Dear Professor Curley,

Once more I ask a favo(u)r. Will you please complete the enclosed recommendation form for the University of Chicago? I have waited until the last minute, as always, to apply, because after arriving back here from London it took some time to get organized.

Right at the present moment I'm going nutty. The work is piling up and the draft board is breathing down my neck. Sometimes I wonder.

Will write you a proper letter when you reply to my last letter. Otherwise we'll have alternate replies crossing in the mails and that would never do.

Best,

Rose.
