

The MARC for Special Collections (MASC) Discussion Group will meet at ALA Midwinter in Denver on Sunday, January 25th, from 10:30 AM until 12:00 PM. The meeting will be held in Room 304 of the Colorado Convention Center. Anyone interested is welcome to attend.

- I. Introductions and announcements, including job vacancies.
- II. WorldCat Local and its impact on special collections. John Chapman and Matt Goldner of OCLC will be in attendance to answer questions regarding the development of WorldCat Local and the progress of the WorldCat Local for Special Collections taskforce. We hope to have several members of the taskforce present for the discussion as well.
- III. Utilizing non-special collections cataloging staff on short-term projects.

The MASC co-convenors will be completing their terms of service with the meeting at ALA Annual in July. We are hoping to find volunteers, who value as highly as we do the forum that MASC provides for information sharing and relationship building, to take over leadership of the group for a two-year term. We encourage those who might be interested to contact us at the meeting or via email.
