

The MARC for Special Collections (MASC) Discussion Group will meet at ALA Annual on Sunday, July 12th, from 10:30 am until noon, in Columbus Hall H of the Hyatt Regency Chicago. The agenda will be as follows:

I. Introductions and announcements.

II. Digitization and cataloging priorities. How do digitization projects affect cataloging workflows? Is the cataloging done by technical services staff, or those associated with the digitization projects?

III. Shelf lists. Are traditional card-based shelf lists still worth maintaining in special collections libraries? How well do electronic catalogs substitute for documenting physical shelf arrangements?
