The Document Delivery Caucus webmaster worked on updating its pages in the new AALL Community web pages. The Caucus participated in the CONELL Marketplace at the 2012 Annual Meeting and drafted a number of new members, and had a table in the Activities Area. Plans were made to move the caucus forward. Activities for the coming year include: focused discussions on the caucus’ Community page, such as a discussion on lending e-resources; a push to bring more members to the Document Delivery Caucus; and a complete revamping of the information on the web pages.
