, and there is an undoubted scarcity of men scientifically prepared for instruction and investigation in agricultural work upon the basis established here. We have a considerable number of relatively young men in our instructional work, in all departments, who have grown older and more valuable in our service. It must be borne in mind also that the cost of living has advanced in recent years. While these facts are all to be taken into account to the end that we deal justly by individuals and permit no interests of the University to suffer, we are bound, on the other hand, to act conservatively in the expenditure of public moneys. Our instructional salaries

have been materially advanced in recent years, and now average as high as at other state universities. In some grades of the service they are decidedly higher. One who is induced to leave university teaching by the one consideration of increased though perhaps temporary pay in commercial work is not ordinarily the kind of man upon whom university responsibility ought to rest. Accordingly, it is a great mistake, yes, a decided wrong, to the high interests committed to our care, to assume the necessity for a wholesale overhauling of salaries every year. It is a particularly unwise thing to do upon impulse or inadequate information. We might very easily divide the entire advance in our operating funds upon the large number of salaries we have to deal with. It would perhaps be easier to do that than not to do it. But it would not be sound administration. Still, I will welcome any thorough investigation of the subject by the Board of Trustees and any action to which such examination may lead.

EXPANSION.

We must prepare to meet at an early day some all-important questions touching the further expansion of the Agricultural and Engineering colleges. In the Agricultural College we may well be guided in general policies very largely by the committees constituted by the law and representative of the agricultural organizations of the State. In the Engineering College there must be very deliberate and very thorough consideration of the expenditure of the \$150,000 granted us for enlarging the engineering equipment so that it will be of most use to engineering education and go as far as it may to give our Engineering College the best practicable position in the engineering educational work of the country. I am not willing to see this money divided between the different departments of the College upon the basis of inter-department courtesy, or upon the basis of the supposed relative importance of the departments. It should be done through the most thorough examination of our relations to the mechanical and constructive industries and, as it seems, with a purpose to lead all engineering colleges in the United States in some lines if we can not in all.

And while we are rejoicing over and looking after the enlargement of the industrial colleges we are bound to leave no stone unturned to advance the other colleges and schools of the university. Our revenues will enable us to give them a substantial uplift at an early day, and all the impulses of our nature and all the interests of education in the State adjure us not to neglect the opportunity.

In other years we have felt the necessity of hasty action between the time of the adjournment of the legislature and this meeting of the Board of Trustees. This period has not been sufficient to consider thoroughly policies or find a sufficient number of men who would render the most thoroughly acceptable service to us for an indefinite time. And as the University has grown, as our rivalries have become sharper, as it has been more difficult to know what were the wisest policies, and as the initiative in finding new men has had to be referred in some measure to the heads of colleges and departments the difficulties of the situation have multiplied and intensified.

My advice is that we arrange our matters at this time so as not only to yield no ground, but to maintain a steady advance and take the best care we can of the constantly increasing number of students who come to us, but conservatively, and in hope of getting even with the world and gaining a stronger financial grip upon the future, and, that after the vacation, when we have had rest and ample time for reflection, we enter upon a systematic examination of all matters incident to University expansion, growth and efficiency.

RECREATION GROUNDS.

For reasons which are obvious the Agricultural College may, and for some reasons it must, move more rapidly towards its new work than other parts of the University organization. This justifies me in making a suggestion before it may be of no avail.

I refer to the location of new structures for that college. It seems well that such parts of the new agricultural construction as we would like to have seen by visitors shall be located on the south part of the University grounds, but considerations, obvious to my mind, require that if this is to be done they shall be placed south and somewhat back from the road running east and west in front of the house of the dean of the College of Agriculture, and wholly west and somewhat back from Burrill avenue.

There will yet be a very large addition to the University buildings, and it is now clear enough that this must be to the south of the present buildings. Our student body is more than likely to be again doubled, or trebled, in the next ten years. Buildings need room, and buildings in which people do their work are entitled to more eligible space than buildings in which animals live. Students need room without stint for recreation and play. The 'Varsity teams and the military department monopolize Illinois Field. Indeed the military regiment has begun to go to the south campus for room for its operations. By common consent everybody keeps off the lawns between the main buildings, but every one has been assured that the lawns south of the buildings shall be free for recreation and sport. Upon the commencement of operations for the Woman's building all the space north of the road in front of the Observatory will be closed to recreation and sport. We are to encourage and promote these. Not only the health, but the happiness of students and the general quiet and peace of the University are involved. Next year all the space on the University grounds south of the Observatory and east of Burrill avenue will be needed by the human interests of the University, and this need will be more and more pressing for an indefinite time. A proper regard for the future makes it imperative that we shall not permit any permanent structures for animals or more storage to be placed anywhere north of the road running east and west in front of the present barns. Even the "permanent plots" for agricultural experimentation will in time, and as soon as possible, have to be discontinued where they are and started on the south farm. It is the glory of this University that it is rich in land eligibly located for its uses. It is already distinguished for this among the universities of the country. It is a feature in which but very few if any of them can approach us. It is upon us to make the most of this, and press the advantage to the utmost. The College of Agriculture and the Agricultural Experiment Station have a great, beautiful farm of four hundred acres close at hand which has just come into their uses. The human interests of the University require that everything connected with the agricultural work shall go there save such parts as are imperatively needed in the every day instructional work, or such parts as we want to keep in shape to show every-day visitors.

Again the time is upon us for a thorough consideration of plans about the south campus. We are bound to stop the use of the University grounds as a pleasant route for funeral processions. Experience shows that this can not be done except by closing the road running south of the dean's house and the gate at the end of it. I think this should be done. The use of Burrill avenue south of the "Old Building" as a carriage way is no longer necessary, and I have come to the conclusion that the University interests would be promoted by changing it from a roadway into a walk. This would tend to make all the grounds south of the buildings more exclusive and useful to the University people, and it would help on all kinds of sports and pastimes while it promoted the healthful enthusiasm of student life.

On this general subject I make the following recommendations:

1. That the south gate of the University grounds and the road leading to it from the house of the dean of the College of Agriculture be closed to the public.
2. That Burrill avenue from University Hall to the dean's house be discontinued as a carriage way, and converted into a walk.
3. That the road running east and west in front of the dean's house be made permanent, and extended to the limits of the grounds.

4. That Wright street and Matthews avenue be extended until they intersect that road.

5. That the new agricultural structures be located south of said road and well back therefrom.

6. That the Agricultural Experiment Station start plats for their uses on the south farm, and withdraw from the plats near the Observatory as rapidly as practicable.

These questions relating to grounds were referred to the Committee on Buildings and Grounds and the Committee on Agriculture jointly.

Authority was given to confer these degrees, as recommended.

FACULTY APPOINTMENTS.

I recommend that Faculty appointments be made as follows:

Deans.

1. That Thomas Jonathan Burrill be re-elected Vice-President and Dean of the Graduate School.
2. That Thomas Arkle Clark be re-elected Dean of Undergraduates and Assistant to the President.
3. That Deans of the Colleges be re-elected as follows: Literature and Arts, David Kinley; Engineering, Nathan Clifford Ricker; Science, Stephen Alfred Forbes; Agriculture, Eugene Davenport.
4. That Judge Oliver Albert Harker be elected Dean of the College of Law and Professor of Law in place of James Brown Scott, who resigns to go to Columbia University Law School.

5. That Violet Delille Jayne be re-elected Special Dean of the University Women.

6. That the salaries of the Deans be the same as last year except as follows:

(a) that the salary of Dean Clark be \$2,750 per year.

(b) that Dean Davenport be paid \$500 from the State Station Fund in addition to his present salary, and

(c) that Dean Harker be paid \$2,000 per annum, with the understanding that for the present his presence at the University will not be exacted for more than three days in the week, but beyond that will be left to his discretion, and that pursuant to his desire the sum of \$1,000, being the balance of the normal salary of \$3,000, be appropriated to be expended by him for special additions to the Law Library.

Professors.

1. That the salary of William Lincoln Drew, Professor of Law, be \$2,500, and that he be made Secretary of the College of Law.

2. That the salary of Arthur Newell Talbot, Professor of Municipal and Sanitary Engineering and Theoretical and Applied Mechanics, be \$2,500.

3. That the salary of Everts Boutell Greene, Professor of History, be \$2,100.

4. That the salary of Arthur Hill Daniels, Professor of Philosophy, be \$1,700.

5. That the salary of Frederick Locke Lawrence, Director of the School of Music, be \$2,000.

6. That the salary of George A. Huff, Director of Physical Training, be \$2,000.

7. That the salary of Edgar J. Townsend, Associate Professor of Mathematics, be \$2,000.

8. That the salary of Seth Justin Temple, Assistant Professor of Architecture, be \$1,800.

9. That the salary of George Henry Meyer, Assistant Professor of the German Language and Literature, be \$1,600.

10. That the salary of George Alfred Goodenough, Assistant Professor of Mechanical Engineering, be \$2,000.

11. That the salary of Edward Fulton, Assistant Professor of Rhetoric, be \$1,600.

12. That Henry Lawrence Schoolcraft, Instructor in History, be appointed Assistant Professor of History, and that his salary be \$1,100.

13. That the salary of Neil Conwell Brooks, Assistant Professor of German, be \$1,100.

14. That Edward John Lake, Instructor in Art and Design, be appointed Assistant Professor in Art and Design, and that his salary be \$1,400.

15. That Nathan Austin Weston, Instructor in Economics, be appointed Assistant Professor of Economics, and that his salary be \$1,200, to be charged to the appropriation for the work in commerce.

16. That the salary of William Henry Williams, Assistant Professor of Electrical Engineering, be \$1,700.

17. That William Cullen Dennis, Instructor in Law, be appointed Assistant Professor of Law, and that his salary be \$1,400.

18. That Benjamin Witmer Breneman, Instructor in Voice Culture, be appointed Assistant Professor in Voice Culture, and that his salary be \$1,200.

19. That the salary of Harry Sands Grindley, Associate Professor of Chemistry, be \$2,100; that he give half of his time to nutrition experimentation in connection with the Agricultural Experiment Station; that an additional teacher be provided for instructional work in association with Professor Grindley, and that \$2,000 be appropriated from the State Experiment Station Funds to meet this and other expenses of the plan.

20. That the salary of Charles Frederick Hottes, Assistant Professor of Botany, be \$1,000, and that he also receive \$500 from the Experiment Station for assistance there as heretofore.

New Appointments.

1. That Oscar Adolph Leutwiler be appointed Assistant Professor of Machine Design at \$1,500 a year.

2. That Dwight T. Randall be appointed Assistant Professor of Steam Engineering at \$1,600 a year.

Instructors.

That Instructors be appointed for ten months to commence September 1, 1903, and end July 1, 1904, at monthly compensation as follows:

1. James Franklin Kable, in charge of General Engineering Drawing, \$120.
2. Jeanette Emeline Carpenter, Physical Training for Women, \$100.
3. Edward Lawrence Milne, Mathematics, \$100.
4. Henry Livingston Coar, Mathematics, \$110.
5. Ernest William Ponzer, Mathematics, \$95.
6. William Charles Brenke, Mathematics, \$110.
7. Martha Jackson Kyle, Rhetoric, \$85.
8. Charles Ralph Rounds, Rhetoric and Public Speaking, \$85.
9. Harry Bert Fox, Geology, \$80.
10. Kenneth Percival Rutherford Neville, Latin and Greek, \$85.
11. Justus Watson Folsom, Entomology, \$120.
12. Harry G. Paul, English, \$85.
13. Daisy Luana Blaisdell, German, \$85.
14. Florence Nightingale Jones, French, \$80.
15. John Langley Sammis, Chemistry, \$90.
16. Clarence Walworth Alvord, History, \$110.
17. Floyd Rowe Watson, Physics, \$110.
18. Eunice Dean Daniels, Music, \$90.
19. Almeda Frances Mann, Music, \$80.
20. May Emory Breneman, Music, \$80.
21. George Foss Schwartz, Music, \$90.
22. Azariah Thomas Lincoln, Chemistry, \$100.
23. Robert Clayton Matthews, General Engineering Drawing, \$80.
24. Isabel Jones, Art and Design, \$60.
25. Mrs. Constance Barlow Smith, Music, \$100.
26. Charles Wesley Malcolm, Civil Engineering, \$110.
27. Roy Irvin Webber, Civil Engineering, \$105.
28. Lawrence Gilbert Parker, Civil Engineering, \$100.
29. Leslie Abram Waterbury, Civil Engineering, \$100.
30. Banus Hutson Prater, Civil Engineering, \$75.
31. Maurice G. Fulton, Rhetoric, \$80.
32. Helen Mary Taylor, Rhetoric, \$70.
33. William Frederick Schulz, Physics, \$70.
34. Amos William Peters, Zoology, \$100.
35. James Henri Walton, Chemistry, \$100.
36. William Maurice Dehn, Chemistry, \$80.
37. John McBeath Snodgrass, Railway Engineering, \$100.
38. John James Harman, Mechanical Engineering, \$85.
39. Robert Hayden Kuss, Mechanical Engineering, \$85.
40. Fred Gates Fox, Rhetoric, \$75.
41. Marion Ballantyne White, Mathematics, \$80.
42. Roy Harley Slocum, Theoretical and Applied Mathematics, \$100.
43. Harry Curtiss Marble, Electrical Engineering, \$70.
44. Neil McMillan, Jr., Military Science, \$10.
45. Frank Hamilton Kneeland, Military Science, \$10.
46. Augustus Joseph Reef, military Science, \$10.
47. Henry Allen Gleason, Botany (part time), \$20.

There are several instructors yet to be appointed, and provision must be made for exigencies created by increased attendance. I therefore request that you authorize me to make such appointments as may be necessary.

Library and Library School.

That the following appointments be made in the Library and the Library School:

For the Year of Twelve Months.

1. Frances Simpson as Assistant Professor of Library Economy, at \$1,200.
2. Agnes Mary Cole, Assistant Cataloger, at \$900.
3. Harriet Emma Howe, Assistant Cataloger, at \$720.
4. Katherine O'Donovan Manley, Order Assistant, at \$900.
5. Fanny Rebecca Jackson, Periodical and Binding Assistant and Instructor in Public Documents, at \$840.
6. Emma Reed Jutton, Loan Desk Assistant, at \$720.
7. Ralph Cullom Woodmansee, Loan Desk Assistant, at \$720.

For Ten Months from September 1, 1903.

8. Bertha Thatcher Randall, Instructor, at \$70 a month.
9. Grace Osgood Kelley, Assistant Cataloger, at \$60 a month.
10. Marie L. Waldo, Assistant in Reference and Typewriting, at \$50 a month.
11. John Halbert Galeener, Custodian of Law Library, at \$15 a month.
12. Arthur Chapman Benson, Custodian of the Law Library, at \$15 a month.
13. Charles Crecy Royall, Clerk to Head Librarian (half time), at \$30 a month.
14. Frank Melvin Bumstead, Shelf Assistant (half time), at \$20 a month.

I also recommend that authority be given the President to employ an Assistant Librarian and a Reference Librarian, at salaries not exceeding \$1,500 for one and \$1,200 for the other position.

Professors, Instructors, and Salaries in Agriculture.

1. That Cyril George Hopkins be appointed to a position to be known as Vice Director of the Agricultural Experiment Station, and that he be paid five hundred (\$500) dollars from the State Station Fund beyond his salary as Professor of Agronomy, which is fixed at \$2,500. This will make his entire salary \$3,000.
2. That the salary of Herbert Windsor Mumford, Professor of Animal Husbandry, be \$2,500, and it be paid as follows: From College Fund, \$1,100, from State Station Fund, \$1,100, and from United States Station Fund, \$300.
3. That the salary of Joseph Cullen Blair, Professor of Horticulture, be \$2,500, and that it be charged as follows: to College Fund, \$1,100, to State Station Fund, \$1,100, and to United States Station Fund, \$300.
4. That the Salary of Wilber John Frazer, Assistant Professor of Dairy Husbandry, be \$1,800, and that one-third be charged to College Funds, and two-thirds to Station Funds.
5. That the salary of Isabel Bevier, Professor of Household Science, be \$1,800, and paid from the College Fund.
6. That the salary of Mary Esther Beatty, Instructor in Household Science, be \$900, and paid from the College Fund.
7. That Louie Henrie Smith be advanced to Chief Assistant in Chemistry and Plant Breeding in the Station, and that his salary be \$1,500, to be charged one-third to the State Station Fund and two-thirds to the United States Station Fund.

8. That James Harvey Pettit be appointed Assistant in Soil Fertility on the College Side at \$300, and Assistant in Soil Analysis on the Station side at \$900 from the State Station Fund.

9. That the salary of Edward Murray East, Assistant in Chemistry, be \$1,000, and paid from the State Station Fund.

10. That the salary of William Franklin Pate, Assistant in Chemistry, be \$840, and paid from the State Station Fund.

11. That the salary of Jeremiah George Mosier as Instructor in Soil Physics in the College be \$600, and as Chief Assistant in Soil Physics in the Station be \$800.

12. That the salary of Fred Randall Crane, Instructor in Farm Mechanics, be \$1,200 from September 1st, and paid from the College Funds, and paid in ten installments.

13. That Dwight Stout Dalbey be appointed Instructor in Farm Crops for ten months from September 1st, at \$75 per month.

14. That Arthur James Glover be appointed Superintendent of Dairy Field Work, Elgin District, at \$2,000 per year.

15. That John William Lloyd be appointed Assistant Professor of Olericulture in the College at \$1,200, and Chief Assistant in Horticulture in the Station at \$400.

16. That Charles Spencer Crandall be appointed Assistant Professor in Pomology and Chief Assistant in Pomology in the Station, and that his salary be \$1,500, of which \$600 shall be paid from the College Funds and \$900 from Station Funds.

17. That Alvin Casey Beal be appointed Instructor in Floriculture at \$85 per month for twelve months, and paid from College Funds.

18. That the salary of Fred Henry Rankin, Superintendent of Agricultural College Extension, be \$1,800, and paid from College Funds.

19. That the salary of Catherine McCallum McIntyre be \$1,200, and that \$200 be paid from the State Station Fund, and \$1000 from the United States Station Fund.

20. That the salary of Grace Johnson Maxwell, Stenographer, be \$55 per month.

New Appointments.

1. That Ira Obed Schaub be appointed Assistant in Chemistry in the Experiment Station at \$70 a month for twelve months, and paid from Station Funds.

2. That Clifford Willis be appointed Assistant in Soil Physics in the College and Station at \$1,000, and that \$300 be paid from College Funds, and \$700 from Station Funds.

3. That Curt August Schroeder be appointed Assistant in Chemistry in the Experiment Station at \$70 a month for twelve months.

I recommend that the recommendations of Dean Davenport touching additional employes be approved as follows, and that the President be authorized to make engagements so far as suitable men can be found:

Agronomy—

1. An Assistant in Soil Physics, both in the College and Station, salary \$1,000, divided equally between College and Station.

2. An Assistant in Farm Crops, because of Mr. Shamel's continued absence, salary \$60 a month for ten months.

3. Two Assistants in Chemistry in connection with the soil and corn investigation work, salary \$720 to \$840.

Animal Husbandry—

Heretofore the head, with two assistants, has undertaken to meet the demands upon this department; it has proved impossible during the present year, and in view of the larger funds and still further increased work I suggest a reorganization as follows:

1. An Assistant Professor, providing a suitable candidate can be found; if not, then one of lower rank, to assume the bulk of the teaching in the subject of beef, and to be clearly the second man in the department, salary \$1,200 to \$1,500, depending upon the man.

2. An Assistant in the Experiment Station to give constant attention to the details of experiments and to assist in compiling results, salary \$1,000.

3. An Assistant or Instructor in the subject of horses, to serve both College and Station, salary approximately \$1,000 to \$1,200, divided equally between College and Station.

4. An Assistant or Instructor in the subject of sheep, to serve both College and Station, salary \$1,000 to \$1,200, divided equally between College and Station.

5. An Assistant or Instructor in the subject of swine, to serve both College and Station, salary \$1,000 to \$1,200, divided equally between College and Station.

It should be understood that the last three should keep their own records and look after the details of their experiments.

Dairy Department—

1. An Instructor or Assistant Professor in Dairy Manufactures, salary \$1,200 to \$1,500, according to the man, and divided between College and Station, the larger portion coming from the former. It would be understood that this man should conduct investigations in his line in connection with his teaching, and also spend approximately two months of the summer in the field among the creameries of the southern portions of the state.

2. An Assistant in both College and Station to take the general subject of dairy cattle, to do the teaching in this subject and to spend the remainder of the year in the field work among dairy farmers in the southern portion of the state, especially in the St. Louis district.

3. An Assistant in College and Station, mainly in the latter, to take the general subject of milk, to render some service in teaching, but to give most of his time to experiments and in helping to investigate the subject and improve the conditions of the milk supply of cities.

4. An Assistant to Mr. Glover to operate with him in the field work of the Elgin district, but to give his attention especially to the creamery interests; to be employed entirely by the Station at a salary of approximately \$1,000.

Botany—

It has seemed best not to fill Mr. Ward's place at present, but instead to strengthen the investigation work in vegetable physiology, and authority is asked to engage an Assistant in this subject at a salary of from \$720 to \$1,000, as may be found practicable.

ADDITION TO EXPERIMENTAL GREENHOUSE.

During the year it will be necessary to increase the area of glass in order to accommodate the pot culture work under the increased funds for soil investigation, and to provide facilities for experiments in vegetable physiology. The first would be done from the soil fund, the latter from the U. S. Station Funds.

Resignations.

1. I recommended that the resignations of Dean Scott, of the College of Law, and of the following Professors or Assistant Professors, viz., George Day Fairfield, Allison Marion Fernie, Fred Anson Sager, Milo Smith Ketchum, Isadore Gilbert Mudge, Robert Louis Short, and Edward Charles Schmidt be accepted; and that Assistant Professor David Hobart Carnahan be granted leave of absence for two years, and Assistant Professor Stephen Sheldon Colvin for one year without pay; and that where provision has not already been made for the vacancies the President be authorized to make the same on the best practicable terms.

High School Visitor.

That Horace Adelbert Hollister be reappointed High School Visitor with the rank of Assistant Professor, at \$1,800 per year.

Laboratory Assistants.

That laboratory assistants be appointed for ten months from September 1, 1903, at monthly salaries as follows:

1. Edward Otto Heuse, Chemistry, \$50.
2. Samuel C. Clark, Chemistry, \$50.
3. Elrick Williams, Chemistry, \$50.
4. Edna DuBois Hoff, Chemistry (half time), \$30.
5. Emery Roe Hayhurst, Physiology, \$50.
6. William Salisbury Ballard, Zoology (half time), \$30.

I also recommend that you authorize the engagement by the Professor of Chemistry of one more assistant on half time in the Chemical Laboratory, at \$30 per month.

Gymnasium.

That George A. Huff be reappointed Director of the Gymnasium at \$2,000 per year.

Director Huff does not desire the reappointment of the Assistant Director or the Assistant in Gymnasium Practice, and I ask authority to fill these places.

Preparatory School.

That appointments in the Preparatory School be made as follows, all except the Principal for ten months from September 1, 1903:

1. Frank Hamsher, Principal, \$2,000.
2. Bertha Marion Pillsbury, English, \$85 per month.
3. John Ezra Miller, Latin and Greek, \$85 per month.
4. Ernest Barnes Lytle, Mathematics and Physics, \$80 per month.
5. Margaret Annie Scott, German and French, \$85 per month.
6. Walter Charles Lindley, Rhetoric, \$80 per month.
7. John Thomas Johnson, Science, \$85 per month.
8. Joseph Hinkley Gordon, History and Mathematics, (half time), \$37.50 per month.

Mr. Davidson does not desire reappointment in mathematics, and I ask authority to fill the place.

Instructors in Shop Practice.

1. That Albert Root Curtiss be reappointed Instructor in the Wood Shop at \$100 a month for twelve months.
2. Henry Jones, Smith Shop, at \$65 a month for ten months.
3. James Henderson Wilson, Foundry, at \$65 a month for ten months.
4. David Leonard Scroggin, Machine Shop, at \$90 per month for ten months.

Fellowships.

1. Edna D. Day, Fellow in Botany.
2. Oliver Morton Dickerson, Fellow in History.
3. Joseph Wade Wilson, Fellow in Architecture.
4. Lester William Zartman, Fellow in Economics.

Student Assistants.

I recommend that the sum of \$1,000 be appropriated for service of students employed by the President from time to time as may be necessary.

Secretary to the President.

I recommend that Harlan Hoyt Horner be reappointed Secretary to the President at a salary of \$1,400 per year of twelve months.

Clerical Assistants.

1. Levi Augustus Boice, Clerk in the office of the Registrar, at \$900 for twelve months.
2. Oren Elmer Staples, Clerk in the office of the Business Manager, at \$840 for twelve months.
3. Sue Wilson Ford, Clerk in the office of the Dean of the College of Engineering, at \$780 for twelve months.
4. Jennie Morse Laffin, Clerk in the office of the Dean of the College of Literature and Arts, at \$720 for twelve months.
5. Olive Faith Saxton, Stenographer in the President's office, at \$720 for twelve months.
6. Eva Viola Saxton, Second Stenographer in the President's office, at \$480 for twelve months.
7. Lulu Mackintosh Lego, Clerk in the office of the Vice President and Dean of the Graduate School, at \$540 for twelve months.

Messengers.

That Albert R. Lee be reappointed Messenger in the President's office at \$35 a month for twelve months, and that Messengers may be employed from September 1st to July 1st at the rate of \$3.00 per week in the following offices, viz., that of the Vice President and Dean of the Graduate School, that of the Dean of the College of Literature and Arts, and that of the Dean of the Woman's Department jointly, that of the Dean of the College of Engineering, those of the Professors of Chemistry, jointly, and that of the Dean of the College of Agriculture.

Mechanic and Storekeeper.

That Frank Gardner Wilson be appointed Mechanic in the Department of Electrical Engineering at \$70 a month for ten months.

That M. T. Lindsey be reappointed Storekeeper in the Department of Chemistry, at \$40 a month, for ten months.

Watchmen.

I recommend that the Watchmen be continued upon the same terms and arrangements as at present.

Superintendent of Buildings and Grounds.

1. I recommend the reappointment of Mr. Joseph A. Morrow as Superintendent of Buildings at \$1,600 a year.

2. I recommend the reappointment of Mr. Fred Atkinson as Superintendent of Grounds, on one-half time, at \$600 a year, from July 1st, and that Mr. Evelyn Atkinson be reappointed Assistant Superintendent at \$720 a year.

Lectures.

I recommend the appropriation of \$1,000 to be used in the discretion of the President to meet the expense of any occasional lectures at the University.

Incidental Expenses.

I recommend that appropriations for incidental expenses in departments, etc., be made as follows, to be expended on approval of the President and Business Manager:

Administrative offices	\$200 00	The <i>Illio</i>	\$100 00
College of Literature and Art	200 00	The High School Visitor.....	500 00
Art and design	200 00	Zoölogy	200 00
Botany	200 00	Physiology	200 00
Education	200 00	Geology	100 00
Physical training.....	200 00	Library	200 00
School of Music.....	200 00	College of Law	200 00
Preparatory School.....	300 00	College of Engineering.....	300 00
Oratorical contests.....	200 00	Photography and blue printing	300 00
The <i>Illini</i>	200 00		

Summer Term.

I recommend that the salaries for the summer term be as heretofore, as follows:

Director.....	\$500 00	Instructors.....	\$150 00
Full professors.....	300 00	Assistants	100 00
Associate and assistant professors.	225 00		

Upon the foregoing recommendations the Committee on Instruction made the following report, which was adopted:

URBANA, ILLINOIS, June 8, 1903.

To the Board of Trustees:

Your Committee on Instruction begs leave to report that it has gone through carefully and critically President Draper's recommendations regarding appointments and reappointments of the faculty, including salaries, and with the exception of a single matter regarding the Department of Dairy Husbandry, on which its judgment is suspended for the time being, recommends that the President's report be approved and adopted.

Respectfully submitted,

A. F. NIGHTINGALE,

ALEXANDER MCLEAN,

FRED L. HATCH,

Committee on Instruction.

The Committee made a further report as follows, and the report was adopted:

URBANA, ILLINOIS, June 8, 1903.

To the Board of Trustees:

Your Committee on Instruction further recommends, with the approval of the President, that the salary of the Secretary, Mr. W. L. Pillsbury, be increased from \$2,350 to \$2,500 a year from June 1, 1903.

Respectfully submitted,

A. F. NIGHTINGALE,

ALEXANDER MCLEAN,

FRED L. HATCH,

Committee on Instruction.

Mr. Nightingale offered the following resolutions, which were adopted:

Whereas, Dr. James Brown Scott, Dean of the College of Law, has resigned to accept a professorship in the Law Department of Columbia University, therefore,

Resolved, That we hereby express our regrets and our congratulations; regrets that the University of Illinois is to lose his valuable services as a scholar, student, teacher, and investigator, and congratulations that he will be able to satisfy his ambition along lines of research and to extend his career of usefulness as an earnest and successful teacher in one of our greatest universities, and in the metropolis of the Nation.

Resolved, That we appreciate his services and his conscientious efforts in behalf of our College of Law, and extend to him, as he enters upon his duties at Columbia, our best wishes for his eminent success.

Resolved, That the Secretary be requested to furnish an engrossed copy of this testimonial to Dr. Scott.

Mr. Nightingale also offered the following, which were adopted:

Whereas, The Trustees of the University of Illinois have learned with keen regret and deep sorrow of the death of Doctor Selim Hobart Peabody, formerly President of the University of Illinois, therefore,

Resolved, That the Board of Trustees, representing the people of our sovereign State in promoting the interests of higher education, desires to bear testimony to the profound scholarship and christian character, the earnest and painstaking endeavor, and the unreserved, consecrated service of Doctor Peabody, in furthering not only the interests of the State University, but in advancing the cause of the common school, the high school, and general university learning.

Resolved, That his contributions to science, his indefatigable efforts in behalf of the success of our national and international expositions, his services to education as an author, lecturer, and administrator entitle him to the gratitude of individuals, the State, and the Nation.

Resolved, That this expression of sorrow, respect and gratitude be spread upon the minutes of the Board, and that an engrossed copy be furnished the bereaved family.

The Board then took a recess until 2:30 o'clock p. m.

AFTERNOON SESSION, JUNE 8, 1903.

When the Board met after the recess the same members were present as in the morning.

Mr. Frank H. Hall was heard upon the subjects named in the communication below.

COMMUNICATION FROM THE STATE FARMERS' INSTITUTE.

To the Board of Trustees of the University of Illinois:

GENTLEMEN: The Illinois State Farmers' Institute, through its Executive Committee, desires most respectfully to request and urge:

1st. That the age limit for the admission of young men as special students in the College of Agriculture be, as formerly, sixteen years instead of eighteen years.

2d. That the sum of \$3,000 per annum for the years 1903 and 1904, of the \$50,000 per annum appropriated by the 43d General Assembly for the purpose of giving "thorough and reliable instruction in the economic production of field and orchard crops" (House Bill 354), be set apart for the establishment and support of a Correspondence School as a department of the College of Agriculture.

3d. That, since the sum of \$6,000 per annum for the years 1903 and 1904 was appropriated by the 43d General Assembly (Senate Bill 131) "for providing additional teachers in the College of Agriculture and also to enable the College to meet the demand for instructors at the Farmers' Institute," a portion of the time of such number of instructors in the College of Agriculture as will be sufficient to meet more fully the requests for assistance in the county and district institutes, be set apart for this purpose.

Respectfully submitted,

FRANK H. HALL,

*Superintendent of Institutes,
Acting for, and upon the order of, the Executive
Committee of the State Farmers' Institute.*

The Board then resumed consideration of President Draper's recommendations.

Library Funds.

I recommend that the Library funds appropriated by the Legislature be apportioned and expended under direction of a committee consisting of the President, Business Manager, and Head Librarian.

It was so ordered.

Repairs, Etc.

I recommend that the appropriations for specific purposes by the legislature be appropriated for those purposes and expended under the general supervision of the Committee on Buildings and Grounds.

I have already had Professor White initiate steps for laying the new floor in the Armory, and in co-operation with Professors Palmer and Parr for equipping the Chemical Laboratory.

An extension of the bay window on the west side of the President's House and some other slight changes and repairs to the house are desirable, and I recommend that \$1,500 be appropriated for this purpose, and that the work proceed under the direction of the Committee on Buildings and Grounds, and the immediate supervision of Professor White.

It was so ordered.

Scientific Apparatus, Etc.

I recommend that the following sums be appropriated for furniture, apparatus, and equipment in scientific departments:

Botany, for equipment and materials. \$1,845	Zoölogy, for furniture and equipment. \$1,100
Geology, for furniture and equipment. 1,100	
Physiology, for furniture and equipment. 1,250	Total \$5,295

I recommend that of this sum \$3,000 be charged to the special appropriation for apparatus and appliances, and the balance to the general fund, or such other special fund as the Business Manager may think best.

It was so ordered.

TELEPHONE SYSTEM AND REPAIRS.

I recommend that Professor Morgan Brooks and the Superintendent of Buildings be authorized to proceed with the installation of a University telephone system as contemplated by the Legislative appropriation for that purpose.

It was so ordered.

I submit the following recommendations as to needed repairs by the Superintendent of Buildings. These have been prepared under my general directions after consultations with Professors White and Breckenridge, by whom they are respectively approved. I recommend that they be referred to the Committee on Buildings and Grounds with power to have them carried out, and that the funds be appropriated for carrying out the suggestions.

Repairs—		New Apparatus for Boiler Room—	
On account of repairs for boilers and stokers.....	\$150 00	Small tools.....	\$100 00
On account of repairs for coal and ash machinery.....	250 00	New boiler feed pump.....	250 00
General repairs to heating system in the various buildings.	275 00	New water meter.....	150 00

Law Building—			
Painting outside	75 00		
Vaccine Laboratory—			
Painting and general repairs ..	60 00		

The foregoing recommendations regarding telephone system and repairs were adopted.

It was also voted on motion of Mr. McKinley that the Committee on Buildings and Grounds be given authority to put a passenger elevator in the President's House.

SCIENTIFIC APPARATUS, ETC.

I recommend that the following sums be appropriated for furniture, apparatus, and equipment in scientific departments:

Botany, for equipment and materials.....	\$1,845 00	Zoölogy, for furniture and equipment.....	\$1,100 00
Geology, for furniture and equipment.....	1,100 00	Physiology, for furniture and equipment.....	1,250 00
Physiology, for furniture and equipment.....	1,250 00	Total	\$5,295 00

I recommend that of this sum \$3,000 be charged to the special appropriation for apparatus and appliances, and the balance to the general fund, or such other special fund as the Business Manager may think best.

It was so ordered.

AGRICULTURAL ESTIMATES.

The estimates and appropriations asked for by the College of Agriculture and the Agricultural Experiment Station, as modified and approved by the Business Manager, are as follows: I recommend their adoption.

It was so ordered.

Estimates.

The appropriations asked are based on the following estimates of expenses, including salaries, in the various departments of the College and Station for the ensuing fiscal year:

Agronomy—		Horticulture—	
College	\$ 8,800 00	College	\$ 8,800 00
U. S. Station	1,000 00	U. S. Station	1,000 00
State Station—soil investigation	25,000 00	State Station—orchard investigations	10,000 00
State Station—corn investigation	10,000 00		
Animal Husbandry—		Botany—	
College	8,800 00	U. S. Station—salaries and expenses	3,200 00
U. S. Station	1,000 00	U. S. Station—glass structure..	1,000 00
State Station, live stock—		Household Science—	
Investigations in beef cattle	16,000 00	College	3,600 00
Investigations in horses	4,000 00	Veterinary Science—	
Investigations in sheep	2,500 00	College	2,200 00
Investigations in swine	2,500 00	Thremmatology—	
State College—		College	200 00
Beef cattle building	25,000 00	College Extension—	
Live stock specimens	9,000 00	College	4,000 00
Dairy Husbandry—		Administrative Offices—	
College	8,800 00	College	4,000 00
U. S. Station	1,000 00	U. S. Station	4,800 00
State Station—dairy investigations	15,000 00	Special—fences, drainage and repairs	5,000 00
State College—specimens	1,000 00		

APPROPRIATIONS.

To cover the above estimates the following appropriations are needed:

For the quarter ending Sept. 30—		For the Fiscal Year—	
From U. S. college fund	\$7,000 00	From State College Funds—	
From teachers' and institutes' fund	2,000 00	Beef cattle building	\$25,000 00
From State college fund	4,000 00	Live stock specimens	10,000 00
From U. S. Station fund	3,750 00	From State Station Funds—	
From Receipts—		Live stock investigations	25,000 00
College—dairy department	1,000 00	Corn investigations	10,000 00
U. S. Station—botanical department	250 00	Soil investigations	25,000 00
		Orchard investigations	10,000 00
		Dairy investigations	15,000 00
		From Special Appropriation—	
		Fences, drainage and repairs	5,000 00

There will also be needed to meet the demands of the current quarter—

From State Station Receipts—		Corn investigations	\$511 07
Live stock investigations	\$3,000 00	Soil investigations	510 40

Respectfully submitted,

E. DAVENPORT,

*Dean of College of Agriculture,
Director of Experiment Station.*

June 6, 1903.

Approved as to the appropriations.

June 6, 1903.

S. W. SHATTUCK, *Business Manager.*

COLLEGE OF MEDICINE.

I transmit the estimates of the College of Medicine, and recommend their approval.

These recommendations were referred to the Committee on College of Medicine.

THE WOMAN'S BUILDING.

The legislative appropriation of \$80,000 will be immediately available for the construction of a Woman's Building, and I recommend that the Committee on Buildings and Grounds be authorized to employ an architect and proceed with the work, submitting the plans, specifications, and contracts to the Board for approval.

As the committee and the architect will want to have the location of the building settled before commencing plans, I recommend that, speaking generally, it be fixed on the south campus, close to Wright street, and nearly opposite the Agricultural Buildings, but that the Committee on Buildings and Grounds fix the precise site or report it to the Board.

It was so ordered and it was voted that Mrs. Alexander and Mrs. Evans be members of the Committee where matters relating to this building are under consideration.

AGRICULTURAL ADVISORY COMMITTEES.

I transmit herewith the several recommendations of the different committees provided for in the Statute making appropriations for agricultural instruction and investigation, and except as to the suggestions touching the location of structures, which can be nothing more than a voluntary suggestion, I recommend that they be approved.

These recommendations were referred to the Committee on Agriculture.

ELECTRICAL EQUIPMENT.

I transmit two communications from Professor Morgan Brooks touching electrical equipment and recommend the appropriation of \$925 to carry out his recommendations.

It was so ordered.

URBANA, ILLINOIS, June 3, 1903.

President A. S. Draper:

DEAR SIR: The lighting of Engineering Hall has never been completed. The building is wired, but fixtures and lamps are in place in rather less than half the openings. There has been a demand this past year for additional lights, as in the drafting room on the upper floor, and while some lights have been installed, I have been somewhat afraid that the transformers installed would not carry satisfactorily the additional load, as they are not adapted to the entire building. I believe that it would be cheaper in the end to complete the lighting arrangements for this building at one time, and suggest the present. If this building be changed from 110-volts to 220-volts, new transformers for the entire building would cost but \$60, whereas if the 110-volt system be retained an additional cost for transformers would be required of about \$200. Not only would the first cost of transformers be reduced by about \$140 but the running expense would be reduced, and under the new arrangement even an overload of lamps could be safely carried, if necessary.

To complete the wiring under the new 220-volt system would cost,

Estimate.

Additional fixtures.....	\$200 00	Labor of making the change	\$150 00
Sockets and wiring of fixtures	110 00	Incidentals	40 00
Incandescent lamps for entire building	150 00	Total.....	\$650 00

Yours respectfully,

MORGAN BROOKS,

Professor of Electrical Engineering.

URBANA, ILLINOIS, June 4, 1903.

President A. S. Draper, University of Illinois,

DEAR SIR: A few months ago Professor Williams at your request made a report on the condition of the electric wiring of the University buildings, finding many points to criticise. Several of the really dangerous conditions were immediately remedied, but many improvements in the wiring, especially with reference to its neat appearance, could be made to advantage. At the same time the overhead wiring south of University Hall should be removed as far as the south end of the Agricultural Building. The arc-light circuit may give a little trouble in removal; the rest will be comparatively easy. It is difficult to estimate with any great certainty on repair work, but if \$275 were allotted to the above work, I think it could all be accomplished in good shape. Of this estimate \$125 is for material and \$150 for labor.

Yours respectfully,

MORGAN BROOKS,

Professor of Electrical Engineering.

STATE LABORATORY OF NATURAL HISTORY.

I transmit herewith a report from Director Forbes of the State Laboratory of Natural History, and recommend that his request for authority to employ Mr. R. E. Richardson at \$800 per year, and Mr. F. M. Webster at the same salary, for half his time, be approved.

It was so ordered.

To the Trustees of the University of Illinois:

The principal function of the Illinois State Laboratory of Natural History, as established by law, is the making of a biological survey of the State and the publication of the results of this survey in the form of bulletins and final reports. It is, consequently, an institution for research and not for instruction. On the other hand, its facilities have been held at the call of the University for purposes of instruction so far as practicable, especially during the summer vacation. A promising beginning with a series of summer schools of biology was made some years ago, and two such schools were held when the Station was established at Havana, but the introduction of a summer term at the University led to their suspension. Last year a similar opening of the Station, then established at Ottawa, was contemplated, and a plan to that effect was informally presented to the Trustees, but the extension of the biological work of the summer term to cover in part the objects of this opening made it impracticable. As the State Laboratory has no corps of instruction and no funds available for teaching, it can only act in this field through the University instructors, and it has been commonly regarded by all concerned as impracticable with the present force of the University, to maintain to advantage two lines of biological instruction, one at the University and one at the Biological Station.

The investigation work of this Station has recently been concentrated almost wholly upon the fishes of the state, a final report on which is now in process of rapid preparation. Work upon this report has been greatly embarrassed by failure to find experienced and well trained assistants competent to aid me in the organization of

our immense accumulation of data and the preparation of the manuscript. The magnitude of this task may be judged in part by the fact that our Illinois collections of fishes are contained in over 12,000 tanks, jars, and bottles and have been made from nearly four hundred different localities throughout the state—much the largest and most comprehensive collection of fishes that has ever been made from any area of like size. Attempts to find competent aids in this direction among the graduates of other universities have thus far failed, but I am now encouraged to believe that Mr. R. E. Richardson, a recent graduate of the University of Illinois, will be found to answer this purpose. Mr. Richardson is now in charge of the Biological Station at Senachwine Lake, above Peoria, where Miss Charlotte Pinkerton, Artist of the State Laboratory, is likewise at work making drawings of fishes for the illustration of the report. Besides furnishing the necessary live specimens for these drawings Mr. Richardson is making special studies on fishes and on other animal and plant contents of the waters of this lake. I have to ask authority for the engagement of Mr. Richardson for such time as I may find expedient at the rate of \$800 a year.

Under arrangements made with Dr. C. A. Kofoid, formerly Superintendent of the Biological Station, he has, since going to the University of California in January, 1901, continued his work on a report upon the plankton of the Illinois River based on the work of the Station since its establishment in April, 1894. This report is now practically completed, and is passing rapidly through the press. It will contain approximately five hundred pages of text, sixteen voluminous tables, and fifty plates. It is much the largest and most important work ever published in this special field, and constitutes a first-class addition to our knowledge of aquatic biology, and will undoubtedly be so regarded throughout the world. While completely technical and full of masses of scientific detail, it contains also a considerable quantity of matter available for general information, and especially for educational work in universities, colleges, and high schools. An edition of 1,250 copies will be printed for general distribution.

I have also begun preparations for the publication of the next volume of the biological survey reports, which it is my purpose to devote to the economic entomology of the state, and for that purpose I have secured the services of Mr. F. M. Webster, for several years State Entomologist of Ohio. I have to ask authority to engage him for one year from July 1st, to give half his time to the service of the State Laboratory for the sum of \$800. Mr. Webster is an economic entomologist of high standing, well known throughout the country, was many years one of my office assistants as State Entomologist, has since been in charge of the economic work in entomology for the states of Indiana and Ohio, and during much of that time has served likewise as a special agent of the Division of Entomology of the U. S. Department of Agriculture. In these various capacities he has published many bulletins and reports, and I am entirely confident of his ability to serve me usefully and acceptably in extending our knowledge of the economic entomology of Illinois, and in aiding to prepare a comprehensive report on this subject which shall bring into one volume everything of importance known to us with respect to Illinois insects related in any important way to the industrial welfare of the people of the State. In this connection I am having prepared from time to time colored drawings of the more important insects, with illustrations of their work.

The appropriations of the Laboratory are made, as heretofore, in the so-called omnibus appropriation bill which provides for the ordinary and contingent expenses of the State government. They amount to \$9,500 per annum for the coming two years, of which \$8,000 a year is for the expense of the State survey, \$1,000 a year for the publication of bulletins, and \$500 a year for the supply of natural history specimens to public schools. These amounts are identical with those appropriated for these purposes at the legislative session preceding. As the appropriations made in this bill are payable by the State Treasury only upon receipted vouchers filed with the State Auditor and approved by the Governor, they do not pass through the hands of the Treasurer of this Board. I have, nevertheless, prepared quarterly financial statements, accompanied by duplicate vouchers, and submit them to you for such examinations or audit as you may desire.

Work on the distribution of specimens to public schools is now rapidly going forward, and twenty sets of such specimens will be sent out during the present summer in suitable boxes for their permanent preservation, accompanied by descriptive and annotated lists intended to make them available for practical use by high school teachers. I have now so organized this work that additions will be made to these contributions annually of such material as can be made ready from year to year.

The only requests here made calling for immediate action by the Trustees are those for the appointment of Mr. R. E. Richardson and Mr. F. M. Webster, the first at a salary of \$800 a year, and the second at the same salary for half his time.

In conclusion, I beg to say that I should be greatly pleased to confer with any member of the Board or other University authorities who are interested in the State Laboratory of Natural History, especially with reference to the more perfect utilization for educational purposes of its facilities and opportunities, either separately or in connection with the University departments of instruction.

Respectfully submitted,

S. A. FOREBS,
Director of Laboratory.

CERTIFYING PUBLIC ACCOUNTANTS.

At the last session of the Legislature an Act was passed putting upon the University the responsibility of examining and certifying public accountants in this State. The duty is a responsible and somewhat burdensome one, and makes it necessary to create an organization for the purpose if we are to meet it safely. I think the main duty of supervising this business should be related to the department of economics, which includes our new courses in business training. It has seemed to me well to create a University Committee on Accountancy to have charge of this work, which shall consist of the professor of economics, one of the professors in the commercial work, and the Registrar of the University. I submit the following outline of regulations for the purpose of creating the organization and providing for the proper conduct of examinations as well as for a system of records and certificates.

AN ACT to regulate the profession of public accountants. Approved May 15, 1903. In force July 1, 1903.

1. WHO MAY BECOME PUBLIC ACCOUNTANTS.] Sec. 1. *Be it enacted by the People of the State of Illinois represented in the General Assembly,* That any citizen of the United States or person who has duly declared his intention of becoming such a citizen, having a place for the regular transaction of business as a professional accountant in the State of Illinois, being over the age of twenty-one years, of good moral character, being a graduate of a high school with a four years' course, or having had an equivalent education, and who shall have received from the University of Illinois a certificate of his qualifications to practice as a public expert accountant as hereinafter provided, shall be styled and known as a "Certified Public Accountant," and no other person shall assume such title or use the abbreviation, "C. P. A.," or any other words or letters to indicate that the person using the same is a Certified Public Accountant.

2. UNIVERSITY OF ILLINOIS TO DETERMINE QUALIFICATIONS — RULES — EXAMINATIONS.] Sec. 2. The University of Illinois shall determine the qualifications of persons applying for certificates under this act, and shall make rules for the examination of the same, and for this latter purpose shall appoint three examiners, at least two of whom shall be skilled in the practice of accounting and actively engaged therein in the State of Illinois, and the third shall be either an accountant of the grade herein described or an attorney skilled in commercial law.

The time and place for holding the examinations shall be duly advertised, for not less than three consecutive days, in one daily newspaper published in each of the places where the examinations are to be held, not less than thirty days prior to the date of each examination.

The examination shall be in "Theory of Accounts," "Practical Accounting," "Auditing" and "Commercial Law" as affecting accountancy.

The examinations shall take place as often as may be necessary in the opinion of the University, but not less frequently than once a year.

3. WHEN EXAMINATIONS MAY BE WAIVED.] Sec. 3. The University of Illinois may, in their discretion, under regulations provided by their rules, waive all or any part of the examination of any applicant possessing the qualifications mentioned in section 1 who shall have had five successive years' previous experience as a public accountant previous to the date of application, who shall apply in writing within one year after the passage of this act, and who shall have been practicing in this State as a public accountant, on his own account, for a period of not less than one year next prior to the passage of this act; also to any person who shall have been actively in practice as a public accountant for not less than five years next prior to the passage of this act, outside of the State of Illinois, who shall have passed an examination equivalent, in the opinion of the University of Illinois, to the examination to be held under the provisions of this act.

4. CHARGE FOR EXAMINATION.] Sec. 4. (a) The University shall charge for the examination and certificate a fee of twenty-five dollars (\$25.00) to meet the expenses of such examinations. This fee shall be payable by the applicant at the time of filing his application.

(b) The examiners appointed by the University of Illinois shall be paid for the purpose of this act for the time actually expended in the pursuance of the duties imposed upon them by this act, an amount not exceeding ten dollars (\$10.00) per day, and they shall be entitled to their necessary traveling expenses. All expenses provided for by this act must be paid from the receipts of this act, and no expense incurred under this act shall be a charge against the funds of the University.

(c) From the fees collected under section 4 the University of Illinois shall pay all the expenses incident to the examinations held under this act, the expenses of issuing certificates, the traveling expenses of the examiners, and their compensation while performing their duties under this act.

5. REVOKING CERTIFICATE.] Sec. 5. The University may revoke any certificate issued under the provisions of this act, for unprofessional conduct or other sufficient cause, provided that written notice shall have been previously mailed to the holder of such certificate twenty days before any hearing thereon, stating the cause for such

contemplated action, and appointing a day for a full hearing thereof by the University, and, *Provided further*, that no certificate shall be revoked until a hearing shall have been had.

6. FALSELY ASSUMING TO BE CERTIFIED PUBLIC ACCOUNTANT—PENALTY.] Sec. 6. If a person shall represent himself to the public as having received a certificate as provided in this act, or shall assume to practice as a Certified Public Accountant, or use the abbreviation C. P. A., or any similar words or letters to indicate that the person using the same is a Certified Public Accountant, without having received such certificate; or if any person having received a certificate as provided in this act, and having thereafter lost such certificate by revocation as herein provided shall continue to practice as a certified public accountant he shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined a sum not exceeding two hundred dollars (\$200) for each offense. *Provided*, that nothing herein contained shall operate to prevent a certified public accountant who is the lawful holder of a certificate issued in compliance with the laws of another state, from practicing as such within this State, and styling himself a certified public accountant.

RULES FOR THE CONDUCT OF EXAMINATIONS FOR CERTIFIED PUBLIC ACCOUNTANTS.

The University Committee on Examination of Accountants.

1. The supervision of all matters under the law shall be in the hands of a committee under the immediate supervision of the President of the University, consisting of the head of the department of economics, the professor of industry and transportation, and the Registrar.

2. This committee shall receive all applications for examinations and shall issue to approved applicants certificates of admission to the examinations, and no candidate shall be examined who does not present to the Board of Examiners at the time and place of examination as advertised, such certificate of admission, signed by the Registrar.

3. This committee shall appoint the times and places of examination and shall advertise the same according to the provisions of the law.

4. This committee shall receive from the Board of Examiners the questions to be used at the examinations, and shall print and distribute these examination questions to the examining board in time for conducting the examinations as advertised.

5. The committee shall receive the reports of the examinations from the Board of Examiners, and shall certify to the President the successful candidates.

6. This committee shall receive and certify to the President all statements of expenses and fees of the Board of Examiners.

7. This committee shall also examine the papers of applicants under Section 3 of the law, and shall certify to the President the names of those who are eligible under this section to receive the degree of certified public accountant.

Board of Examiners.

1. The Board of Examiners for the examination of candidates for the degree of certified public accountant shall consist, according to the law, of three members, at least two of whom shall be skilled in the practice of accounting and actively engaged therein in the State of Illinois.

2. The members of this Board of Examiners shall be nominated by the President of the University and approved by the Board of Trustees.

3. Vacancies on the board, due to any cause, shall be filled for the remainder of the term of office, at the first meeting of the Board of Trustees which occurs after the occurrence of such vacancy. Appointments to expiring terms shall also be on nomination of the President for approval by the Board of Trustees.

4. The term of office of these examiners shall be three years, except for the members first appointed. Of these, one shall be appointed for three years, one for two years, and the third for one year. At the annual meeting of the Board of Trustees of the University in June, the place of the retiring member shall be filled by action of the Board of Trustees.

5. After June 1, 1904, no one shall be appointed a member of this board, who is not authorized under the law to practice in the State of Illinois as a certified public accountant.

6. Each member of the Board of Examiners who shall be engaged in the duty of conducting examinations at the time and place appointed by the University authorities as provided herein, shall send to the University committee in charge a statement of the time actually spent in the discharge of his duties as a member of this board in conducting said examinations, together with a statement of actual traveling expenses incurred in performing said duty. This statement shall be certified to the President by the University committee in charge and no fees or bills for expenses of the members of this Board of Examiners shall be paid excepting on approval of the President after this certification.

Applications.

1. Applicants for the degree of C. P. A. on the basis of previous practice, under Section 3 of the law, shall file their applications with the University committee on accountancy, together with a sworn statement setting forth their age, legal residence, the length of time during which they have practiced, the place where such practice was had, and the time, place, and scope of examinations, if any, passed in accountancy.

2. Applicants for examinations shall file their applications, and all papers necessary to show their qualifications for admission to the examinations, with the University committee on accountancy as provided herein. Applicants must submit certificates of graduation from a four year high school, or evidence of having had an equivalent education, together with certificates of age and good character. They shall also submit the names of three suitable references, at least two of whom must be residents of the State of Illinois.

3. Applicants for examinations and applicants for the degree under the provisions of Section 3 of the law, shall send with their applications a fee of \$25, payable to the University, in accordance with Section 4 of the Act.

Examinations.

1. Examinations shall be held by the Board of Examiners at the times and places determined by the University committee in charge.

2. The time and place for holding these examinations shall be advertised according to the law for not less than three consecutive days in one daily newspaper published in each of the places where the examinations are to be held, not less than thirty days prior to the date of each examination.

3. The examinations shall take place as often as may be deemed necessary in the judgment of the University committee, but not less frequently than once each year. The annual examination shall be held on the first Monday in May.

4. The examinations shall be in the theory of accounting, the practice of accounting, auditing, and commercial law as effecting accountancy.

5. Each applicant for examination must present to the Board of Examiners before the examination begins a certificate of admission to the examination, issued by the University committee. These certificates shall be returned by the Board of Examiners to the chairman of the University committee.

6. The period allotted to the examination in each subject shall be determined beforehand by the University committee, on the advice of the Board of Examiners, and shall be printed on the examination papers.

7. Examinations shall be written in books supplied by the University to the Board of Examiners as provided by the Board of Trustees in December, 1901.

8. The examination books shall be marked in plain figures, on the scale of 100, by the Board of Examiners, and, together with the certified statement of the Board of Examiners of the grades of each candidate in each subject in which he is examined shall be forwarded to the chairman of the University committee. This certified statement must be signed by at least two of the Board of Examiners.

9. The list of successful applicants, as certified by the Board of Examiners, shall be certified to the President of the University by the University committee in charge, unless, in the opinion of that committee, there exists some question concerning the eligibility or the honesty of the examination on the part of the candidate. In that case, the matter shall be referred back to the Board of Examiners, if it is a question of honesty in examination. If they certify to the honesty of the examination, the name of the candidate shall be certified by the committee to the President.

10. In order to entitle any applicant to a recommendation for the degree, he must secure a grade of at least 75 per cent. in each subject on which he is examined.

Records.

1. Candidates who meet all the requirements for eligibility and are duly certified as above required, shall receive a diploma conferring upon them the degree of certified public accountant (C. P. A.). This diploma shall be issued in the name of the University and shall be signed by the President of the University and the Secretary of the Board of Trustees.

2. The Registrar shall open a set of books in which he shall keep the records of all successful candidates for the degree, which shall set forth the time and place of the examination at which each candidate met the requirements for the degree, the grades obtained on the examinations, the number of the diploma issued, and the date of its issue.

3. The fees from applicants shall be turned over to the Business Manager of the University, who shall keep a separate account of all receipts and expenditures under this law.

This report was received for record and the recommendations calling for action were adopted.

President Draper nominated as members of the board to examine candidates for the degree of C. P. A. the following: Mr. A. W. Dunning for the three-year term, Mr. C. W. Knisley for the two-year term, and Mr. Ernest Reckitt for the one-year term. The nominations were approved.

REPORTS.

December 19, 1899, the Board adopted the following resolutions touching the transmission of certain reports to the members of the Board, in advance of meeting, viz.,

Reports of Deans.

“19. (a) To insure more intelligent action on the part of the Trustees, typewritten copies of such reports of the Deans of the several colleges as are made shall be sent from the office of the President of the University to each member of the Board five days before the quarterly meetings.”

“(b) These reports shall be confined strictly to the internal affairs of the several colleges and to their immediate needs in respect to the facilities for instruction. At the meeting of the Board the President shall present his approval or otherwise of any suggestion in these reports, which shall be considered the first official recognition of their existence.”

“(c) These typewritten copies shall be prepared in the offices of the Deans and sent to the President with the original reports.”

[Adopted December 19, 1899.]

I felt at the time that there were certain elements in this legislation which unintentionally invaded the executive freedom of the President of the University, but I did not care to seem to be a stickler for prerogative, unnecessarily, and said little about it. I have happily lived long enough to know that with people who have no end save the right in view the right is made clear in the course of time, and no great wrong is suffered by the trial of experiment.

The purpose of the Board in adopting the resolutions was, as it was declared to be, to secure information in advance which would aid intelligent action upon business to be submitted at an approaching meeting. But the result is much more than that: it tends unmistakably to nothing less than a lessening of respect for the office of President of the University, and a change in the character of the reports. Officers speak of their reports to the Board of Trustees, and to the public, when they are not expected to report to anyone but the President; and they introduce recommendations touching matters concerning which they have no responsible authority, with the evident expectation that they will be specifically approved or disapproved by official action. Under the operation of the resolution information upon confidential matters reaches persons personally interested, in advance of lawful action, and produces unnecessary and hurtful discussions throughout University circles, and sometimes outside of them.

No one can expect to meet, justly and rationally, the responsible duties of President of this University, in the proportions which the University has now attained, unless his office is amply fortified and sustained, and his executive freedom is kept intact. Policies must be pursued which keep all officers and teachers at the matters for which they are responsible, and promote exactness rather than confusion in administration.

It seems to me there is no difficulty about the matter, and that all that the Board had in mind when it adopted the resolutions may be easily attained by a request that the President, in his discretion, send such reports and papers to members of the Board in advance of meetings as will be of aid to them and promotive of the best interests of the University. This, I am constrained to say, after full experience and reflection, and with no purpose to magnify my own importance, is as far as the Board may safely go with security to the interests which are committed to my official care in advance of a meeting of the Board. In a Board meeting all the President knows and all the papers of his office are at the disposal of the Board.

Therefore I recommend that the resolutions referred to be rescinded and that the following be adopted:

“*Resolved*, That the President of the University be requested, in the exercise of his free discretion, to send to members of the Board of Trustees in advance of meetings such reports as may be made to him by the Deans or other officers of the instructional force, or any other papers, when such early distribution will be likely to aid Trustees in the better understanding of matters to come before the Board, and not be incompatible with what the President conceives to be for the best interests of the University.”

I could doubtless work my way along to the end of my administration without any very serious difficulty over this matter, but I never can hope to transmit my office to another with its functions unimpaired and its freedom assured without making this request, and the remainder of my administration will be made smoother and the future will be more secure if you will give it your favorable consideration. ;

It was moved to adopt the recommendations with regard to reports, and the motion prevailed by the following vote:

Yeas—Messrs. Bayliss, McLean, Bullard, Nightingale, Kerrick, McKinley and Mrs. Abbott and Mrs. Evans; nay—Mr. Hatch; absent—Governor Yates, Mr. Dickirson and Mrs. Alexander.

President Draper's bill of \$126.10 for official expenses from June 26, 1902, to May 26, 1903, was allowed and ordered paid.

The Hotel Beardsley bill of \$37.50 for entertaining a legislative committee was allowed and ordered paid.

FINANCIAL REPORTS.

The financial report of the Director of the Laboratory of Natural History, Professor S. A. Forbes, for expenditures from April 1, 1901, to March 31, 1903, was presented by the Secretary and referred to the Finance Committee.

The Registrar, Mr. W. L. Pillsbury, presented statements of dues from students as follows: University students, second semester, 1902-3; preparatory students, second semester, 1902-3; College of Medicine students for summer term and regular term, 1902-3; School of Pharmacy students for year ending April 30, 1903; School of Dentistry students for year ending June 1, 1903; and these were referred to the Finance Committee.

TREASURER'S REPORT.

The Secretary presented the Treasurer's report for three months ending March 31, 1903, and the report was referred to the Finance Committee.

FRED L. HATCH,

ALEXANDER MCLEAN,

Executive Committee.

A communication from the Hibernian Banking Association of Chicago, stating that it was assignee of Kelly & O'Brien's interest in building contracts, was presented and referred to the Business Manager.

A letter from Dr. D. A. K. Steele, asking that the University, by its President and Secretary, endorse missionary scholarship contracts, was referred to the Committee on the College of Medicine, and, subsequently, upon recommendation of the Committee, the endorsement was authorized.

The Secretary presented a bill from Walsh & Hueck. This bill had previously been before the Committee on Buildings and Grounds and rejected by it. The bill was laid upon the table.

POSTAGE DUES.

The Business Manager was authorized to deposit with W. W. Lindley, postmaster, Urbana, Ill., a certified check for \$1,000, drawn against University funds, payable to said W. W. Lindley, under agreement that the check should be used by said Lindley in case the postal authorities should refuse to ratify a temporary arrangement by which certain University publications have been deposited in the mail as second class matter, in payment of postage upon said publications, and in such case only. If said temporary arrangement shall be ratified, then said check shall be returned to the Business Manager.

SOUTH CAMPUS.

The question of the use to which the south campus shall be put, which had been referred to the committees on Buildings and Grounds, and on Agriculture, was taken up for consideration, and it was agreed, on motion of Mr. Bayliss, to close the gate at the south end of Burrill avenue and to discontinue Burrill avenue as a public highway from the Dean's house south. Further consideration of the question was referred to the two committees jointly.

SALARIES IN THE AGRICULTURAL DEPARTMENT.

The question of salaries in the Agricultural Department was then taken up. Mr. Kerrick moved that the salary of Dean Davenport be made \$4,000 a year, the salary of Professor Hopkins \$3,500, and the salaries of Professors Mumford and Blair \$3,000 each.

Mr. Bullard offered as a substitute for this that the persons named be paid salaries as proposed by President Draper in his communication in regard to salaries. Mrs. Abbott moved to lay the substitute on the table. This motion was lost by the following vote:

Yeas—Mr. Kerrick and Mrs. Abbott; nays—Messrs. Bayliss, McLean, Bullard, Hatch, Nightingale and McKinley, and Mrs. Evans; absent—Governor Yates, Mr. Dickirson and Mrs. Alexander.

Mr. Bayliss then offered the following substitute, which was adopted:

Resolved, That the salary of Dean Davenport be \$3,750; that of Professor Hopkins, \$3,250; those of Professor Mumford and Professor Blair, \$2,750 each, and that the increase in these salaries over the amount recommended by President Draper be charged against the special appropriation for the College of Agriculture. And further, that the salaries of Professor Breckenridge and Professor Baker be made \$2,750 each.

This substitute prevailed.

With reference to Fred H. Rankin the following resolution was adopted:

Resolved, That in view of the application of the State Farmers' Institute for the inauguration of a system of correspondence instruction for the benefit of the farming population, and that the Board be free to act in that matter, the appointment of Mr. Fred H. Rankin as Superintendent of Agricultural College Extension, be not renewed for a year, but from month to month and subject to termination on one month's notice, and that while it continues his salary be at the rate of \$150 a month.

In other respects the salaries in the agricultural department were adopted as recommended by President Draper.

A committee of students had asked President Hatch for a hearing before the Board with regard to the Dairy Department; but instead they had been heard by the Committee on Agriculture at the noon recess. Mr. Kerrick, Chairman of the committee, reported to the Board that the committee would make no recommendation with regard to matters presented at the hearing.

COMMUNICATION FROM THE ILLINOIS STATE FARMERS' INSTITUTE.

The communication from the Illinois State Farmers' Institute, presented by Mr. Frank H. Hall, was, after discussion, referred to the Committee on Instruction and the committee was directed to consider the questions raised by this communication and to report thereon at the next regular or special meeting of the Board.

The Alumni Association of the University of Illinois, through the chairman of its executive committee, Professor T. A. Clark, invited the Board of Trustees to the public exercises of the association, Tuesday forenoon, and the dinner following.

The Board adjourned to meet at nine o'clock on Tuesday, June 9, 1903.

SESSION OF TUESDAY, June 9, 1903.

When the Board met pursuant to adjournment the same members were present as on Monday, excepting Mr. Bayliss.

COAL CONTRACT.

The following resolution offered by Mr. Bullard was adopted:

Ordered, that the Buildings and Grounds Committee be authorized and instructed to call for proposals for coal for the year beginning September 1, 1903, and for hauling the same, and upon receiving satisfactory bids to enter into contracts therefor in the usual form and manner and report what it does to the Board.

It was also voted, on motion of Mr. Bullard, that a standing committee on the College of Engineering be appointed by the Chair.

President Draper stated that the Hon. Shelby M. Cullom, upon whom it had been voted to confer the degree of doctor of laws at commencement, would, on account of illness, not be able to be present on that day, and recommended that the rule of the Board requiring candidates for honorary degrees to be present when such degrees were to be conferred, be suspended in his case, and that the degree be conferred as if he were present. It was so ordered.

A communication was received from Mr. L. C. Miller asking that he be allowed to continue the operation of the Dining Hall. The request was not granted.

TREASURER'S BOND.

The Executive Committee made the following report, which was adopted:

April 23, 1903.

To the Board of Trustees of the University of Illinois:

The undersigned Executive Committee, to which your Board referred the matter of obtaining a bond of E. G. Keith, Treasurer elect of said Board, would report that we have attended to the same and obtained the bond with such sureties as we deem to be satisfactory and recommend your approval of the same. We also submit the bond together with certificate of the First National Bank and letter of Edward Dickinson, Assistant Cashier of said Bank; the same to be made part of this report, and that said papers be placed in the hands of the Secretary of the Board.

FRED L. HATCH,
ALEXANDER MCLEAN,

Executive Committee.

KNOW ALL MEN BY THESE PRESENTS, That we, Elbridge G. Keith, as principal, and William J. Watson, Arthur Dixon, James B. Forgan, and T. P. Phillips as sureties, are held and firmly bound unto the University of Illinois, of Urbana, in the County of Champaign, State of Illinois, in the sum of six hundred thousand dollars (\$600,000), good and lawful money of the United States, for the payment of which, well and truly to be made, we bind ourselves and our heirs, executors and administrators, jointly, severally and firmly by these presents.

WITNESS our hands and seal this 22d day of April, A. D. 1903.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT WHEREAS, the above bounden Elbridge G. Keith was on the tenth day of March, A. D. 1903, duly elected to the office of Treasurer of the University of Illinois, for a period ending on the tenth day of March, A. D. 1905, or until his successor shall be appointed and qualified, and is about to assume the duties of said office.

Now, if the said Elbridge G. Keith shall well and truly perform and faithfully discharge the duties of Treasurer of said University of Illinois during his term of office, and shall faithfully keep and truly account for all moneys, bonds, securities or other property coming into his hands as such Treasurer during his term of office, and at the expiration of his term of office shall pay over to his successor in office, or to any other person duly authorized by the Board of Trustees of said University of Illinois to receive the same, all moneys, bonds, securities or other property received by him as such Treasurer and not otherwise lawfully paid out or disposed of, and shall deliver to his successor in office or other person appointed to receive the same, the property, books, papers and other things in his hands belonging to said office, and shall, at the expiration of his term of office, or oftener if thereunto requested by the Board of Trustees of said University of Illinois, render a just and true account of his doings as such Treasurer, then this obligation to be void; otherwise to remain in full force, effect and virtue.

ELBRIDGE G. KEITH,	(Seal)
WILLIAM J. WATSON,	(Seal)
ARTHUR DIXON,	(Seal)
JAMES B. FORGAN,	(Seal)
T. P. PHILLIPS,	(Seal)

STATE OF ILLINOIS, }
COUNTY OF COOK. } ss.

I, Edward Dickinson, a Notary Public in and for said county, in the State aforesaid, do hereby certify that Elbridge G. Keith, William J. Watson, Arthur Dixon, James B. Forgan and T. P. Phillips, who are personally known to me to be the same persons whose names are subscribed to the foregoing instrument, appeared before me this day in person and acknowledged that they signd, sealed and delivered the said instrument as their free and voluntary act, for the uses and purposes therein set forth.

Given under my hand and notarial seal this
22d day of April, A. D. 1903.

EDWARD DICKINSON,
Notary Public.

FIRST NATIONAL BANK, CHICAGO, April 23, 1903.

Mr. S. W. Shattuck, Business Manager, University of Illinois:

MY DEAR MR. SHATTUCK—I hand you herewith bond of Mr. E. G. Keith, Treasurer, \$600,000, for the ensuing term. I presume you are familiar with the financial standing of the sureties, but will submit the following:

Mr. William J. Watson is a director in the First National Bank of Chicago, and a retired capitalist.

Mr. Arthur Dixon is a holder of a large amount of stock in the First National Bank and the owner of Chicago real estate estimated at over \$1,000,000.

Mr. James B. Forgan is president of the First National Bank of Chicago.

Mr. T. P. Phillips is president of the Federal Trust and Savings Bank, Chicago.

All of these gentlemen are reputed as being worth more than the amount of the bond.

If this bond is approved and the old one released, kindly notify me at once and I will credit the University with the interest accrued during the last two years.

Yours very truly,

EDWARD DICKINSON,
Asst. Cash., First Nat. Bank, Chicago.

The Board then took a recess until 3:30 p. m.

After the recess it was voted, on motion of Mr. Bullard, to appropriate \$125, or so much thereof as might be needed, for the publication of the report of the meeting of the Alumni Association.

It was also voted that a bronze cast be made from the medallion of President Draper presented by the College of Law to the University.

BUSINESS MANAGER'S REPORT.

The Business Manager made the following report, which was referred to the Finance Committee:

FRED L. HATCH,
President.

ADJOURNED SESSION, JUNE 23, 1903.

The Board of Trustees of the University of Illinois met pursuant to adjournment.

There were present Messrs. Bullard, Hatch, Kerrick, McKinley, McLean, Mrs. Abbott and Mrs. Evans; absent, Governor Yates, Messrs. Dickirson and Bayliss, and Mrs. Alexander. President Draper was present.

COMMUNICATION FROM PRESIDENT DRAPER.

UNIVERSITY OF ILLINOIS, June 23, 1903.

To the Board of Trustees:

I respectfully recommend the following new appointments in the instructional force:

1. Arthur Graham Hall, Assistant Professor of Mathematics, at \$1,600 a year.
2. Theodore Ely Hamilton, Instructor in Romanic Languages, at \$100 a month for ten months from September 1.
3. Henry Lewis Reitz, Instructor in Mathematics, at \$120 a month for ten months from September 1.
4. Edwin Stanton Good, Assistant in Animal Husbandry in the Agricultural Experiment Station, to begin July 1, at \$1,000 a year of twelve months.
5. Bertha Isidine Howe, Instructor upon the Piano, at \$70 a month for ten months from September 1.

6. Bert Dee Ingles, Assistant in Chemistry (half time), at \$30 a month for ten months from September 1, 1903.

7. Thomas Joseph Bryan, Instructor in Chemistry, at \$100 a month, for ten months from September 1, 1903.

I also recommend that the salary of Harry G. Paul, Instructor in English, be \$100 a month for ten months.

I transmit herewith the resignation of Lewis A. Rhoades, as Professor of German, and recommend that Assistant Professor George H. Meyer be given charge of the German department for the next year with a salary of \$1,800. I also request that you authorize me to employ an assistant professor or instructor in the department.

A. S. DRAPER,
President.

The foregoing recommendations were approved and appointments made in accordance therewith.

President Draper recommended that \$5,000, or as much thereof as may be needed, be appropriated to pay the expenses of the summer term.

Adopted.

It was voted to appropriate \$26.50 to settle the deficit in the receipts of the Alumni Banquet.

BUSINESS MANAGER'S REPORT.

The Business Manager presented the following report, which was received for record:

June 23, 1903.

Frederick L. Hatch, President Board of Trustees, University of Illinois:

SIR: I have the honor to hand you herewith a financial statement of the College of Medicine for the year ending May 1, 1903.

I also include a bill of \$914.00 for a banquet. I desire that the Board shall pass upon this bill and indicate its policy on such expenditures for the future.

Respectfully submitted,

S. W. SHATTUCK,
Business Manager.

May 20, 1903.

Financial statement of the College of Medicine for the year from May 1, 1902, to May 1, 1903.

Receipts		\$112,316 72
Expenses.....	\$106,316 72

S. W. SHATTUCK,
Business Manager.

D. A. K. STEELE,
Actuary, College of Physicians and Surgeons.

The following was received for record at the meeting of June 8, 1903:

June 9, 1903.

Statement of receipts and expenses of the School of Pharmacy for the year ending May 1, 1903.

Receipts	\$12,321 60
Expenses	\$10,745 66	
Balance	1,575 94	
	\$12,321 60	\$12,321 60

\$1,500 of this balance has been divided among the instructors, making the maximum payment due them \$4,500.00.

It was voted that the bill of \$914.00 for the banquet of the College of Medicine, be paid.

Consideration of the policy to be pursued in regard to such banquets in the future was referred to the Committee on the College of Medicine, who are directed to consult with Dr. Steele.

It was voted that it was the sense of the Board of Trustees that no amount from the receipts of the College of Medicine should be paid for a banquet. Further, it was the expression of the Board that the persons participating in the banquet should pay the expenses therefor.

WOMAN'S BUILDING.

Consideration of the Woman's Building was then taken. The following communication received from Hon. Henry M. Dunlap was presented by President Draper:

SAVOY, ILLINOIS, June 20, 1903.

A. S. Draper, President, University of Illinois:

MY DEAR SIR: I deem it an honor to be asked to express my opinion as to the character of the new Woman's Building and the uses to which it should be devoted, for I feel that a new era has dawned for the young women seeking an education at the University of Illinois, provided those in authority act wisely at this time. I confess to a very deep interest in this matter and without pretending to dictate the policy of the University in any way, I am pleased to have the opportunity to express my views.

I believe that a young woman's University education is unfinished in its most important part unless she has a knowledge of the household sciences and arts that fit her for life's most important duties, those relating to the home, and I am therefore greatly in favor of installing this most important department in the Woman's Building in a way that will be at once dignified and comprehensive. It should be enough to stamp it with the approval of the University in such a decided manner that every woman student will feel that she is invited to its use and that in entering the department she is doing herself an honor—that the University in its relation to woman's education places the home first in importance. For this reason I hope to see this department in the new building occupying an entire wing or section of the same.

Woman's physical development should be considered and the gymnasium should be complete in all parts. I believe it should constitute another wing of this building or should be built adjoining the main building with a covered way between.

There should be ample provision in perhaps the central part of the building for the use of the women in their every day school work in the way of reception rooms and rooms for study and rest.

I believe that those college studies which are in their nature peculiar to woman's uses and which can be taught as well in other buildings, should not be brought within this building, for if too much is brought into this building the Household Science Department and the Department of Physical Culture for women will consequently be dwarfed and the position given to these departments will not attain that dignity and importance that they should command in a great university.

I hope to be able to say that Illinois has in her State University the best department for woman's education in the world and I believe it is possible, for the education of women has not kept pace with that of man along the line of her special needs.

As this is to be a building devoted strictly to woman's use I am impressed with the thought that the building should in its architectural design impress one somewhat with the idea of a home. At least in its exterior it should not partake of the character of a manufactory or even of that of a science building; but on the contrary, it should be artistic and attractive. I sincerely hope it may be one of the most attractive looking buildings in the University group because it is for the women and because it will be known as the Woman's Building for all time. I do hope the trustees will not be content with an ordinary looking structure.

I hope you will pardon me, Mr. President, if I have gone out of bounds in thus freely expressing my opinion on these matters. My apology is, if one is needed, that I am greatly interested in seeing the education of women in this institution placed upon a broader and better basis than is accorded her in any other institution in the world. I am proud of what you are doing for the young men of Illinois, I hope to be equally proud of what you are about to do for the young women.

Yours very truly,

HENRY M. DUNLAP.

The following resolution was adopted:

Resolved, That the Committee on Buildings and Grounds select five architects to prepare sketches of elevations and floor plans for the Woman's Building upon the understanding that each shall be paid \$100 for the service, and that all the sketches shall belong to the University and shall be considered at a future meeting of the Board.

SOUTH CAMPUS.

In regard to the South Campus the following resolution was adopted:

Resolved, 1. That the south gate to the University grounds and the road leading to it from the house now occupied by the Dean of the College of Agriculture be closed to the public.

2. That the road running east and west in front of the Dean's house be made permanent and extended in both directions to the limits of the University grounds.

3. That Matthews avenue be extended until it intersects this road.

4. That Wright street be extended until it intersects this road, and that the ground between Wright street so extended and Burrill avenue be put into lawn as soon as practicable.

5. That the road running east and west in front of the Observatory be closed and put into lawn.

6. That the new agricultural structures be erected south of the road in front of the Dean's house and not less than 200 feet therefrom.

7. That the Agricultural Experiment Station start permanent plats on the South Farm and that it discontinue the use of all plats on the South Campus, excepting the north series of permanent plats, eight in number, now in use, which are hereby reserved for the continued use of the station.

COLLEGE OF MEDICINE.

URBANA ILL., June 23, 1903.

To the Board of Trustees, University of Illinois:

Your Committee on the Medical College reports that the attached estimates, submitted by the College, which were referred to this committee, show an estimated income for the year ending May 1, 1904, as follows:

From the medical college.....	\$91,000 00	
From the dental college.....	28,000 00	
Total.....		\$119,000 00

The expenses for the same year, as follows:

Medical college.....	\$69,743 06	
Dental school.....	19,040 00	
Total.....		\$88,783 06

The difference between the estimated income and expenditures for the year is, therefore, \$30,216.94.

Your committee recognizes a large improvement in adjusting expenses to income by the Medical College and recommends the approval of the estimates submitted, and that the expenditures be authorized, as listed, of \$88,783.06.

Respectfully submitted,

S. A. BULLARD,
ALEX MCLEAN,

COMMUNICATION FROM STATE FARMERS' INSTITUTE.

AGE OF SPECIAL STUDENTS.

In regard to the request made by the State Farmers' Institute that the age for admission of special students in the College of Agriculture be made 16 years, the following resolution was adopted:

Resolved, That paragraph 8 of the rules adopted July 6, 1901, with regard to scholarships in the College of Agriculture be changed to read as follows:

8. That candidates, if fully able to meet the requirements for admission to the freshman class, that is, have had a good high school education or its equivalent, be eligible to appointment at sixteen years of age, and young men who can not meet these entrance requirements be eligible to appointment as special students at sixteen years of age; *provided*, that all so admitted under eighteen must take half their studies in the Preparatory School until they have either reached the age of eighteen or have fully satisfied the entrance requirements. That young women to be eligible as candidates for admission as special students in Household Science must be eighteen years of age. However, it is strongly recommended that all young people wishing to gain these scholarships complete in high schools at home or in their vicinity, before coming to the University, their preparation for the freshman class.

CORRESPONDENCE SCHOOL.

The question of correspondence work in the Agricultural College was referred to the Committee on Instruction for further consideration as to the expediency of undertaking such work. The committee was directed to consult with President Draper and Dean Davenport.

AID FOR FARMERS' INSTITUTES.

It was voted that all the assistance possible should be given to the farmers' institutes by the corps of instruction in the College of Agriculture.

The resolution in regard to the appointment of Mr. F. H. Rankin, adopted June 9th, was reconsidered and then laid on the table.

It was then voted to adopt President Draper's recommendation in regard to the employment of Mr. Rankin for the ensuing year.

President Draper presented a communication from the Hahnemann Medical College of Chicago and it was referred to the committee on the College of Medicine.

Mr. Bullard reported from the Committee on School of Medicine that the affiliation with the Harvey Medical School was impracticable because of our contract with the College of Physicians and Surgeons and the report was accepted.

It was voted to appropriate \$160 for an entrance and porch on the west side of the President's House.

The following amendment to the rules for the examination of certified public accountants was adopted. (To be inserted as 11 under "Examinations," of minutes of June 8th.)

11. The applications and credentials of applicants for the degree of C. P. A. on the basis of previous experience, under Section 3 of the law, shall be examined by the Board of Examiners. If the credentials furnished by such an applicant are sufficient, in the judgment of the Board of Examiners, they shall certify him to the University committee for the degree of C. P. A. as in the case of applicants who seek the degree by examination. A certificate or diploma shall be issued in the same way and under the same conditions as for applicants by examination.

Messrs. Hatch and Kerrick were authorized to effect the exchange of a horse belonging to the University for one belonging to President Draper, on such terms as they should consider fair.

Adjourned.

W. L. PILLSBURY,
Secretary.

FRED L. HATCH,
President.

MEETING OF AUGUST 14, 1903.

Pursuant to the call of President Hatch, issued through the secretary, August 11, 1903, the Board of Trustees of the University of Illinois met at the Auditorium Annex in Chicago, Illinois, at 9:00 o'clock a. m., August 14, 1903.

There were present Messrs. Bullard, Hatch, Kerrick, McLean, Nightingale, and Mrs. Abbott and Mrs. Evans; absent, Governor Yates, and Messrs. Bayliss, Dickirson, McKinley, and Mrs. Alexander. President Draper was absent and also the secretary, Mr. Pillsbury. Mr. Bullard was appointed secretary, *pro tem*.

The Committee on the School of Pharmacy reported a proposition from Doctor L. B. Baldwin of Chicago for the use of the building occupied by the School of Pharmacy for a Medical School during evenings, from September 1, 1903, to May 1, 1904.

On motion of Mrs. Abbott the business manager was instructed to enter into a contract with Doctor Baldwin, substantially on the basis set forth in his proposition.

Mr. A. E. Ebert of Chicago was, on recommendation of the State Pharmaceutical Association, elected on the Advisory Board of the School of Pharmacy, the term to expire in 1908.

A recommendation of the College of Medicine was received through President Draper, who gave it his approval, to the effect that the general ticket for instruction be \$120 a year, and that there be charged a graduation fee of \$20.

On motion of Mr. Kerrick the recommendation of the College of Medicine was adopted, to take effect for those students only who take tickets for the school year of 1904-05 and thereafter.

At the request of the Committee on Buildings and Grounds it was voted that the number of architects invited to compete for the Woman's Building, who are to be paid \$100 each for entering such competition, be made six instead of five.

The Board adjourned.

S. A. BULLARD,
Secretary, pro tem.

FREDERICK L. HATCH,
President.

PROCEEDINGS
OF THE
BOARD OF TRUSTEES
OF THE
UNIVERSITY OF ILLINOIS
FOR THE
Year Ending August 31, 1904.

MEETING OF SEPTEMBER 8, 1903.

The Board of Trustees of the University of Illinois met at the University, at 9:00 o'clock a. m., Tuesday, September 8, 1903.

The members present were Messrs. Bullard, Hatch, Kerrick, McKinley, McLean and Nightingale, and Mrs. Abbott and Mrs. Evans; absent, Governor Yates, Messrs. Dickirson and Bayliss and Mrs. Alexander. President Draper was present.

The Secretary presented the minutes of the meeting of June 3, 1903, of the adjourned session June 23, 1903, and of the special meeting of August 14, 1903. The minutes were approved.

COMMUNICATION FROM PRESIDENT DRAPER.

To the Board of Trustees:

I respectfully recommend the following appointments in the General Faculty to take effect September 1, 1903.

1. Thomas Edward Oliver, as Professor of Romanic Language, at a salary of \$2,000 per annum.
2. Charles Tobias Knipp, as Assistant Professor of Physics, at \$1,500 per annum.
3. James Burt Miner, Instructor in Psychology, at \$100 per month for ten months.
4. Mrs. Gertrude Clark Sober, Instructor in Household Science, at \$110 per month for ten months.

5. John Quincy Adams, Instructor in Rhetoric, at \$100 per month for ten months.
6. George Charlton Matson, Instructor in Geology, at \$75 per month for ten months.
7. Charles Gideon Davis, Instructor in German, at \$90 per month for ten months.
8. Charles William Whitten, Instructor in the Preparatory School, at \$80 per month for ten months.
9. John Jefferson Richey, Instructor in Theoretical and Applied Mechanics, at \$80 per month for ten months.
10. Mary Wendell Green, Instructor in Voice Culture, at \$75 per month for ten months.
11. Henry Alfred Young, Assistant Director of Physical Training, at \$120 per month for ten months.
12. Albert Nash Hume, Instructor in Farm Crops, for ten months from September 1st, at \$100 per month, to be paid from Agricultural College funds.
13. Louis Dixon Hall, Instructor in Animal Husbandry, for six months from September 1st, at \$125 per month, to be paid from Agricultural College funds.
14. William Dietrich, Instructor in Swine Husbandry in the College, and Assistant in Swine Husbandry in the Station, for twelve months from September 1, at \$1,000 per year, to be paid in twelve installments, and divided equally between College funds and the funds of the live stock section of the State Station appropriation.
15. Rufus Chanecy Obrecht, Instructor in Horses in the College, and Assistant in the Station, for twelve months, at \$1,000 for the year, from September 1, to be paid in twelve installments, and divided equally between the College and State Station live stock funds.
16. Joseph William Hart, Instructor in Dairy Manufactures in the College, and Chief Assistant in Dairy Manufactures in the Station for one year from September 1, at a salary of \$2,000, to be paid in twelve installments, \$1,200 from College funds, and \$800 from State Station dairy funds.
17. Cassius Clay Hayden, Assistant in Dairy Husbandry in the College, and Assistant in the Station, for twelve months from September 1, at a salary of \$900 for the year, to be paid in twelve installments, \$300 from the College funds, and \$600 from the State Station dairy funds.
18. Herbert Andrew Hopper, Assistant in Dairy Cattle in the College, and Assistant in the Station, for twelve months from September 1, at a salary of \$800, to be paid in twelve installments, \$300 from the College, and \$500 from the State Station dairy funds.

20. James T. Barrett, Assistant in Botany in the Station for twelve months from September 1, at \$60 per month, to be paid in twelve installments from United States Station funds.
21. That James A. Dewey be appointed Instructor in Botany, on half time, for the fall semester, at \$225 for the service.
22. That Jennie Mary Latzer be appointed Assistant in Bacteriology in the College of Agriculture and in the Experiment Station, for ten months from September 1, at \$50 per month, \$200 of the entire salary to be charged to College funds, and \$300 to United States Station funds.
23. That Edward Henry Lenke be appointed Assistant in the Gymnasium at \$30 per month for ten months.
24. That Hammond William Whitsett be appointed as Instructor in General Engineering Drawing for ten months at \$80 per month.

WATER SURVEY.

1. I recommend that Robert Watt Stark be appointed Chief Assistant upon the Water Survey for twelve months beginning October 1, at \$100 per month.
2. That Miss M. A. Lemon be appointed Stenographer upon the Water Survey at \$40 per month for twelve months commencing October 1.

THE LIBRARY AND LIBRARY SCHOOL.

1. I recommend that Francis K. W. Drury be appointed Order Assistant in the Library for twelve months from September 1 at \$900 for the year.
2. That a Messenger be allowed to the Library at \$3 per week for ten months from September 1.
3. I advise the appropriation of \$150 to be used by Professor Sharp in meeting the expenses of collecting and preparing material for a history of libraries in Illinois.

SCHOOL OF PHARMACY.

I recommend that the arrangement with the members of the faculty of the School of Pharmacy heretofore in operation be continued as to the coming year, and that \$25 per month in addition for the seven months of the school year be allowed to the assistants in each of the three laboratories in consideration of additional work attendant upon the leasing of the rooms for an evening school.

PUBLIC ACCOUNTANTS.

I transmit herewith the request of the Board of Examiners in Accountancy that the regulations be modified so as to provide that the members of the Board of Examiners shall also sign diplomas, and recommend that it be approved.

NEW AGRICULTURAL BUILDINGS.

It is proposed at an early day to commence the erection of a number of structures for the use of the College of Agriculture and the Agricultural Experiment Station on a line running east and west, and south of the present road in front of the barns. These structures may very well be similar to each other in their external architecture, and they certainly should be highly attractive in style. They are likely to form the south side of the enlarged University quadrangle. They should be designed with reference to likelihood of extending their number almost indefinitely. There is very little in the way of other structures or of precedence to guide us, and much care, experience, and skill are necessary. Our agricultural people have been studying the problem during the last year, and have reached the point where they need architectural help. They think, and I am inclined to agree with them, that better results will be attained if they can have the assistance of one or more of the members of our architectural faculty, so that they may be able to confer frequently and work out the problem together. In late years I have been very reluctant to have our own architects much engaged in this kind of work, but I am impelled to yield to the desire of our agriculturists for their assistance, because of the obvious advantages, and because the task would not seem to be very burdensome. I therefore recommend that Professors White and Temple be requested to assume the task, with the assurance that the Board will in time make such compensation for the services as seems reasonable.

PORTRAIT OF PRESIDENT PEABODY.

Pursuant to your instructions I have caused an oil portrait of Doctor Selim H. Peabody, President of the University from 1881 to 1891, to be prepared by Professor Newton A. Wells. It is ready for your acceptance, and, if accepted, I recommend that the bill of \$126.50 for portrait and framing be ordered paid.

COLLEGE OF MEDICINE.

It appears that Actuary of the College of Medicine inadvertently omitted from his estimates in June an item of \$2,000 for general repairs in the college buildings, and now requests that the oversight be corrected. I accordingly recommend the approval of an item of \$2,000 for general repairs in the buildings of the College of Medicine during the year.

At the special meeting of the Board of Trustees in August the action of the College of Medicine increasing the cost of the general ticket for instruction was approved, but with the provision that it should not go into operation until next year. I have no doubt that this proviso was adopted upon the supposition that there had been no early notice of the change proposed, and that, therefore, if it were to go into effect this year it might be unjust to some. I am advised by the Actuary, however, that a notice of this proposed change was published in the annual announcements of the college which were issued more than two months ago, and that already more than an hundred students have paid the increased amount; that no objection is made anywhere to the advance; and that after the advance is made the fees at our College of Medicine will be lower than at other institutions of equal grade in Chicago. I therefore recommend that the increased change be approved to go into effect at once.

AGRICULTURAL ESTIMATES.

I transmit the estimates of the College of Agriculture and the Agricultural Experiment Station, with the recommendation that they be approved as follows:

From U. S. college fund.....	\$3,000 00	From Receipts—	
From teachers' and institutes' fund.....	2,000 00	College—dairy department.....	\$1,000 00

Total	\$16,750 00	Total	\$1,474 37

Approved.

S. W. SHATTUCK, *Business Manager...*

PRINCIPAL OF PREPARATORY SCHOOL.

Mr. Frank Hamsher, Principal of the Preparatory School, is sick with a serious malady at Colorado Springs, Colorado, and will not be able to resume his work at the opening, and possibly ought not to for a year, although I have confidence that he will be able to eventually.

Mr. Hamsher is a man of fine character, and has rendered the University an exceedingly capable and very assiduous service. It is the desire of all to aid him to the fullest extent practicable in the present emergency, and he certainly deserves this at the hands of the University authorities. The other members of the faculty of the Preparatory School are more than ready to share his work among themselves, so far as it is practicable, and I recommend that he be granted a leave of absence for the year, and that I make such arrangements about carrying on his work as may seem advisable, and with such adjustment as to salary as will save so much for him as may be possible.

Respectfully submitted,

A. S. DRAPER,
President.

President Draper's recommendations were adopted in full.

The Secretary presented the following letter from Mrs. Peabody.

Mrs. Selim Hobart Peabody and family have received the beautiful copy of resolutions passed by the Board of Trustees of the University of Illinois upon the death of Dr. Selim Hobart Peabody and are thankful for it.

They desire also to express their gratitude for the sentiments stated therein, which they greatly appreciate.

July 7, 1903.

The Secretary presented the Registrar's statement of fees due from students attending the summer term. He also presented the Treasurer's report. These were referred to the Finance Committee.

UNION LABEL.

On motion of Mr. Bullard the following resolution was adopted:

Whereas, In a communication from the Champaign and Urbana Typographical Union No. 444, this Board was requested to take action "authorizing the use of this label (Union label) upon the catalog, announcements, circulars of information, and all other printed matter of the University, excepting only small cards, circulars," etc., and

Whereas, This Board did take such action and, inasmuch as the action is susceptible of more than one interpretation, now be it

Resolved, By this Board that when printed matter of the University of Illinois is produced in a shop employing union labor, such shop is authorized to place upon such publications the union label, provided such shop shall so elect.

COAL CONTRACT.

The Committee on Buildings and Grounds made the following report with regard to contracts for furnishing and hauling coal for the University for the year beginning September 1, 1903, which was adopted.

URBANA, ILLINOIS, Sept. 8, 1903.

To the Board of Trustees:

Your Committee on Buildings and Grounds begs leave to report as follows concerning the contracts for furnishing and hauling coal for the University during the year ending August 31, 1904.

July 21 an advertisement was inserted in one Urbana and two Champaign papers asking proposals for coal. The same was mailed to nine dealers in Illinois, known to us, and a letter was sent to them calling their attention to the advertisement. A letter was sent to about six other dealers in Urbana and Champaign calling their attention to the advertisement. The attention of the Wabash and Illinois Central Railroad officials was also called to the advertisement by letter. August 5 your committee received the following sealed proposals:

Belle & Zoller Coal Company, Chicago, No. 2 Nut or Pea coal.....	\$1.80 per ton.
St. Louis & Big Muddy Coal Company, Carbondale, 4,000 tons No. 3 and No. 4 Washed Pea.....	\$2.33 per ton.
Weaver Coal and Coke Company, Chicago, Roller-screened No. 2 Nut and Pea mixed.....	\$2.18 per ton.
Springfield Coal Mining Company, Chicago, Pea Coal	\$1.60 per ton.

Your committee awarded the contract to the Springfield Coal Mining Company at \$1.60 per ton, f. o. b. cars Urbana, as it was the lowest and best proposal.

The Springfield Coal Mining Company is a merger company and its mines are located in Sangamon and Christian counties in Illinois, the mines of the Riverton Coal Company, from which we have been supplied with coal for the last three years, being a part of the property of the new company.

At the same time and place proposals were asked and received for hauling coal for the year ending August 31, 1904, from the railroad tracks to the heating plant. Two bids were received, one from Renner Brothers, Urbana, for twenty cents a ton from Urbana; twenty-three cents from the Green street crossing, Champaign; and thirty cents from University avenue crossing, Champaign; and one from Pearl Adams, Urbana, for twenty cents a ton from Champaign or Urbana. The proposal of Pearl Adams for hauling coal from the Urbana tracks was accepted.

In this contract we realize that the increased demand in the coal market has seriously increased prices. We pay forty-three cents per ton more than last year, an increase of thirty-six and seven-tenths per cent. The total cost for coal this year at the price contracted is \$19,200.00 and the cost of hauling \$2,400.00 additional. Good bonds have been furnished by the Springfield Coal Mining Company and by Pearl Adams, and the contracts have been executed, and all the papers have been filed with the Secretary of this Board.

Respectfully submitted,

ALEXANDER MCLEAN,
S. A. BULLARD,
A. F. NIGHTINGALE,

Committee on Buildings and Grounds.

An appropriation of \$200.00 was made for putting in a floor in the second story of the Wood Shop.

Mr. Bullard was authorized to settle with Professor White for his services during the vacation.

The Finance Committee made the following report:

REPORT OF THE FINANCE COMMITTEE.

June 24, 1903.

To the Board of Trustees:

Your Finance Committee begs leave to report that it has examined vouchers submitted by the Business Manager for the six months ending March 31, 1903, on which warrants have been issued as follows:

General University, No. 926 to No. 3,475, inclusive.
Agricultural Experiment Station, No. 76 to No. 251, inclusive.
School of Pharmacy, No. 26 to No. 129, inclusive.
College of Medicine, No. 187 to No. 1,015, inclusive.

We have found the above vouchers in due form and properly receipted, except the following voucher not presented at this time, which is missing:

College of Medicine, No. 684, January 20, 1903, Medical Digest, Ad., \$25.00.

We also find that the following vouchers, which were reported missing in our report of December 13, 1902, are now properly receipted and in the files:

No. 660, Sept. 20, 1902, Urbana Feed & Coal Co., grinding..\$3 10
No. 907, Sept. 30, 1902, J. C. Drake, expenses.....31 55

We recommend the same for your approval.

Respectfully submitted,

ALEX. MCLEAN,
WM. B. MCKINLEY,
LEONIDAS H. KERRICK.

The Board then took a recess until 2:00 o'clock p. m.

AFTERNOON SESSION, SEPTEMBER 8, 1903.

The same members were present when the Board met after the recess as during the morning.

URBANA AND CHAMPAIGN RAILWAY, GAS & ELECTRIC COMPANY.

The following resolution offered by Mr. Bullard was adopted:

Resolved, That the Board authorize the President of the Board to consent on the part of the University to the granting of a new right of way for a single track to the Urbana and Champaign Railway, Gas and Electric Company through Springfield avenue and University avenue upon agreement by the railroad company to convey by quit-claim deed all rights said company may have to the old right of way through the University grounds between the Metal Shops and the Wood Shop, and from Wright street to the eastern boundary of the University grounds and to one-half of said right of way from said boundary to Mathews avenue, and that the litigation now pending between the University and the Railway Company be discontinued without costs to either party.

The following resolution offered by Mr. Nightingale and seconded by Mr. McLean was adopted:

Whereas, The Trustees of the University of Illinois have heard with deep sorrow of the death of Mrs. Thomas J. Smith, therefore

Resolved, That we extend our profound sympathy to Captain Smith, our former associate in the Board of Trustees in this time of his bereavement.

Resolved, That we remember the many kindnesses extended to this Board by Mrs. Smith, her unbounded hospitality, her sterling womanly qualities, and her benign influence as an intelligent, earnest, and devoted member of society.

Resolved, That this minute be spread upon our records and a copy properly engrossed be presented to Captain Smith.

Mr. Weaver's bill of \$78.60 for services as special master in chancery was ordered paid.

Paper S is a copy of the agreement made with Dr. L. D. Baldwin, leasing the School of Pharmacy Building from 6 p. m. to 11 p. m. from the first day of September, 1903, to the first day of May, 1904, for the purpose of an Evening Medical School.

Paper T is composed of two letters referring to the balance still due Kelly & O'Brien on account of the erection of certain University buildings.

Respectfully submitted,

S. W. SHATTUCK, *Business Manager.*

Appropriations were made as recommended by the Business Manager, see *Paper I*.

CHICAGO COLLEGE OF DENTAL SURGERY.

The Board adjourned to meet at the Beardsley Hotel at 9 o'clock p. m., for a conference with Dr. Brophy, the president of the Chicago College of Dental Surgery.

EVENING SESSION, SEPTEMBER 8, 1903.

At the evening session the same members were present as during the preceding sessions.

After a somewhat prolonged discussion, the question under consideration was referred to the Committee on the College of Medicine with which President Draper and Professor Shattuck, the Business Manager, were to co-operate.

The Board adjourned.

W. L. PILLSBURY,
Secretary.

FRED L. HATCH,
President.

MEETING OF SEPTEMBER 19, 1903.

The Board of Trustees of the University of Illinois met at the Auditorium Annex, Chicago, Illinois, Saturday, September 19, 1903, at 10:00 o'clock a. m., in pursuance of the following call issued by the Secretary September 13, 1903.

At the call of the President, Mr. F. L. Hatch, there will be a special meeting of the Board of Trustees of the University of Illinois at the Auditorium Annex in Chicago, at 10 o'clock a. m., Saturday, September 19, 1903, to consider the question of affiliation with the Chicago College of Dental Surgery and such other business as may be duly presented.

There were present Messrs. Bullard, Hatch, Kerrick, McLean and Nightingale and Mrs. Abbott, Mrs. Alexander and Mrs. Evans; absent Governor Yates and Messrs. Bayliss, Dickirson and McKinley. President Draper was present.

In the absence of the Secretary, Mr. Pillsbury, Mr. Bullard was appointed Secretary, *Pro Tem*.

AFFILIATING THE CHICAGO COLLEGE OF DENTAL SURGERY.

The Committee on the College of Medicine, with President Draper and the Business Manager, made a report as follows upon the matter of affiliating the Chicago College of Dental Surgery:

UNIVERSITY OF ILLINOIS, PRESIDENT'S OFFICE,

September 19, 1903.

To the Board of Trustees:

The Committee on the College of Medicine with the President and Business Manager of the University, to which was referred the matter of acquiring the Chicago College of Dental Surgery, respectfully reports as follows:

In the prosecution of our work we very early became satisfied that the standing of the Chicago College of Dental Surgery was excellent, and that the University would be strengthened and the interests of dental education would be profited by acquiring the same, and that there would be economy of administration in associating the work with the Illinois College of Dentistry now operated by the University through the College of Physicians and Surgeons.

We advised with the Dean and Actuary of the College of Physicians and Surgeons, and were assured that that college would cordially approve of the acquisition of the Chicago College of Dental Surgery, and would be willing to give over the Illinois College of Dentistry to the University, to the end that the two schools might be organized together and become a College of Dentistry

under the direct management of the University. We also learned that the College of Physicians and Surgeons would also be glad to have the College of Dentistry, or a part thereof, occupy a part of one of the buildings of the College of Physicians and Surgeons. This would involve the payment of reasonable rent, and the adjustment of some other business matters which we were assured would be made upon a fair and mutually acceptable basis. Subsequently the Board of Directors of the College of Physicians and Surgeons adopted the preamble and resolutions hereto attached, the terms of which we recommend be accepted, except the provision that the College of Dentistry shall pay insurance, taxes and ordinary repairs, which we think should not be accepted.

Discussion with the officers of the Chicago College of Dental Surgery developed the fact that they would be glad to convey the property and good will of the college to the University on some such arrangement as that originally made with the College of Physicians and Surgeons if mutually acceptable valuations of their property could be agreed upon.

To reach such agreement as to values each party employed a well known architect to appraise the real estate, and the Business Manager of the University made inventories and a careful estimate of the equipment of the college. In this way we came to the conclusion that the sum of \$140,000 was not an unreasonable cash value of the real estate, and the sum of \$44,000 a fair cash value of the equipment. The college had urged that the property and good will should be estimated at the sum of \$260,000 for the purposes of such transaction. This sum seems to us too large, but it did not seem unreasonable that some allowance should be made for the fact that it was not to be a sale for cash, but rather a joint venture, and that the University was not to assume any financial liability, and that the purchase price was to be paid out of the earnings of the institution. It also seemed reasonable that some allowance should be made for the good will of the college, in view of the fact that we were not only acquiring the property, but also a prosperous and successful school which had been built up by the capable and energetic men with whom we were negotiating. We therefore agreed among ourselves upon the sum of \$200,000 as a fair value of the property, both real and personal, and good will, and all of the effects and rights of the college, and urged the acceptance of that sum, and that was finally done.

Thereupon we proceeded to consider the details of a joint contract to be executed between us, and agreed upon the form herewith submitted. We have caused the same to be examined by Hon. George W. Gere, of Champaign, and submit herewith his written opinion approving the same. We therefore recommend that such contract be approved and executed on the part of the University, and that the President and Secretary of the Board be authorized and directed to execute the same on the part of the Board, and attach thereto the seal of the University.

We also recommend that it be understood and agreed with the College of Physicians and Surgeons that if the University so desires the School of Pharmacy shall after this year occupy a part of the building now occupied in part by the School of Dentistry, and that in that event the rent charged against the College of Dentistry shall be reduced by so much as would be a reasonable charge for rent against the School of Pharmacy.

S. A. BULLARD,
ALEXANDER MCLEAN,
A. S. DRAPER,
S. W. SHATTUCK,

Committee.

COLLEGE OF PHYSICIANS AND SURGEONS ON THE PROPOSED
AFFILIATION.

The following was presented as action taken by the College of Physicians and Surgeons in reference to the proposed affiliation of the College of Dental Surgery:

Whereas, The Chicago College of Dental Surgery is conducting a college of dentistry in the city of Chicago, Illinois, and,

Whereas, The University of Illinois is conducting a school of dentistry, developed at the expense of the corporation of the College of Physicians and Surgeons, in premises owned by the said corporation in the city of Chicago, and,

Whereas, The University of Illinois is now, under lease, paying to said corporation \$12,000 annual rental on said premises out of the earnings of the College of Medicine of the said University, and,

Whereas, It is believed by the University of Illinois and the Chicago College of Dental Surgery that the two dental schools if united and run under one management, could be made to fill a wider and larger usefulness in professional education than at present, and at a less expense, and,

Whereas, The corporation of the College of Physicians and Surgeons is willing to relinquish and transfer its ownership and control of the School of Dentistry of the University of Illinois to the said University,

Now, therefore, The College of Physicians and Surgeons hereby agrees to relinquish and transfer its ownership and control of the School of Dentistry of the University of Illinois to the said University of Illinois, subject to the following conditions and consideration, to which the University of Illinois and the Chicago College of Dental Surgery hereby agree:

First, That the premises No. 813 West Harrison street, now occupied by the School of Dentistry, shall remain as now the property of the corporation of the College of Physicians and Surgeons, until paid for by the University of Illinois, after which it shall be reserved for the uses of the College of Medicine of the University of Illinois.

Second. That the new dental department will occupy the said premises and that during the period of the present lease bearing date February 9, 1900, the University of Illinois (of the said \$12,000 annual rental as provided therein for said premises), shall pay out of the earnings of the dental department \$6,000, the remaining \$6,000 to be paid, as now, out of the earnings of the College of Medicine; it being understood and agreed that there shall be reserved in the premises, for the uses of the College of Medicine, such space as it may now require for the accommodation of its anatomical department.

Third. Any changes in the building of said premises for the benefit of the dental department shall be made only with the written consent of the directors of the College of Physicians and Surgeons and at the expense of the dental department.

Fourth. Insurances and taxes upon the said premises and all costs of repairs made thereon during the occupancy of the dental department shall be paid out of the earnings of the dental department.

Fifth. Power and light furnished to the dental department by the College of Medicine shall be paid for at cost, out of the earnings of the dental department.

Sixth. In case the said premises shall be required by the College of Medicine for its own use before the expiration of said lease, May 1, 1925, then the dental department shall vacate the premises, expenses on its account shall terminate and thereafter the whole of said \$12,000 annual rental as provided in the lease of February 9, 1900, shall be paid out of the earnings of the College of Medicine.

Doctors Quine, Steele and King, of the College of Physicians and Surgeons, the University College of Medicine and Doctors Brophy, Johnson, Gardner and Wassels, of the Chicago College of Dental Surgery, were present.

A lengthy discussion ensued in reference to the details of the proposed agreement. In the course of this the Board took a recess until 1:30 p. m. for lunch. Upon reconvening the same parties were present. Dr. Steele announced that during the recess the Board of Directors of the College of Physicians and Surgeons had held a meeting and authorized him to announce that that College would agree to the recommendations of the report of the Committee of the Board except as to the cost of ordinary repairs in the rooms to be rented to the College of Dentistry, and had also agreed that if the proposed plan should be consummated the University might install the School of Pharmacy in the same building and that if this were done the rent paid by said school should go to the College of Dentistry.

After much discussion the proposed agreement with the Chicago College of Dental Surgery was modified so as to read as follows, and in this form the report of the committee was, on motion of Mr. McLean, seconded by Mrs. Evans, unanimously adopted, the representatives of the Chicago College of Dental Surgery and of the College of Physicians and Surgeons, the University College of Medicine assenting thereto:

**CONTRACT BETWEEN THE CHICAGO COLLEGE OF DENTAL SURGERY
AND THE UNIVERSITY OF ILLINOIS.**

Whereas, The Chicago College of Dental Surgery is conducting a College of Dentistry in the city of Chicago, Illinois, and,

Whereas, The University of Illinois, through its Medical College, the College of Physicians and Surgeons, is conducting a School of Dentistry in the city of Chicago, and,

Whereas, It is believed by the University of Illinois, its Medical College, and the Chicago College of Dental Surgery that the two dental schools if united and run by one management could be made to fill a wider and larger usefulness in professional education than at present, and at a less expense, and,

Whereas, It is the desire of the Chicago College of Dental Surgery that the University of Illinois take charge of and continue the educational work which is now being done by the said Chicago College of Dental Surgery, and,

Whereas, It is the desire of the University of Illinois to enlarge and improve the educational work in dentistry which it is now doing by taking control of and continuing the work now being done by the Chicago College of Dental Surgery,

Now, therefore, To accomplish these ends the Chicago College of Dental Surgery and the University of Illinois have entered into the following agreement, to-wit:

1. This indenture is made this 30th day of September in the year of our Lord One Thousand Nine Hundred and Three, between the Chicago College of Dental Surgery, a corporation duly incorporated and existing under and by virtue of the laws of the State of Illinois, party of the first part, and the University of Illinois, a corporation duly incorporated and existing under and by virtue of the laws of the State of Illinois, party of the second part.

2. That the said party of the first part, for and in consideration of the covenants and agreements hereinafter mentioned to be kept and performed by the said party of the second part, does agree to sell and convey with warranty deed within thirty days from the date of this instrument all of its real estate situate, lying, and being in the city of Chicago, in the county of Cook, and State of Illinois, known and described as follows, to-wit:

Lots eight, nine and ten in the resubdivision of block four of the assessor's division of the east half of the southeast quarter of section eighteen, in township thirty-nine north, range fourteen east of the third principal meridian; to have and to hold the above described premises with the buildings and appurtenances thereto belonging, forever, subject to such liens for bonds which are hereinafter specially permitted in this instrument, together with the property described in the schedule hereto attached and marked "Schedule A" which schedule bears the signature of Truman W. Brophy, on behalf of the Chicago College of Dental Surgery, and S. W. Shattuck, on behalf of the University of Illinois, for the purposes of identification.

3. And the said party of the second part for and in consideration of the transfer of the aforesaid premises (by the said party of the first part to the said party of the second part, and also for and in consideration of the covenants and agreements hereinafter contained, to be kept and performed by the said party of the first part, its successors and assigns, covenants and agrees to pay to the said party of the first part the sum of two hundred thousand dollars (\$200,000); *provided*, however, that the said second party shall not be required to pay the said sum of two hundred thousand dollars (\$200,000) except out of the net earnings of the College of Dentistry, that is, the net earnings that remain after the payment of all other expenses; and in the manner hereinafter specified in the payment of the bonded indebtedness.

4. It is hereby further covenanted and agreed by and between the parties hereto that the real estate hereinbefore described and the personal property set forth in "Schedule A," comprise all of the real estate, furniture, apparatus, equipment, books and other effects of the party of the first part hereto, covenanted to be conveyed according to the terms and provisions of this instrument.

5. It is hereby agreed and understood by and between the parties hereto that the term "net earnings" used in this instrument shall mean all that sum remaining of the gross earnings of the College of Dentistry for any year after the payment of all current expenses, including all sums named as regular or contingent interest on the bonds described herein, and June 30th of each year is hereby fixed as the end of the financial year when the net earnings shall be determined and payment on bonds shall be made.

6. It is further agreed by and between the parties hereto that the University of Illinois shall continue to conduct a College of Dentistry, combining its own present School of Dentistry with the college hereby acquired, under the name of the "Chicago College of Dental Surgery, the College of Dentistry of the University of Illinois;" and it is further understood and agreed that the Chicago College of Dental Surgery will not further maintain nor conduct a college of dental instruction; and that it will aid by its good will, and will render all its influence, to promote and advance the interests of the College of Dentistry of the University of Illinois.

7. It is further covenanted and agreed that the net earnings of the College of Dentistry shall annually be applied by the University of Illinois to the payment of the said purchase price, the bonded indebtedness of the College of Dental Surgery, amounting to two hundred thousand dollars (\$200,000) till the whole shall be paid; and it is provided that the University of Illinois may at any time pay off the balance of the said sum of two hundred thousand dollars (\$200,000) or any part thereof remaining unpaid, out of any funds at its command.

8. It is understood and agreed by the parties hereto that upon the real estate belonging to the Chicago College of Dental Surgery and described herein, and which is to be transferred according to the terms of this instrument to the University of Illinois, there is an incumbrance of seventy-five thousand dollars (\$75,000) in the form of bonds of the said Chicago College of Dental Surgery drawing interest at the rate of six per cent per annum, and secured by a first lien upon the real estate aforesaid, that of the said bonds \$25,000 will be matured on July 1, 1906, and \$50,000 will be matured on June 1, 1908; and it is further understood and agreed that there is a floating indebtedness of the Chicago College of Dental Surgery amounting to about twenty-five thousand dollars (\$25,000) and that there is no other indebtedness of said corporation.

9. It is further understood and agreed by the parties hereto that the Chicago College of Dental Surgery is hereby authorized and permitted to issue bonds of the corporation to be due in ten to thirty years from date to the amount of one hundred and twenty-five thousand dollars (\$125,000) and to secure the same by a second lien upon the real estate of the corporation heretofore described, said bonds to draw interest at the rate hereinafter set forth; that twenty-five thousand dollars (\$25,000) of the said bonds shall be marked "preferred" and one hundred thousand dollars (\$100,000) of the said bonds shall be marked "common;" that the Chicago College of Dental Surgery shall out of the proceeds of the foregoing "preferred" bonds pay all the aforesaid floating indebtedness of the said Chicago College of Dental Surgery; that the twenty-five thousand dollars (\$25,000) of "preferred" bonds shall draw interest at the rate of five per cent per annum, that the one hundred thousand dollars (\$100,000) of "common" bonds shall bear no interest and that the holders and owners of the same shall have no claim for interest against either of the parties hereto until the sum of twenty-five thousand dollars (\$25,000) of the first mortgage bonds or of the "preferred" bonds or of bonds issued in lieu thereof shall be paid and discharged and shall no longer be an indebtedness of either of the parties hereto, and in that event the "common" bonds shall draw interest at the rate of one (1) per cent per annum and no more; that in the same manner when fifty thousand dollars (\$50,000) of the first one hundred thousand dollars (\$100,000) of bonded indebtedness has been paid and discharged then, and not till then, the "common" bonds shall bear interest at the rate of two (2) per cent per annum, and no more; that when seventy-five thousand dollars (\$75,000) of the first one hundred thousand dollars (\$100,000) of bonded indebtedness shall be paid and discharged the "common" bonds shall then, and not till then, bear interest at the rate of three (3) per cent per annum, and no more; and that when the whole of the first one hundred thousand dollars (\$100,000) of bonded indebtedness shall be paid and discharged then, and not till then, the "common" bonds shall bear interest at the rate of four (4) per cent per annum, and that this agreement about interest on the "common" bonds shall be incorporated in said "common" bonds; and *provided further*, that all the bonds so issued under this section shall be registered by the Secretary of the University of Illinois in his office, and no bonds shall be binding until such registry is shown on the said bond under the seal of the University.

10. It is further agreed by and between the parties hereto that the University of Illinois shall annually as it becomes due, out of the net earnings of the College of Dentistry, pay the interest on seventy-five thousand dollars (\$75,000) of the first mortgage bonds, and the interest on such bonds as may be issued to retire an equal amount of the first mortgage bonds; the interest on the twenty-five thousand dollars (\$25,000) of "preferred" second mortgage bonds, and the interest on the one hundred thousand dollars (\$100,000) of "common" second mortgage bonds, as agreed upon and herein above set forth.

11. All the net earnings of the College of Dentistry shall annually be applied by the University of Illinois as follows: (a) to the payment of the first mortgage bonds till all are paid, or are exchanged for other bonds; (b) to the payment of the said bonds which are issued in exchange for the said first mortgage bonds; (c) to the payment of the said second mortgage bonds, giving first prefer-

ence to the "preferred" bonds, *provided*, that until the maturity of the first mortgage bonds the net earnings of the Dental College shall be held by the Treasurer of the University of Illinois and then applied upon the payment of the said first mortgage bonds when they mature, together with all interest which may accrue on the said net earnings while in the hands of the Treasurer.

12 It is further agreed by and between the parties hereto that the University of Illinois shall authorize and permit the Chicago College of Dental Surgery to issue bonds running from one to ten years and at five per cent interest and to secure the same by a lien against the real estate described in this instrument, to an equal amount of and for the full satisfaction of all that remain of the said first mortgage bonds when they severally shall become due; and the Chicago College of Dental Surgery shall provide in the way aforesaid for the payment at maturity of all the said first mortgage bonds which remain unsatisfied and not paid by the University of Illinois from the net earnings of the College of Dentistry as heretofore provided.

13. It is further agreed by and between the parties hereto that the University of Illinois is hereby in no wise financially obligated by the terms and provisions of this agreement beyond the net earnings of the College of Dentistry; and the Chicago College of Dental Surgery binds itself to guard the University of Illinois from all such loss or liability resulting from this agreement.

14. It is further agreed by and between the parties hereto, that until the total amount of \$200,000.00 has been paid by the University of Illinois according to the terms and in the manner stated in this agreement that the University of Illinois shall not, without the consent of the Chicago College of Dental Surgery increase salaries in the said College, reduce fees, nor in general adopt a policy that will lessen the amount of annual net earnings for the College of Dentistry.

15. It is further provided that should the University of Illinois and the Chicago College of Dental Surgery agree in order to properly provide for the College of Dentistry to rent other buildings for the use of the College of Dentistry and occupy other property in addition to that described herein, the cost of rentals, heating, lighting, power, and the additional operating expenses incurred in the use of said property shall be considered a part of the necessary expense of the College and be paid from the gross earnings of the same.

16. It is further agreed that the new College of Dentistry will lease and occupy certain parts of the premises known as 813 West Harrison street in the City of Chicago, leased by the College of Physicians and Surgeons of the University of Illinois for the period of twenty-five years by an instrument in writing dated February 9, 1900. Such lease and occupancy shall continue through the remaining time during which said lease has to run or until May 1, 1925. The parts of said building to be so occupied are the parts now occupied by the School of Dentistry of the University of Illinois, and not now used by the Department of Anatomy of the College of Physicians and Surgeons; and in addition thereto the room now used for lockers on the fifth floor of the Laboratory addition. The terms and conditions of such occupancy, which have been approved by the Board of Directors of the College of Physicians and Surgeons are as follows, to-wit: (a) The University of Illinois for and on behalf of the College of Dentistry shall account to the College of Physicians and Surgeons for rent of said premises at the rate of six thousand dollars (\$6,000) per year, but this rental shall be a part of and not in excess of the rent of the building agreed to be paid by the University of Illinois to the College of Physicians and Surgeons, under the lease of February 9, 1900. (b) Any change in the building made for the uses of the College of Dentistry shall be paid for by the College of Dentistry, and made only upon the written consent of the College of Physicians and Surgeons. (c) The building shall be kept in good general repair and tenantable condition by the College of Medicine, but any repairs which may become necessary in the parts occupied by the College of Dentistry by reason of ordinary wear, breakage by students, or otherwise, shall be borne by the College of Dentistry, but the liability of the College of Dentistry in this connection shall not extend to loss or damage by fire, or any other loss or damage

for which its officers or students shall not be responsible. (d) The College of Dentistry shall not bear the expense of insurance or taxes on the building, but shall pay legal charges for water in the parts occupied by the College of Dentistry. (e) Power and light furnished to the College of Dentistry by the College of Medicine shall be paid for at cost by the College of Dentistry to the College of Medicine. (f) If the University of Illinois so desires it shall have the right to remove its School of Pharmacy to and maintain the same in certain parts of said building hereby agreed to be leased to and occupied by the College of Dentistry, and to which arrangement the College of Physicians and Surgeons has agreed, and in that event the School of Pharmacy shall occupy the legal status of a sub-tenant of the University of Illinois or of the College of Dentistry, and shall account to the University or to the College of Dentistry for rent of the parts it may occupy at a reasonable sum to be agreed upon. (g) In case the premises referred to shall be required by the College of Medicine for its own uses before the expiration of the lease to the School of Dentistry, hereby taken over by the new College of Dentistry, then the College of Dentistry upon one year's notice from the College of Physicians and Surgeons to that effect in writing shall vacate the premises, and the lease to the College of Dentistry shall terminate and thereafter the whole of the \$12,000.00 annual rent provided in the lease of February 9, 1900, shall be paid out of the earnings of the College of Medicine.

17. It is further agreed by and between the parties hereto that all tuition fees or funds for instruction, or other services to be rendered after this agreement goes into effect, which have been received or may hereafter be received by the Chicago College of Dental Surgery, or the School of Dentistry of the University of Illinois, shall be accounted for to the Business Manager of the University, and credited to the new College of Dental Surgery, the College of Dentistry of the University of Illinois.

18. It is further agreed that the Faculty of the new College of Dentistry of the University of Illinois shall be constituted of the President of the University, and the Dean, Professors, Instructors, and Lecturers appointed by the Board of Trustees of the University of Illinois after affording time for and considering the recommendations which may be presented to said Board through the President of the University by the Board of Directors or Executive Committee appointed by the stockholders of the Chicago College of Dental Surgery.

19. It is further agreed that until the fulfillment of this contract the Board of Directors of the Chicago College of Dental Surgery or an Executive Committee appointed for the purpose by the stockholders of the Chicago College of Dental Surgery shall have an advisory relation to the President and Business Manager of the University, and to the Board of Trustees with respect to all matters appertaining to the College of Dentistry of the University. It shall annually nominate to the Board of Trustees through the President of the University a Dean, an Actuary, and a Secretary for the College of Dentistry, and shall have the right to nominate in like manner candidates to fill vacancies in the corps of instruction, and it shall co-operate with the University of Illinois in determining the educational policy of the College.

Further, the Dean, with the advice and consent of the Board of Directors of the Chicago College of Dental Surgery or of the Executive Committee of the stockholders shall recommend, as occasion may arise, the acceptance of resignations, or dismissals from the corps of instruction, and shall in like manner, from time to time, recommend the continuance or establishment of chairs of instruction or the change of title of any chair.

It is further provided, however, that should the Board of Trustees of the University not secure from the said Board of Directors or Executive Committee, of the Board of Trustees, qualified and suitable to fill the office of Dean or Actuary, or one who is qualified and suitable to fill any vacancy in a teaching position, then, in that case, the Board of Trustees may proceed to elect such a person to fill such vacancy without reference to any recommendation for such office or such teaching position.

20. It is further agreed by and between the parties hereto that the Actuary shall, with the advice and consent of the Board of Directors or Executive Committee of the stockholders, recommend the rate of compensation to be paid to any member of the corps of instruction, or to any officer or employee of the College of Dentistry. He shall, under the same conditions, recommend in what manner and in what amount other sums from the treasury of the College of Dentistry shall be expended on its account. Nevertheless, the Board of Trustees may decide to pay to any officer, teacher, or employe, a salary which shall be less in amount than that recommended by the Actuary to be paid to any such person, but may not increase such salary, to be paid out of the working fund above provided for, or out of the earnings of the College of Dentistry, beyond the sum thus recommended. Expenditures recommended by the Actuary to be paid out of the working fund or earnings of the College of Dentistry, for any purpose other than the payment of salaries, may be approved, disapproved, or reduced in amount by the Board of Trustees, but may not be increased beyond the sum named in such recommendations.

21 It is further agreed by and between the parties hereto, that any change in the tuition and other fees now in vogue in the Chicago College of Dental Surgery, hereafter to be known as the Chicago College of Dental Surgery, the College of Dentistry of the University of Illinois, shall be the subject of recommendation by the Board of Directors or committee of the stockholders of the Chicago College of Dental Surgery to the Board of Trustees, and by such Board be approved or disapproved.

22. It is agreed hereby and between the parties hereto that this agreement shall be in effect from and after October 1, 1903.

IN WITNESS WHEREOF, The undersigned officers of the respective parties hereto, authorized by resolution of their respective Boards, have hereunto attached their signatures as official representatives of the parties hereto, and the corporate seals of said parties.

It was voted that the contract must be executed by the Chicago College of Dental Surgery within ten days.

President Draper made the following recommendations which were adopted:

To the Board of Trustees:

I have the honor to make the following recommendations:

1. That the School of Dentistry resulting from combining the Chicago College of Dental Surgery and the Illinois School of Dentistry be made a College of Dentistry of the University.
2. That Dr. Truman W. Brophy be appointed Dean of said College.
3. That the organizations heretofore known as the Chicago College of Dental Surgery and the Illinois School of Dentistry be operated the coming year about as heretofore with the exception that the Dean shall have oversight over both; that the Dean submit to the President of the University as soon as practicable a statement showing the terms of engagements with instructors and others for the coming year; that such engagements be ratified and approved and reported to the Board at the next meeting; and that all instructors in both schools be advised that all legal engagements will be carried out, and that those who prove their worth to the University will be desired to remain indefinitely in its service.

A. S. DRAPER, *President.*

President Draper recommended the appointment of Grace Goodale as an instructor in library economy and cataloger in the Library at \$70.00 per months for ten months from September 1st, and the recommendation was approved.

The Board adjourned.

President.

MEETING OF DECEMBER 8, 1903.

The Board of Trustees of the University of Illinois met at the University at 9:00 o'clock a. m., Tuesday, December 8, 1903.

The members present were Messrs. Bayliss, Bullard, Hatch, Kerick, McKinley, McLean and Nightingale and Mrs. Abbott, Mrs. Alexander and Mrs. Evans; absent, Governor Yates and Mr. Dickirson. President Draper was present.

The Secretary presented the minutes of the meetings of September 8, 1903, and September 19, 1903. The minutes were approved.

COMMUNICATION FROM PRESIDENT DRAPER.

To the Board of Trustees:

I present the following recommendations:

EXTENSION OF ENGINEERING EQUIPMENT.

The last legislature appropriated the sum of \$75,000 for each of the two years of the biennial period for the maintenance and extension of the engineering equipment, and our good fortune in this connection has brought a somewhat weighty responsibility to us, for the manner in which we expend the money must necessarily have a very decisive influence upon the future of our College of Engineering. To this subject I have given much and close attention, looking into the circumstances of each of the engineering departments as best I could and conferring frequently with the professors individually and several times more frequently with the Dean and chiefs of departments in a body.

The appropriation was secured not by the efforts of the general authorities of the University alone, but by the very vigorous work of the engineering faculty and the students and alumni of the College, supplemented also by the very cordial co-operation of the organizations and business men engaged in the building and constructive business of the state; and therefore it is quite obvious that so far as practicable the ideas of all these different interests should be considered and that ample time should be taken for correspondence, discussion, and investigation of engineering plants at other institutions, and then for the concentration of opinion. This has been done very fully and the end desired has been substantially obtained.

From the first it has seemed to me that these points should be kept in mind:

1. That provision should be made very thoroughly for undergraduate instruction in all departments and that the present generation of students should see the results of their efforts in securing the appropriation.

2. That we should prepare ourselves to take up any question of a scientific character which might be met by the building and manufacturing interests of the State, to the end that these great interests should be attracted to the University because they could get help here, and so might be glad to give up somewhat of the strength which they have in abundant measure.

3. That in view of the marked prominence of our College of Engineering among the technological schools of the country, this liberal appropriation should put the College, in some lines at least, at the very top of the list and distinguish it in all the land.

4. That we should take some distinctive step which might lead to large results; that we should originate some decisive movement which would date from this decisive appropriation and always be recognized as having proceeded from it.

5. That we should even aim to advance engineering teaching in the world by studying the wide field and taking up such problems in advanced research and investigation as promise to give aid to the constructive energy and inventive genius of the world.

6. That we should lay foundations to command the approval of the legislature and proceed far enough to have our work ready for inspection and to be able to justify more help at the next session.

All this has been laid before and discussed thoroughly with the chiefs of our engineering departments. It was much to expect one whose work and enthusiasm is necessarily largely centered in a single department to rise to the broad and high plane of the problems before us, and favor the policies which would assure essential ends whether the conclusions promised to magnify the importance of his own department or not, but this has been done by our engineering professors in very considerable measure. The conclusions of their joint conferences are set forth in a letter from Dean Ricker herewith submitted.

The conclusions are, generally and briefly:

1. That \$30,000 be allotted for department equipments for undergraduate instruction.

2. That the nucleus of a State Engineering Experiment Station be established.

3. That the metal-working shops must be extended or another building must be erected to provide for larger accommodations for the foundry and the smith shop.

4. That the paramount claim for apparatus and appliances in the interest of advanced work is (a) for a steam laboratory and its equipment and that this requires a separate building which must be erected; (b) that the Laboratory of Applied Mechanics has the next claim for apparatus and already has sufficient space; (c) and that the development of a road laboratory for testing road and paving materials comes next in order.

With the essential points I am in accord. Indeed, as already suggested, they have in the main been worked out between us. I have not much sympathy with the proposition to establish a laboratory for testing road material separately from our general laboratory for testing all materials. I should differ with Dean Ricker's recommendations somewhat, in the allotment of funds to the separate departments for the purchase of apparatus which will be classified with the work of the Engineering Experiment Station. From the nature of their work, some of the departments can have very little association with the investigational operations of the Experiment Station. A relatively small amount of money would put some departments in a higher state of efficiency than a relatively large amount would others. I think the cost of new buildings, which are necessary, should be taken out before an allotment is made. The purchase of some land is not referred to in the letter submitted, but has been considered and we are agreed as to the desirability of it.

For some time it has been the common thought that the University should ultimately own all the land bounded by Green street, Mathews avenue, and Springfield avenue. We cannot carry out our plans in the enlargement of the equipment of the Engineering College without the erection of a building for the Steam Laboratory, and, if this is done it must obviously be done on the strip of ground formerly used by the Street Railway Company, or upon land to be purchased and lying east of the Central Heating Plant, or in part upon each of such parcels of land. It is the common belief that the interests we are discussing

must be kept together and in close proximity to the Heating Station. There are four lots in the rear of the Heating Station, lying next to the old right of way, running from our east line through to Mathews avenue, having an aggregate width of about 270 feet and a depth of 198 feet, held by three different owners, from whom I have an offer of sale. There are two houses upon these lots. The owner would stipulate the right to remove one of these and it would be as well; the other would go with the property. The price asked for the four lots is \$13,000. It is large, but I am satisfied we shall never be able to buy it much if any cheaper. The form of the appropriation would clearly imply the propriety of using a part of the money for the purchase of land for the purpose of extending the engineering equipment. This purchase would go a long way towards settling the ultimate ownership of the entire block, for but two parcels would remain, one of them being at the northeast corner, upon which there is a residence, which is hardly likely to change circumstances and for which we can wait almost indefinitely if need be, and the other being the Christian Association lot at the southeast corner. The Christian Associations have practically decided that they will not build upon this lot as at first intended, and there is no danger of its going into adverse hands. In view of all circumstances, I am in favor of the purchase of the four lots described.

Therefore my recommendations for the action of the Board are as follows:

1. That the sum of \$30,000 be allotted for the reinforcement of department equipments for undergraduate instruction and divided as follows:

College at large.....	\$ 750 00	Applied Mechanics, and Municipal and Sanitary Engineering	\$3,750 00
Architecture.....	3,000 00	Physics.....	3,750 00
Civil Engineering.....	4,500 00		
Electrical Engineering.....	5,250 00		
Mechanical Engineering and Railway Engineering.....	9,000 00		
			\$30,000 00

2. That \$13,000 or so much as may be necessary be appropriated for the purchase of land hereinbefore described and that the Business Manager be authorized and directed to make such purchase.

3. That \$10,000 be appropriated to enlarge the Metal Shops or erect a separate building to provide for the foundry.

4. That \$20,000 be appropriated to erect a new building for the Steam Engineering Laboratory.

5. That a State Engineering Experiment Station be established; and the remainder of the appropriation (\$77,000) be used for the purchase of apparatus having reference to advanced work in engineering research and to experimentation in engineering problems; that this apparatus be installed in the departments to which it relates; that a board consisting of the Dean and the full professors of the College be created to consider and report from time to time upon the lines of work which shall be undertaken, to approve results and supervise publications, and in general to assume joint responsibility concerning the interests, the purchases and proceedings of the Station.

6. That the balance of the appropriation be allotted as follows:

Engineering Experimental Station at large.....	\$ 1,000 00	Mechanical Engineering and Railway Engineering.....	\$30,000 00
Architecture.....	4,500 00	Physics.....	6,000 00
Civil Engineering.....	6,000 00	General Engineering Drawing...	1 500 00
Electrical Engineering.....	10,000 00		
Theoretical and Applied Mechanics and Municipal and Sanitary Engineering.....	18,000 00		
			\$77,000 00

7. That purchases of apparatus for each department be made under the usual forms by the professor in charge with the approval of the Dean of the College and the President of the University as to the advisability thereof and upon the responsibility of the professor and the Business Manager as to the terms thereof, and that purchases shall have reference to the policies determined upon by the Board of Directors.

RELATIONS TO STREET RAILWAY COMPANY.

At the September meeting of the Board, it was resolved that the Board would consent to the granting of a franchise to the Street Railway Company for running cars through Springfield Avenue upon agreement by the Railway Company to convey to the University any rights it had to the old right of way through the University grounds and that thereupon the litigation between the University and the Railway Company should be settled.

The consent was given, not only by the University but by other owners of adjoining property, but it soon developed that the city government of Urbana would not grant the franchise except in conjunction with franchises upon several other streets in the city and upon the agreement of the Railway Company to accept such franchises and build at least two additional long lines of road running from the center of the city through or past the University grounds, and otherwise enlarge its service. The company has steadily asserted that it could not, on sound business principles, comply with these demands, but has, as steadily, expressed a willingness to respond to a very considerable part of them. Because of this disagreement no settlement between the University and the company has been effected.

With the question of street railway service in Urbana, the University can have little to do beyond protecting its own grounds from encroachment. We, of course, desire that our neighbors shall have such railway service as the business which they would be likely to give to the road would entitle them to have, but we are not to be involved in differences as to what that amount is. But if so much seems clear, it also seems quite as clear to me that the city government will have difficulty in finding good ground to justify it in refusing permission to the road to occupy the street for a very short distance, half of which is bordered on both sides by the University grounds, when the adjacent owners do not object, when no other interest of the city is claimed to be injured, and when the grant will settle an annoying and expensive litigation and give the University a strip of land running through its Campus and which it needs for the extension of its buildings and the improvement of its grounds. We will not believe that this course will be long persisted in when the matter comes to be understood by the people of the city. I am personally willing to leave this phase of the question to discussion and to the sense of justice of a people whose relations with the University have been agreeable and whose interest in the development of the University is paramount.

I therefore recommend the adoption of the following:

Resolved, That upon the conveyance by the Street Railway Company to the University of the strip of land commonly known as the "old right of way" from Wright street to Mathews avenue, the University will grant permission to the Railway Company to lay a track and operate its cars over such strips of land until such time as the City of Urbana shall grant a franchise to the Interurban Railway Company for the term of thirty years, from the present line on Mathews avenue north to Springfield avenue and thence west on Springfield avenue to its present line on Wright street. But if the University should need the old right of way at any time in the future for the erection of additional buildings or otherwise, the University shall have the right to require the road to change its course and run north immediately after entering the University grounds from the east and then run west on land provided by the University on the south side of Springfield avenue in a way which will assure to the road the right to

connect with its line on Wright street. This permission is to be given only upon the agreement of the Railway Company to withdraw wholly from all use or occupancy of the said strip of land which it may be occupying within three months from the time when said franchise shall have been granted by the City of Urbana. And upon the conveyance and permission herein referred to the litigation between the University and the Railway Company shall be settled.

THE SCHOOL OF PHARMACY.

Ever since we have had possession of the School of Pharmacy, it has occupied a rented building at No. 465 State street, Chicago. The location has for some reasons not been desirable but still it has been in proximity to the business area and many of the drug stores of the city from which the school draws many students. As there is room for the school in the building occupied in part by the College of Medicine and in part by the College of Dentistry and as the occupancy of a part of that building by the School of Pharmacy would aid in meeting the expenses of the building, it seems well that the School of Pharmacy should be transferred to it.

It is therefore recommended that the School of Pharmacy be moved to our own building in Chicago after the present year and that the Business Manager cause quarters to be fitted up for it and adjust the matter of rent with the other interests involved.

PROPOSITION CONCERNING HOUSE FOR DIRECTOR OF THE EXPERIMENT STATION.

I transmit a letter from the Dean of the College of Agriculture and Director of the Agricultural Station, proposing that the University erect and maintain a house for the Director of the Experiment Station and offering to give a site on Wright street opposite the University grounds for the purpose, if the University will do so. I have advised that officer that I do not approve the proposition but would submit it to the Board if he desired, and he has expressed the wish that I do so.

Because the suggestion does not commend itself to my judgment, I would not have it inferred that I am unmindful of the good purposes of Dean Davenport in the matter.

I disapprove the proposition on the broad ground that I do not think it good policy for the University to go farther than it has gone in providing houses for its officers, unless it shall seem necessary for the protection and care of its property.

Aside from the broad question the following considerations appear to be against this particular proposition:

There is no money appropriated for this purpose and to use funds provided for other purposes would involve the necessity of explanation and defense.

I see no reason for erecting a house for the Director of the Agricultural Experiment Station which would not apply with equal force to a very considerable number of other University positions.

An arrangement of this particular kind would in a moral and honorable, if not in a legal sense, bind ourselves and our successors to continue in office one who had given a site for such a house, when we are bound to keep ourselves and our successors wholly free in such a matter. Saying this, it is well for me to add, which I do with pleasure, that Dean Davenport's services are very satisfactory to the University, indeed that they have deserved our warm commendation. Even this would not warrant us in ignoring the obvious principle suggested. And, moreover, it is quite possible that it may seem well at some time to separate the offices of Dean of the College of Agriculture and Director of the Experiment Station, and that we should remain free to do that, and in case it should be thought wise we should be free to assign the present incumbent of both to the one for which he may seem best adapted.

Therefore, I recommend that the thanks of the University be expressed to Dean Davenport for his offer and that he be advised that the Board does not think it well to act upon it.

NAME OF THE PREPARATORY SCHOOL.

I recommend that the school maintained by the University and commonly called the Preparatory School be hereafter named and called "The Academy of the University of Illinois."

AGRICULTURAL COLLEGE MATTERS.

Last summer Mr. Louis Dixon Hall was appointed Instructor in Sheep Industry for five months at \$125.00 a month. At the request of Dean Davenport, I recommend that he be appointed for the remaining five months of the year at \$100.00 a month.

It is recommended that the following appropriations be made for the agricultural work:

From teachers' and institute fund	\$2,000 00	From State funds for College....	\$6,000 00
From interest on endowment.....	5,000 00	From United States Station funds	3,750 00

Respectfully submitted,

A. S. DRAPER.

All the foregoing recommendations were adopted except that relating to the School of Pharmacy, which was referred to the Committee on the School of Pharmacy for report at next regular meeting of the Board.

President Hatch announced the following as members of the Standing Committee on the College of Engineering: W. B. McKinley, Chairman, S. A. Bullard and Alexander McLean.

BONDS FOR ARMS.

The following resolution was offered by Mr. McLean:

Resolved, That the University execute as principal, and deliver to the government of the United States a bond in the penal sum of \$9,590.40 for additional ordnance and stores, consisting of three hundred Springfield cadet rifles and sets of equipment, to be issued to the University for the use of the military department by the Secretary of War, and that Mr. Frederic L. Hatch, President of the Board of Trustees, be and is hereby authorized to sign said bond on behalf of the University, and attach thereto the seal of the University.

The resolution was adopted.

On motion of Mr. Bayliss it was voted to purchase saddles and bridles for the purpose of mounting three officers of the regiment.

SUMMER TERM.

Seven thousand dollars, or so much thereof as should be needed, was appropriated to defray the expenses of the summer session of 1904.

President Draper's bill, amounting to \$85.95, was ordered paid upon recommendation of the Finance Committee.

CORRESPONDENCE SCHOOL OF AGRICULTURE.

The Committee on Instruction made the following report with regard to establishing a correspondence school of agriculture under the direction of the College of Agriculture, the subject having been referred to the committee at the meeting of June 8, 1903.

Your Committee on Instruction to which was referred the subject of a correspondence school of agriculture, presents the following report:

In considering the question of a correspondence school in agriculture at the University of Illinois, as requested by the Illinois State Farmers' Institute, the Committee has directed inquiry along the following lines:

1. What is now doing by the College of Agriculture?
2. What phases of agricultural education are untouched and what classes of people, if any, are left unprovided for?
3. What has been done elsewhere in the way of correspondence schools in agriculture?
4. What amount of money is essential to the successful operation of such a school?
5. What recommendations shall be made as the result of these inquiries?

On these several points the Committee reports as follows:

WHAT THE COLLEGE AND STATION ARE DOING.

The work of the University already in progress along agricultural lines is as follows:

1. It prosecutes original investigations, publishes literature, and makes practical demonstrations calculated to benefit nearly all the leading agricultural industries of the State.

2. Through its various agricultural departments it conducts a correspondence amounting to many thousands of letters annually, which letters are generally in answer to definite questions.

3. It offers a high grade of instruction, both as regards teachers and facilities for study, to all young men of college age who avail themselves of privileges offered.

4. The teachers and investigators freely attend farmers' institutes and other agricultural meetings, and come into intimate personal contact with thousands of the leading farmers of the state.

5. In addition, one man gives his entire time and attention to extension work, reaching the farmers directly by personal visits at institutes, and the children of the farmers' families by correspondence, for the purpose of stimulating in them a desire for higher education, whatever their present or future occupation.

6. These young people, generally 12 to 14 years of age, and sometimes older, are frequently associated into clubs, following definite lines of study and experimentation outlined by the superintendent of college extension work, and do thereby cultivate an interest in rural affairs, and a sympathy with their environment.

7. A convention is held annually the last two weeks in January in which both University men and farmers engage in the freest conference on all subjects connected with successful farm practice.

It is evident that all these lines of work are fundamentally useful, and that they would in no sense be rendered less necessary by a correspondence school. The question remains, however, whether important features of agricultural development are left unprovided for, whose needs would be served by a correspondence school.

WHAT IS NOT DONE.

The committee believes that there are three classes of people not yet fully provided for and who might be helped by such a school; first, young farmers, married and settled, or otherwise unable to attend college; secondly, the young people who become connected with the extension work, but who do not later attend college, and for whom study should be provided after they have outgrown the work of the college extension and passed the age for which it is adapted; thirdly, many teachers of rural schools who need a better education along these lines.

The first of these classes would naturally decrease with time, but the second, and perhaps the third, would as naturally increase, though as a permanent policy it is doubtless the function of the normal school rather than the University to give this class of instruction to teachers.

The agricultural press, the bulletins of this and other states, and of the National Government, and a rapidly growing literature in book form are also serving the people well, and yet it seems that these three classes might be benefited by a correspondence school, provided they would be likely to avail themselves of its advantages. Upon this point the committee has not been able to gather sufficient information.

WHAT HAS BEEN DONE ELSEWHERE.

A correspondence school has been opened in Toronto, but little has been accomplished thus far. One has been organized by the King Richardson Co., of Springfield, Massachusetts, and is meeting with fair success. It uses text books in three parts. The Pennsylvania State College has been operating a correspondence school successfully for a number of years using, not text books, but specially prepared lessons in mimeograph form.

The latter mentioned effort is the only one that can be called really successful. A day spent with these people furnished the information that many will take the work and do well, and that very many soon discontinue it. All classes of people are represented.

THE AMOUNT OF MONEY NEEDED.

The committee is convinced that from \$3,000.00 to \$5,000.00, together with the fees, will be needed for establishing and operating a successful correspondence school.

RECOMMENDATIONS.

In view of all the conditions the following recommendations are presented:

1. If a correspondence school should be established it should be adapted especially to the three classes of people mentioned above.
2. It should in no sense supplant other lines of work already in successful operation.
3. It should have an organization of its own with a responsible and capable head and an ample clerical force, and, for administrative purposes, should be attached to the College of Agriculture, but it should have no vital connection with existing departments.
4. The agricultural departments of the University should give the school the benefit of expert knowledge along special lines, but they should not on account of this assume new duties or additional labors.
5. Experience and the widest inquiry should determine the method and matter of the instruction to be given.
6. Ample funds should be at hand to do the work in a thoroughly creditable manner, and for this purpose from three to five thousand dollars aside from the fees should be assured, annually, for two years.

7. Aside from the merits of the case, the committee after the most serious consideration, is driven to the conclusion that a correspondence school is such a departure from established lines that there are no funds under existing appropriations which can be used for the establishment and maintenance of such a school, and that legislative authority is therefore needed.

8. The Committee is favorable to the enterprise, but in view of the facts that it is a large question, that it involves many important considerations, that it should be thoroughly discussed by the agricultural press, by farmers' institutes, and by all assemblies interested in promoting the agricultural advance of the State, and that no serious mistake be made, it recommends that another year be given to a frank and full investigation of the whole matter, to the end that when such a school is established, it will be of great advantage to farming interests and a credit to the State.

9. The committee further believes that a maximum fee of twenty dollars for the full course and a minimum fee of ten dollars for any part of it should be established, in order that the school may be self-sustaining, that more serious work may be secured from the student, and a deeper appreciation shown of the results which may be obtained.

FRED L. HATCH,
CARRIE T. ALEXANDER,
ALFRED BAYLISS,

Committee on Instruction.

In connection with this report President Draper presented a communication from the Illinois Association of Agricultural Editors advocating the early establishment of a correspondence school.

After the reading of this report the Board took a recess until 2:00 o'clock. After the recess the report was adopted.

AFTERNOON SESSION, DECEMBER 8, 1903.

COLLEGE OF DENTAL SURGERY.

After the recess a conference was had with Doctor Brophy and other gentlemen representing the Chicago College of Dental Surgery, and Doctor Steele and Doctor Newman, representing the College of Physicians and Surgeons of Chicago. As a result of this conference the following resolution was adopted, Mrs. Alexander dissenting:

WHEREAS, A misunderstanding has arisen between the University and the Chicago College of Dental Surgery concerning the meaning and manner of executing the contract made between us, and which went into effect on October 1, 1903, and it has been discovered that the floating debts of the Chicago College of Dental Surgery October 1, 1903, were considerably in excess of \$25,000; therefore, to clear up the difficulties it is

Resolved, That a supplementary agreement be prepared covering the following points, viz:

1. That the amount of the "preferred" bonds be increased from \$25,000 to \$35,000—the proceeds of which \$35,000 of bonds shall be used to pay the floating indebtedness of the College October 1, 1903, and that the amount of the "common" bonds issued shall be \$90,000 instead of \$100,000.

2. That the University consent that debts of the College of Dental Surgery due October 1, 1903, up to the sum of \$12,000 may be paid out of the earnings of the College acquired subsequently to October 1, 1903.

3. That the stockholders of the Chicago College of Dental Surgery shall guarantee the University against any debts or liabilities accrued prior to October 1,

1903, except that the University consents that such debts up to the limit of \$12,000 may be paid out of earnings acquired since that date as provided above.

4. That the Chicago College of Dental Surgery shall agree that said institution has no outstanding contracts with instructors, employes or otherwise to run more than one year from May 1, 1903, except in one case which has less than two years to run.

Resolved, That the President and Secretary of the Board be and are hereby authorized to execute such supplementary contract and attach thereto the seal of the University.

TREASURER'S REPORT.

The Secretary presented the Treasurer's report for the quarter ending September 30, 1903, and it was referred to the Finance Committee.

ELBRIDGE G. KEITH,
Treasurer.

The Secretary presented the financial reports of the State Laboratory of Natural History for the quarters ending June 30, 1903, and September 30, 1903, and they were referred to the Finance Committee.

He also presented the Registrar's statement of fees due from students of the University during the summer term of 1903, and of fees due from students of the College of Medicine for the summer term of 1903. These were referred to the Finance Committee.

The Board ordered paid J. L. Ray's bill for legal services, amounting to \$500; also J. C. Llewellyn's bill of \$100 for services as an architect in examining the building of the Chicago College of Dental Surgery; and the bill of Paine & Barnes for printing, amounting to \$8.75.

It was also ordered that J. C. Llewellyn, Parr & Hulsebus, and Liese & Ludwick be paid each \$100 for plans for a woman's building.

MEMORIAL.

By direction of the Board Messrs. Bullard and Hatch prepared the following minute with regard to Professor Edward Snyder:

MEMORIAL.

Professor Edward Snyder, who died at Los Angeles, California, September 13, 1903, came to the University in the year 1868 as professor of the German Language and Literature, which position he filled with eminent ability till he, on account of ill health, reluctantly relinquished it after 27 years of faithful service. He was for a number of years professor of Military tactics and Commander of the University battalion until the time when the General Government began detailing commissioned officers from the regular army to the military institutions of the country. For a long series of years he was Secretary of the Board of Trustees and Business Agent of the University, not ceasing that arduous work until such became necessary by enlarging duties in his professorship. The services he rendered in all these several trying positions in this growing institution, in which there were no old precedents to guide those who were at the head, but in which every action performed became more and more a standard for the performance of others, revealed a patience, kindness, and energy and general excellence which won the regard and affection of all those who were associated with him. He was a man of nobility of mind and heart, a warm and earnest friend of all the students, many of whom came to know him with intimacy and became attached to him in a lasting friendship. The charms of his life were a high and exemplary Christian character and a heart touched with sympathy for all who were suffering or unfortunate; and that which is remembered as the best accomplishment of his noble life, are a great number of kindly deeds, encouraging words and timely financial assistance which he rendered to many young men during the early days of the University.

The last grand act binding himself forever to the University (which was but another expression of his desire to do good to the young men and women of the University) was the gift of his fortune for the use of students needing financial aid in completing their University education.

Such men never die. They live on forever. Kindliness and sympathy are perennial growths that ever perpetuate themselves, and those men who are well springs of such emotions are immeasurable blessings to society.

He has gone, but his influence and work go on among us.

While the last years of his noble life were passed at a distance from the University, it is a satisfaction to know that his relations with the University were never severed; but that he was to the last honored by the position of Professor *Emeritus* in the University which he greatly loved.

We express our sincere sympathy with the companion of his life who shared with him all the joys of his kindly deeds. A life ending, so serenely here, after long years of happy activity, patient toil and physical suffering, is a wholesome stimulus to young and old to aim well, work hard, and sacrifice unsparingly for the aid and blessing of others.

BUSINESS MANAGER'S REPORT.

The Business Manager, Professor S. W. Shattuck, presented the following report, which was referred to the Finance Committee:

Dec. 8, 1903.

Mr. Frederick L. Hatch, President Board of Trustees of the University of Illinois:

SIR: I have the honor to hand you herewith the following financial statement and papers:

Paper S is a financial statement of the Chicago College of Dental Surgery, December 1, 1903.

Paper T is an estimate of receipts and expenses of the Chicago College of Dental Surgery for the twelve months, October 1, 1903, to October 1, 1904.

Paper W is an estimate of the receipts and expenses of the College of Dentistry of the University for the twelve months, October 1, 1904, to October 1, 1905.

Respectfully submitted,

S. W. SHATTUCK,

Business Manager.

Appropriations were made as recommended by the Business Manager in the foregoing *Paper I*.

An appropriation of \$100 was made for the purpose of making a bronze cast of the plaster medallion of President Draper which was presented to the College of Law at last commencement by the class of 1903.

The Committee on Finance was authorized to employ an accountant to audit the University accounts.

The Board adjourned.

MEETING OF JANUARY 26, 1904.

The Board of Trustees of the University of Illinois met at the University at 2 o'clock p. m., Tuesday, January 26, 1904, pursuant to the following call:

Upon the call of the Committee on Buildings and Grounds, which is ready to report on the plans for the Woman's Building, there will be a meeting of the Board of Trustees of the University of Illinois at the University, at 2:00 o'clock p. m., Tuesday, January 26, 1904, to consider the plans and transact such other business as may be duly presented.

The members present were Messrs. Bullard, Hatch, Kerrick, McLean and Nightingale, and Mrs. Alexander, Mrs. Abbott, and Mrs. Evans; absent, Governor Yates and Messrs. Bayliss, Dickirson and McKinley. President Draper was present.

THE WOMAN'S BUILDING.

Mr. Bullard, on behalf of the Committee on Buildings and Grounds, presented plans for a Woman's Building, which had been prepared by McKim, Meade & White, of New York, and moved the adoption of the plans, and that the Committee on Buildings and Grounds be authorized to conclude a contract with the architects and to advertise for bids for the construction of the building when the plans and specifications were ready.

The motion prevailed.

COMMUNICATION FROM PRESIDENT DRAPER.

UNIVERSITY OF ILLINOIS, PRESIDENT'S OFFICE,

January 26, 1904.

To the Board of Trustees:

I have to report the following for your information and consideration:

PURCHASE OF LAND ON MATHEWS AVENUE.

Pursuant to your action four lots of land on Mathews avenue, south of the Railway right of way, have been purchased by and the title vested in the University. The Allen property, consisting of three lots having an aggregate width of about 209 feet on Mathews avenue, and running back to the University line a distance of about 198 feet, was purchased for seven thousand (\$7,000) dollars. There is upon this property a small dwelling house which the owner is to remove by April 1st. The Maguire property, consisting of a very fair dwelling house, and a lot 60 feet wide on Mathews avenue, and running back to the University line, was purchased for five thousand five hundred (\$5,500) dollars. The owner is to have the right to occupy the house until May 1st.

THE CHICAGO COLLEGE OF DENTAL SURGERY.

I regret to have to report that the supplementary agreement arrived at with the Chicago College of Dental Surgery at the last meeting of the Board has not been executed. It was put in form by the counsel for the University immediately after the meeting of the board, and forwarded to Doctor Brophy for execution, but has not been executed. No specific refusal to execute it has been given by Doctor Brophy so far as I know. But his failure to respond to our requests to that end has been complete. In the meantime some of the smaller stockholders have claimed that they were not getting enough for the property, and have taken exception to the provision in the original contract conferring the ultimate power over appointments and expenditures upon this Board of Trustees. In the meantime Doctor William L. Copeland, one of the smaller stockholders who was present at all of the negotiations and assented to all of the conclusions, has brought an action at law to set aside and annul the original contract on the ground that it was never authorized at a meeting of the stockholders of the College of Dental Surgery. The Board of Directors of the College of Physicians and Surgeons has considered the matter, claiming that their legal rights are involved, and asking us to insist upon the contract as at first prepared and executed by Doctor Brophy on behalf of the Chicago College of Dental Surgery, and containing the assurance that he was duly authorized so to do, being carried out, or that damages be exacted of Doctor Brophy for our losses in the premises. In the course of this controversy the College of Dental Surgery has stopped paying receipts to us, and our Business Manager has stopped paying their bills. He has a small balance in his hands. Hon. George W. Gere of Champaign has acted as counsel for the University through the troublesome matter.

The facts are reported here for your official information. I am not at all confident as to what action, if any, you should take. Perhaps none is necessary just at present. You may think well to confer with Mr. Gere and, after fully considering the whole subject, will conclude upon the course to pursue.

MILITARY UNIFORMS.

I recommended that the Business Manager and the Professor of Military Science be appointed a committee to advertise for bids and let the contract for furnishing the uniforms to the members of the University Regiment for the ensuing two years.

Respectfully submitted,

A. S. DRAPER.

The Board appointed Mr. Bullard, President Draper and the Business Manager, Professor Shattuck, a committee to look after matters in connection with the suit brought to annul the original contract with the College of Dental Surgery, authorizing them to take such action as might be necessary with regard to the litigation.

The President's recommendation with regard to military uniforms was adopted.

Upon the request of the Business Manager, an appropriation of \$500.00 from the accountancy fund was appropriated to meet expenses.

The Secretary presented to the Board a letter from Mrs. Mary S. Snyder, acknowledging the receipt of resolutions passed with regard to her late husband, Professor Edward Snyder.

MECHANICAL ENGINEERING DEPARTMENT.

Professor Breckenridge, of the Mechanical Engineering Department, presented plans for a new foundry; for changes in the metal shops to occupy the room left vacant by the removal of the foundry, and for a steam laboratory. The plans were approved by the Board. Professor Breckenridge and Professor White were given authority to carry them out, under the supervision of the Committee on Buildings and Grounds. The Board adjourned.

W. L. PILLSBURY,
Secretary

F. L. HATCH,
President.

MEETING OF MARCH 8, 1904.

The Board of Trustees of the University of Illinois met at the University at 9:00 o'clock a. m., Tuesday, March 8, 1904.

The members present were Messrs. Bayliss, Bullard, Hatch, Kerrick, McKinley, McLean and Nightingale and Mrs. Alexander, Mrs. Abbott and Mrs. Evans; absent, Governor Yates and Mr. Dickirson. President Draper was present.

The Secretary presented the minutes of the Board meetings held December 8, 1903, and January 26, 1904. The minutes were approved as presented.

ELECTION OF OFFICERS.

The Board then proceeded to the election of officers for the ensuing year, and Mr. Frederick L. Hatch was re-elected President; Mr. W. L. Pillsbury was re-elected Corresponding and Recording Secretary and Registrar; and Messrs. McKinley and Nightingale were elected members of the Executive Committee, of which the President of the Board is chairman.

COMMUNICATIONS FROM PRESIDENT DRAPER.

UNIVERSITY OF ILLINOIS, PRESIDENT'S OFFICE,

March 8, 1904.

To the Board of Trustees:

1. I have had no duty which I regret more deeply than that of announcing to the Board the death of Professor Arthur William Palmer of the Department of Chemistry, which occurred on Wednesday, February 3. His singularly strong and admirable qualities were appropriately set forth at a Memorial convocation held in the Chapel on Sunday, February 7, the proceedings of which are now in course of publication and will form a suitable expression of University sentiment concerning him.

I have received the following letter from Mrs. Palmer, conveying to the University her husband's scientific library:

“1013 CALIFORNIA AVENUE, URBANA, ILLINOIS.

President A. S. Draper:

MY DEAR SIR:—I desire to present to the University Mr. Palmer's chemical library. There are only two conditions which I would make; that the collection be kept intact, and that it be placed in the Chemical Building for the use of the instructors and students of the Department of Chemistry.

In making this disposition of my husband's books, I feel that I am carrying out what would be Mr. Palmer's wishes in the matter. Enclosed please find a list of the books prepared by Professor Grindley.

I remain, my dear President Draper, as always, most sincerely your friend,
ANNA SHATTUCK PALMER."

The list embraces 367 volumes and 446 pamphlets, valued by Professor Grindley at more than one thousand dollars.

I recommend that the gift be accepted upon the conditions named, and suitably provided for in the Chemical Building, and that the appreciation of the Board be expressed to Mrs. Palmer.

The work of the Department of Chemistry for the balance of the year has been arranged between the professors and instructors in charge. It is not practicable to secure other competent aid for the period. The Board may very properly, as it seems to me, make some adjustment of Professor Palmer's unpaid salary for the year with his wife. It is not too much to say that he gave his life through the intense interest in his science and his unsparing devotion to his University. The circumstances will justify the Board in going to the limits of its discretion in the premises, and I should be very glad if the Board might feel justified in paying the salary for the balance of the year.

2. Miss Katharine O'D. Manley has, because of ill health, resigned as Order Clerk in the Library. I recommend that Mr. Francis K. W. Drury, heretofore her assistant, be advanced to the position, and that Miss Anne D. Swezey, B. L. S., Illinois, 1903, be appointed as assistant at \$60.00 per month to commence as of March 1st, and continue until September 1st.

3. I recommend the appointment of Victor Tyson Wilson as Assistant Professor of General Engineering Drawing in charge of the department, to begin September 1, 1904, at \$1,600.

4. I transmit a letter from Dean Burrill of the Graduate School recommending that students in that school, and in residence, be hereafter charged the term fee the same as others in the University, and that such students not in residence be charged \$15 for examinations for the master's degree. It is the understanding that this should not apply to the holders of University fellowships.

I approve this recommendation, and advise its adoption.

5. I transmit the recommendations of the several advisory agricultural boards touching the work of the Agricultural Experiment Station, and advise that they be adopted.

6. I transmit the estimates of the Dean of the College of Agriculture and Directors of the Experiment Station covering appropriations, and recommend that they be adopted, as follows:

Respectfully submitted,

A. S. DRAPER.

With reference to the President's recommendations the Board took action as follows:

1. The donation to the University, by Mrs. Palmer, of her husband's scientific library was accepted on the conditions named, and the Secretary was directed to make grateful acknowledgment to Mrs. Palmer for this valuable gift.

The Board also voted that Professor Palmer's salary be paid to Mrs. Palmer for the rest of the year.

The following resolutions were adopted:

WHEREAS, The Board of Trustees of the University of Illinois has learned with deepest regret and sincerest sorrow of the death of Professor Arthur William Palmer, head of the Department of Chemistry of the University, therefore

Resolved, That it is with the largest degree of gratitude that we place on record our profound appreciation of his intense and scholarly devotion to his chosen profession; of his deep scientific knowledge, as demonstrated in his invaluable services to the University as director and teacher; and of his extended investigations and exhaustive reports on the potable waters of Illinois, and on many other matters correlated with his department.

Resolved, That cut off in his prime, full of ambition and hope, loyal to the University, zealous in his calling, constant in his labor of research, faithful in his daily instruction, he has left a monument of most intelligent and masterful industry, and his loss to the University and to the progress of chemical science seems quite irreparable.

Resolved, That this minute be spread on the records and a copy be presented to his family, to whom the Board of Trustees extends its most cordial sympathy in this hour of its deep bereavement.

2. Miss Manley's resignation was accepted and Mr. F. K. W. Drury and Miss Anne D. Swezey were appointed as recommended.

3. Mr. Victor Tyson Wilson was appointed Assistant Professor in General Engineering Drawing in charge of the Department at a salary of \$1,600 a year, the term of service to begin September 1, 1904.

4. The recommendation with regard to fees to be charged students of the Graduate School was adopted.

5. The recommendations of the several Agricultural Advisory Boards were adopted.

6. Expenditures were authorized as recommended.

APPOINTMENT TO COMMISSIONERSHIP OF EDUCATION.

President Draper also presented a statement with regard to his appointment to the position of Commissioner of Education of the State of New York, which would probably be made soon.

UNIVERSITY OF ILLINOIS, PRESIDENT'S OFFICE,

March 8, 1904.

To the Board of Trustees:

Circumstances make it necessary to lay before the Board the facts concerning a movement in the State of New York to call me to the administrative headship of all of the public educational work of that state. To convey to you such true understanding of the matter as I am anxious you shall have, some enumeration of details is imperative.

In 1787 the State of New York, through an act drawn by Alexander Hamilton, erected the University of the State of New York under the charge of a Board of Regents. Heretofore this Board has consisted of the Governor, Lieutenant Governor, Secretary of State, State Superintendent of Public Instruction, and nineteen members elected on joint ballot of the legislature for life. It has had oversight of the colleges and academies of the state. It has developed an extended system of Regents' Examinations in the secondary schools which has become the basis for the distribution of state aid to such schools. It has had supervision of the professional schools, and has been charged with guarding admissions to the learned professions. It has under its direction the State Library, which is a library of first standing in the country, the state museums, and a volume of scientific work which is apparently more diversified and exact than has been directly undertaken by any other state.

When the Board of Regents was established there was no system of common schools. The Board did what it could to develop such a system, and one who came into existence, but the supervision of it was not given to the Board of Regents. In 1812 the office of State Superintendent of Public Instruction was created, with supervisory authority over all common schools. To judge of this position by the functions which ordinarily inhere in similar positions in other states is to gain a wholly erroneous understanding of it. It is not merely a bureau of information with advisory powers. It supervises the expenditure of more than \$40,000,000 annually, \$5,000,000 of which is collected and disbursed directly by the state. It may require the erection, repair, and furnishing of school buildings. It may direct county superintendents, or commissioners. It wholly controls the examination and certification of teachers. It is charged with the proper administration, pedagogically and financially, of the thirteen state normal schools, and of more than a hundred teachers' training classes in the secondary schools. The office is largely judicial, for the Superintendent is charged with the duty of hearing appeals which may be taken from the acts of school officers and boards throughout the state, and his decisions cannot be "called in question in any court, or in any other place."

In recent years there has been some conflict in jurisdiction between these two state departments, and a law has been enacted placing the two under a single organization. The number of Regents has been reduced from twenty-three to eleven, and the life tenure has been changed to a term of eleven years. The office of Commissioner of Education has been created, with all the functions heretofore held by the State Superintendent of Public Instruction, and in addition thereto he is made the executive officer of the Board of Regents. He is given "power to create such departments as in his judgment shall be necessary," and to appoint or approve the appointment of all officers and employees in the unified State Department of Education. The office is in the first instance to be filled by the Legislature on joint ballot for a term of six years, and after that by the Board of Regents for life or during satisfactory service. The Board of Regents retain legislative, or directory, authority over the interests heretofore in their charge. The scheme has had two main points in view, namely, to unify the educational work of the state, and to remove it wholly from the influence of politics.

While this scheme has been maturing my name has been often connected with the Commissionership in the secular and educational press, and in the legislative debate. I am told that this has been with uniform favor, even that the assur-

ance of my election has brought support to the proposition. It was supposed that the election would take place last week, but it was deferred till this week, and I have been advised on the authority of the Governor of the State, and the presiding officers of the two houses of the legislature that my nomination by the responsible majority in the legislature will be unanimous and hearty.

I have carefully refrained from saying anything which might be construed into anxiety for this position. I have been grateful for the respect shown me, but I have not been anxious for the place. There has been no time when it would not have been a relief if in some way which did not reflect upon me the movement could have taken direction toward some one else. But I am not so constituted that I can be indifferent to the concentrated sentiment of the people of my native state, among whom I worked until I had reached middle life, and I do not now know how to frame an answer which shall refuse a call to the service of such a state at the one time in my life when the people of that state seem to think, even if without sufficient reason, that I may render them a service which is beyond the power of any other. I could say no less than that I would go and make the attempt. Accordingly upon the assurance that the matter was settled, except as to taking the formal vote, and not deeming it proper to force a legislature to such final step in uncertainty of my attitude, and having ground to suppose that the election would take place last week, I at that time advised Governor Odell that if elected before the meeting of this Board today I expected to tender my resignation to you at this time, and that when released here I would accept the position there.

It will not be thought, I am sure, that this point has been reached without much reflection upon what it may mean to the University of Illinois and to me if I am to leave it. Any danger of thoughtlessness about that has been averted by sufficient reminders. What has already been said, in the generosity and goodness of Illinois hearts, places a heavy burden upon me. But if some think too quickly that a change in the presidency may be unfortunate for the University at this time, I am sure that in time they will see that the great steps which need next to be taken in the advance of the University may better be taken under a new man of a different type. I have no misgivings as to what it may mean to the University. What it may mean to me is a very different matter. Deep regrets at much that will go out of my life are certain; as to other matters I must take my chances. But I have put my personality into new undertakings before now and succeeded. And while I had supposed that I should not have occasion to do it again, still it may be best that I shall. The issue will tell.

It has been frequently said in this connection that there is greater opportunity to influence life at the head of a University than at the head of the educational work of a state. Generally speaking that would be true, but the educational organization of New York has been exceptional, and is to be still more so. The educational machinery which has there been erected will enable one who has it in him to render a public service of first importance in the country.

I am sorry to say that it will be necessary to enter upon this position April 1st, as the positions which is supercedes are abolished at that time, and it is imperative that the powers of the new Department be at once put in operation. In going, however, the Board may rest assured that I will very gladly do anything I may do, and which you may wish me to do, to save the University from embarrassment through the remainder of the University year.

I had supposed that the final steps would be taken by the New York Legislature last week, but for good reasons they have been deferred until this week. Doubtless the nomination will be made at a legislative caucus which has been called for this evening. It would seem well that we shall at once proceed to discuss University plans in view of this contingency, and that the Board shall remain in session till tomorrow to act upon my definite resignation.

With sincere appreciation of the abounding consideration of the Board of Trustees, I am,

Very sincerely yours,

A. S. DRAPER.

HONORARY DEGREES.

The recommendations of the University Senate and the Council of Administration with reference to honorary degrees to be conferred at next commencement were presented by President Draper and approved by the Board.

It was also voted, on recommendation of the Senate and Council of Administration, to confer upon Mr. Livingston C. Lord the honorary degree of Doctor of Laws in place of the degree of Doctor of Pedagogy conferred June 12, 1900.

The Committee on Agriculture was authorized to arrange for the rental to Professor Mumford of the house now occupied by Dean Davenport, and to report its action to the Board.

The recommendations of the Superintendent of Buildings and Grounds, approved by Professor Breckenridge, with regard to expenditures upon the heating plant, which were as follows, were referred to the Committee on Buildings and Grounds, with power to act.

Repairs on boilers.....	\$ 400 00	Replacing Murphy furnace by chain grate stoker.....	\$1,200 00
Repairs on feed pumps and mains...	250 00		
Repairs on stokers.....	200 00		
Repairs on conveyor.....	400 00	Total.....	\$2,450 00

The Board took a recess until 2:30 p. m.

AFTERNOON SESSION, MARCH 8, 1904.

When the Board convened after recess the same members were present as in the morning.

The Secretary presented the Registrar's statement of fees due from students attending the University at Urbana, and from students of the Academy, for the first semester of the current year. These were referred to the Finance Committee.

He also presented the Treasurer's report, which was referred to the Finance Committee.

STREET PAVING.

A communication from Mr. J. A. Glover, Mayor of Urbana, with regard to paving on the east side of the University grounds was presented, and the President and Secretary of the Board were authorized to sign on the behalf of the University, a petition for such pavement, payment for the same to be made in installments.

Captain T. J. Smith's bill of \$350.00 for legal services in connection with the injunction suit against the Urbana & Champaign Railway, Gas and Electric Company was ordered paid.

SCHOOL OF PHARMACY.

The Committee on the School of Pharmacy, with the Business Manager, was instructed to report the next morning with regard to the policy to be pursued concerning the school during next year.

SCHOOL OF DENTISTRY.

The Committee on the School of Medicine, with the Business Manager, was instructed to confer with the College of Physicians and Surgeons, of Chicago, and arrange, if found practicable, for the separation of the School of Dentistry from the College of Medicine, and reorganizing the school as the College of Dentistry of the University of Illinois.

Mr. George W. Gere's bill for legal services in connection with the purchase of the Allen and McGuire properties, the acquiring of the Chicago College of Dental Surgery, and in the trial of the case of Copeland vs. University of Illinois, et al., with expenses in connection therewith, the amount being \$290.05, was ordered paid.

LOCATION OF THE AGRICULTURAL AND HORTICULTURAL BUILDINGS.

After hearing Professor Blair, of the Horticultural Department, it was voted to locate the new buildings for the live stock department 300 feet south of the road running east and west, north of the house occupied by Dean Davenport, as shown on plat presented; and the new building for the Horticultural Department north of said road, on division F of plat shown.

It was ordered that the plantings by the Horticultural Department in the tract lying west of Wright street extended, should be of such a nature as not to occupy the grounds more than twelve years from this date.

The Committee on Buildings and Grounds was authorized, when plans and specifications had been fully completed, to advertise for bids for the erection of these buildings.

WOMAN'S BUILDING.

The Committee on Buildings and Grounds, with Professor White, was authorized to fix the location of the Woman's Building.

BUSINESS MANAGER'S REPORT.

The Business Manager presented his report which was referred to the Finance Committee.

UNIVERSITY OF ILLINOIS, March 8, 1904.

Mr. Frederic L. Hatch, President Board of Trustees of the University of Illinois:

SIR:—I have the honor to hand you herewith the following financial statement and papers:

Paper A is a statement of the current appropriations, December 31, 1903.

Paper B is a statement of the state appropriations, December 31, 1903.

Paper C is a statement of the United States fund, December 31, 1903.

Paper Q is a list of the College of Medicine vouchers presented for audit, being Nos. 244 to 546, inclusive, \$37,676.99.

Paper R is a list of the College of Dentistry vouchers presented for audit, being Nos. 1 to 138, inclusive, \$3,887.28.

Paper S is a letter from Dr. Truman W. Brophy asking for a settlement between the University of Illinois and the Chicago College of Dentistry.

Paper T is a communication with bill from George W. Gere, Attorney at Law.

The Board is requested to give the Business Manager authority for settlement with the Chicago College of Dental Surgery, and to audit the bill of Mr. George W. Gere.

Respectfully submitted,

S. W. SHATTUCK,
Business Manager.

Appropriations were made as recommended in *Paper I*.

The Business Manager was instructed to say to Dr. Brophy that the University had been put to considerable expense by reason of the attempt made to transfer the Chicago College of Dental Surgery to the University, and that the Board of Trustees deems it but fair that the University should be reimbursed for such expense, since the attempt was made at his, Dr. Brophy's request, and failed through no fault of the University.

A communication was received from Mr. J. A. Ockerson, Chief of the Department of Liberal Arts, Universal Exposition, St. Louis, Mo., with regard to inviting the Alumni of the University to attend at the dedication of the Illinois building at the Universal Exposition in St. Louis, May 27, 1904.

The Secretary was directed to co-operate with Mr. Ockerson in this matter as far as practicable.

The Board adjourned to meet at 9 o'clock the next morning.

SESSION OF WEDNESDAY, MARCH 9, 1904.

The Board met pursuant to adjournment, the same members being present as on Tuesday.

PRESIDENT DRAPER'S RESIGNATION.

President Draper delivered his formal resignation of the office of president of the University of Illinois as follows:

UNIVERSITY OF ILLINOIS, PRESIDENT'S OFFICE,
March 9, 1904.

To the Board of Trustees:

Referring to my communication of yesterday, and advising you that I have since been named for Commissioner of Education of the State of New York, I hereby resign the office of President of the University and request that my resignation may take effect April 1, 1904.

Very sincerely yours,

A. S. DRAPER.

Mr. Nightingale offered the following resolution with regard to the resignation, which was adopted:

WHEREAS, It seems quite imperative under the requirements of the statute of New York governing the position accepted by President Draper that he leave the University April 1st to assume the responsibilities of the Commissionership of Education of the State of New York, and

WHEREAS, It is also quite imperative in the interest of the University of Illinois that the official relations of the President shall not be fully and finally severed, therefore

Resolved, That the Trustees accept the resignation of Andrew S. Draper as President of the University, to take final effect July 1, 1904, and that a leave of absence, without salary, be granted him from April 1st to July 1st, with the understanding that he will return to perform the functions of his office as President incidental to the closing work of the present year.

Resolved, That a committee be appointed to draft suitable resolution expressing of the regret which the Trustees feel in severing relations which for ten years have been so pleasant, and so profitable.

The statement of expenditures of the State Laboratory of Natural History for the quarter ending December 31, 1903, was presented and referred to the Finance Committee. With reference to the same the Committee made the following report, which was received for record.

URBANA, ILLINOIS, March 9, 1904.

To the Board of Trustees:

Your Finance Committee reports that the statement of the expenditures by the Illinois State Laboratory of Natural History for the quarter ending December 31, 1903, has been presented, giving full details of the case, and has been placed on file.

Respectfully submitted,

ALEXANDER McLEAN,
W. B. MCKINLEY,
L. H. KERRICK,

Finance Committee.

The Committee on the School of Pharmacy asked for time until the next meeting of the Board for preparing a report with regard to the School of Pharmacy, and the request was granted.

On motion of Mr. Bullard it was voted that the President appoint a special committee of three, of which he should be one, whose duty it should be to find and recommend to the Board a suitable person for the presidency of the University.

President Hatch appointed committees as follows:

Committee on President Draper's resignation—Messrs. Bayliss, Bullard, and McLean.

Committee on seeking candidate for presidency—Messrs. Nightingale, Bullard, and Hatch.

STANDING COMMITTEES.

Agriculture—Leonidas H. Kerrick, Chairman; Frederick L. Hatch, James K. Dickirson, Alice A. Abbott, Alexander McLean.

Buildings and Grounds—Samuel A. Bullard, Chairman; Alexander McLean, Augustus F. Nightingale, Alice A. Abbott, William B. McKinley.

Finance—Alexander McLean, Chairman; William B. McKinley, Augustus F. Nightingale.

Instruction—Augustus F. Nightingale, Chairman; Alfred Bayliss, Alexander McLean, Carrie T. Alexander, Frederic L. Hatch.

Publication—William B. McKinley, Chairman; Alfred Bayliss, Laura B. Evans.

Library—Laura B. Evans, Chairman; Augustus F. Nightingale, Alexander McLean.

School of Pharmacy—Alice A. Abbott, Chairman; Samuel A. Bullard, Carrie T. Alexander.

School of Medicine—Samuel A. Bullard, Chairman; Alexander McLean, Augustus F. Nightingale.

Engineering—William B. McKinley, Chairman; Samuel A. Bullard, Leonidas H. Kerrick.

The Board adjourned.

W. L. PILLSBURY,
Secretary

F. L. HATCH,
President.

MEETING OF APRIL 28, 1904.

The Board of Trustees of the University of Illinois met at the Auditorium Annex, in Chicago, Illinois, Thursday, April 28, 1904, at 9 o'clock a. m., in pursuance of the following call issued by the Secretary April 21, 1904:

“At the call of the President, Mr. F. L. Hatch, there will be a special meeting of the Board of Trustees of the University of Illinois at the Auditorium Annex in Chicago, at 9 o'clock a. m., Thursday, April 28, 1904., to authorize conferring degrees upon the members of the class to be graduated that day from the School of Pharmacy, and to transact such other business as may be duly presented.”

There were present Messrs. Bullard, Hatch, Kerrick, McKinley, McLean and Nightingale and Mrs. Abbott, and Mrs. Evans; absent, Governor Yates, and Messrs. Bayliss and Dickirson and Mrs. Alexander. Vice President Burrill was present.

Vice President Burrill presented the resignation of Mr. H. H. Horner of the position of Secretary to the President, the resignation to take effect May, 1, 1904. The resignation was accepted.

Dr. Burrill recommended the appointment of Mr. J. G. Wilson as Secretary to the President, *pro tempore*, at a salary of \$83.33 a month, service to begin May 1, 1904. The appointment was made.

Vice President Burrill was given authority to appoint an Assistant on the State Water Survey, at a salary of \$60.00 a month.

Upon recommendation of President Draper, Mr. Charles F. Perry was appointed Assistant Professor of Mechanical Engineering, at a salary of \$1,600 a year, term of service to begin September 1, 1904.

A communication from Dr. Kinley with regard to a professorship of political science was read, and it was voted that it was desirable to establish a full professorship in political science, and to secure a good man for the place.

A letter was read from Doctor F. B. Earle, Secretary of the College of Medicine, with regard to a proposed banquet to the Alumni of the College, and the Board voted to suspend the rule adopted at the meeting of June 23, 1903, with regard to such banquets; but it was ordered that the expenses attendant upon the proposed banquet should be taken from the appropriation for advertising, without any increase of the fund therefor.

A communication from Dr. Francis Dickinson was read and referred to the Committee on College of Medicine, together with the Business Manager, Professor Shattuck, for investigation and report.

The Secretary presented the correspondence which had passed between Professor Shattuck and the Chicago College of Dental Surgery with regard to the claim of the College for certain funds, and the correspondence was laid on the table.

President Hatch presented several communications from various sources recommending eminent gentlemen, each of whom, in the estimation of the writers, would make a suitable president for the University of Illinois. These letters were read and referred to the Committee on the Presidency for its consideration in connection with the canvass for a successor to President Draper, whom they expect to recommend in the near future.

President Hatch announced his withdrawal from the Committee on Instruction, and the appointment of Mrs. Evans to fill the vacancy.

Mr. Bullard offered the following resolutions with reference to the School of Pharmacy. The resolutions were read, and referred to the regular June meeting of the Board for further consideration.

COLLEGE OF PHARMACY.

WHEREAS, By resolution of this Board passed May 25, 1896, at which time the transfer of the Chicago College of Pharmacy was completed and confirmed, it was decided that the Pharmacy department should be called "The School of Pharmacy of the University of Illinois," and that the original name of the Chicago College of Pharmacy should "be continued for some time upon the signs, stationery, and publications thereof;" and

WHEREAS, The School of Pharmacy has enlarged and broadened its curriculum, and extended and made more thorough its courses of study; and

WHEREAS, It is the purpose of this Board to advance the department of Pharmacy till it is the equal of any other in the University; therefore, to aid in the promotion of this end,

Resolved, That the Pharmacy Department shall hereafter be denominated the College of Pharmacy of the University of Illinois.

Resolved, That the salaries of the corps of instruction hereafter be made independent of the income from the fees of the department; and the President is requested to consider duly this change in annually reporting on the corps of instruction of the department.

WHEREAS, The statutes of the State of Illinois require that a person in this state shall have four years' practical experience in compounding drugs in a drug store before he may claim the title of Registered Pharmacist, and be given the certificate of that qualification by the State Board of Pharmacy, and

WHEREAS, The statutes of Illinois make no discrimination in favor of the technical education and college attainments of applicants for the position of registered pharmacist, but place the graduate of the College of Pharmacy on the same level of qualifications as the beginner in a drug store, but alike requires both to assist in a store for four years before they may apply for examination by the state board, and

WHEREAS, The University of Illinois is not alone interested in the education of the youth of this state and in fitting them for various responsible duties of life, but is thoroughly desirous of having the value of education recognized in

all of the lines of human activity, thereby promoting the great cause of education, and serving the highest interests of the people, now, therefore,

Resolved, That the President of the University is requested, after consultation and advice with the members of the Advisory Board of the College of Pharmacy, and prominent members of the State Pharmaceutical Association, and of the State Board of Pharmacy, to have drafted a bill amending the statutes so that graduation from a reputable College of Pharmacy will be taken in lieu of at least two years of experience in a drug store, and that the University use its influence toward the passage of the bill into a law of the State of Illinois.

Resolved, That all educational institutions of Illinois, and educators and societies interested in the advancement of technical education, be invited to give their moral support to the passage of said bill.

The Board then took a recess until 5 o'clock in order that the members of the Board might attend the commencement of the School of Pharmacy.

AFTERNOON SESSION, APRIL 28, 1904.

When the Board met after recess the same members were present as during the morning session.

REMOVAL OF THE SCHOOL OF PHARMACY.

CHICAGO, April 28, 1904.

To the Board of Trustees:

Your Committee on Pharmacy recommends that the University of Illinois execute a lease with the University of Chicago for the premises at the corner of Twelfth street and Michigan avenue for the School of Pharmacy, at an annual rental of \$5,000 a year, provided a contract is first entered into with Doctor L. Blake Baldwin to sub-lease a portion of the premises for an Evening Medical School at a rental of one-half that paid by the University of Illinois for rent of the building and for repairs, taxes, insurance, and a share of the moving expenses. Such rental on the part of the University is to be paid from the fees of the School of Pharmacy, and further that the \$2,000 now in the treasury to the credit of the School, or so much of it as may be necessary, be used to move the school into the new quarters and to put them into suitable condition, and that the Committee on Pharmacy, with the President and Secretary, be authorized to execute the lease and contract according to the above.

Alice A. Abbott,
S. A. Bullard,

Committee on School of Pharmacy.

The recommendations of the committee were adopted.

Mr. Nightingale offered the following resolution, which was adopted.

WHEREAS, It has come to the attention of the University that certain articles have appeared in the daily press and dental magazines derogatory to the honesty and integrity of the University of Illinois; therefore,

Resolved, That the Chairman of the Committee on Medicine be authorized to confer with the President of the University, and have a refutation and statement of facts prepared which shall be given to the public.

The Business Manager was given authority to return to the Chicago College of Dental Surgery the balance of funds received from that institution, after deducting therefrom the amount of \$340.05 as stated in the proceedings of the Board of March, 1904.

The Board adjourned.

W. L. PILLSBURY,
Secretary

F. L. HATCH,
President.

MEETING OF MAY 24, 1904.

The Board of Trustees of the University of Illinois met at the Auditorium Annex, in Chicago, Tuesday, May 24, 1904, at 9 o'clock a. m., in pursuance of the following call issued by the Secretary May 16, 1904:

“At the call of the President, Mr. F. L. Hatch, there will be a special meeting of the Board of Trustees of the University of Illinois at the Auditorium Annex in Chicago, at 9 o'clock a. m., Tuesday, May 24, 1904, to authorize conferring degrees upon the members of the class to be graduated that day from the College of Medicine, and to transact such other business as may be duly presented.”

There were present Messrs. Bullard, Hatch, Kerrick, McKinley, McLean and Nightingale and Mrs. Evans; absent, Governor Yates and Messrs. Bayliss and Dickirson and Mrs. Abbott and Mrs. Alexander. Vice President Burrill was present.

MICHIGAN TELEPHONE COMPANY BONDS.

President Hatch presented the following letter:

N. W. HARRIS & COMPANY,

BANKERS.

CHICAGO, May 11th, 1904.

Mr. E. G. Keith, Chicago Title & Trust Company, Chicago, Illinois:

DEAR SIR: Referring to the \$3,000 Michigan Telephone Company bonds belonging to the University of Illinois, would say that if the University surrenders the certificate of deposit covering the old bonds for exchange for the securities of the Michigan State Telephone Company it will receive securities as follows:

\$2,500 new bonds
1,000 preferred stock
625 common stock voting trust certificates

In order to effect the exchange, however, it will be necessary for the University to make payment of the sum of \$97.52, in payment of a fractional \$100 part of bond at 90 and one-quarter share of preferred stock at 80, \$110, less \$12.48 to adjust the interests for the month of January between the new and old bonds.

We should be pleased to attend to the exchange of securities upon surrender to us of the Old Colony Trust Company certificate covering the old bonds.

Very truly yours,

G. P. HOOVER,
Cashier.

The Business Manager, Professor Shattuck, was authorized to pay the \$97.52 in order to effect the exchange proposed in the letter, and the Treasurer, Mr. Keith, was authorized to make the change.

AD EUNDEM DEGREE

Charles Willard Geiger, M.D.

CHICAGO COLLEGE OF DENTAL SURGERY.

On motion of Mr. McLean, the Business Manager was instructed to make a tender to the proper officer of the Chicago College of Dental Surgery of the balance of funds received by him on account of said College after deducting therefrom \$340.05, as stated in the proceedings of the Board meeting of March, 1904, and to take from said officer a receipt in full of all demands against the University of Illinois and any of its offices.

PHARMACY LEASES.

The Secretary stated that the building, on the northwest corner of Michigan avenue and Twelfth street in the City of Chicago, had been leased from the University of Chicago for the use of the School of Pharmacy; also that a portion of this building had been sub-let to L. Blake Baldwin, M. D., of Chicago, to be used by him for his college of medicine; also that the University of Illinois had been given by the University of Chicago permission to make certain alterations and repairs in and around said building; and that permission had been granted Doctor Baldwin to make repairs and alterations in parts of the building occupied by him.

It was also stated that the Business Manager of the University of Chicago wished to have the following resolution adopted by the Board of Trustees and a certified copy of it furnished him:

WHEREAS, The University of Chicago and the Board of Trustees of the University of Illinois, did on the 29th day of April, A. D. 1904, enter into a written lease wherein and whereby the said University of Chicago leased and demised to the Board of Trustees of the University of Illinois, the building situated at the northwest corner of Michigan avenue and Twelfth Street in the City of Chicago in the State of Illinois, for the period of five years from the 1st day of May, 1904; and

WHEREAS, On the said 29th day of April, 1904, the Board of Trustees of the University of Illinois, in and by a certain lease on that day executed, leased and demised a portion of said building to L. Blake Baldwin for the period of five years from the first day of May, 1904; and

WHEREAS, Both of said leases have been duly examined by the members of this Board; and

WHEREAS, Both of said leases were executed by the President and Secretary of the Board of Trustees of the University of Illinois on behalf of said Board: Be it therefore

Resolved, That the action of said President and Secretary of this Board in respect to the execution of said leases, be, and it is hereby, approved and ratified.

The resolution was adopted, and the Secretary was authorized to certify a copy thereof and transmit it to the Business Manager of the University of Chicago, and also to certify and transmit another copy to Doctor Baldwin. The Business Manager was instructed to insure the building for \$45,000 for a term of five years, the policy to be made in the name of the University of Chicago.

\$2,000, or so much thereof as might be necessary, was appropriated for expenses and payment of bills in connection with the removal of the School of Pharmacy, and for the payment of the insurance and rent.

THE MAGUIRE HOUSE.

The Business Manager was instructed to sell the Maguire house or to make other disposition of it if he found that so doing would best serve the interests of the University.

PAVEMENTS.

The Secretary, Mr. Pillsbury, stated that the President and Secretary of the Board, in pursuance of instructions of the Board, signed a petition for the pavement of the east side of University grounds, and that he had received a special assessment notice stating that the amount of the University's assessment was \$9,262.50, payable in ten installments, interest at five per cent per annum, and that a hearing would be had for the confirmation of the assessments for said pavement in the county court of Champaign county, June 6, 1904.

The Business Manager was instructed to employ an attorney to look after the interests of the University at the hearing, and \$50.00 or so much thereof as might be needed, was appropriated to pay attorney's fees.

LOCATION OF HORTICULTURAL BUILDING.

The Committee on Buildings and Grounds was instructed to consult with the Horticultural Department of the University with reference to location of said building, and report to the Board at its next meeting.

SCHOLARSHIPS IN HOUSEHOLD SCIENCE.

Vice President Burrill presented from the Council of Administration a renewal of the recommendation made to the Board March 10, 1903, with regard to scholarships in household science, as follows:

3. The Council further recommends that household science scholarships be open to women in any college or school of the University, as set forth in the following memorandum:

It seems that the main use of the scholarships in household science is to encourage students to take the household science courses, and that if a proportionate and sufficient number of students were taking these courses without the inducement of free scholarships, no such scholarships would be offered.

In view of the fact that this is a new department, and that its work may reasonably be expected to contribute largely to the welfare of the people of the state, that the kind of instruction which it offers is very little known, and that its purposes and values are but little understood, we are of the opinion that the offer of free scholarships to students registered in that department is helpful; especially as a convincing expression of the University view of the importance of its work. On the other hand, it seems to be the general wish of the University that the offer of free scholarships shall not be unduly extended or made in any case where the object in view does not fully justify the sacrifice; and we therefore recommend that these scholarships be made available on equal terms, to all women of the University, and that their continuance be conditioned upon their taking not less than eight hours' work each year in household science or in courses in science strictly precedent to them.

Dr. Burrill stated, however, that, in his opinion, the Council would wish that holders of these scholarships entering as special students be not admitted otherwise than as at present; however, that such special students, if they satisfied in full the entrance requirements during the two years of the scholarship, might thereafter register in any undergraduate department without loss of the benefits of the scholarship, so long as they continued to pursue household science courses, as stated in the recommendation of the Council.

After a very full discussion of the proposition, Mr. Nightingale moved that the Board declare its approval of the recommendation of the Council, as presented, and refer it to the Committee on Instruction to formulate and report to the Board a way by which it might be carried into effect.

On motion by Mr. Bullard, Mr. Nightingale's motion and the recommendation of the Council were referred to the Committee on Instruction for investigation and report at the June meeting of the Board.

During the discussion of the foregoing recommendation, it had been stated that two young ladies, who had, while in the University, held scholarships in Household Science in the College of Agriculture, asked to be graduated from the College of Science, requirements for which they could meet, instead of the College of Agriculture, without being required to pay the fees which had been remitted on account of the scholarships.

Mr. Nightingale moved that the request be granted, and his motion was, on motion of Mr. Bullard, laid on the table.

The Board adjourned.

W. L. PILLSBURY,
Secretary

F. L. HATCH,
President.

MEETING OF JUNE 6, 1904.

The Board of Trustees of the University of Illinois met at the University at 9 o'clock a. m., Monday, June 6, 1904.

The members present were Messrs. Bullard, Hatch, Kerrick, McLean and Nightingale and Mrs. Alexander, Mrs. Abbott, and Mrs. Evans; absent, Governor Yates, and Messrs. Bayliss, Dickirson and McKinley. President Draper was present, and Vice President Burrill was present by request.

The Secretary presented the minutes of the Board meetings held March 8, 1904, April 28, 1904 and May 24, 1904. The minutes were approved as presented.

COMMUNICATIONS FROM PRESIDENT DRAPER.

UNIVERSITY OF ILLINOIS, June 6, 1904.

To the Board of Trustees:

We have come to the close of a thoroughly successful year in the history of the University. The registration has been decidedly larger than in any preceding year, while the equipment has ben increased and the work broadened and strengthened. No special embarrassment to smooth administration has occurred.

The registration by colleges and schools is as follows:

Literature	541
Engineering	843
Science	151
Agriculture	335
Law	142
Medicine	694
Library School	83
Music	99
Pharmacy	185
Dentistry	163
Summer Term	229
Preparatory School	257

Deduct counted twice	128

	3,594

In 1901-2 the registration was 2,932; in 1902-3, it was 3,289; in 1903-4, it was 3,594. In this time there were no schools affiliated and these figures show a normal and healthful growth which is exceedingly gratifying.

I also transmit the recommendations of the Council of Administration and of the University Senate that honorary degrees be conferred as follows:

William Arnon Henry, Doctor of Agriculture.
 Lincoln Bush, Doctor of Engineering.
 William Freeman Myrick Goss, Doctor of Engineering.
 John Williston Cook, Doctor of Laws.
 William Edward Quine, Doctor of Laws.
 Simon Newton Dexter North, Doctor of Laws.
 Frank White, Doctor of Laws.
 Willis Joshua Bailey, Doctor of Laws.

The whole number of degrees conferred this year will be 640.

FACULTY APPOINTMENTS.

I recommend Faculty appointments as follows:

Deans.

1. That the Deans now in office be re-elected at the same salaries as paid last year, except that the Dean of Undergraduates be paid \$3,000.00, and the Dean of the College of Law be paid \$3,000.00 upon the understanding that his entire time shall be given to the College.

The recommendations with regard to Deans except the Dean of Undergraduates were adopted.

It was voted that the salary of the Dean of Undergraduates remain as at present.

Professors.

1. That Frederick Green be appointed Professor of Law at \$2,000 a year.
2. That Assistant Professor George H. Meyer of the German Department be granted leave of absence for foreign study at half pay next year, and that Assistant Professor Neil C. Brooks be placed in charge of the Department temporarily, and that his salary be \$1,400.00.
3. That the salary of Charles Tobias Knipp, Assistant Professor of Physics, be \$1,600.00.
4. That Floyd Rowe Watson, Instructor in Physics, be made Assistant Professor of Physics and his salary be \$1,300.00.
5. That the resignations of Seth Justin Temple and Cyrus Daniel McLane, Assistant Professors in the Department of Architecture, be accepted to take effect September 1, 1904.
6. That the time of Professor Newton A. Wells, which has heretofore been divided between the departments of Architecture and Art and Design, be hereafter given wholly to the Department of Architecture, and that his title be Professor of Architectural Decoration, and his salary \$2,100.00.
7. That the salary of Professor Edwin G. Dexter be \$2,200.00.
8. That Psychology be made a separate department with Stephen S. Colvin as Associate Professor in charge of it, and that his salary be \$1,500.00.

9. That Edward Fulton, Assistant Professor of Rhetoric, be made Associate Professor, and his salary be \$1,700.00.

10. That Charles Frederick Perry be appointed Assistant Professor of Machine Design at \$1,600.00 a year.

11. That Henry Lewis Rietz, Instructor in Mathematics, be made Assistant Professor of Mathematics, and that his salary be \$1,300.00.

12. That Victor Tyson Wilson be appointed Assistant Professor of General Engineering Drawing and in charge of the Department at \$1,600.00.

13. That the salary of Benjamin Witmer Breneman, Assistant Professor of Music, be \$1,400.00.

14. That Professor Samuel Wilson Parr be placed in charge of the Water Survey with subordinate appointments as heretofore.

15. That the salary of Assistant Professor Frank Smith be advanced to \$1,700.00.

16. That the salary of Assistant Professor Charles F. Hottes in the University be \$1,200.00, and that \$300.00 be also paid him from the State Station fund.

17. That Azariah Thomas Lincoln, Instructor in Chemistry, be made Assistant Professor of Chemistry, and that his salary be \$1,300.00.

18. That Joel Stebbins, Instructor in Astronomy, be made Assistant Professor of Astronomy, and that his salary be \$1,300.00 a year.

19. That the salary of Matthew Brown Hammond, Assistant Professor of Economics, be \$1,300.00.

20. That the salary of Nathan Austin Weston, Assistant Professor of Economics, be made \$1,300.00.

21. That the salary of Edward John Lake, Assistant Professor of Art and Design, be \$1,500.00.

22. That the salary of Edwin Chauncey Baldwin, Assistant Professor of English, be \$1,400.00.

23. That the salary of Henry Lawrence Schoolcraft, Assistant Professor of History, be \$1,300.00.

24. That the salary of Oscar A. Leutwiler, Assistant Professor of Mechanical Engineering, be \$1,600.00.

25. That the salary of Arthur Hill Daniels, Professor of Philosophy, be \$1,800.00.

26. That the salary of Katharine L. Sharp, Head Librarian and Professor of Library Science, be \$2,500.00.

The foregoing recommendations with regard to professors were adopted.

Instructors.

I recommend the appointment of the following instructors at the salaries set opposite their names, for ten months from September 1, 1904:

1. Charles Gideon Davis, in German, at \$1,000.00.
2. Daisy L. Blaisdell, in German, at \$900.00.
3. Martha J. Kyle, in Rhetoric, at \$1,000.00.
4. Maurice Garland Fulton, in Rhetoric, at \$850.
5. John Quincy Adams, in Rhetoric, at \$1,100.
6. Robert C. Matthews, in General Engineering Drawing, at \$850.
7. Hammond W. Whitsitt, in General Engineering Drawing, at \$850.
8. Frank William Scott, in Rhetoric, at \$900.
9. Harry Ashton Roberts, in Civil Engineering, at \$1,000.
10. Guy Henry Rump, in Civil Engineering, at \$750.

11. Edward L. Milne, in Mathematics, at \$1,000.
12. Henry L. Coar, in Mathematics, at \$1,100.
13. Ernest W. Ponzer, in Mathematics, at \$1,000.
14. Marion B. White, in Mathematics, at \$850.
15. Ernest B. Lytle, in Mathematics, at \$900.
16. Frank C. Tuton, in Mathematics, part time, at \$400.
17. George F. Schwartz, in Music, at \$1,000.
18. Eunice D. Daniels, in Music, at \$900.
19. Almeda F. Mann, in Music, at \$850.
20. May E. Breneman, in Music, at \$900.
21. Constance B. Smith, in Music, at \$1,000.

32. Roy I. Webber, in Civil Engineering, at \$1,100.
33. Lawrence G. Parker, in Civil Engineering, at \$1,050.
34. Leslie A. Waterbury, in Civil Engineering, at \$1,050.
35. Alfred Higgins Sluss, in Physics, at \$700.
36. Clarence W. Alvord, in History, at \$1,200.
37. Kenneth P. R. Neville, in Latin, at \$900.
38. John M. Snodgrass, in Mechanical Engineering, at \$1,050.
39. John J. Harman, in Mechanical Engineering, at \$900.
40. Robert H. Kuss, in Mechanical Engineering, at \$900.
41. Albert R. Curtiss, in Mechanical Engineering, at \$1,200.
42. Henry Jones, in Mechanical Engineering, at \$700.
43. Joseph H. Wilson, in Mechanical Engineering, at \$700.
44. David L. Scroggin, in Mechanical Engineering, at \$900.
45. Roy H. Slocum, in Municipal Engineering, at \$1,050.
46. John J. Richey, in Municipal Engineering, at \$900.
47. Jennette M. Carpenter, in Physical Training, at \$1,000.
48. William F. Schulz, in Physics, at \$750.
49. Emery R. Hayhurst, in Physiology, at \$750.
50. Theodore E. Hamilton, in Romanics, at \$1,000.
51. Florence N. Jones, in Romanics, at \$900.
52. Amos W. Peters, in Zoology, at \$1,000.
53. Justus W. Folsom, in Entomology, at \$1,200.
54. L. E. Moore, in Municipal and Sanitary Engineering and Theoretical and Applied Mechanics, at \$1,200.
55. Roy Victor Engstrom, in Municipal and Sanitary Engineering and Theoretical and Applied Mechanics, at \$800.
56. Charles R. Clark, in Architecture, at \$1,200.
57. Thatcher Howland Guild, in Rhetoric, at \$800.
58. Florence Elizabeth Pitts, in Rhetoric, at \$750.

The foregoing recommendations with regard to instructors were adopted.

Water Survey.

I recommend that Professor Samuel W. Parr be placed in charge of the Water Survey, and that Robert Watt Stark be appointed Chief Assistant, at \$100 a month for twelve months, and that Mattie A. Lemon be appointed stenographer for twelve months at \$45 per month.

Appointments were made as recommended.

Laboratory and Other Assistants.

1. Elrick Williams, in Chemistry, at \$600.
2. Samuel C. Clark, in Chemistry, at \$600.
3. Edward Otto Heuse, in Chemistry, at \$600.
4. Edna DuBois Hoff, in Chemistry, at \$500.
5. Bert Dee Ingels, in Chemistry, at \$500.
6. William Salisbury Ballard, in Botany, at \$500.

Appointments were made as recommended.

Library and Library School.

I recommend the following appointments in the Library and Library School at the salaries named:

1. Frances Simpson, Reference Librarian and Assistant Professor of Library Economy, at \$1,400.
2. Florence Maria Beck, Assistant Professor of Library Economy, at \$1,200.
3. Agnes M. Cole, Head Cataloger, at \$900.
4. Grace O. Kelley, Cataloger, at \$720.
5. Francis K. W. Drury, Order Assistant, at \$900.
6. Annie Davies Swezey, Order Assistant, at \$720.
7. Fanny R. Jackson, Binding and Periodical Clerk and Instructor in Public Documents, at \$840.
8. Emma R. Jutton, in charge of Loan Desk, at \$900.
9. Anna David White, Loan Desk Assistant, at \$720.
10. Harriet E. Howe, Instructor in Library Economy, at \$750.
11. Stella Bennett, Cataloger, at \$600.
12. Bertha Royce, Reference Assistant, at \$600.
13. Arthur Chapman Benson, Custodian Law Library, at \$150.
14. John Walter Preihs, Custodian Law Library, at \$150.
15. Frank Bumstead, Shelf Assistant, half time, at \$200.

Appointments were made as recommended.

Agricultural Appointments.

I recommend the approval of the following recommendations concerning appointments from the Dean of the College of Agriculture and Director of the Agricultural Experiment Station:

"I respectfully recommend that Mr. Jeremiah George Mosier be advanced in title from Instructor in Soil Physics to Assistant Professor in Soil Physics in the College, and to the corresponding title of Assistant Chief in Soil Physics in the Experiment Station, and that his salary be increased from \$1,400 to \$1,500, of which \$600 should be paid from the college fund and \$900 from the soil funds of the Experiment Station.

"That Mr. James Harvey Pettit be advanced from Assistant in Soil Fertility to Instructor in Soil Fertility in the College, and First Assistant in Soil Analysis in the Experiment Station, and that his salary be increased from \$1,200 to \$1,400, of which \$400 should be paid from the college funds and \$1,000 from the soil funds of the station.

"That the title of Mr. Albert Nash Hume in the College be Instructor in Crop Production and that he be added to the Station force with the title of First Assistant in Crop Production, and that his salary be increased from \$1,000 to \$1,200, divided equally between the college fund and the corn fund of the station.

"That Mr. Fred Randall Crane be reappointed without change of title or salary and paid in ten installments.

"That Mr. Edward Murray East be advanced to First Assistant in Plant Breeding in the station, to assume the work of Mr. Smith during his absence, and that his salary be increased from \$1,000 to \$1,200, to be paid from the corn fund of the station.

"That the salary of Mr. William Franklin Pate be increased from \$840 to \$1,000, to be paid from the soil fund of the station.

"That the salary of Mr. Ira Obed Schaub be increased from \$840 to \$1,000, to be paid from the soil fund of the station.

"That Mr. Clifford Willis be reappointed without change of title or salary.

"That Mr. Harry Houser Love be appointed Assistant in Chemistry, to take the place of Mr. C. A. Schroeder, resigned, at a salary of \$600, to be paid from the corn fund of the station. Mr. Love comes from Wesleyan University, and is a young man of apparently exceptional character and his training in chemistry for our purposes has certainly been excellent.

"That Mr. Andrew Ystgard be appointed Assistant in Chemistry at a salary of \$720, to be paid from the soil fund of the station. This appointment will be for the purpose of making good the lack in our chemical force in consequence of Mr. Smith's absence. Mr. Ystgard is a new man recommended to us by the University of Wisconsin. Though he has had most of his training in Norway, he is evidently an excellent chemist, writes both German and English, and seems to be well qualified for this work.

"That Mr. Jerome Edward Readhimer be appointed Superintendent of Soil Experiment Fields at a salary of \$1,000, to be paid from the soil fund. Mr. Readhimer ought not to be considered as a fresh young graduate. He has been doing this work for three years during his course, which for this reason has been very much prolonged. He is thoroughly acquainted with the work, is a mature man, and fully worth the salary named.

"That Mr. Louis Dixon Hall be made Instructor in Animal Husbandry in the College and First Assistant in Animal Husbandry in the station, at a salary of \$1,400, of which \$900 should be paid from the college and \$500 from the live stock fund of the station. Mr. Hall has been with us for the past year on temporary engagement. He has done his work well and is better qualified for these duties than any man we can discover.

"That Mr. William Dietrich already Instructor in Swine Husbandry in the college, be advanced to the corresponding title of First Assistant in Swine Husbandry in the station, and that his salary be increased from \$1,000 to \$1,200, of which \$300 should come from the college fund and \$900 from the live stock fund of the station.

"That Mr. Rufus Chancey Obrecht, Instructor in Horses, be advanced to the corresponding title of First Assistant in Horses in the station, and that his salary be increased from \$1,000 to \$1,200, of which \$900 should come from the college fund, and \$300 from the live stock fund of the station.

"That Mr. Edwin Station Good, Assistant in Animal Husbandry, be made Instructor in Animal Husbandry in the college, and that his salary be increased from \$1,000 to \$1,200, of which \$300 should come from the college fund and \$900 from the live stock fund of the station.

"That Assistant Professor Wilber John Fraser be advanced to the title of full professor in Dairy Husbandry and that his salary be increased from \$1,800 to \$2,400, of which \$800 should be paid from the college fund and \$1,600 from the dairy fund of the station. I have previously expressed my feelings as to the inconsistency regarding Professor Fraser's case. He is the head of a department difficult to administer, drawing a salary \$200 lower than two other men within the department serving under him. All my other recommendations relate to minor employees below the title of Assistant Professor, but this is a matter of simple justice to the head of an important department.

"That Mr. Joseph William Hart be advanced from Instructor of Dairy Manufactures to Assistant Professor in Dairy Manufactures in the college, with the corresponding title of Assistant Chief in Dairy Manufactures in the station, without change of salary. Mr. Hart is a mature man of broad experience and he has succeeded admirably here during the last year, not only meeting but exceeding our expectations. He is well worth the title of Assistant Professor.

"That Mr. Arthur James Glover be reappointed without change of title or salary.

"That Mr. Cassius Clay Hayden be reappointed without change of title, and that his salary be increased from \$900 to \$1,100, of which \$400 should be paid from the college fund and \$700 from the dairy fund of the station.

"That Mr. Herbert Andrew Hopper be reappointed without change of title, and that his salary be increased from \$800 to \$1,000, of which \$300 should be paid from the college fund and \$700 from the dairy fund of the station.

"That Mr. Carl Emil Lee be reappointed without change of title, and that his salary be increased from \$1,000 to \$1,200, to be paid from the dairy fund of the station.

"That the salary of Mr. Alvin Casey Beal, Instructor in Floriculture, be increased from \$1,020 to \$1,200, to be paid from the college fund.

"That \$300 of Professor Charles Frederick Hotte's salary be paid from the Experiment Station (Professor Hottes being Chief in Vegetable Physiology) instead of \$500 as before. The change is recommended because of his inability to render as much service to the station as was expected, owing to press of instructional work.

"That the salary of Mr. James Theophilus Barrett be increased from \$720 to \$840, to be paid from the station funds.

"That Mrs. Gertrude Clark Sober be reappointed Instructor in Household Science, without change of title or salary.

"That Miss Susannah Usher be appointed Instructor in Household Science at a salary of \$1,000, to be paid in ten installments. Miss Bevier says of her:

"That Miss Usher is a native of LaCrosse, Wisconsin. She holds a certificate from Teachers' College, is a graduate of the teachers' course of Pratt Institute. She spent five years in Massachusetts Institute of Technology, specialized in biology and graduated from that institution in 1898. Since that time she has taught in the Boston

School of Housekeeping and in Simmons College, having been instructor in the latter for the past three years. So far as training is concerned she has probably had better opportunities than any woman now in the work. Mrs. Ellen H. Richards told me she thought she had done some excellent teaching with very unpromising material. Miss Usher is about forty years of age, and has a pleasing personality. I feel that we shall be doing much for the department if we can secure a woman with so much to be said in her favor for \$1,000. I know of no one else who can be secured who has anything like her training and experience. Our acquaintance dates from '98, and personally I like Miss Usher very much.

"That the salary of Miss Grace Johnson Maxwell be increased from \$55 to \$60 a month.

"That changes in titles take effect at once, but that changes in salaries and new appointments date from September 1, excepting the appointment of Messrs. Love, Ystgard and Readhimer, which should date from July 1; that all salaries be paid in twelve installments, except in the cases of Mr. Crane, Mrs. Sober and Miss Usher."

The recommendation was adopted.

Appropriations.

I recommend that the financial estimates and appropriations of the Dean of the College of Agriculture and Director of the Station be approved except that the appropriations be made semi-annually rather than annually.

College—

U. S. fund	\$12,500
Interest endowment fund	16,000
Teachers and institutes	6,000
State, College	50,000
Drainage, fencing, and repairs	5,000
	\$ 89,500

Station—

U. S. fund	\$15,000
Live stock examinations	25,000
Soil examination	25,000
Corn experiment	10,000
Treatment of orchards	10,000
Dairy investigations	15,000
	\$100,000

These amounts are exact except the endowment fund interest, which is variable but entirely safe at the figure named. I respectfully request the appropriation of these funds for the coming year in accordance with the following schedule of estimates for the various departments and general needs of the College and Station:

Estimates by Departments.

The recommendation was adopted.

Gymnasium.

1. That the salary of George A. Huff, Director of Physical Training, be \$2,200.
2. That Harry Gill be appointed Assistant Director of Physical Training, and that his salary be \$1,000.
3. That Edward Henry Lenke be appointed Assistant in the Gymnasium at \$300 for ten months.
4. That Leo G. Hana be appointed Assistant in the Gymnasium at \$450 for ten months.

Appointments were made as recommended.

The Academy.

That appointments be made in the Academy as follows:

1. Frank Hamsher, Principal, at \$2,000.
2. Bertha Marion Pillsbury, English, at \$850.
3. Margaret A. Scott, German and French, at \$850.
4. Irving M. Western, English, at \$800.
5. John Thomas Johnson, Science, at \$850.
6. Joseph Hinkley Gordon, History and Mathematics, at \$800.
7. Charles William Whitten, Physics and Mathematics, at \$800.
8. William Grant Palmer, in Latin and Greek, at \$800.
9. Harry Wilfred Reddick, in Mathematics, at \$800.

Appointments were made as recommended.

Instructors in Military.

I recommend that instructors in military be appointed for the ten months from September 1, 1904, at a salary of \$10 a month:

Fred George Pegelow, Edgar White Wagenseil,
Charles Edward Armstrong.

Appointments were made as recommended.

Fellowships.

That University fellows be appointed as follows:

In Organic Chemistry, Burton B. Wilcox, of Kewanee, Ill. Mr. Wilcox will take his degree in the College of Science with us this month.

In Science of Government, Mr. Yasuzo Sakagami, of Wakagamaken, Japan. Mr. Sakagami will take his doctor's degree in June, 1905. He has studied abroad at the University of France and in this country at the University of Minnesota and the University of Wisconsin.

In Mechanical Engineering, H. B. Dirks, now graduating in Mechanical Engineering in the College of Engineering.

In Animal Husbandry, Daniel T. Gray, who will graduate from the University of Missouri this June.

In Zoology, Maurice H. Rees, of Monmouth College, Ill.

The Council further recommends that the Trustees approve the acceptance of \$300 offered for a fellowship in mechanical engineering by the Champaign, Urbana and Danville Street Railway Company, to be known as the Champaign, Urbana and Danville Street Railway Fellowship in mechanical engineering. The Council recommends the appointment of Mr. F. S. Hadfield, a mechanical engineering senior, to this fellowship. This is given for but one year.

The Council further recommends the acceptance of two fellowships of \$300 each, in insurance; one from Messrs. Kimball & Norton of Chicago, agents for the Northwestern Mutual Life Insurance Company, and one from Mr. W. A. Hamilton, agent at Terre Haute, Ind., for the New York Mutual Life Insurance Company. The appointments to these fellowships can be made only after a test to be given the various candidates during the summer. Each of these fellowships is for one year and the Council recommends that they be accepted and put on the same basis as regular University fellowships.

Appointments were made as recommended.

Secretary to the President.

I recommend that John G. Wilson be appointed Secretary to the President, subject to the recommendation of the new president when chosen, at a salary of \$1,000 per year.

Approved.

Student Assistants.

I recommend that the sum of \$1,000 be appropriated for services of students employed by the President from time to time as may be necessary.

Approved.

Clerical Assistants.

I recommend the appointment of clerical assistants as follows:

1. Levi Augustus Boice, clerk in the office of the Registrar, at \$1,000.
2. Oren Elmer Staples, clerk in the office of the Business Manager at \$1,000.

3. Sue Wilson Ford, clerk in the office of the Dean of the College of Engineering, at \$780.
4. Jennie Morse Laffin, clerk in the office of the Dean of the College of Literature and Arts, at \$780.
5. Olive Faith Saxton, stenographer in the President's office, at \$780.
6. Eva Iola Saxton, stenographer in the President's office, at \$540.
7. Lulu Mackintosh Lego, stenographer in the office of Vice-President and Dean of the Graduate School, at \$600.

I also recommend that the request of Dean Ricker that a clerk be allowed the Professor of Mechanical Engineering be granted, and that Professor Breckenridge be authorized to employ one from September first at \$50 a month.

Approved.

Mechanics and Store-Keeper.

1. That Frank Gardner Wilson be appointed Mechanician in the department of electrical engineering, at \$70 a month.
2. That Fred Hayes be appointed Mechanician in the department of physics, at \$70 a month.
3. That M. T. Lindsey be appointed Store-Keeper in the Department of Chemistry at \$40 a month for ten months.

Approved.

Messengers.

That Albert R. Lee be appointed Messenger in the President's office, at \$45 per month for twelve months, and that messengers be employed from September 1st to July 1st, at the rate of \$3 per week, in the following offices, viz: that of the Vice-President and Dean of the Graduate School, that of the Dean of the College of Literature and Arts, that of the Dean of the College of Engineering, those of the professors of chemistry jointly, and that of the Dean of the College of Agriculture.

Approved.

Watchmen.

I recommend that the watchmen be continued upon the same terms and arrangements as heretofore.

Approved.

Superintendents of Buildings and Grounds.

1. I recommend the reappointment of Mr. Joseph A. Morrow as Superintendent of Buildings, at \$1,700 a year.
2. I recommend the reappointment of Mr. Fred Atkinson as Superintendent of Grounds on one-half time, at \$600 a year, and that Mr. Evelyn Atkinson be reappointed Assistant Superintendent of Grounds, at \$780 a year.

Approved.

Lecturers.

I recommend the appropriation of \$500 to be used in the discretion of the President to meet the expenses of occasional lectures at the University.

Approved.

Summer Term Salaries.

I recommend that salaries for the Summer Term be fixed as follows, and that the money be appropriated therefor:

T. A. Clark	\$ 500
H. S. Grindley	300
E. G. Dexter	300
William E. Simonds	350

FLAG-STAFF.

The flag-staff on the campus has been in need of repairs or renewal for some years. Something of a radical nature should be done about it very soon. The class of 1904 has prepared as a class memorial an ornamental and costly base for a new staff, which is on the ground and ready for installation. The class has raised about \$500 for this purpose and has contracted for placing the base

in place. It is estimated that the cost of a new steel staff set in place will be \$500, and I recommend that that amount, or so much as may be needed, be appropriated for the purpose, and that the Committee on Buildings and Grounds be charged with looking after the matter.

Approved.

PROFESSOR BRECKENRIDGE AT ST. LOUIS EXPOSITION.

I transmit a communication from Professor L. P. Breckenridge, of the Department of Mechanical Engineering, showing that he has been solicited by the United States Government to lay out and supervise a series of boiler tests during the continuance of the Exposition. The proposition of the Government is a mark of special honor not only to Professor Breckenridge, but to the University as well, and I recommend that the Board give its cordial approval of his acceptance of the same.

Approved.

HAHNEMANN COLLEGE OF CHICAGO.

The following communication has recently been received from Hahnemann College of Chicago and claims early and very careful consideration:

Action was deferred until Tuesday.

Dr. Andrew S. Draper, President of the University of Illinois:

MY DEAR DR. DRAPER: We desire to make a formal application to the Trustees of the University of Illinois for an affiliation of the Hahnemann Medical College of Chicago with the University and submit the following tentative propositions, which our Board desires you to present to the Trustees of the University,

First, the Trustees of Hahnemann Medical College shall deed to the University of Illinois as a perpetual trust the property now owned and used by the Hahnemann Medical College subject to the following conditions: That Hahnemann Medical College shall become a part of the medical school of the University of Illinois.

Second, the University shall give its degree to the graduates of the Hahnemann College of the Homeopathic Department of the Medical School of the University of Illinois.

Third, that the Hahnemann Medical College shall remain in possession of and occupy its present quarters for the period of 25 years.

Fourth, that the Board of Trustees of the University of Illinois shall receive all moneys belonging to and earned by the Hahnemann Medical College and shall pay all bills on the presentation of proper vouchers.

Fifth, that all receipts of money over and above the amount required to pay the running expenses of the College shall be invested in securities for the benefit of the College alone.

Sixth, that the present Board of Trustees of the Hahnemann Medical College shall remain as an Advisory Board, shall certify all vouchers, select teachers and officers and in general conduct the affairs of the College.

Seventh, that the University shall publish the name of the College as constituting the Medical College, Homeopathic, of the University of Illinois, and shall publish the faculty list and such portions of the catalogues as shall be necessary.

Eighth, that the Hahnemann Medical College shall issue its own catalogue as at present, but in addition shall publish the names of the officers and trustees of the University of Illinois.

I recognize that the propositions are only tentative. I ask that the University Trustees take definite action regarding the affiliation, the details to be worked out by committees from the two institutions. Our intention is to donate to the State through the University a valuable property and to maintain the same without expense to the State, our only desire being that our graduates shall receive such benefits as may result from affiliation with the great University. If there is any hesitation on the part of the Trustees of the University, may I ask that a special meeting be called to consider the matter, and that representatives from our institutions be permitted to be present.

Sincerely yours,

G. F. SHEARS, *President.*

APPROPRIATIONS.

I recommend that appropriations for equipment and materials in scientific departments be made as follows:

General chemistry	\$1,000
Applied chemistry	450
Botany	1,336
Zoology	150
Geology	200
Physiology	500

I also recommend that appropriations for incidental expenses in administrative offices, colleges or departments be made as follows:

Administrative offices	\$200
College of Literature and Arts	200
Art and design	200
Botany	200
Education	200
Physical training	200
School of Music	200
The Academy	300
Oratorical contests	200
The Illini	200
The Illio	200
The High School Visitor	500
Zoology	200
Physiology	200
Geology	200
Library	200
College of Law	200
College of Engineering	300
Photography and blue printing	300

The appropriations were made as recommended.

BELL CROWN CAPS FOR REGIMENTAL OFFICERS.

I transmit herewith an application from the officers of the University Regiment for authority to adopt the "bell crown" cap for and after next year, and I recommend that it be granted.

Approved.

ADDITIONAL APPOINTMENTS.

It has not been possible to conclude quite all of the necessary appointments of instructors. There are doubtless four or five more which will have to be made, and I recommend that the Acting President be authorized to make such as he may think necessary on such terms as he shall think just and report them to the Board at the first opportunity.

Approved.

Respectfully submitted,

A. S. DRAPER, *President*.

BIDS FOR CONSTRUCTION OF BUILDINGS.

The bids were opened for construction of buildings, and found to be as follows:

The bids were referred to Professor White and the Committee on Buildings and Grounds for examination and report.

The Board took a recess until 3 o'clock in the afternoon.

AFTERNOON SESSION, JUNE 6, 1904.

When the Board met after recess the same members were present as at the morning session. Upon the recommendation of the Committee on Buildings and Grounds, the general contract for the erection of the Woman's Building was awarded to Collins Brothers, of Rock Island, on their bid of \$63,880, and the contract for the plumbing and heating of the Woman's building was awarded to Blake & Murphy, of Rock Island, on their bid of \$6,000, with an addition of \$745 for temperature regulation, if used.

The contract for the agricultural buildings was awarded to English Brothers, of Champaign, on their bid of \$50,500, and the heating and plumbing of these buildings was awarded to Walsh & Heuck, of Champaign, for \$2,100.

PAVEMENT.

Professor Talbot was requested to look after the interests of the University in regard to the pavement on the east side of the University grounds. The President and Secretary of the Board were authorized to sign and deliver to Mayor Glover, of Urbana, the following resolutions when matters relating to this pavement were finally adjusted:

WHEREAS, Steps have been taken to pave so much of Mathews avenue, Springfield avenue, and Romine street, in Urbana, as lies next to the grounds of the University of Illinois, as has not yet been paved, and

WHEREAS, Some question has been raised as to the liability of the University of Illinois to pay the benefits assessed against the said University, therefore

Resolved, By the Board of Trustees of the University of Illinois that it ratifies and confirms every step and action taken to pave said avenues and street, including the legal sufficiency of the petition and action of the Board of Local Improvements, the passage of the ordinance by the said city to pave said avenues and street, and the action and judgment of the County Court on said ordinance and petition to pave said avenues and street, and also approves of the amount of the assessments of benefits to the University; and further

Resolved, That the Business Manager be hereby directed to pay the installments of the assessment as they fall due.

Upon the request of the Superintendent of Buildings, Mr. Morrow, \$1,750 was appropriated for repairs, the sum to be expended under the supervision of the Committee on Buildings and Grounds.

COAL CONTRACTS.

The Committee on Buildings and Grounds was authorized to advertise for bids for supplying the University with coal for the year beginning September 1, 1904, and for hauling the same, and to report the same to the Board.

SCHOOL OF PHARMACY.

Mr. Bullard recommended the adoption of the following resolutions which had been presented to the Board at the meeting held April 28, 1904, and referred for further consideration to this meeting:

Resolved, That the President of the University is requested, after consultation and advice with the members of the Advisory Board of the College of Pharmacy, and prominent members of the State Pharmaceutical Association, and of the State Board of Pharmacy, to have drafted a bill amending the statutes so that graduation from a reputable College of Pharmacy will be taken in lieu of at least two years of experience in a drug store, and that the University use its influence toward the passage of the bill into a law of the State of Illinois.

Resolved, That all educational institutions of Illinois, and educators and societies interested in the advancement of technical education, be invited to give their moral support to the passage of said bill.

The resolutions were adopted.

Mr. Bullard then called up the following resolutions which had also been presented at the meeting of April 28, and laid over to this meeting, and moved the adoption of the first of them.

Resolved, That the Pharmacy Department shall hereafter be denominated the College of Pharmacy of the University of Illinois.

Resolved, That the salaries of the corps of instruction hereafter be made independent of the income from the fees of the department; and the President is requested to consider duly this change in annually reporting on the corps of instruction of the department.

It was moved to amend this resolution by striking out the word "College" and inserting the word "School." The amendment was adopted by the following vote:

Yeas, Messrs. Hatch, Kerrick, McLean, Nightingale and Mrs. Evans; nays, Mr. Bullard, Mrs. Abbott and Mrs. Alexander; absent Governor Yates, Messrs. Bayliss, Dickirson and McKinley.

The resolution as amended was adopted.

Mr. Bullard moved the adoption of the second resolution, After much discussion this resolution was laid on the table.

The following resolution offered by Mr. Nightingale was adopted:

WHEREAS, Since the School of Pharmacy of the University of Illinois belongs to the University, having been received by gift, and

WHEREAS, It is the desire of the University to place the School on a firm basis, as a department of the University, and to furnish it such an equipment as will make it a continued credit to the University, and of extended use to pharmaceutical science, therefore

Resolved, That the University ask of the legislature, at its coming session, a reasonable appropriation to carry out this purpose.

A motion that \$3,000 be appropriated for the use of the School of Pharmacy from the fees of the University was lost on the following vote:

Yeas, Messrs. Bullard and Hatch, and Mrs. Abbott and Mrs. Alexander; nays, Messrs. Kerrick, McLean and Nightingale and Mrs. Evans; absent, Governor Yates and Messrs. Bayliss, Dickirson and McKinley.

Mr. McLean offered the following resolution which was adopted:

Resolved, That the Business Manager advance from time to time as needed to furnish the School of Pharmacy a sum not to exceed \$3,000, and that said sum of \$3,000 be repaid into the treasury of the University out of the fees and such other receipts as said School shall receive on or before the 1st day of September, 1905.

COLLEGE OF DENTAL SURGERY.

The following refutation of misstatements, made with regard to the movement to affiliate the College of Dental Surgery with the University of Illinois, was presented for record:

In view of mistaken and misleading statements from officers or stockholders of the Chicago College of Dental Surgery concerning the failure of the movement to affiliate that institution with the University of Illinois, I respond to a request that I shall state the facts as I recollect them.

The first overture concerning the proposed affiliation came from the Dental College. We said we had no desire to take over any other professional school unless in the clear interest of professional education, and that we could take no school which was not more than self-supporting. Upon this general understanding we made such examination of the affairs of the Dental College as was practicable, and discussed details patiently and at length. An agreement was finally reached upon all matters. This was put in writing, read at a joint meeting and unanimously assented to. Later it was put in more perfect form and after ample delay was duly and solemnly executed.

The one important factor about which any uncertainty could arise, because the information about it was wholly within the knowledge of the Dental College, was the amount of the floating indebtedness of that institution. They said it was just about \$25,000 and the written agreement set forth that amount, provided for meeting it, and declared that any indebtedness beyond that sum should be paid by the College of Dental Surgery. When the agreement went into operation it was disclosed that instead of the debts being \$25,000 they amounted to \$48,000. Moreover, the officers of the institution refused to pay the difference and insisted that the University should shoulder the whole amount.

This was by no means all. The agreement had set forth that all moneys received or to be received by the Dental College for instruction this year should be turned over to the University. At the end of the first month, and upon our requesting the payment of so much of these moneys as had been received, it was disclosed that practically all, amounting to nearly \$30,000, had been wrongfully used to pay old debts or otherwise, and could not be paid to us as had been agreed.

These two disclosures were of great importance and demanded serious steps at once. The Dental College was therefore notified that no more than \$25,000 of indebtedness would be recognized and that the officers of the institution would be held responsible officially and personally for any use of misapplication of moneys which belonged to the University under the contract.

This led three or four of the officers of the Dental College to come to the University to a meeting of the Board of Trustees. The statement that I declined to respond to their request that I should meet them at a hotel late in the evening is true. The personal reasons for this were ample, and beyond these personal reasons I desired conference with the University trustees before seeing the Dental people. At the meeting with the trustees some concessions were made and a supplemental agreement was arrived at which was put in writing and which the officers of the Dental College, contrary to their assurances, refused to execute. Then one of the stockholders of the Dental College, who had been present at all of the conferences and had assented to all the conclusions raised the technical objection that their President had signed the original contract, not without their knowledge and approval but without the adoption of a resolution of authorization at a regular meeting. This was like pleading infancy. It was conclusive proof, if it had not been already supplied, that the University could not safely have relations with the management of the Dental College, and we therefore consented to the entry of an order in Court annulling the contract.

There are one or two other things possibly worth mentioning. For example, there came into the hands of the Business Manager of the University something like \$6,800—if I remember the sum correctly—of Dental moneys and he paid out, for current expenses of the Dental College all of this but a sum in the neighborhood of \$1,000. The Dental people demanded the repayment to them of this balance. The University had been put to legal expenses and traveling expenses of its officers amounting to about the same sum, and as the whole movement had failed through the culpability of the officers of the Dental College, the trustees of the University thought this balance should be used to pay this expense, and directed the Business Manager to retain it.

The statement that the University has no legal right to affiliate an institution in Chicago is erroneous. Although no specific authorization is necessary, the original charter of the University expressly recognizes the right of the University to maintain branches anywhere in the state.

Acting upon this authority the University has affiliated or established certain professional departments in Chicago. The occasion for doing this in Chicago was because there were large numbers of students there to be accommodated, because these departments required facilities which existed there and not elsewhere in the State, and because the State of Illinois was bound to give its aid and guidance to the uplifting of professional education at the great center of American professional education

which is within its borders. It has been the purpose of the University to reserve to itself the right of ultimate control over these Chicago departments, in order to assure the certainty that their standards should advance to and never fall below the University grade, and that the degrees which they confer shall stand for just as much as those conferred at the seat of the University, and for just as much as those conferred by any University in the country.

The statement that the agreement was nullified because of the purpose of the University to remove certain teachers at the Dental College is both untrue and significant. The University had arrived at no such purpose but it had reserved of necessity the right of final action in that connection. Apparently the men who deserved removal were apprehensive of their dues.

At the time of the negotiations, and to this day, the President of the Dental College insisted that not he but his associates were the wrongdoers—that he was doing all he could to have them carry out their agreements. On the other hand they asserted that he was the guilty party; that he gave other stockholders no information that they were surprised at the amount of debts disclosed and could not understand what had become of all the money. These conflicting statements have some bearing upon the controversy, but the University is quit of the whole matter and does not have to settle them.

The Board adjourned to meet at 8:30 o'clock Tuesday morning.

SESSION OF TUSEDAY, JUNE 7, 1904.

When the Board met pursuant to adjournment the same persons were present as on Monday, and also Mr. McKinley.

AFFILIATION WITH HAHNEMANN MEDICAL COLLEGE.

The following statement with regard to affiliation with Hahnemann Medical College, of Chicago, presented by Mr. Bullard, chairman of the Committee on the College of Medicine, was approved and adopted.

This Board hereby expresses its desire to accept the proposition of the Hahnemann Medical College, of Chicago, giving to the University of Illinois all of its property and interests that the college may be continued under the control of and as a part of the University of Illinois, and instructs its Committee on the College of Medicine to obtain legal advice about the powers of this Board to accept said gift under the contract with the Chicago College of Physicians and Surgeons, and to obtain from said College of Physicians and Surgeons the reasons, if any it has, for objecting to the acceptance of said gift, and, if in the judgment of the committee it be legal and proper for this Board to accept said gift, then the committee is instructed to report a contract to this Board for its approval and acceptance.

HARVEY MEDICAL COLLEGE.

The Committee on the College of Medicine made the following report with regard to affiliation with Harvey Medical College, and the report was adopted.

URBANA, ILLINOIS, June 7, 1904.

To the Board of Trustees:

Your Committee on the College of Medicine, to which was referred the communication from the Harvey Medical College of Chicago regarding affiliation of the College with the University, desires to report that it has examined into the Harvey Medical College and finds that it is a medical college in the city of Chicago which holds sessions in the evenings only, has little in the way of educational tests for admission, but is doing very good work in the medical field. Your Committee finds that our own College of Medicine, which is a day college, is accomplishing all that this University may well do at present in the regular or old school field of medicine, and therefore, recommends that this Board decline the proposition of the Harvey Medical College and that the Secretary be instructed to notify the Harvey Medical College authorities of this action.

Respectfully submitted,

S. A. BULLARD,
ALEX. MCLEAN,

Committee on the College of Medicine.

APPOINTMENT OF LIEUT. COL. FECHET.

Mr. McLean offered the following resolution with regard to Lieutenant Colonel Edmund G. Fechet, which was unanimously adopted:

WHEREAS, The term of Lieutenant-Colonel Fechet for which he was assigned by the War Department for duty as military instructor of this University is about to terminate, and

WHEREAS, It would seem to be unwise to change the head of this department at this time when the University is without a President, and

WHEREAS, The military discipline of our military corps is excellent, and exerts a proper influence throughout the University, and Colonel Fechet has proved to be an excellent military officer, and has the respect and friendship of the students of his department, and has his command in a satisfactory condition, as shown by the reports of the United States inspecting officers—due entirely to Colonel Fechet's tact and aptness in governing young men, therefore, be it

Resolved, That the President of the University be instructed to communicate with the Military Secretary of the United States Army at Washington, and request that Lieutenant-Colonel Fechet be assigned for duty to this University, and that he be re-detailed to take command of the military department.

It was ordered that a committee of three, of which Mr. McLean should be chairman, should be appointed by the President of the Board to confer with Colonel Fechet.

The bill of The Audit Company of Illinois for services in examining the accounts of the Business Manager and the Treasurer amounting to \$120.42, was ordered paid on approval of the Committee on Finance.

PRESIDENT DRAPER'S ADMINISTRATION.

Mr. Bullard offered the following appreciation from the Committee appointed to prepare such a paper at the March meeting of the Board:

URBANA, ILLINOIS, June 7, 1904.

To the Board of Trustees of the University of Illinois:

GENTLEMEN: Your special committee begs leave to report with regard to President Andrew S. Draper as follows:

Andrew Sloan Draper became president of this University and entered upon the active duties of that office August 1, 1894. He was not experienced in college or university administration. He came from the superintendency of schools of the city of Cleveland, Ohio, which he has filled for two years, and to that office he came from the office of State Superintendent of Public Instruction of the state of New York. His experience in public school matters and his acquaintance with school administration and maintenance, united with eminent abilities to organize men and things into an united force for the accomplishment of definite ends, were at once loyally applied by him to the end that the University of Illinois might fully accomplish the work prescribed for it by its founders and by the State. He fully believed in the work which the University was created to do. He fully believed that the University could be so organized as to do it well. He fully believed that the State of Illinois would worthily support the University when shown that it was faithfully performing that work. He did not believe, and he so expressed himself in his letter of acceptance, that he was fully qualified to take the lead in the great work the University was to do. But he immediately manifested a clear mental grasp of the situation. He rightly comprehended the University's material conditions, the power of its Board of Trustees, the supreme importance of the work of its faculty, and the source and possibility of its financial support. This accurate view of the University was a sure basis for success.

President Draper has been with us for practically ten years. He goes from us to take up a large work in the educational field in his native state. It is with a profound sense of what has been accomplished in, for, and by the University of Illinois during his administration that this Board receives his resignation.

During the past ten years, under the guidance of President Draper, the University has largely advanced in the following lines:

The University has been more closely and vitally articulated with the public schools of the state.

Its material embodiment has been regularly and systematically promoted; there has been increased support obtained from the state for the instructional force; there has been a large expansion in the courses of study presented for students and the affiliation or the founding of the Colleges of Pharmacy, Medicine, Dentistry, and Law was accomplished.

There has been an exalted advance in sound scholarship.

There has been an improved organization of the administrative forces.

There has been a phenomenal increase in the number of students attending on the instruction of the University.

These are some of the things which have been actively promoted during President Draper's administration, and which are largely due to his initiative and perseverance.

It is the belief of the members of this Board that an equally great advance in the work of the University was promised for the next decade as the past one presents had the President chosen to stay.

In his parting from us we commend his work done here, congratulate the University upon the advance made during his administration, and express our confidence that he will be eminently successful in his labors in another great commonwealth.

S. A. BULLARD,
ALEXANDER MCLEAN,
Special Committee.

The report of the Committee was unanimously adopted.

AUDITING ACCOUNTS.

The Finance Committee made the following report, which was adopted:

URBANA, ILLINOIS, June 7, 1904.

To the Board of Trustees of the University of Illinois:

Your Finance Committee respectfully reports that it referred the matter of examining books, vouchers, and warrants, together with receipts and disbursements of all funds from April 1, 1903, to January 1, 1904, by the Business Manager and the Treasurer of the University, to the Audit Company of Illinois. We herewith present the Company's report and recommend that the same be placed in the hands of the Business Manager, and suggest that he examine it together with the recommendations said Audit Company has made and report to this Board at its next meeting as he may deem proper touching such recommendations.

ALEXANDER MCLEAN,
W. B. MCKINLEY,
A. F. NIGHTINGALE,
Committee on Finance.

ACCOUNTANCY REPORT.

The Committee on Accountancy made the following report, and the report was received for record:

UNIVERSITY OF ILLINOIS, June 6, 1904.

President A. S. Draper:

DEAR SIR: The Committee on Accountancy hereby makes report of its action for the current year, for report to the Board of Trustees, in accordance with the regulations provided.

One hundred and two applications for the degree of Certified Public Accountant have been received up to June 4. Of these, 92 have been applications under the waiver clause and ten for examination. Two candidates were refused admission to the examination and their checks returned. Diplomas have been issued to 54 applicants, two failed to pass the examination, eight applicants under the waiver clause have been rejected, and action on the rest of the applications is pending.

The term of office of Mr. Ernest Reckitt, who was appointed for one year as a member of the Board of Examiners, has expired, and it is the judgment of the Committee that the interests of the University and of the work of the Board would be best served by his reappointment for another term of three years. Accordingly we hereby recommend Mr. Reckitt's reappointment.

No applications for membership on the Board have been received this year. The names of Mr. Maurice S. Kuhns, Mr. Frederick F. Judd, Mr. W. M. Robertson and Mr. C. W. Augustus were left over from among the applications made last year. In the opinion of the Board, no one of these gentlemen is so well qualified for the position as is Mr. Reckitt.

Respectfully submitted,

DAVID KINLEY,
W. L. PILLSBURY,
MAURICE H. ROBINSON,
Committee.

SCHOOL OF PHARMACY FEES AND REPAIRS.

It was ordered that a matriculation fee of \$5.00 be charged students upon entering the College of Pharmacy.

Also that the laboratory deposit be made \$10.00.

The matter of repairs and improvements of the buildings recently rented for the School of Pharmacy, was referred to the Business Manager, who was put in charge of the same.

BUSINESS MANAGER'S REPORT.

The Business Manager presented his report which was referred to the Committee on Finance.

PURCHASE OF Y. M. C. A. GROUND.

The following resolutions were adopted:

WHEREAS, It is advisable that the University make necessary arrangements to become the owner of the ground now owned by the Y. M. C. A., and lying just east and adjoining the site of Engineering Hall, therefore be it

Resolved, That the President of the Board be authorized to obtain an option for the period of one year on said premises at a sum not to exceed \$15,000; and further

Resolved, That this Board, at the proper time, request the next legislature to make an appropriation of the above amount to be applied on purchase of said premises.

COMPENSATION OF PRESIDENT DRAPER.

The following resolution was adopted:

WHEREAS, President Draper has fully and effectively given his service to the interests of the University during his leave of absence, and

WHEREAS, He has returned to close the strenuous labors of the University year, therefore

Resolved, That the Business Manager be authorized and directed to draw a warrant upon the Treasurer of the University for an amount equal to the sums which would have been due him had his leave of absence not been freely offered to the first of July, and, further

Resolved, That we follow the President to his new field of labor with the gratitude and good will and blessings of the Board of Trustees, as representing the sovereign people of the State of Illinois, to whose interests he has given the past ten years of a very earnest life.

It was also voted to give to President Draper the chair which he has occupied in his office, and that the Secretary of the Board be instructed to send him the minutes of all the meetings of the Board.

APPROPRIATIONS FOR ATHLETIC GROUNDS.

Upon the request of Mr. Huff, Director of Physical Training, \$230 was appropriated for tiling, and \$300 for grading the south half of Illinois Field. In this connection it was stated by Vice President Burrill that about \$150 would be needed for the summer's work on the athletic grounds on the south farm, and it was left that this amount should be paid from the appropriation for buildings and grounds.

DEAN OF UNDERGRADUATES.

On motion of Mr. McKinley, the vote by which the Dean of Undergraduates' salary was left at \$2,750, was reconsidered. The recommendation that he be reappointed at a salary of \$3,000 was then amended to read that Thomas Arkle Clark be appointed Professor of Rhetoric and Dean of Undergraduates at a salary of \$3,000 a year, the amendment was adopted, and the recommendation was adopted as amended.

HISTORY OF THE PAST TEN YEARS.

The following resolution was adopted:

Resolved, That, in view of the desirability of securing a correct history of the last decade in the development of the University, President Draper be requested to prepare such a record and publish the same at the cost of the University.

FOUNDRY.

On the recommendation of the Chairman of the Committee on Buildings and Grounds, Mr. Bullard, it was voted that the bid of English Brothers, of Champaign, \$10,770 in amount, be accepted for the construction of the Foundry.

ATTORNEY'S FEES.

The bill of John S. Brown for services as attorney in the matter of the School of Pharmacy and transactions connected therein was referred to the Business Manager and Mr. Kerrick with power to act.

ACTING PRESIDENT.

It was voted that after President Draper had retired, Doctor T. J. Burrill should be Acting President of the University.

Adjourned.

W. L. PILLSBURY,
Secretary.

F. L. HATCH,
President.

MEETING OF THE BOARD OF TRUSTEES
—OF THE—
UNIVERSITY OF ILLINOIS

AUGUST 16, 1904.

The Board of Trustees of the University of Illinois met in special session at 9 o'clock a. m., Tuesday, August 16, 1904, pursuant to the following call issued August 10, 1904:

“By order of the President, Mr. F. L. Hatch, there will be a special meeting of the Board of Trustees of the University of Illinois at 9 o'clock a. m., Tuesday, August 16, 1904, at the University, to consider such business as may be duly presented.”

When the Board met pursuant to this call there were present Messrs. Bayliss, Bullard, Hatch, Kerrick, McKinley, McLean, and Nightingale and Mrs. Abbott and Mrs. Alexander; absent, Governor Yates and Mr. Dickirson and Mrs. Evans. Acting President, Dr. Burrill, was present.

A hearing was given Mr. Fred Rugg, of Champaign, who asked the Board to appropriate \$100.00 in order to have inserted in a forthcoming history of Champaign county plates of the presidents of the University.

A motion to appropriate \$100.00 for this purpose was lost.

COMMUNICATION FROM PRESIDENT BURRILL.

August 15, 1904.

To the Board of Trustees, University of Illinois:

I respectfully recommend that resignations be accepted as follows, to take effect September 1, 1904:

That of Violet Delille Jayne as Dean of the Woman's Department and as Associate Professor of the English Language and Literature.

That of Mathew Brown Hammond as Assistant Professor of Economics.

The resignations were accepted.

That of William Lincoln Drew, as Professor of Law and as Secretary of the College of Law.

The resignation was accepted, Mr. Kerrick voting no.

It is also stated that Harry Ashton Roberts, Edna Hoff, and Irving M. Western declined the appointments made them last June, and Bertha M. Pillsbury will vacate the position in the Academy of Instructor in English if appointed to the place suggested below.

I recommend the following new appointments with the time of service to begin September 1, 1904:

George Luther Clark, Professor of Law, at \$2,000.00.
 James Wilford Garner, Assistant Professor of Political Science, at \$1,700.00.
 Richard Sidney Curtiss, Assistant Professor of Organic Chemistry, at \$1,800.00.
 Fred Goodrich Frink, Assistant Professor of Civil Engineering, at \$1,500.
 Chester Morton Davison, Instructor in Architecture, at \$1,500 for 10 months.
 Bertha Marion Pillsbury, Instructor in English, at \$900 for 10 months.
 Charles Francis Briscoe, Instructor in Botany, at \$700 for 10 months.
 Charles Julius Kullmer, Instructor in German, at \$900 for 10 months.
 William Frederick Hauhart, Instructor in German, at \$900 for 10 months.
 Arthur Sargent Field, Instructor in Economics, at \$900 for 10 months.
 May Wheeler, Assistant in Chemistry, at \$500 for 10 months.
 Winifred Forbes, Assistant in Violin and Theory, at \$600 for 10 months.
 Clifford Crosby, Assistant in Botany (part time), at \$200 for 10 months.
 Fay C. Brown, Assistant in Physics (part time), at \$300 for 10 months.
 Florence Mary Smith, Instructor in English in the Academy, at \$800 for 10 months.

J. Claude Jones, Assistant in Geology, at \$600 for 10 months.

The Council of Administration recommends the appointment of Miss Belva M. Herron to a fellowship in Economics at \$300 for the year, one-half of this to be from the commerce fund. Miss Herron is a graduate of the University of Michigan and is unusually qualified through much subsequent study and experience to enter upon investigations, the facilities for which are here on hand.

The appointments were made as recommended.

Mr. Clark graduated from Kenyon College with the class of 1896, and from the law department of the Indiana State University in 1899. After one year of legal practice he spent two years in the Law School of Harvard University and has been for two years instructor in Law in Leland Stanford University. He is to take the work, or a considerable portion of it, heretofore performed by Professor Drew.

Mr. Garner was graduated from the Agricultural and Mechanical College of Mississippi with the class of 1892. After four years' experience as principal of a high school he became a graduate student of the University of Chicago, where he continued his work during two years and was then for two years a teacher of history in Bradley Polytechnic Institute. For two years, 1900 to 1902, he was a fellow in political science in Columbia University, New York, and received here the degree of doctor of philosophy. The next year he was a lecturer at Columbia and was acting editor of the department of political science of the New International Encyclopedia. For the year 1903-4 he has been instructor in political science in the University of Pennsylvania. He has written over 300 articles for the Encyclopedia, is editor in part of the Political Science Quarterly and of the Annals of the American Academy. He is the author of *Reconstruction in Mississippi*, a book of widely recognized merit.

Mr. Curtiss was graduated from the Sheffield Scientific School in 1888; was two years employed as chemist by the Connecticut Agricultural Experiment Station; from 1890 to 1892 he was a student at the Universities of Munich and Wurzburg, from the latter of which he received the degree of doctor of philosophy; and was one year at Sorbonne. From 1893 to 1897 he was instructor in organic chemistry in the University of Chicago; from 1897 to 1901 he was professor of chemistry in Hobart College and has subsequently been the same in Union College. He is the author of a considerable number of technical papers published in foreign and American journals and is a member of various chemical and other societies.

Mr. Frink is a graduate in civil engineering of the University of Michigan, class of 1886. He was for six years instructor in drawing and descriptive geometry at the English High and Manual Training School, Chicago, Illinois; for four years engineer in structural iron and railroad work; for three years professor of civil engineering in the University of Idaho; for one year at the Massachusetts Institute of Technology, and for two years at the University of Michigan with the duties of assistant professor of civil engineering.

Mr. Davison is a graduate of the University of Illinois, class of 1898. After two years of practice and teaching he entered the Ecole des Beaux Arts where with various trips through Europe he has spent four years. During this time he was also architect for the Cuban section of the Paris Exposition. He is to take the place vacated by Professor Temple.

Mr. Field graduated from Dartmouth College in 1902 and the next year received the degree of Master of Arts from the same institution. During the last year he held a fellowship in Economics in the University of Wisconsin.

I have respectfully to make the following recommendations in regard to chemical affairs: (1) That the department of applied chemistry be discontinued as such; and that there be one Department of Chemistry. (2) That Professor Parr's title continue as that of Professor of Applied Chemistry, and Associate Professor Grindley be made Professor of General Chemistry. (3) That the headship of the department be divided so that Professor Parr shall have general charge of all matters pertaining to instructors and instruction, and Professor Grindley, as Director of Laboratory, shall have charge of and be responsible for all business and material affairs. They will then so adjust matters that each shall have supervision over definite subordinates and courses of instruction, and each be directly responsible for the men and work so assigned.

The recommendations with regard to the Chemistry Department were approved.

For reasons which may be fully explained I recommend that the salary of Professor Thomas W. Hughes be made \$2,000, and that Assistant Professor Northrup's be \$1,600, that Instructor Henry Coar's be \$1,200, and that Instructor William F. Schultz' be \$900; also that to the title of "Instructor in Music" for Mrs. Constance Barlow Smith there be added "in charge of Public School Methods."

I further recommend that Instructor Albert R. Curtiss be paid \$150 for his services in the Summer School.

The recommendations were approved.

I am not prepared to nominate any one at this time for the vacancy made by the resignation of Dean Jayne, though the instruction given by her in the Department of English as Associate Professor of the English Language and Literature has been provided for in the recommendations herein above made. It has seemed to me that there must be further consideration of the province of this office and of the duties connected therewith before a selection of the woman can be made. In the meantime serviceable supervision of and advice to young women can be provided for by the appointment by the Council of Administration of a committee for the purpose, composed of women now members of the corps of instruction. It will be a good time for the new officer to take charge when the Woman's Building is completed, and service different from that before possible will then be feasible and required.

The recommendation was approved.

There are other modifications made mandatory by changed conditions in what have been called the Statutes of the University, and some provision for suitable revision of these laws may be very properly made by you at this time. I have in my hands some preliminary suggestions in regard to this matter signed and submitted by the deans of all the colleges here on the campus. I shall be glad

to do what is your pleasure with these and concerning anything relating to the subject. In the same connection I will say that a paper has been presented to me signed by five prominent professors asking that some method of equalization of salaries be considered. This matter, too, it seems to me, should be included in any studies upon revision of the statutes.

With regard to the suggestions of certain Deans of the University in relation to the revision of the University statutes, it was voted that the full Board would meet the Deans, at their convenience, and consider the matter with them in committee of the whole.

The communication from certain members of the Faculty, asking that the Board take into consideration the equalization of the salaries of professors was referred to the Committee on Instruction and President Burrill for investigation and report.

On June 27, 1904, I gave Fred H. Rankin, Superintendent of Agricultural College Extension, permission to accept the secretaryship of the Live Stock Department of the Louisiana Purchase Exposition upon terms to be decided by your body. I now recommend that his salary for July to November inclusive, or for such time as he may be thus engaged, be at the rate of \$900 a year—one-half of his regular pay. I should add that he is compelled to stay for the most of his time in St. Louis; but his position there enables him to give effective service also in the line of his regular university duties and he takes care to improve his opportunities.

Permission was given Mr. Rankin as recommended.

No provision was made at your meeting in June for the usual stenographic service (half time) in the office of the Director of the Library. Further help of this kind is called for now in the Registrar's office and I recommend that leave be given to employ one stenographer and typewriter for these two offices at a sum not to exceed \$600 for the year.

The recommendation was approved.

The work of the Dean of Undergraduates could be much more satisfactorily done if he had an outer and a private office, and if he were provided with a messenger, besides having the required stenographic assistance. The latter has been available in connection with the provision for the President's office and by proper assignment may be so continued, but the office he occupies can not well be made to serve his needs. The larger room in which the Boltor collection of insects is now kept could be partitioned so as to be reasonably satisfactory and Dean Clark much desires that this should be done. The estimated cost for this is \$100, with the finish of the building. The insect collection can be taken care of elsewhere. I recommend that such an office and its equipment be provided.

Permission to employ a messenger and for stenographic assistance was approved.

The arrangement for an office was referred to President Burrill and the Business Manager with power to act.

I recommend the following assignments of money for the purposes indicated:

For extension of the University telephone system.....	\$ 50 00
For furniture and fixtures for the Department of Art & Design.	100 00
For incidental expenses of the Department of Astronomy.....	150 00

Appropriations were made as recommended.

There will be need of a considerable supply of furniture for the new rooms made in University Hall. It is hoped this may be provided by the Business

Manager out of the regular appropriation for Furniture and Fixtures for the three months ending September 30, 1904, but any necessary over expenditure is recommended.

The Business Manager was directed to supply new rooms in University Hall with furniture and was authorized to make such expenditures of funds therefor as might be found necessary.

There are still two or three minor appointments to be made and I respectfully ask continued authority to complete them.

T. J. BURRILL, *Acting President.*

The authority asked for was given.

The Board took a recess till 2:30 o'clock p. m.

AFTERNOON SESSION, AUGUST 16, 1904.

When the Board met after the recess the same members were present as in the morning.

ADVISORY BOARD OF THE SCHOOL OF PHARMACY.

Samuel Coffinberry, of Peoria, Illinois, who had been recommended by the Illinois Pharmaceutical Association therefor, was appointed a member of the Advisory Board of the School of Pharmacy to succeed Charles Ryan, the term of office being five years from July 1, 1904.

Mr. George W. Gere's bill of \$175.00 for legal services was ordered paid.

One hundred and fifty dollars, or so much thereof as might be needed, was appropriated for the publication of the proceedings of the Alumni Association at its meeting held June 7, 1904.

COAL CONTRACTS.

Mr. Bullard, Chairman of the Committee on Buildings and Grounds, reported that the committee had advertised on July 18, 1904, as directed by the resolution of the Board, for coal for the year ending August 31, 1905, also for hauling the same to the boiler house of the University.

The following proposals for furnishing coal were received:

Springfield Coal Mining Co., No. 2 Nut.....	\$1 60 per ton
Springfield Coal Mining Co., Nut and Slack.....	1 35 per ton
New Kentucky Coal Co., No. 4 Washed Nut.....	2 37 per ton
The Penwell Coal Mining Co., No. 2 Nut.....	1 80 per ton
Manufacture's Fuel Company, Jupiter Pea.....	1 70 per ton
Bell & Zoller Company, Pea Coal	1 65 per ton

The following proposals for hauling coal were received:

Pearl Adams	18 cents per ton
E. H. Renner & Bro.	18 cents per ton
Charles Servis	18 cents per ton

Your Committee therefore recommends awarding the contract for furnishing coal to the Springfield Coal Mining Company for No. 2 nut coal for \$1.60 per ton, and that Pearl Adams be awarded the contract for hauling coal at 18 cents per ton.

The recommendation of the Committee was adopted.

Two hundred and fifty dollars was appropriated for repairs, in addition to the amount appropriated at the June meeting.

HORTICULTURAL PLANTINGS AND BUILDINGS.

On motion of Mr. Kerrick, the action taken by the Board at the March meeting by which plantings on University grounds lying west of Wright street extended was restricted to twelve years, was rescinded, by the following vote:

Yeas, Messrs. Bayliss, McLean, Hatch, Nightingale, and Kerrick and Mrs. Abbott and Mrs. Alexander; nays, Messrs. Bullard and McKinley; absent, Governor Yates and Mr. Dickirson and Mrs. Evans.

Mr. Nightingale reported that the Buildings and Grounds Committee, to which was referred the question of the location of the horticultural building, referred the matter back to the Board without recommendation.

On motion of Mr. Kerrick, the horticultural building was relocated about midway on the west side of the extension of Wright street, by the following vote:

Yeas, Messrs. Hatch, Nightingale, and Kerrick, and Mrs. Abbott and Mrs. Alexander; nays, Messrs. Bayliss, McLean, Bullard, and McKinley; absent, Governor Yates, Mr. Dickirson and Mrs. Evans.

Mr. Bullard presented the following:

EXPLANATION OF VOTE.

In explanation of my vote against the reconsideration of the action of this Board taken last March, and the rescinding of that action I desire to say that it should be recognized by the members of this Board that it is sound policy to provide for the future growth of the University in a material way. The initial board of trustees, in locating University Hall, evidently placed it where it supposed the south end of the campus would always be. The grounds south of that building were set apart for gardens and experiment plats for the use of the agricultural and horticultural departments.

The location of University Hall was fixed in 1870. In thirty-four years the University has outgrown the limits fixed in 1870, and much more than double the amount of land comprising the original campus is now laid out for grounds and buildings.

Again, another south end of the campus has been fixed by the Board of Trustees, this time in 1903, at the very south end of the University holdings, and it is clearly evident that the grounds will never be extended to the south beyond this limit. No one can believe the University will cease to grow. In thirty-four years its growth has almost filled the north campus with buildings and is well advanced on the new south campus. In recent years the growth of the University has been accelerated, that is, on geometrical lines as compared with arithmetical. It must be recognized that the growth will continue if the Commonwealth of Illinois continues to prosper.

The Agricultural College has always occupied the south portion of the University's grounds and the Engineering College the north end. As the growth extended south the grounds used by the Agricultural College in plantings and experimental work have been released and given up to the campus for buildings and open grounds around them. In this withdrawal the Agricultural College was never crippled. Ampler grounds were provided as were necessary in the natural growth of the several departments of the College; and now, when it is proposed to set a time twelve years hence, when certain plats of ground occupied by the horticultural department shall be vacated for the enlargement of the campus, the department has been and will be given choice of other lands for enlargement and growth commensurate with its importance and satisfactory to its faculty and the friends of horticulture.

It is recognized that the growth of the University will in the future be a gradual expansion of present colleges and departments. This will require more buildings and a corresponding increase in grounds for the movement and recreation of students. It is the pride of our University that our grounds are roomy and with ample space between buildings for extensive avenues, walks, green sward, shrubbery, and spreading trees. These conditions give a charm to the work of the student and inspire and develop the best feelings of his higher nature. As buildings increase they must be placed in the vicinity of other buildings in the same college or department and unless the grounds are laid out extensively to accommodate a large growth, crowding of our grounds will necessarily follow, much to the injury of the University. The natural growth must be in the direction of the grounds set apart by the action of the Board, now sought to be rescinded. That action of the Board provided only for the natural growth so as to preserve the spaciousness of our grounds which is unique with our University among all the great colleges of the West.

The horticultural department should be slow to insist on the spoilation of the campus. It should take the lead in its preservation, enlargement, and beautification, especially since the department may be provided with more spacious grounds for its own peculiar work.

The only reason presented for this action is that a few more steps will be required to reach the experiment plats; but the same argument may be applied against the enlargement of any farm or orchard by its owner.

The ill effects of crowding are already to be seen in the campus surrounding the College of Engineering. Such crowding should be permitted only when it is impossible to avoid it, and should never be permitted among the buildings of the Agricultural College. A wide, roomy campus is a part of the traditions of this University. Nor is this a mere sentiment. Notwithstanding sentiments may be among the most valuable assets of humanity. The best life of the students require room for movement and activity. This room is necessary to enable the University to do its greatest work for its students, and more truly is it so as regards those students who come from farms and country places and who expect to return to them after their college course is ended.

To sum up then: The action of the Board should be allowed to stand because—

1. History indicates an accelerated growth of the University.
2. The present campus will not provide building sites for another third of a century.
3. Enlargement is possible only in the direction under consideration.
4. Our traditions embrace large and roomy grounds.
5. The horticultural department more than any other should set itself against the spoilation of the campus.
6. The healthful growth of the horticultural department can best be encouraged by larger experiment plats near by.
7. The successful activity of the University forbids the crowding of buildings on the campus.

S. A. BULLARD.

AFFILIATION OF THE HAHNEMANN MEDICAL COLLEGE.

Mr. Bullard, from the Committee on the College of Medicine, reported progress in the matter of the affiliation of the Hahnemann Medical College, and asked for further time for consideration of the question, which was granted.

PRESIDENCY OF THE UNIVERSITY.

After an informal report by Mr. Bullard from the special committee on the presidency of the University, and much discussion, it was voted that the Board adjourn to meet at the University at 9 o'clock a. m., Tuesday, August 23, at which time the report of the Committee would be presented and considered.

W. L. PILLSBURY,
Secretary.

F. L. HATCH,
President.

ADJOURNED SESSION, AUGUST 23, 1904.

When the Board of Trustees met, pursuant to adjournment, the following members were present: Messrs. Bayliss, Bullard, Dickirson, Hatch, Kerrick, McKinley, McLean, and Nightingale and Mrs. Alexander, Mrs. Abbott, and Mrs. Evans; absent, Governor Yates. Vice President Burrill was absent.

OPENING WRIGHT STREET FURTHER SOUTH.

Petitions for and against opening Wright street through to the street running north of the cemetery were referred to the Committee on Buildings and Grounds for investigation and report at the September meeting.

A proposition from the Munsell Publishing Company with regard to making an appropriation for putting in a forthcoming history of Champaign County portraits of certain persons now or formerly connected with the University was heard, and a vote to appropriate \$100.00 therefor was lost.

FENCING FORESTRY PLANTATION.

It was voted to enclose by a suitable fence the Forestry Plantation, and the Committee on Agriculture was instructed to have this done.

KEEPING HORSES.

Mr. Kerrick, at the request of the Committee on Agriculture, offered the following propositions with regard to keeping horses for University officers and instructors.

1. That stabling and care for one team, and for one or two carriages, without coachman's service, be afforded the President of the University at \$17.50 a month.
2. That stabling and care for one horse, and one carriage, be afforded the Dean of the College of Agriculture at \$10.00 a month.
3. That stabling and care for one horse, and one carriage, be afforded the Professor of Animal Husbandry at \$10.00 a month.
4. That the University purchase a team of typical coach horses, and a suitable vehicle, for the exclusive use of the University.

These propositions were referred for further consideration to the regular meeting in September.

The following resolution, offered by Mr. Bullard, was adopted:

Resolved, That the Committee on Students' Welfare, in conference with the Registrar, and the Deans of the University, be instructed to prepare a printed plan calculated to aid new students in their first registration, and in other matters relating to the University.

THE PRESIDENCY.

The Committee on the Presidency made the following report, which was received, and the Committee was discharged with the thanks of the Board:

URBANA, ILLINOIS, August 23, 1904.

To the Board of Trustees:

Your special Committee on the Presidency desires to report that soon after its appointment it began investigations for a successor to President Draper. The Deans of the several colleges of the University were invited to meet the Committee in a conference over the situation, and a full and free expression of opinion was interchanged. A request signed by a large number of the Faculty was duly considered, and numerous letters and recommendations by citizens and newspapers of the state interested in the University and its work were received and carefully examined. The Committee was unanimous in the opinion that the Presidency should be filled by a man who had attained eminence in general educational supervision; who had already had a large experience in the operation and management of a university consisting of a number of diverse departments; who had largely grown up with and was in warm sympathy with the plan and aim of higher education by the state: who was, if possible, a native of Illinois, at least who was for years a citizen of our state and familiar with our constitution, our laws, our free school system, the temperament, character, and resources of our people and the history, traditions, scope, and possibilities of this great University; and who was a man of good personal presence, affable, gentle, courageous, and of irreproachable character, and of strong moral influence.

Your Committee takes pleasure in saying that it has secured such a man to recommend for the Presidency of the University, and presents the name of Doctor Edmund Janes James to this Board and recommends his election.

FRED. L. HATCH,
A. F. NIGHTINGALE,
S. A. BULLARD,

Special Committee.

The Board then went into Committee of the Whole to discuss the Presidency. The Committee rose and reported that Mr. Bayliss had been chosen Chairman, and Mr. McKinley, Secretary, and suggested that a recess be taken until 1:30 o'clock when the Committee might continue its deliberations further.

AFTERNOON SESSION, AUGUST 23, 1904.

When the Board met after the recess the same members were present as in the morning, and the Board continued in Committee of the Whole. The Committee rose and by its Secretary reported that it advised the adoption by the Board of the following propositions:

1. That the salary of the President be fixed at \$8,000.00 a year, payable in twelve monthly installments; except that for the ten months from Sept. 1, 1904, to June 30, 1905, the salary shall be \$8,000.00, payable in ten monthly installments, beginning Oct. 1, 1904.
2. That the President's House be furnished the President in proper condition, free of charge, with light, fuel, water, and care of grounds; that the residence be kept in repair by the Board; and that such minor changes be made as the President may require, and the appropriation committee approve.
3. That the sum of \$2,000.00 be appropriated for furniture and furnishings for the President's House, to be selected by the President, and approved by the proper committee.
4. That the President be authorized to select and appoint a President's secretary, with the approval of the Board, at a salary not to exceed \$2,000.00 per annum of twelve months.
5. That stabling, care, and feed in the University stables for not to exceed three horses, and stabling and care not to exceed two vehicles, be granted free of charge to the President.

This report was received and considered by sections.

It was moved to accept the first proposition.

A motion to amend, substituting \$7,000.000 for \$8,000.00 was lost, by the following vote:

Yeas: Messrs. Dickirson, Bayliss, and Kerrick; nays, Messrs. McLean, Bullard, Hatch, Nightingale, and McKinley, and Mrs. Abbott, Mrs. Alexander, and Mrs. Evans; absent, Governor Yates.

The motion was then adopted.

The second proposition was adopted.

A motion to lay the third on the table was lost. The proposition was then adopted by the following vote:

Yeas: Messrs. McLean, Bullard, Hatch, Nightingale, and McKinley, and Mrs. Abbott, and Mrs. Evans; nays, Messrs. Dickirson, Bayliss and Kerrick and Mrs. Alexander; absent, Governor Yates.

The fourth proposition was adopted.

It was moved to amend the fifth proposition so that the new President should have his horses kept on the same terms as President Draper's were kept. The motion to amend was lost by the following vote: Yeas, Messrs. Dickirson, Bayliss and Kerrick, and Mrs. Alexander and Mrs. Abbott; nays, Messrs. McKinley, Bullard, Hatch, McLean, Nightingale, and Mrs. Evans; absent, Governor Yates.

The proposition was then adopted.

It was then voted to proceed to elect a President.

Edmund Janes James and Eugene Davenport were put in nomination.

A ballot was taken, and the vote stood: Mr. James, 9; Mr. Davenport, 2.

The election of Doctor James was then made unanimous by a rising vote.

It was voted that the President-elect be given a vacation of two months, with expenses paid, at such time as he may select, after consultation with the members of the Board.

The Board then adjourned to meet at 1:30 o'clock, Friday, August 26, 1904.

W. L. PILLSBURY,
Secretary.

F. L. HATCH,
President.

ADJOURNED SESSION, AUGUST 26, 1904.

When the Board met, pursuant to adjournment, there were present Messrs. Hatch, Kerrick, McLean, and Nightingale, and Mrs. Abbott, Mrs. Alexander, and Mrs. Evans; absent, Governor Yates and Messrs. Bayliss, Bullard, Dickirson, and McKinley. President-elect, Dr. James, was present. Acting President, Dr. Burrill, was absent.

DR. JAMES ACCEPTS THE PRESIDENCY.

President James made a statement of his views with regard to the University, and also spoke concerning leaving Northwestern University.

A letter was read from Mr. H. H. C. Miller, Vice President of the Board of Trustees of Northwestern University, asking, on behalf of that University, that Dr. James be released from his obligations to the University of Illinois.

The Secretary was directed to answer the letter, saying that the Board of Trustees of the University of Illinois was unwilling to release Dr. James on this request.

Dr. James then said that in view of what had been said to him by persons interested in Northwestern University, he had said that he would present this matter in full to the Trustees of the University of Illinois, and that he asked to be released.

On motion of Mrs. Alexander it was voted that, from a consideration of the interests of the University of Illinois, the Trustees were unwilling to grant the release.

Dr. James then formally accepted the Presidency of the University. Mr. McLean offered the following resolution, which was adopted:

Resolved, That the Committee on Buildings and Grounds be instructed to **make** careful investigation as to the needs of the University for new buildings, and be prepared to present to the Board a careful statement with regard to such buildings, in order that the Trustees may be ready to ask the legislature for appropriations therefor.

The Board adjourned.

W. L. PILLSBURY,
Secretary.

F. L. HATCH,
President.
