The September meeting of the Board of Trustees of the University of Illinois was held in the LaSalle Hotel, Chicago, Illinois, on Thursday, September 19, 1957, beginning at 11:00 a.m., Central Daylight Saving Time.

The following members of the Board were present: Mr. Cushman B. Bissell, Mr. Wirt Herrick, Mrs. Doris S. Holt, Mr. Earl M. Hughes, Mr. Wayne A. Johnston, Mr. Park Livingston, Mr. Vernon L. Nickell, Mr. Timothy W. Swain, Mrs. Frances B. Watkins, and Mr. Kenney E. Williamson. Governor William G. Stratton was absent.

Also present were President David D. Henry, Vice-President and Provost Gordon N. Ray, Dr. H. E. Longenecker, Vice-President in charge of the Chicago Professional Colleges, Director C. S. Havens of the Physical Plant Department, Executive Dean C. C. Caveny of the Chicago Undergraduate Division, Professor Charles H. Bowman, Acting Administrator of the University Health Services, Dr. Glen W. Doolen, Acting Medical Director of the Health Services, Mr. Ralph F. Lesemann, Legal Counsel, Mr. C. E. Flynn, Director of Public Information; and the officers of the Board, Mr. H. O. Farber, Comptroller, Mr. C. W. Weldon, Treasurer, and Mr. A. J. Janata, Secretary.
MINUTES APPROVED

The Secretary presented the minutes of the meeting of the Board of Trustees on June 20, 1957, press proof copies of which had been sent to all members of the Board in advance.

On motion of Mr. Johnston, the minutes were approved as printed on pages 431 to 502, inclusive.

BUSINESS PRESENTED BY THE PRESIDENT OF THE UNIVERSITY

The Board considered the following reports and recommendations from the President of the University.

DEANSHIP OF THE COLLEGE OF JOURNALISM AND COMMUNICATIONS

(1) I recommend the appointment of Dr. Theodore B. Peterson, Jr., presently Associate Professor of Journalism and Head of the Division of Journalism, as Professor of Journalism on indefinite tenure and as Dean of the College of Journalism and Communications for two years beginning September 1, 1957, at a salary of $13,000 a year on a twelve months' basis.

A special search committee has recommended this appointment. The Executive Committee of the College and the Vice-President and Provost have also been consulted and concur.

On motion of Mr. Hughes, this appointment was approved.

APPOINTMENT OF ASSOCIATE PROVOST AND DEAN OF ADMINISTRATION

(2) The position of Assistant to the Provost is presently vacant, Dr. Gibbon Butler who was in this post during the past year having been appointed Associate Dean in the College of Liberal Arts and Sciences. In considering his replacement, the Vice-President and Provost has recommended, and I have concurred, that the position be reorganized to include enlarged administrative responsibilities. To reflect this conception of the duties of the position, I recommend that the title be changed to “Associate Provost and Dean of Administration” which will enable the incumbent to represent the office of the Provost in many relationships with the deans of the colleges and directors of the schools and institutes. For example, the former Assistant to the Provost represented the Provost in administrative relations with the Chicago Undergraduate Division, in discharging the Provost's function as Coordinator of the Armed Forces, and in reviewing changes in courses and curricula, as well as by serving on a number of University committees. The Associate Provost and Dean of Administration will have these assignments and several others, some of them of an even more demanding nature. He will be the Chairman of a new committee on the development of the educational program at the Chicago Undergraduate Division; he will be used in meeting other critical problems as they occur; and he will act for the Provost when the need arises in areas with some of which the Provost has heretofore dealt alone.

To fill this position, I recommend the appointment of Dr. Royden Dangerfield, presently Professor of Political Science and Director of the Institute of Government and Public Affairs, as Professor of Political Science, on indefinite tenure, and Associate Provost and Dean of Administration, beginning October 1, 1957, and continuing until August 31, 1959, at a salary of $18,500 a year on a twelve months' basis.

On motion of Mr. Swain, this appointment was approved.

REVOCAITION OF C.P.A. CERTIFICATE OF EDWARD A. EPPING

(8) The Department of Registration and Education of Illinois has filed with the University official notice that, after a hearing held pursuant to the provisions of the Public Accounting Law of Illinois, the Certificate of Registration as a Registered Public Accountant issued to Edward A. Epping was cancelled on July 24, 1957. This action was taken on the basis of his convictions of the crime of conspiracy to defraud the state of Illinois of funds for which he is now imprisoned, and a finding by the Department of Registration and Education that these convictions constitute conviction of a felony within the purview of Section 20, paragraph (a) of the Public Accounting Law of Illinois, and that the convictions also constitute the conviction of a crime, the essential element of which is dishonesty or fraud within the purview of Section 20, paragraph (b) of the Public Accounting Law of Illinois.

Edward A. Epping also holds a certificate of Certified Public Accountant (Certificate No. 3588) issued by authority of the Board of Trustees, University of Illinois, on May 22, 1948, under Section 5 of the Illinois Accountancy Law on the presentation of evidence by him that he holds a C.P.A. Certificate from the state of Missouri obtained by passing a written examination. Section 22 of the Illinois law provides that

"After the completion of proceedings which result in the non-registration of an applicant or the revocation, suspension or cancellation of the registration of a person for cause or causes listed in Section 20, the Department shall notify the University. Thereupon, without further proceedings, the University shall revoke the certificate as a certified public accountant, if any has been issued by it, to said applicant or person."

The Committee on Accountancy, therefore, recommends that C.P.A. Certificate No. 3588, issued Edward A. Epping on May 22, 1948, be revoked.

I concur.

On motion of Mrs. Holt, this certificate was revoked.

ADMISSIONS TO THE COLLEGE OF MEDICINE

(9) The Executive Committee of the College of Medicine has voted to increase the number of students admitted to the first-year class from 190 to 200 effective in September, 1958.

I concur.

On motion of Mr. Swain, this action was approved.
INCREASE IN TUITION FEES FOR THE SPORT-FITNESS SUMMER DAY SCHOOL

The Dean of the College of Physical Education has requested and the Dean of Admissions and Records, the Vice-President and Provost, and the Vice-President and Comptroller recommend an increase in the tuition fee for the Sport-Fitness Summer Day School from $50 to $60 beginning with the summer of 1958. The present locker, padlock, and towel fee of $4 will be discontinued. The University will collect a separate fee of $1.25 for hospital insurance.

This program is operated on a self-sustaining basis and the increase in tuition is recommended to take care of the increase in the salary scale for instructors.

I concur.

On motion of Mrs. Watkins, this recommendation was approved.

CHANGE IN FELLOWSHIP STIPENDS

The Dean of the Graduate College and the Vice-President and Provost recommend that maximum stipends of University Fellows be increased from $1,200 to $1,500 a year beginning September 1, 1958. This increase is recommended because of the recent increase in minimum salaries of assistants and to make University of Illinois Fellowships more competitive with those offered by other universities.

The $1,500 fellowships will be awarded only to the very best prospective graduate students who, because of their superior qualifications, would certainly receive many competitive offers. Probably not more than one-fourth of the total number of fellowships awarded during the first year will be in this top category. Other highly qualified applicants will be offered $1,200 fellowships.

To finance this increase in stipends for 1958-59, the Graduate College will request an assignment of funds presently budgeted for allocation by the University Research Board or an assignment from the General Reserve through the Committee on Nonrecurring Appropriations. If necessary, the total number of fellowships will be reduced to offset the increase.

I concur.

On motion of Mr. Johnston, this recommendation was approved.

MATCHING FUNDS FOR HEALTH RESEARCH FACILITIES

The Health Research Facilities Branch, Division of Research Grants, National Institute of Health, has approved grants to the University of $75,000 for a Medical Research Laboratory in Chicago and $89,767 for remodeling and equipment in the East Chemistry Building in Urbana to provide additional research facilities for the Division of Biochemistry in the Department of Chemistry and Chemical Engineering. Applications for grants were approved by the Board on February 14 and March 12.

Matching funds for the Medical Research Laboratory are included in the state capital appropriations for 1957-59. An assignment of $89,767 from the General Reserve is needed for matching funds for the grant for the Division of Biochemistry. These funds will be used to remodel existing space on the third and fourth floors of the East Chemistry Building and to equip the Process and Isolation Laboratory.

The Vice-President and Provost and the Vice-President and Comptroller recommend an assignment of $89,767 from the General Reserve to provide matching funds for the biochemistry project.

I concur.

On motion of Mr. Bissell, this appropriation was made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

REAPPROPRIATION OF UNEXPENDED BALANCES AS OF JUNE 30, 1957

The Vice-President and Comptroller recommends that the following balances and overdrafts in budget appropriations and balances in appropriations...
for special services and projects not completed on June 30, 1957, be reappror-\[\text{riated for the fiscal year beginning July 1, 1957, in accordance with usual policy.}]\]

I concur.

On motion of Mr. Williamson, these reappropriations were made
by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr.
Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs.
Watkins, Mr. Williamson; no, none; absent, Mr. Stratton.

CONTRACT FOR ADDITION TO THE LIBRARY
(14) The Director of the Library, the Director of the Physical Plant, and the
Vice-President and Comptroller recommend award of a contract for $966,500 to
Johnson, Drake, and Piper, Inc., Terre Haute, Indiana, for the construction of
the sixth addition to the Library. This includes all of the mechanical trades as
well as the general work.

Funds are available in the state capital appropriations for 1957-59.
Johnson, Drake, and Piper, Inc., is a large national contracting corporation
with home offices in Minneapolis, Minnesota, and branch offices in New York,
California, and Indiana. The bid on this project was submitted by the Terre
Haute branch which has been in operation over forty years.

The bid instructions provided for certain alternates:
A. Deduction if a bookstack manufacturer’s design of structural framing system
   is used in lieu of the structural framing system shown in the building design, or
B. Deduction if a bookstack manufacturer’s design of framing system and
   cellular steel floors with linoleum is used in lieu of framing system and concrete
   floors shown in the building design;
C. Addition for open bar type shelving in lieu of solid plate shelving;
D. Deduction if new toilet facilities are omitted;
E. Addition for alterations in heating and temperature control systems.

The Director of the Library and the other recommending officers concerned
recommend acceptance of alternates A, C, and E. On the basis of summation of
the base bids and the recommended alternates, Johnson, Drake, and Piper, Inc.,
is the lowest bidder.

I concur and recommend that the Comptroller and the Secretary of the
Board be authorized to execute this contract.

On motion of Mrs. Watkins, these contracts were awarded, as rec-
commended, and the Comptroller and the Secretary of the Board were
authorized to execute the same. This action was taken by the follow-
ing vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr.
Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr.
Williamson; no, none; absent, Mr. Stratton.

ADDITION TO CONTRACT FOR MEN’S RESIDENCE HALLS
(15) The Director of the Physical Plant and the Vice-President and Comptroller
recommend an addition of $4,433 to the contract with Felmley-Dickerson Com-
pany for construction of the Residence Halls which are being built on the
northwest area of the former Parade Grounds. After additions three and four
to the Men’s Residence Halls were constructed it was discovered that the
“Haydite” block partitions are not suitable sound barriers unless treated. This
contract change provides for brushing on the first coat of paint, rather than
spraying, and changing the back-to-back electrical outlet boxes to vertically
stacked boxes to reduce sound transmission.

I concur and recommend that the Comptroller be authorized to execute the
contract change order.

On motion of Mr. Swain, the Comptroller was authorized to exe-
cute this change in the contract.
LEASES OF SPRINGFIELD, BELLEVILLE, AND PEORIA OFFICES OF THE DIVISION OF SERVICES FOR CRIPPLED CHILDREN

(16) The Business Manager of the Chicago Colleges and the Vice-President and Comptroller recommend renewal of leases for office quarters occupied by the Division of Services for Crippled Children as follows:

Springfield — offices at 1105 South Sixth Street, Mr. and Mrs. Jacob E. Reisch, owners, at a rental of $500 a month (total, $12,000) for two years from July 1, 1957.

Belleville — offices at 10 West Washington Street, Security Abstract and Title Company, owners, at a rental of $260 a month (total, $6,240) for two years from July 1, 1957.

Peoria — offices in the Central National Bank Building, Central National Bank and Trust Company, owners, at a rental of $270 a month (total, $3,240) for one year from July 1, 1957.

The terms of the new leases are the same as those in effect for the last biennium, except for the fact that the lease for the Peoria office is being recommended for only one year rather than for the biennium, since it is possible that the Director of the Division of Services for Crippled Children may wish to recommend a change at the end of the present year.

The Division has funds in its budget for the payment of the rentals. Since it was not possible to get action on these extensions before July 1, the occupancy of the premises has been carried on since July 1 on a month-to-month basis until approval could be secured.

The Director of the Division of Services for Crippled Children and the Vice-President in charge of the Chicago Professional Colleges concur in these recommendations.

I concur and request that the Comptroller and the Secretary of the Board be authorized to execute these leases.

On motion of Mrs. Holt, execution of these leases, as recommended, was authorized.

SUBCONTRACT UNDER ARMY CONTRACT WITH OREGON STATE COLLEGE

(17) On July 1, 1955, the University entered into a research contract with the Army Signal Corps for studies on the intensity of surface precipitation to be supervised by the Illinois State Water Survey. The contract has been extended and is currently due to expire on January 30, 1958. Thus far, funds in the amount of $188,601 have been provided by the Signal Corps for this work.

It is now proposed that the University enter into a subcontract with Oregon State College under which that College will undertake certain studies, which it is particularly qualified to conduct and which are related to the work called for under the prime contract. The proposed subcontract extends through August 31, 1958, but may be cancelled if the prime contract is not extended, and calls for a payment by the University to Oregon State College of $5,676.20. The Signal Corps has approved this arrangement.

The Chairman of the University Research Board and the Vice-President and Comptroller recommend approval of this proposed subcontract.

I concur.

On motion of Mrs. Watkins, this subcontract was approved, and the Comptroller and the Secretary of the Board were authorized to execute the same.

QUARTERLY REPORT OF THE COMPTROLLER

The Comptroller presents his quarterly report to the Board of Trustees as of June 30, 1957.

This report was received for record and a copy has been filed with the Secretary of the Board.

GRANT OF FUNDS FROM THE KRANNERT FOUNDATION FOR ART MUSEUM

The Krannert Foundation (the Herman Charles and Ellnora Decker Krannert Foundation) of Indianapolis, Indiana, has approved a grant of $300,000 to the University of Illinois Foundation, to be paid at the rate of $100,000 annually in 1957, 1958, and 1959, to be used in the construction of an art museum at the University which is to be erected in close physical relationship to the College of Fine and Applied Arts. This grant is in response to a formal application for the same submitted by President Harry F. Glair and Executive Director William H. Butterfield of the University of Illinois Foundation and by the President of the University, and was made through the personal interest of Mr. and Mrs. Krannert, President and Vice-President, respectively, of the Krannert Foundation, in the University's art museum project.

I recommend acceptance of this grant. Aside from the generous amount—more than half of the estimated cost of the project—of this grant, it has a special significance because it will make the art museum project a reality. Accordingly, I recommend that the museum be named "The Krannert Museum." Galleries within the building may be named for other donors to the project and, of course, special collections will also bear the names of the donors.

Deduct.
Among the important groups of art objects which will be housed in the museum will be the "Emily Nichols Trees (Class of 1905) and Merle Jay Trees (Class of 1907) Collection," the Ewing Collection of Balinese and East Asiatic Art, Lorado Taft's sculptures, and the University's collection of contemporary American painting and sculpture.

Mr. Herman C. Krannert is a native of Chicago and a graduate of the University in 1912 when he received the degree of Bachelor of Science in mechanical engineering. Following graduation, he embarked upon a business career in the shipping container industry which has brought him national fame. He is Chairman of the Board of Inland Container Corporation in Indianapolis, which he founded in 1925; Chairman of the Board of Anderson Box Company, Indianapolis; Vice-President and Director of Georgia Kraft Company, Macon, and Rome Kraft Company, Rome, Georgia. Among other corporate enterprises of which he is an official are the Indiana National Bank, Anchor Hocking Glass Corporation, Fox Paper Company, Morgan Packing Company, Inc., McGee Edsel Sales Corporation, and Decker Real Estate Company. Active in many civic undertakings and professional groups, Mr. Krannert is a trustee of the Indianapolis Y.M.C.A. and the Indianapolis-Marion County Building Authority, and is Co-chairman of the Advisory Council of Indianapolis' Metropolitan Plan Commission.

On motion of Mr. Herrick, the recommendations of the President were approved.

Mr. Williamson suggested that an appropriate expression of appreciation on behalf of the Board of Trustees be sent to Mr. and Mrs. Krannert.

**PROVISIONS FOR DEALING WITH A POSSIBLE EPIDEMIC OF ASIAN FLU**

(22) Since August, Mr. Charles H. Bowman, Acting Administrator of Health Services, and Dr. Glen W. Doolen, Acting Medical Director, have been making provisions for dealing with cases of the Asian flu in the University community. They have been guided by directives from national, state, and local health agencies; they have kept the Champaign County Medical Association advised of their plans; and they have had the full cooperation of all University authorities concerned.

To date 8,500 cubic centimeters of flu vaccine have been ordered from the six pharmaceutical companies presently manufacturing this substance. (One cubic centimeter is required to inoculate each person treated.) Further orders will be placed as necessary. Inoculations will be administered at cost, plus a small charge for needles, syringes, and overhead. Since the University will recover its expenses, this operation is being handled through the McKinley Hospital account, and no appropriation is required. The Chicago Undergraduate Division will be supplied through McKinley Hospital.

Though universities enjoy a favored position in the distribution of the vaccine, no word has yet been received as to when supplies may be expected. When vaccine does arrive, it will be in limited quantities. A priority system has accordingly been devised which establishes categories of key personnel similar to the announced national system of priorities.

Since government directives urge universities to deal with flu cases on campus rather than to disperse the disease by sending students to their homes, arrangements have been made for extensive emergency hospitalization facilities. By readying the student housing T-dormitories on the southeast campus, the Parade Ground units, and the Ice Rink, in addition to McKinley Hospital, a total capacity of 944 beds will be reached. If further beds are needed, a decentralization plan has been proposed and is now being studied by the fraternity, sorority, Women's Group System, and University housing groups, by which one house in each group will be designated as a treatment center for bed patients, and well students from this house will be temporarily relocated in other houses in the area.

Professor Charles H. Bowman, Acting Administrator of Health Services, and Dr. Glen W. Doolen, Acting Medical Director, made
statements supplementing this report on plans to deal with a possible epidemic of the Asian flu.

On motion of Mr. Nickell, the Board voted to approve the steps which have been taken.

This motion was adopted.

REPORT OF EXECUTIVE COMMITTEE MEETING ON AUGUST 8, 1957

On call of the Chairman, the Executive Committee of the Board of Trustees of the University of Illinois met in the University Club of Chicago, 76 East Monroe Street, Chicago, Illinois, on Thursday, August 8, 1957, beginning at 12:15 p.m., Central Daylight Saving Time.

The following members of the Committee were present: Mr. Park Livingston, Chairman, Mr. Wayne A. Johnston, and Mrs. Frances B. Watkins. Also present were President David D. Henry, and Mr. A. J. Janata, Secretary of the Board.

Business Presented by the President of the University

The Committee considered the following reports and recommendations from the President of the University.

Contracts for Utilities Distribution System

(1) The Director of the Physical Plant and the Vice-President and Comptroller recommend award of the following contracts for extension of the Utilities Distribution System (steam and electrical lines), including laterals to the Central Food Stores Building, in the area west of First Street and south of Gregory Drive. The award in each case is to the lowest bidder.

Sargent and Lundy, Chicago, consulting engineers for this project, have reviewed all bids received and report that the proposal of the lowest bidder
in each case is in line with estimates for this portion of the work on both of
the projects and complies with bidding requirements in all respects.

Funds are available in the state appropriation "For construction of exten-
sions to the general University utilities distribution system, including plans and
specifications and all other necessary costs and charges incident to the comple-
tion of the work," subject to release by the Governor, and in surplus funds of
the Housing Division. Housing funds will be used to pay the cost of steam and
electric lateral extensions (total estimated cost $27,454) to the Central Food
Stores Building.

Hold orders will be issued on the work to be done on the laterals to the
Central Food Stores Building until the financing of this building has been
arranged and bids for its construction secured. In the event construction of this
building is deferred until after completion of the foregoing contracts, change
orders will be issued to the respective contractors to secure credit for omission
of the laterals.

I recommend these contracts be awarded, as recommended, subject to the
release of funds and with the provision that if construction of the Central Food
Stores Building does not proceed on schedule, credit will be allowed for omitted
work, and that the Comptroller and the Secretary of the Board be authorized
to execute these contracts.

On motion of Mrs. Watkins, these contracts were awarded, as recommended,
and the Comptroller and the Secretary of the Board were authorized to execute
the same. This action was taken by the following vote: Aye, Mr. Johnston,
Mr. Livingston, Mrs. Watkins; no, none; absent, none.

Contracts for Construction of Sanitary Sewer for Biology Building

(2) In August, 1956, bids were received for the construction of a sanitary
sewer in Mathews Avenue to serve the Biology Building. Only one bid was
received on the general work, which is the principal part of the project, and
because this bid was so much higher than engineering estimates, all bids were
rejected and this part of the work on the Biology Building was deferred.

The following new bids were received on July 23, 1957.

Electrical work — Brunkow Electric Company, Champaign........ $ 3 723 00
Pipe work — Paul H. McWilliams, Champaign....................... 20 144 00
Pump installations — Fairbanks Morse and Company, Chicago..... 4 390 90
Chicago Pump Company, Chicago.......................... 4 635 00

A number of other contractors took sets of drawings and specifications for
the purpose of preparing bids but the above were the only bidders. No bids
were received on the general work.

The Director of the Physical Plant and the Vice-President and Comptroller
recommend that the bids of Brunkow Electric Company for the electrical work,
Paul H. McWilliams for the pipe work, and the lower bid of Fairbanks Morse
and Company for pump installations be accepted and held pending the taking
of new bids for the general work, which have been called for on August 14,
1957. The time required to advertise for bids under the new state law prevented
obtaining bids at an earlier date.

A further report and recommendation on this project will be submitted to
the Executive Committee when bids on the general work have been secured.
I recommend that in the meantime the Executive Committee approve the award
of contracts to Brunkow Electric Company, Paul H. McWilliams, and Fairbanks
Morse and Company, the lowest bidders, provided that it is feasible to proceed
with the construction of the sanitary sewer on the basis of the lowest bid
received on the general work. A report of the bids received on the general work
and a recommendation will be submitted to the Executive Committee by mail. It
may not be necessary for the Committee to hold another meeting if it finds that
the lowest bid on the general work is acceptable and the Committee wishes
to authorize the award of that contract by mail and regard such action as a
deferred part of the proceedings of today's meeting.

On motion of Mr. Johnston, these recommendations were approved by the
following vote: Aye, Mr. Johnston, Mr. Livingston, Mrs. Watkins; no, none;
absent, none.
Resignation of Dr. Lester M. Dyke

(3) Dr. Lester M. Dyke has submitted his resignation as Professor of Hygiene on indefinite tenure and as Director of Health Services, effective December 31, 1957, and has requested that he be given leave of absence with pay for four months from September 1, 1957. He has been on vacation since July 1, when, on his request, he was relieved of his appointment as Director of Health Services. This change in his status was reported to and confirmed by the Board of Trustees on July 16, 1957, and Dr. Dyke was appointed Professor of Hygiene on indefinite tenure beginning September 1, 1957.

I have accepted his resignation and have approved the request for leave of absence. This action was reported informally to the Board of Trustees, and I now request that the Executive Committee officially confirm my action.

On motion of Mrs. Watkins, the actions of the President were confirmed.

Recommendations of the University Patent Committee

(4) The University Patent Committee submits, with the concurrence of the Chairman of the University Research Board, the following recommendations relating to inventions by members of the staff.

1. Preparation of C. neoformans polysaccharide extract and its use as an agent to deter virus multiplication — George H. Scherr, Assistant Professor of Bacteriology in the College of Medicine, inventor. This concerns the development of a chemical that inhibits the multiplication of certain viruses. The sub-committee of the University Research Board in Chicago ascertained that the basic concept of the invention was made by the inventor before he came to the University and was published in 1953. The committee was also of the opinion that there was not enough positive data available to warrant the University's applying for a patent. The Patent Committee concurs in these opinions and accordingly recommends that this invention be released to the inventor.

2. Phase controlled switch employing coupled waveguides — Joseph A. Barkson, Assistant Professor of Electrical Engineering, inventor. This electrical circuit was developed by the inventor while writing his thesis for the degree of Doctor of Philosophy. The Head of the Department of Electrical Engineering is of the opinion that the idea will have few commercial possibilities because it is an idea and not a device which anyone can construct by using standard components. The Patent Committee concurs in his opinion that the invention be released to the inventor.

3. Method of preparing pre-dried potato chips — O. C. Johnson, Research Associate in Food Technology, and Fred A. Kummerow, Associate Professor of Food Chemistry, inventors. This method employs the dehydration of potato chips during the frying operation. The Patent Committee requested the University of Illinois Foundation to secure an opinion as to the commercial possibilities of this idea. The Foundation went to the Continental Baking Company which had provided funds for the research. That Company has now advised that it sees no practical value in the idea and recommends that no patent application be prepared. Accordingly, the Patent Committee recommends that the invention be released to the inventors.

I concur in these recommendations.

On motion of Mr. Johnston, these recommendations were approved.

Purchases Recommended

(5) The Director of Purchases has proposed and the Vice-President and Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid.

MEETING OF EXECUTIVE COMMITTEE ON SEPTEMBER 19, 1957

The Executive Committee of the Board of Trustees met in the LaSalle Hotel, Chicago, Illinois, on Thursday, September 19, 1957, at 12:30 p.m., Central Daylight Saving Time.

The following members of the Committee were present: Mr. Park Living-
ston, Chairman, Mr. Wayne A. Johnston, and Mrs. Frances B. Watkins. Also present was Mr. A. J. Janata, Secretary of the Board.

The Secretary of the Board presented the following recommendation on behalf of the President of the University.

**Recommendation of the University Patent Committee**

The University Patent Committee submits, with the concurrence of the Chairman of the University Research Board, the following recommendation relating to an invention by members of the staff. The President of the University concurs.

Metal chelates with fungicidal activity — Carl S. Marvel, Research Professor of Organic Chemistry, inventor; S. Alan Aspey, former Research Assistant in the Department of Chemistry and Chemical Engineering, and Nicholas Tarkoy, Research Associate in the Department of Chemistry and Chemical Engineering, co-inventors. A number of metal chelates were prepared by the Department of Chemistry and Chemical Engineering for use in making heat-resistant polymers. The compounds did not prove to be as heat resistant as desired; however, it appeared that they may have fungicidal activity. Tests were made for such activity by the Air Force, and it now appears that some of the materials thus developed may have fungicidal activity.

The Department of Chemistry and Chemical Engineering, however, has recommended that these discoveries be released to the United States Government because the Government would have some claim on them since it tested the compounds, and because it appears that these discoveries have doubtful commercial value. The Patent Committee concurs and recommends that all interest of the University in these discoveries be released to the United States Air Force.

On motion of Mrs. Watkins, this recommendation was approved.

**REPORT OF EXECUTIVE COMMITTEE**

The Executive Committee of the Board of Trustees reported the following actions it has taken on recommendations submitted by the President of the University:

**Contract for Construction of Sanitary Sewer for Biology Building**

Authorized by the Executive Committee August 29, 1957

The award of a contract for $149,000 to Joseph Clancy, doing business as Joseph Clancy Construction Company, Urbana, the lowest bidder, for the general work on the construction of a sanitary sewer on Mathews Avenue to serve the Biology Building. The Committee had previously authorized awards of contracts for electrical work, pipe work, and pump installations for this sewer and the Committee's action in awarding these contracts is included in its report of a meeting held in Chicago on August 8, 1957. Funds are available in the state capital appropriations for 1957-59.

**Conveyance of Land to the Morton Arboretum**

 Authorized by the Executive Committee September 4, 1957

The Board of Trustees on June 20, 1957, authorized the execution of a quit-claim deed conveying to the trustees of the Morton Arboretum a small strip of land, approximately 1.008 acres, a part of the University's Drug and Horticultural Experiment Station in DuPage County, so that the trustees of the Morton Arboretum might convey this tract together with other land owned by them to the Illinois State Toll Highway Commission. The conveyance of this strip of land, presently used as a private driveway connecting the experiment station...
with the highway, was subject to approval by the Executive Committee upon satisfying itself that the price to be paid the University is a fair valuation, and that adequate provisions will be made for permanent roadway and temporary access to the University's property during the period of construction.

The Toll Highway Commission has agreed to pay the Morton Arboretum $340 for the portion of the University land which the Commission will acquire, and the trustees of the Morton Arboretum are willing to pay this same sum to the University. Accordingly, the resolution adopted by the Board on June 20 authorizing the conveyance of this land has been amended to specify this price instead of the $274.50 originally specified. The University has received assurance from the State Toll Highway Commission that both temporary and permanent access to the Drug and Horticultural Experiment Station from Ogden Avenue will be provided.

The Executive Committee has authorized the conveyance of this property.

This report was received for record.

PHYSICAL EDUCATION REQUIREMENTS FOR GRADUATION

(6) All undergraduate students enrolling in the University as freshmen or as transfer students with less than sixty semester hours of credit earned elsewhere are required to secure four semester hours of credit in physical education including the amount of credit transferred. Those entering with sixty or more semester hours of credit are exempt from the physical education requirement.

Heretofore the four semester hours of credit in physical education have been included in the total number of hours required for graduation in some of the colleges and schools. In others, and in certain curricula, the stated graduation requirements specifying the total number of semester hours of credit required do not include the credit for the required courses in physical education. In the interest of uniformity, the University Senate at Urbana has recommended elimination of the credit toward graduation for the required courses in physical education, and a corresponding reduction in the number of hours required for graduation, but the present all-University physical education requirement will continue in effect.

I concur.

On motion of Mr. Bissell, this recommendation was approved.
REVISED CURRICULUM IN ELECTRICAL ENGINEERING

The University Senate at Urbana recommends adoption of a revised curriculum in electrical engineering. The principal change involves discontinuing the present option system (power engineering, illumination engineering, communication engineering), replacing it with a sequence of required courses common to all electrical engineering students. Opportunity for specialization and for taking courses important to those contemplating graduate work is afforded through the choice of technical and nontechnical electives during the senior year.

A complete outline of the new curriculum is being filed with the Secretary of the Board for record.

I recommend approval.

On motion of Mr. Williamson, this recommendation was approved.

GRADUATE PROGRAM IN BIOPHYSICS

The University Senate at Urbana recommends establishment of a program of graduate work leading to the degree of Doctor of Philosophy in biophysics to replace the present curriculum and program in physico-chemical biology. The objective of this new program is to give the student "sufficient training in physics, chemistry, and biology to enable him to use the conceptual, instrumental, and mathematical approach of the physical scientist in the solution of biological problems." It will be administered by an interdepartmental committee in which the Physiology Department at Urbana will have a major role.

I concur.

On motion of Mr. Swain, this recommendation was approved.

GRADUATE PROGRAM IN LATIN-AMERICAN STUDIES

The University Senate at Urbana recommends a graduate minor program in Latin-American studies to enable students to obtain a broad background in the Latin-American area and to serve as an area of study closely related to theses topics in certain departments. A statement giving the details of this program is being filed with the Secretary of the Board for record.

I recommend approval.

On motion of Mr. Bissell, this recommendation was approved.

This will include fabricating and installing twenty-six pieces of laboratory furniture, consisting of laboratory sinks, benches, drying racks, and accessories for anesthesiology, x-ray, therapy, the Tumor Clinic in the Research and Educational Hospitals and lecture and preparatory rooms in the East Dentistry-Medicine-Pharmacy Building.

Funds are available in the State capital appropriations for 1957-59.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mrs. Watkins, this contract was awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

STEAM SERVICE TO THE NATIONAL SOCIETY FOR CRIPPLED CHILDREN AND ADULTS IN THE MEDICAL CENTER DISTRICT

(18) The National Society for Crippled Children and Adults is constructing a building at 2023-55 West Ogden Avenue, Chicago, Illinois. The Society has applied to the University of Illinois for steam service from the Medical Center Steam Company plant to the extent of 1,600 pounds an hour.

The steam plant has the capacity to supply the steam needed by the National Society without capital additions to the plant proper. The supplying of steam to the National Society would make it unnecessary for the Society to construct its own steam plant in connection with its building and, at the same time, would result in some savings in operating costs, not only to the National Society as against building its own plant, but also to other users now taking steam from the Medical Center Steam Company, as well as to the University.

Accordingly, the Director of the Physical Plant Department and the Vice-President and Comptroller recommend that the University enter into an agreement with the National Society to furnish the steam requested on the following basis.
1. The National Society will pay to the University the sum of $7,672.39 representing the proportional cost of capital facilities in the plant proper needed to produce the steam requested.

2. The University will agree to furnish steam as needed by the National Society not to exceed 1,600 pounds an hour demand.

3. A steam distribution and condensate return system to carry 30,000 pounds an hour demand will be built from the corner of Wolcott and Polk Streets to the corner of Damen and Polk Streets. The estimated cost of this distribution system is $95,000. This system will be built by the Medical Center Steam Company, and the National Society will pay to the University an amount estimated to be slightly in excess of $5,000 representing 1,600/30,000 of the cost of the line. The line is being built for 30,000 pounds capacity, since it is a certainty that the University will have need for steam distribution facilities in this area. The cost of the line over and above that paid by the National Society can be financed by the Medical Center Steam Company, and amortization charges for such financing can be paid for from operating funds available at present in the Physical Plant Department budget without any increase in that budget.

4. A steam distribution and condensate return system will also be constructed from the corner of Damen and Polk Streets to the building being constructed by the National Society. The Society will build and pay for this portion of the distribution system. If the system is built according to University specifications, it will then be deeded to the Medical Center Steam Company and become the property of the Company, in which case the Steam Company will be responsible for the operation and maintenance of the system. However, if the National Society wishes to construct this portion of the distribution system at what it thinks might be a savings by not following the University's specifications, the line would be built and paid for by the National Society and would remain the property of the Society. In this case, the Steam Company would assume no responsibility for the operation and maintenance of the system, but would be obligated to deliver steam only to the start of this portion of the system.

5. Steam supplied to the National Society will be on a metered basis, the same as used for other users of the steam plant. The National Society will be billed monthly for the cost of steam furnished, the cost to be determined by the same formula used in contracts with other users to which will be added an overhead charge of ten per cent to cover administrative costs.

The Vice-President in charge of the Chicago Professional Colleges concurs in this recommendation.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute a contract with the National Society.

On motion of Mrs. Watkins, this recommendation was approved, and the Comptroller and the Secretary of the Board were authorized to execute the contract.

POWER PLANT ADDITION

The following bids were received on September 5, 1957, for the substructure work, electrical work, and piping, as one contract, for the cooling tower for the addition to the Abbott Power Plant:

George S. Walker Company ........................................... $238,773
E. H. Marhoefer, Jr., Company .................................... 232,408
Kuhne-Simmons Company, Inc. ..................................... 214,937

Because these bids were in excess of engineering estimates they were rejected and confirmation of this action is requested.

Subsequently, new bids were taken on the three subdivisions of the work separately. The lowest bids, totaling $154,317, are within the estimates and represent a reduction of $60,020 from the lowest bid previously received on the combined work. The Director of the Physical Plant Department and the Vice-President and Comptroller recommend awards of contracts as follow:

Furnishing and erecting miscellaneous electrical work for new cooling tower (Division "F")—Square Deal Electrical Contracting, Inc., La Porte, Indiana ................................................................. $37,442
Furnishing necessary material required for and erecting substructure and miscellaneous work for the new cooling tower (Division "7 G") —
R. V. Monahan Construction Company, Chicago.......................... 56 925
Furnishing necessary material required for and erecting circulating water and miscellaneous piping for new cooling tower (Division "7 H") —
Gallaher & Speck, Chicago.................................................. 59 950
Funds are available in the state capital appropriations for 1957-59.
I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute these contracts.

On motion of Mr. Hughes, these contracts were awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

**ADDITION TO ELECTRICAL CONTRACT FOR BIOLOGY BUILDING**

(20) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend an increase of $3,451 in the contract with the Leverenz Electric Company for electrical work on the Biology Building.

The type of starter specified for the large 350 h.p. motor driving the air-conditioning compressor does not meet the standard the University requested the architects to use, and the correction was not made before bids were taken. The starter specified would produce a single surge that would cause reactions all the way back to the Power Plant when the motor is started and could trip low-voltage protection devices as well as cause other disturbances. A different type of starter is recommended to change the action to a series of diminishing surges with a lower maximum surge than the single surge which would be produced by the starter called for in the original specifications.

Funds are available in the appropriation for the Biology Building.

I concur and recommend that the Comptroller be authorized to execute the contract change order.

On motion of Mr. Bissell, the Comptroller was authorized to execute this change in the contract.

**ADDITION TO CONTRACT FOR REMODELING IN THE RESEARCH AND EDUCATIONAL HOSPITALS**

(21) The Director of the Physical Plant and the Vice-President and Comptroller recommend an increase of $7,698.26 in the contract with Russell Mansfield, 1229 West Glenlake Avenue, Chicago, for the remodeling of laboratories in the Research and Educational Hospitals.

This increase is for installation of additional plumbing and piping, including water supply, waste, oxygen lines, and pipe covering, in the second floor ceiling to serve equipment on the third floor. Omission of this work was necessary pending completion of drawings and specifications for the remodeling of the third floor in the General Hospital so that the exact location of fixtures and laboratory furniture could be established. The piping for the third floor can be installed now at a considerable saving of money (estimated at $5,000) and of inconvenience to the departments concerned.

The contractor's estimate of the additional cost has been checked by the Physical Plant and the architects, Fugard, Burt, Wilkinson, and Orth, and is deemed reasonable.

Funds are available in the state capital appropriations for 1957-59.

I concur and recommend that the Vice-President and Comptroller be authorized to execute this change in the contract.

On motion of Mr. Swain, the Comptroller was authorized to execute this change in the contract.

**ESTATE OF JENNIE M. LONG, DECEASED**

(22) The late Mrs. Jennie M. Long of Chicago who died June 11, 1956, devised one-half of her estate remaining after payment of certain specific bequests and costs of administration to the University of Illinois "to be used in such manner as the Trustees of said University shall deem most advisable for the assistance of students enrolled in the School of Architecture; it being my wish, without in any manner placing any additional restrictions upon the use of said fund, that said
Mr. Long died in 1939. Under the provisions of his will the entire residue of his estate after payment of certain bequests and costs of administration, was left in trust to the Northern Trust Company as Trustee with directions to pay the net income of the estate to his wife, and such portions of the principal as she might need, during the remainder of her life; and if at her death she would be survived by his brother Albert M. Long and sister Virginia Long Taylor, or either of them, the net income of her estate should be payable to them or to the survivor during the remainder of their lives. His will further provided that upon the death of the survivor of his brother or sister the Trustee should distribute the trust estate then remaining, if any, to the University of Illinois "as an endowment, the net income from which shall be used and applied by it for the education of students of architecture in said University, and also, if it has the power so to do, said University may use said net income for sending worthy students abroad to study architecture."

Mrs. Long's will is now being probated in Cook County. All specific bequests and all costs of administration and taxes have been paid, and the Executor is ready to make final disposition of the estate under the terms of her will. It is not known how much, if any, of the estate of Frank S. Long will eventually come to the University. Moreover, certain questions of interpretation and construction of his will arose when Mrs. Long saw fit to renounce provisions made for her in the will and to take instead the portion of his estate which she would receive under the law applicable to such a situation.

The Executor of Mrs. Long's estate is prepared to deliver the sum of $30,514.23, constituting disposition to the University of its share of her estate. The Legal Counsel has been authorized to take the necessary steps to effectuate the transfer and I am reporting this for record. Since Mrs. Long's bequest to the University is to supplement funds which may be received under the provisions of her husband's will, the funds received from her estate will be set up as an endowment, the net income from which will be used for the benefit of students in architecture; and if any funds are received from the estate of Frank S. Long they will be added to the endowment.

On motion of Mr. Bissell, (1) the action of the President was confirmed; and (2) the Board directed that all monies received from these bequests be set up as an endowment fund for the present and until the Board directs otherwise, the income to be used for the benefit of students in architecture.

### OIL AND GAS LEASE ON HACKETT FARMS

(25) The Dean of the College of Agriculture and the Vice-President and Comptroller recommend that oil and gas leases covering the Hackett farms in Douglas and Moultrie counties be executed and delivered to Development Associates, Incorporated, of Alton, Illinois, for a period of six months from November 1, 1957.
and as long thereafter as oil or gas is being produced from said farms if the same is being produced therefrom at the expiration of said six-month period, for a consideration of $1.50 an acre, or a total of $624.00, to be paid the University by Development Associates, Incorporated, for said leases. In the event oil or gas is produced from the farms under the provisions of the leases, the University will receive the usual one-eighth royalty upon the oil and gas produced therefrom.

The Board of Trustees authorized the giving of oil and gas leases covering these farms to Mr. C. R. Cochonour on June 27, 1956, for a consideration of $1.00 an acre. Those leases also contained the one-eighth royalty provision. Those leases expired on December 31, 1956, and, subsequent to their expiration, no one has manifested any interest in securing oil and gas leases covering the farms from the University until the present offer from Development Associates, Incorporated, was received. No other offer has been received.

I recommend that the Board authorize its Comptroller and Secretary to accept the offer of Development Associates, Incorporated, on behalf of the University and to execute oil and gas leases covering said farms, upon approval of their form and provisions by the Legal Counsel, and deliver the same to Development Associates, Incorporated, upon the payment by the latter of said consideration to the University for the leases.

PAYMENT ON PLUMBING CONTRACT FOR ADDITIONS TO MEN’S RESIDENCE HALLS

The Secretary presented the following report from the Executive Committee.

Prior to completion of the construction of Men’s Residence Halls Additions 3 and 4, the contractor for the plumbing work, Edward M. Brumit, doing business as E. & E. Plumbing and Heating, became involved in financial difficulties which made it necessary to enter into an arrangement to insure payment for the material and labor bills he would incur in completing his work by making payments, which would otherwise be due him under the contract, to a third party who in turn took care of the claims.

With the exception of minor corrective work which the University has been doing itself, the work covered by the contract has been completed.
The University has available to complete payments on this contract $13,679.16 which, less the cost of the corrective work, represents the unpaid balance of the amount due.

Ordinarily this balance would be paid to B. & E. Plumbing and Heating, but the University cannot pay it directly to the contractor because:

1. The Aetna Casualty and Surety Company, surety on his performance bond, claims that it is entitled to receive the entire amount, both by virtue of an assignment which it took from him at the time it signed the bond and its rights, as surety, to be subrogated to his claims on account of payments in excess of that sum which it has made and will make to those to whom he is indebted on account of the work contemplated by the contract and who are entitled to recover the amounts due them under the bond;

2. The Commercial Bank of Champaign claims that it is entitled to receive $6,454.90 out of said funds the University is now holding by virtue of an assignment given to it by the contractor when it made certain loans to him to enable him to meet his payrolls prior to the time the above-mentioned arrangement was entered into;

3. The United States Government claims that it is entitled to $6,173.69 out of said funds by virtue of liens it asserts against the same and distress warrants served by it upon the University for withholding taxes which the contractor has failed to pay; and

4. A number of persons, firms, and corporations who furnished materials or labor to the contractor in connection with the performance by him of the work contemplated by the contract and prior to the entering into of the above-mentioned arrangement assert claims and liens against said funds for the unpaid balances due them from him. Each of these claimants asserts that his or its claim is prior to and superior to those of the others, as well as to those of the contractor.

On recommendation of the Director of the Physical Plant Department, the Legal Counsel, the Vice-President and Comptroller, concurred in by the President of the University, the Executive Committee authorized payment of the balance due under this contract to the Aetna Casualty and Surety Company under an agreement with that Company that it will settle with other claimants or will litigate their claims, and will indemnify the University and protect it against loss, cost, or expense growing out of the making of payment to it and against all of the aforementioned claims to these funds.

EXECUTIVE SESSION

At this point, an executive session was requested and ordered for consideration of the following matters of business.

ACQUISITION OF PROPERTIES IN URBANA

(26) The Director of the Physical Plant and the Vice-President and Comptroller recommend the purchase of the following properties at the prices and on the terms indicated in each case.

1006 West Green Street, Urbana — Owners, Mr. and Mrs. A. E. Bach.

Total Cost: $32,000.

Terms of Payment: The University will pay $9,000 at the time the agreement is executed; $11,500 at the time of possession which is to be not later than September 10, 1958; and $11,500 on January 20, 1959.

The property consists of a lot approximately 67 feet wide and 252 feet deep and a two-story frame house consisting of two apartments.

The land will be needed as a part of the site for a residence hall for 60 unmarried graduate students, Stage 2 in the University's Program for Housing Students as approved by the Board January 28, 1956; originally scheduled for completion in 1959. The adjoining property for Stage 1 has already been acquired.

1011 West Green Street, Urbana — Owner, Mrs. Joseph Wuellner.

Total Cost: $32,500.

Terms of Payment: The University will pay $9,700 at the time the agreement is executed, but not later than November 15, 1957; $9,700 at the time of possession which is not later than September 10, 1958; and $13,100 on January 20, 1959.

The property consists of a lot approximately 65 feet wide and 223 feet deep, a two-story frame house used as an apartment house, a rooming house for
male students, and living quarters for the owner; and a detached frame

garage.

The land will be needed as a part of the site for the construction of a resi-
dence hall for 1,332 single undergraduate men, Stage 4 in the University's
Program for Housing Students as approved by the Board January 28, 1956;
first hall and dining room originally scheduled to be completed by fall of 1960;

The contracts negotiated for the acquisition of these two properties on Green
Street include provisions that the owners shall retain possession until September
10, 1958, and that they shall pay taxes and keep up and maintain the buildings
during the entire period of their occupancy.

1000 West Illinois Street, Urbana — Owners, Mr. and Mrs. W. C. Nogle.
Total Cost: $37,000.
Terms of Payment: The University will pay the entire purchase price imme-
diately upon transfer of title, not later than December 15, 1957.
The property consists of a lot approximately 67 feet wide and 248 feet deep
and a two-story frame house used as an apartment house. There is also a
Gunnison house, approximately three years old, on the property (known as
1001 West High Street) which is occupied by the owner.
The contract negotiated for the acquisition of this property provides that the
owners shall be permitted to remove the following items from the house at
1000 West Illinois Street: partitions, new lumber, bathroom fixtures, kitchen
sink and faucets, and the copper tubing used for water and gas; and to
remove the house at 1001 West High Street, located at the rear of 1000 West
Illinois Street, including fixtures, plumbing, electrical wiring, and gas furnace,
any time between the date of the University's purchase and June 30, 1959.

1008 West Illinois Street, Urbana — Owners, Mr. and Mrs. W. C. Nogle.
Total Cost: $33,500.
Terms of Payment: The University shall pay the entire purchase price im-
diately upon transfer of title, not later than December 15, 1957.
The property consists of a lot approximately 63 feet wide and 200 feet deep
and a two and one-half story frame house used as an apartment house.
The contract negotiated for the acquisition of this property provides that the
owners shall be allowed to remove from the house: two kitchen sinks, two
kitchen wall cabinets, medicine cabinet, bathroom fixtures, wall gas furnace,
ew doors, partitions and new lumber used on the first and third floors and
the oil furnace and oil tank.
The land, including 1000 West Illinois Street and 1008 West Illinois Street, is
needed as a part of the site for the construction of residence halls for single
undergraduate men (Stage 4 in the University's Program for Housing Stu-
dents).

The contract for the acquisition of these two properties on Illinois Street
provides that the University will enter into a lease with the owners permitting
them to retain possession until September 1, 1958, with the option to extend the
period of occupancy to June 30, 1959, rent free, and that the owners shall pay
taxes and keep up and maintain the buildings during the entire period of occupancy.

Recommendations for these property acquisitions were previously submitted
to the Committee on Buildings and Grounds which considered them carefully and
authorized negotiations with the owners. The sale prices are well within the limits
set by the Committee and in line with the appraised values. Funds are available in
the state capital appropriations for 1957-59 for land acquisitions and have been
released by the Governor.

I concur and recommend that the Comptroller and the Secretary of the Board
be authorized to execute the necessary documents for the acquisition of these
properties, subject to the approval of the title in each case by the Legal Counsel.

On motion of Mr. Johnston, these purchases were authorized, as
recommended, by the following vote: Aye, Mr. Bissell, Mr. Herrick,
Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell,
Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr.
Stratton.
RECOMMENDATIONS OF THE UNIVERSITY PATENT COMMITTEE

(27) The University Patent Committee submits, with the concurrence of the Chairman of the University Research Board, the following recommendations relating to inventions by members of the staff.

1. Introduction of fluorine into aromatic rings—G. C. Finger, Chemist, Illinois State Geological Survey, and C. W. Kruse, former Research Assistant, Illinois State Geological Survey, inventors. This invention is a novel way of introducing fluorine into other compounds. It was referred to the University of Illinois Foundation for study on May 29, 1957, by the Patent Committee. The Foundation reported back that it was the opinion of that agency's patent attorney that a considerable expenditure of funds would be necessary to establish the value of this invention, which in his opinion would not be justified by its potential commercial value. The Patent Committee concurs in this opinion and accordingly recommends the release of the invention to the sponsoring agency, the United States Air Force.

2. Synthesis of 2,4-dichloro-5-fluorophenoxyacetic acid and synthesis of 2-chloro-4-fluorophenoxyacetic acid—G. C. Finger, Chemist, Illinois State Geological Survey, and R. E. Oesterling, former Assistant Chemist, Illinois State Geological Survey, inventors. At the request of the Chemical Corps of the United States Army these preparations were synthesized by the inventors. The result, which constituted a possible patentable idea, were referred by the Patent Committee to the University of Illinois Foundation on May 29, 1957, for study and an opinion as to value. The Foundation patent attorney has consulted with the government agency involved, and it is the opinion of the attorney and of the Foundation that it is not possible at this time to determine the value of any patents that might be issued on these compounds. Furthermore it is probable that the Patent Office would require a broad program of tests in support of the application before considering it for a patent. The attorney and the Foundation do not feel that the expenditure of the funds necessary for such a program is justified at this time. The Patent Committee concurs and is of the opinion that the release of the interests of the University to the Chemical Corps with the issuance of a patent to that agency will result in full protection of the public interest if the developments ultimately prove to be of value. Accordingly the Committee recommends that the two inventions be released to the Chemical Corps of the United States Army, the sponsoring agency.

I concur in these recommendations.

On motion of Mr. Bissell, these recommendations were approved.

CLAIM OF CROUCH-WALKER COMPANY

President Livingston read a letter received from the Crouch-Walker Company, Chicago, by Howard R. Roberts, concerning the claim of that Company for payments due and alleged damages incurred in its work as a subcontractor of the Patrick Warren Construction Company in the construction of the addition to the Research and Educational Hospitals. A copy of the letter has been filed with the Secretary of the Board.

On motion of Mr. Swain, the letter was referred to the Legal Counsel for reply.

President Livingston called attention to the action of the Board of Trustees at its meeting in September ordering that the November and December meetings shall be held in Chicago, on November 21 and December 17, the hour and place of each meeting to be determined by the President and Secretary of the Board. He asked if the Board desired to change the dates of these meetings. Various alternatives were considered, but no change was ordered.

On motion of Mr. Bissell, the Board adjourned.
INSPECTION OF BEVIER HALL — HOME ECONOMICS
Following adjournment, the Board inspected Bevier Hall — Home Economics, and had luncheon in this new building. After luncheon Dean Louis B. Howard, of the College of Agriculture, and Professor Janice M. Smith, Head of the Department of Home Economics, addressed the Board.

(3) The Director of the Institute of Labor and Industrial Relations recommends the following appointments to the Institute's Advisory Committee for a term of three years beginning September 1, 1957.

Labor Representative

P. L. SIEMILLER, Vice-President, International Association of Machinists, 176 West Adams Street, Chicago 3, Illinois

This appointment is to replace Mr. Clyde Thompson, State Legislative Representative, Brotherhood of Railroad Trainmen, Chicago, whose term has expired.

This appointment is to replace Mr. L. J. Schmidt, Director of Industrial Relations, Greenlee Brothers and Company, Rockford, whose term has expired.

Public Representative
FRED K. HOEHLER, Commissioner, City of Chicago Department of Welfare, 25 South Damen Avenue, Chicago 12, Illinois
This appointment is to replace Mr. John Day Larkin, Dean of Liberal Studies, Illinois Institute of Technology, Chicago, whose term has expired. Mr. Hoeher is a well-known civic association executive and has served with distinction as the administrator of numerous public enterprises. He was Director of the State Department of Public Welfare from 1949-53 and has also served as Executive Director of Citizens of Greater Chicago, Inc.
I concur in these recommendations.

On motion of Mr. Swain, these appointments were approved.

CHANGE IN ORGANIZATION OF DEPARTMENT OF ZOOLOGY
(3) The members of the Department of Zoology of professorial rank have voted to request a change in departmental organization from a department organized with a head to a department organized with a chairman. This is permissible under the University of Illinois Statutes. The Dean and the Executive Committee of the College of Liberal Arts and Sciences recommend approval of the change, and this is concurred in by the Vice-President and Provost and the Dean of the Graduate College.
I recommend approval and that this change become effective December 1, 1957.
The Dean and the Executive Committee of the College also recommend that Associate Professor James B. Kitzmiller be appointed Chairman of the Department effective December 1, 1957, and continuing until September 1, 1959, at a salary of $7,700 an academic year.
The faculty of the Department has been consulted concerning this appointment and it is concurred in by the Vice-President and Provost and the Dean of the Graduate College.
The present Head of the Department, Professor F. B. Adamstone, is on sabbatical leave of absence during the current semester and therefore is not now directly and actively participating in the administration of the Department. Relief from these administrative duties will enable him to devote more time and energy to his program of teaching and research upon his return.
I recommend approval.
On motion of Mr. Williamson, these recommendations were approved.

ORGANIZATION OF DIVISION OF MATHEMATICS AT CHICAGO UNDERGRADUATE DIVISION
(4) The members of the Department of Zoology of professorial rank have voted to request a change in departmental organization from a department organized with a head to a department organized with a chairman. This is permissible under the University of Illinois Statutes. The Dean and the Executive Committee of the College of Liberal Arts and Sciences recommend approval of the change, and this is concurred in by the Vice-President and Provost and the Dean of the Graduate College.
I recommend approval and that this change become effective December 1, 1957.
The Dean and the Executive Committee of the College also recommend that Associate Professor James B. Kitzmiller be appointed Chairman of the Department effective December 1, 1957, and continuing until September 1, 1959, at a salary of $7,700 an academic year.
The faculty of the Department has been consulted concerning this appointment and it is concurred in by the Vice-President and Provost and the Dean of the Graduate College.
The present Head of the Department, Professor F. B. Adamstone, is on sabbatical leave of absence during the current semester and therefore is not now directly and actively participating in the administration of the Department. Relief from these administrative duties will enable him to devote more time and energy to his program of teaching and research upon his return.
I recommend approval.
On motion of Mr. Williamson, these recommendations were approved.

ORGANIZATION OF DIVISION OF MATHEMATICS AT CHICAGO UNDERGRADUATE DIVISION
(5) Section 15 of the University of Illinois Statutes states the procedure by which a department organized with a head may be changed to a department organized with a chairman: "On the written request of at least one-fourth of the members of the department with the rank of assistant professor and above . . . that the form of organization be changed, the dean shall call a meeting to poll by ballot the members of the department of the ranks of assistant professor and above . . . "
Four members of the Division of Mathematics at the Chicago Undergraduate Division, who hold the rank of assistant professor, have petitioned for a change in departmental organization from a headship to a chairmanship administration. Upon receipt of this petition, the Associate Dean of Liberal Arts and Sciences called an election which was held with the result that by ballot the members of the Division of Mathematics of professorial rank voted four to three for a change.
This request has been referred to the Committee on General Policy of the Board of Trustees for study and recommendation. In considering the proposal it should be noted that the Division of Mathematics in Chicago has three full professors (this includes the Associate Dean of Liberal Arts and Sciences who did not vote in the election since he had an administrative recommendation to make on the question), no associate professors, five assistant professors, and sixteen instructors; and the Associate Dean of Liberal Arts and Sciences, the Executive
Dean of the Chicago Undergraduate Division, and the Vice-President and Provost recommend against the change.

The abnormal pattern of staffing in the Division of Mathematics makes it inadvisable to rely wholly upon the statutory provisions for a change in departmental organization, so that in resolving this question the Board should act pursuant to Section 64 of the Statutes wherein the Board of Trustees reserves to itself "the power to act in all matters affecting the University, notwithstanding that such action may be in conflict or may not be in conformance with the provisions of these Statutes."

Accordingly, I recommend that (1) the Board of Trustees deny the petition for change in organization of the Division of Mathematics; (2) the headship organization be retained until such time as a more normal staffing pattern exists in the Mathematics Division; and that (3) the Board of Trustees authorize the President of the University to appoint an Advisory Committee in the Division of Mathematics. (The Board here would be invoking the provisions of Section 64.)

On motion of Mr. Johnston, these recommendations were approved.

HOUSING CONSTRUCTION PROGRAM

(6) Applications for loans on the following housing construction have been submitted to the Housing and Home Finance Agency:

Men's Residence Halls, consisting of three dormitory units to house 1,485 undergraduates and one food service unit, to be constructed in the southeast area of the Parade Grounds; this is Stage 3 of the University's Program for the Construction of Housing for Undergraduate Men.

Graduate Students Residence Hall to house 300 unmarried graduate students.

Central Food Stores Building.

Apartments, 120 units, for married students to be constructed south of Florida Avenue and the extension of Orchard Street.

Apartments, 250 units, for married students, to be constructed south of Florida Avenue near Race Street.

The last two developments will be adjacent.

At the request of the Housing and Home Finance Agency, the five projects have been consolidated into one project for which preliminary approval of a loan of $6,828,000 has been received. The remainder of the funds for these five projects, plus a snack bar and central mail room to serve all men's halls in the Parade Grounds area, will be secured through public sale of bonds.

The Director of the Physical Plant Department and the Vice-President and Comptroller recommend that:

1. The action of the University in submitting a consolidated application to the Housing and Home Finance Agency be confirmed;
2. The firm of Chapman and Cutler of Chicago be employed as counsel for the bond issue;
3. The taking of bids for the construction of the six projects and advertisements for the sale of bonds at the time or times deemed most appropriate by the Vice-President and Comptroller be authorized;
4. The Comptroller and the Secretary of the Board be authorized to execute a loan agreement with the Housing and Home Finance Agency; and that
5. All other necessary steps in connection with the bond issue and the sale of bonds be authorized.

I concur.

On motion of Mrs. Watkins, these recommendations were approved by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Nickell, Mr. Stratton.

HOUSING CONSTRUCTION PROGRAM

(7) Two reports prepared by the Director of Housing, one on the housing construction program in general and one on the housing program for married students, are presented. Copies of these reports had been sent to all members of the Board of Trustees in advance of the meeting, and copies have been filed with the Secretary of the Board for record.

I recommend that (1) the University plan for the construction of 370 married
student housing units, and (2) before any further construction of family housing is started (beyond the 370 units) the University again recheck the need in the light of private construction activity and the latest enrollment predictions.

On motion of Mrs. Watkins, these recommendations were approved.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(8) The Committee on Nonrecurring Appropriations recommends assignments of funds from the General Reserve for the following purposes:

1. College of Physical Education, construction of Health and Safety Laboratory .................................................. $20,000

APPROPRIATION AND RESEARCH CONTRACT FOR DIGITAL COMPUTER LABORATORY

(9) The University of Illinois has achieved international leadership in the field of electronic computers. The Illiac, designed and constructed on the University campus, provides a research tool valuable for research programs requiring difficult and voluminous mathematical computations.

In cooperation with the Atomic Energy Commission and the Office of Naval Research, the University is completing a study for a design of a new, very high-speed electronic computer. These agencies have already provided $100,000 for this project, and the design study was undertaken with the understanding that a later contract would be negotiated for the construction of the new machine. The Computer Group has prepared a proposal to the Atomic Energy Commission requesting $1,216,675 for the construction of the new computer over a four-year period. The estimated completion date is December 1, 1961.

There are no suitable facilities available to house the new machine and provide the necessary area for research. Accordingly, studies have been made for the construction of a new building, at an estimated cost of $350,000, for which $250,000 has already been allocated by the Board of Trustees from accumulated indirect cost funds from research contracts.

An appropriation of $100,000 from General Reserve is now requested to provide the remainder. The Committee on Nonrecurring Appropriations recommends this additional appropriation. The entire program is also recommended by the Dean of the Graduate College, the Vice-President and Provost, and the Vice-President and Comptroller.

I recommend that this appropriation be made and that authority be granted to enter into a contract with the Atomic Energy Commission for the construction of the computer.

On motion of Mr. Herrick, this appropriation was made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Nickell, Mr. Stratton.

CONDEMNATION OF PROPERTIES AT 610 AND 614 EAST JOHN STREET, CHAMPAIGN, ILLINOIS

(10) The University needs to acquire the properties described below as parts of the site for a new Student Services Building, to be constructed in the area west of Illini Hall on John Street. The University presently owns adjacent properties in this area.

610 East John Street — Owner, Henry K. Vreeland.
This is a lot approximately 50 feet by 120 feet on which there is a frame house made into small apartments and an office used by the owner for his house trailer sales business. The yard is used as a display area for trailers.
614 East John Street—Owner, Cyrus W. Vaughn, Jr., and Maxine M. Vaughn, his wife.

This is a lot approximately 50 feet by 120 feet on which there is a small one-story frame building, used as a restaurant, and a paved parking area. The building is leased until December 31, 1960. The owners state their asking price includes compensation to be paid the tenant operating the restaurant for cancellation of his lease prior to its expiration.

Negotiations have been conducted by representatives of the University with representatives of the owners of the above-described properties and it appears at this time that no agreement on prices can be reached as the owners are unwilling to sell except at prices which are greatly in excess of appraised values. It is, therefore, obvious that the University must resort to its right of eminent domain, and the Vice-President and Comptroller, the Director of the Physical Plant Department, and the Legal Counsel so recommend.

I concur and recommend that the Board of Trustees adopt the following resolutions authorizing the institution and prosecution of proceedings in eminent domain and such other steps, including the employment of special counsel, to assist the Legal Counsel therein, appraisers, and others, as may be necessary.

**Resolution**

*It Is Hereby Resolved, Found and Declared* by The Board of Trustees of the University of Illinois that the following described real estate, situated in the City of Champaign, County of Champaign and the State of Illinois, viz.:

Beginning at a point on the North line of John Street 75 feet East of the Southwest corner of Block Twelve (12) of J. S. Wright’s Addition to Champaign, thence North 120 feet, thence East 49 feet 3 inches, thence South 120 feet, thence West 49 feet 3 inches to the place of beginning,

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, as the site of a building needed and to be constructed by said University for educational purposes and to enable said University to discharge its duties to the people of said state and for public use; that funds available for the purchase of said land have been appropriated to The Board of Trustees of the University of Illinois by the General Assembly of the State of Illinois; that this Board of Trustees has negotiated with Henry K. Vreeland, the owner of said land through his duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but he has refused to sell and convey the land to The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems excessive and exorbitant and is unwilling, and has refused to pay therefor; and

*It Is Further Hereby Resolved, Found and Declared* by said The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land can not be agreed upon between this Board of Trustees and said Henry K. Vreeland and he and it are unable to agree upon the purchase price to be paid him for the sale and conveyance by him thereof to said The Board of Trustees of the University of Illinois; and

*It Is Further Hereby Resolved, Found and Declared* by this Board of Trustees of the University of Illinois that, because of said need of said University for said land for said purposes and because the compensation to be paid the said Henry K. Vreeland as the owner thereof can not be agreed upon between him and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to said Henry K. Vreeland and any and all other persons who may have any right, title or interest in and to said land theretofor determined in the manner provided by law for the exercise of said right of eminent domain; and

*It Is Further Hereby Resolved* by this Board of Trustees that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction, and that the Legal Counsel of said University, be and he is hereby authorized
to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mrs. Holt, the foregoing resolution was adopted by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Nickell, Mr. Stratton.

Resolution

It Is Hereby Resolved, Found and Declared by The Board of Trustees of the University of Illinois that the following described real estate, situated in the City of Champaign, County of Champaign and the State of Illinois, viz.:

The East 50 feet of the South 120 feet of the Southwest Quarter (SW¼) of Block Twelve (12) of J. S. Wright's Addition to Champaign,

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, as the site of a building needed and to be constructed by said University for educational purposes and to enable said University to discharge its duties to the people of said state and for public use; that funds available for the purchase of said land have been appropriated to The Board of Trustees of the University of Illinois by the General Assembly of the State of Illinois; that this Board of Trustees has negotiated with Cyrus W. Vaughn, Jr. and Maxine M. Vaughn, the owners of said land and with their duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but they have refused to sell and convey the land to The Board of Trustees of the University of Illinois for such price and continue to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems excessive and exorbitant and is unwilling, and has refused to pay therefor; and

It Is Further Hereby Resolved, Found and Declared by said The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land can not be agreed upon between this Board of Trustees and said Cyrus W. Vaughn, Jr. and Maxine M. Vaughn and they and it are unable to agree upon the purchase price to be paid them for the sale and conveyance by them thereof to said The Board of Trustees of the University of Illinois; and

It Is Further Hereby Resolved, Found and Declared by this Board of Trustees of the University of Illinois that, because of said need of said University for said land for said purposes and because the compensation to be paid the said Cyrus W. Vaughn, Jr. and Maxine M. Vaughn as the owners thereof therefor can not be agreed upon between them and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to the said Cyrus W. Vaughn, Jr. and Maxine M. Vaughn and any and all other persons who may have any right, title or interest in and to said land therefor determined in the manner provided by law for the exercise of said right of eminent domain; and

It Is Further Hereby Resolved by this Board of Trustees that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction, and that the Legal Counsel of said University be, and he is hereby authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mrs. Holt, this resolution was adopted by the follow-
ing vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Nickell, Mr. Stratton.

**ADDITION TO CONTRACT FOR LINCOLN AVENUE RESIDENCE HALLS ADDITION**

(11) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend an increase of $11,909 in the contract with the Felmley-Dickerson Company, Champaign, for the construction of the addition to the Lincoln Avenue Residence to provide for reinforced concrete retaining walls, back fill, iron railings and steps on each side of the main entrance porch. The retaining walls will close off the sunken courts which provide light for basement rooms.

I concur and recommend that the Comptroller be authorized to execute the contract change order.

On motion of Mr. Swain, the Comptroller was authorized to execute this change in the contract.

**PURCHASES**

(12) The Director of Purchases has proposed and the Vice-President and Comptroller recommends the following purchases. Unless otherwise specified, the purchase in each case is recommended on the basis of lowest bid.

I concur.

This report was received for record.

**QUARTERLY REPORT OF THE COMPTROLLER**

(14) The Comptroller presents his quarterly report to the Board as of September 30, 1957.

This report was received for record and a copy has been filed with the Secretary of the Board.

**CONTRACT FOR THE CONSTRUCTION OF THE DIGITAL COMPUTER LABORATORY**

(15) On September 12, 1957, bids were received for the construction of the Digital Computer Laboratory. A schedule of these bids has been filed with the Secretary of the Board for record. Because these bids were in excess of available funds they were rejected and confirmation of this action is requested. In the bidding instructions, the University included the standard reservation of the right to reject any or all bids.

The drawings and specifications for this building were revised and new bids were taken on November 14. The Director of the Physical Plant Department and the Comptroller recommend award of a contract for $335,660 to C. A. Petry and Sons, Inc., Champaign, the lowest bidder. The base bid is $335,660. The contract recommended would include the addition of an alternate for furnishing and installing chalkboards, $1,800, and another for limestone window sills in place of extruded aluminum and masonry panelled construction, $575.

The Board of Trustees has already assigned $250,000 from accumulated indirect cost funds for research contracts for this building and an appropriation of $100,000 from the General Reserve fund is being recommended at today’s meeting. Funds are also available in the state capital appropriations for 1957-59 for the extension of the Utilities Distribution System to this building.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.
On motion of Mr. Swain, this contract was awarded and the recommended appropriation was made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Nickell, Mr. Stratton.

**CONTRACT FOR CLASSROOM ADDITION TO EAST DENTISTRY-MEDICINE-PHARMACY BUILDING**

(16) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend the award of a contract for $211,469 to Garr Builders, Inc., 4727 North Monticello, Chicago, the lowest bidder, for the construction of a classroom addition to the East Dentistry-Medicine-Pharmacy Building.

This addition will be between the two lower sections of the main building at the basement level of that which eventually will be a six-story structure, so that much of the construction work will be the foundation for the larger addition. The addition will provide for two large classrooms each seating 238 with each one having a laboratory preparation room and projection room. Classrooms will be air conditioned.

Funds are available in the state capital appropriations for 1957-59.

I recommend that this contract be awarded, and that the Comptroller and the Secretary of the Board be authorized to execute the same.

On motion of Mrs. Watkins, this matter was referred to the Executive Committee with power to act, and the Committee was authorized to award the contract to the lowest responsible bidder after investigating the qualifications and performance records of the several contractors who submitted bids.

**CLOSING OF UNIVERSITY ON DECEMBER 24**

(17) For many years it has been the custom, by administrative action of the President of the University, to close University departments and offices, and to release from service all employees, except those whose work can not be suspended, on the afternoon before Christmas Day. Employees in services of a continuing nature which can not be suspended, and who have been regularly scheduled to work on December 24, have been allowed an equivalent half day off on full pay at some other time. Employees whose work schedules have not required their services on the day of the week on which December 24 has fallen and employees on vacation or on sick leave on that day have not been given equivalent time off.

The Advisory Committee on Nonacademic Personnel has recommended that this practice be continued, and that the benefits be extended to employees not scheduled to work on the particular day of the week on which December 24 falls because of their position in a rotating seven-day week schedule, by giving them an equivalent half day off with pay at some other time; to those on paid vacation or sick leave on December 24, by extending the vacation or leave one half day; and to employees on layoff solely because of the temporary departure of students (and if their terms of employment provide that they shall receive pay for Christmas and New Year's), by giving them an additional half day with pay at some mutually agreeable time; with the specific condition that in no case will this practice involve payment of premium rates for overtime work.

It seems to me that this administrative practice should be formalized by Board of Trustees action, especially in view of the proposed extension of benefits, if the Board approves the same, by the following declaration of policy which I recommend be adopted.

**Statement of Policy**

The University will close at twelve o'clock noon on December 24 and employees will be released from duty with full pay for one-half day except employees in services of a continuing nature which, in the judgment of the head of the department or administrative officer concerned, can not be suspended. Premium rates will not be paid for any work required of employees in such services, but
those who can not be released for the afternoon of December 24 will be given one-half day off with pay at some mutually agreeable time. A like principle will be applied in the cases of other employees who because of work schedules, vacations, or sick leave would not be on duty on December 24.

On motion of Mr. Johnston, this policy was adopted.

REPORT OF THE EXECUTIVE COMMITTEE

Oil and Gas Lease on Hackett Farms

At its meeting on October 29, 1957, the Board of Trustees received a recommendation that an oil and gas lease covering the Hackett Farms in Douglas and Moultrie counties be executed with Development Associates, Inc., of Alton, Illinois, for a period of six months and as long thereafter as oil or gas is produced on these farms if there is such production at the expiration of the six-month period. The Board questioned the adequacy of the consideration to be received by the University, viz., $1.50 an acre plus the usual, standard one-eighth royalty upon the oil and gas produced, and referred the proposal to the Executive Committee with power to act.

Development Associates, Inc., was unwilling to increase its offer in view of the highly speculative character of the drilling operation and withdrew the offer stating that they are abandoning plans to drill on adjoining properties. Subsequently they consented to let the original offer stand if the Board would reconsider it.

Since this is the best offer which can be received at this time, the Executive Committee authorized a lease for six months from the date of execution for a consideration of $1.50 an acre plus one-eighth royalty on any oil and gas produced. Under this lease, the University will receive a minimum of $624.00 and, if oil or gas is produced, it will receive the standard royalty.

This report was received for record.

REPORTS OF THE COMMITTEE ON BUILDINGS AND GROUNDS

Naming of Addition to Lincoln Avenue Residence

Mr. Williamson reported that the Committee on Buildings and Grounds has approved a recommendation that the addition to the Lincoln Avenue Residence, now in service, be named the "Louisa C. Allen Residence Hall" for Louisa C. Allen, who was Instructor in Domestic Science at the University of Illinois, 1874-78, and Professor of Domestic Science and Preceptress, 1878-80. She was one of the first women on the faculty. She resigned shortly after her marriage to Dr. John Milton Gregory, the first Regent of the University.

On motion of Mr. Williamson, the action of the Committee was confirmed.

Rental of Space to the Wesley Foundation

The Board of Trustees on May 19, 1955, approved a recommendation from the Director of the Physical Plant Department and the Comptroller that the Wesley Foundation and Trinity Church, in Urbana, be permitted to use from four to six classrooms in the Mechanical Engineering Building on Sunday mornings during the period of the construction of the new church with the understanding that the University would be reimbursed for any expenses resulting from such use. At the time this was authorized, it was anticipated that construction of the new church would be started in September, 1955, and that University facilities would be needed for a period of twenty to twenty-four months.

The church has not yet been constructed and its officers have requested that authorization of the use of University facilities be extended for another twenty-four-month period. The Foundation will need only two rooms but will need one of them during the week for choir practice in addition to the use of the two rooms on Sunday. This will not conflict with University work in the Mechanical Engineering Building.
The Director of the Physical Plant Department and the Comptroller recommend that Wesley Foundation be permitted to use the two rooms in the Mechanical Engineering Building for a period of twenty-four months from date, and that a charge of $2.00 a day be made for each such use.

On motion of Mr. Williamson, this recommendation was approved.

UNDERGRADUATE CURRICULUM IN ENGINEERING MECHANICS

(3) The Urbana Senate recommends authorization of a new undergraduate curriculum in Engineering Mechanics, proposed by the College of Engineering, effective September 1, 1958. The program will be administered by the Department of Theoretical and Applied Mechanics. The curriculum emphasizing mathematics and engineering sciences has the additional feature of a strong major in one of those sciences—mechanics and materials. It would provide a foundation both for graduate study and for industrial work in development and research. By areas its distinguishing features are:

1. A strong major in Theoretical and Applied Mechanics. Thirty-seven hours in mechanics of solid bodies and fluids and properties of solid materials; fifteen hours in new courses dealing with behavior of materials (three hours), mechanics of deformable bodies (six hours) and advanced problems in mechanics (six hours).
2. The required mathematics includes nine hours beyond sophomore calculus.
3. At least one three-hour course in advanced physics is required.
Twelve hours of unspecified technical electives. Recommended electives include an analysis or design sequence in another engineering department and additional courses in mathematics and basic or engineering sciences.

There is submitted herewith a statement giving the details of this curriculum, a copy of which is being filed with the Secretary of the Board for record.

I recommend approval.

On motion of Mr. Herrick, this recommendation was approved.

**GRADUATE PROGRAM IN VETERINARY MEDICAL SCIENCE**

(4) The Urbana Senate recommends authorization of a new graduate program leading to the degrees of Master of Science and Doctor of Philosophy in Veterinary Medical Science. This program has been approved by the Executive Faculty of the Graduate College and will replace an existing program in Veterinary Pathology and Hygiene. Its objective, in the interest of more effective, expanded, and diversified graduate training, is to combine the professional departments of the College of Veterinary Medicine into a single department in the Graduate College integrating its work with that of the veterinary research program already organized under the Department of Veterinary Research in the Agricultural Experiment Station. The Dean of the College of Veterinary Medicine will be the head of this graduate department. The program will be open not only to students holding the Doctor of Veterinary Medicine degree but also to those having a Bachelor of Science degree with appropriate undergraduate preparation.

There is submitted herewith a statement giving the details of this program, including the requirements for admission and for the degrees, a copy of which is being filed with the Secretary of the Board for record.

I recommend approval.

On motion of Mrs. Watkins, this recommendation was approved.

**GRADUATE PROGRAM LEADING TO THE DEGREE OF MASTER OF SCIENCE IN FINANCE**

(5) The Urbana Senate recommends authorization of the following program leading to the degree of Master of Science in Finance, as proposed by the new Department of Finance and approved by the College of Commerce and Business Administration and the Executive Faculty of the Graduate College:

**Areas of Specialization.** Central banking history and policy, corporation finance, investment, insurance, and urban land utilization.

**Admission Requirements.** General requirements covering admission of all graduate students, including a grade-point average of at least 3.50 for the last sixty hours of work; and at least twenty-seven hours of undergraduate work in the social sciences, of which at least fifteen hours must be in economics, including one course in statistics and other appropriate courses in economics and finance.

**Degree Requirements.** General requirements specified by the Graduate College for all master's degrees, and at least eight units of work, including two courses in economic theory at the graduate level and an acceptable thesis.

I recommend approval.

On motion of Mr. Bissell, this recommendation was approved.

**ALTERNATE GRADUATE PROGRAMS LEADING TO THE DEGREE OF MASTER OF SCIENCE IN THE TEACHING OF MATHEMATICS**

(6) The Urbana Senate recommends authorization of alternate curricula leading to the degree of Master of Science in the Teaching of Mathematics for the years 1957-58 and 1958-59 only, and open only to participants in the Academic Year Institute, the program for the supplementary training of secondary school teachers of mathematics, financed by grants the University has received from the National Science Foundation.

There is submitted herewith a statement giving the details of this program, a copy of which is being filed with the Secretary of the Board for record.

I recommend approval.

On motion of Mr. Swain, this recommendation was approved.
RECOMMENDATIONS OF THE GEORGE A. MILLER ENDOWMENT COMMITTEE

(7) The George A. Miller Endowment Committee submits the following recommendations and reports of its actions:

George A. Miller Scholarships in Music

The Committee recommends assignments of funds from the endowment income for the following program of School of Music scholarships:

- Ten scholarships for Illinois students ($200 each) ................ $2,000
- Three scholarships for out-of-state students ($550 each) ........ 1,650

Each scholarship will extend over four years, provided that the student initially holding it continues to make satisfactory progress. The Committee is accordingly setting aside the following sums for the School of Music scholarships during the next five academic years: 1958-59, $3,650; 1959-60, $7,300; 1960-61, $7,300; 1961-62, $7,300; and 1962-63, $3,650.

This is a pilot program, instituted in the expectation that the School of Music through the University of Illinois Foundation and by other means will seek the money necessary to provide a continuing supply of new scholarships for the academic years 1960-61 and following. The awards will be designated "The George A. Miller Scholarships in Music" and will be administered by the College of Fine and Applied Arts in cooperation with the Director of the Undergraduate Scholarship Program.

I recommend approval.

Illinois Journal of Mathematics

The Board of Trustees has authorized the assignment of funds from the endowment income to support the Illinois Journal of Mathematics, published quarterly by the University, the initial allocations being $5,200 for the year 1956-57 and $7,750 for the year 1957-58. The Board of Editors has requested that support of the Journal be increased to $11,500 a year. The Committee has approved an assignment of $11,500 for the year 1958-59 only, with the expectation that thereafter the support of the Journal by the Miller Endowment will be reduced to $7,750 a year or less.

Confirmation of the Committee's action is requested.

Graduate Fellowships

The Committee has approved an allocation of $3,600 for the academic year 1958-59 for two graduate fellowships of $1,800 each, replacing one fellowship at $2,500 which has been supported by the George A. Miller Endowment.

Confirmation of this action is requested.

On motion of Mr. Williamson, the recommendation of the Committee was approved and its actions confirmed.

CHANGE IN REGULATIONS GOVERNING ADMINISTRATION OF ILLINOIS ACCOUNTANCY LAW

(9) The Committee on Accountancy and the Board of Examiners in Accountancy jointly recommend a change in the condition rule for the C.P.A. examination in the University Regulations adopted by the Board of Trustees for the administration of the Illinois Accountancy Law.

The rule as amended would read as follows and I concur in the Committee's recommendation:

25. A candidate under Section 2 of the Act may acquire condition standing in the subject or subjects failed if he
   a. Passes Theory of Accounts and Practical Accounting* only and fails Auditing and Law with grades not lower than 50 in each subject failed;
   b. Or passes in both Auditing and Law and attains a grade not lower than 60 in Theory of Accounts and Practical Accounting*;
   c. Or passes Theory of Accounts and Practical Accounting* and one other subject, Auditing or Law, regardless of the grade received in the subject failed.

A candidate who achieves condition standing under paragraph a, b, or c above shall be credited with the subject or subjects in which he received passing grades and may upon application and the payment of the required examination fees (listed below) present himself for re-examination in the subject or subjects in which he failed at any three of the six semiannual examinations next succeeding the examination at which he qualified for such partial re-examination. Whenever a candidate presents himself for re-examination he must write on all subjects in which he then has failing grades.

If on re-examination, the candidate passes in the subjects in which he has failed, he shall be eligible for the C.P.A. certificate; if he fails to so qualify, he shall revert to the status of a new applicant who is required to write the entire examination.

The time limitation within which a candidate is required to pass subjects under this rule shall not include any period during which the applicant serves in the Armed Forces of the United States.

Fees for each examination written under Rule 25 are as follows:

For candidates writing Theory of Accounts and Practical Accounting ......................... $30.00
For candidates writing Auditing or Commercial Law or a combination of Auditing and Commercial Law ......................... $30.00

On motion of Mr. Johnston, this change was approved.

REGULATIONS GOVERNING ASSESSMENT OF RESIDENT AND NONRESIDENT STUDENT FEES

(10) Since 1922 the University has had regulations, approved by the Board of Trustees, defining the residence status of students for the purpose of assessment of fees. These regulations require amendment from time to time to take into account changing conditions and circumstances. The Committee on Fees and the Dean of Admissions and Records have studied the regulations and recommend a number of changes to make the regulations consistent with recent changes in the state law relating to emancipated minors and to clarify language. Two principal changes would permit the assessment of the same tuition and other fees as are assessed against resident students in the cases of certain classes of students who live in Illinois but who under present rules are classified as non-residents, specifically: students from families of officers of the Armed Forces of the United States who are stationed in Illinois and from faculty families who have not yet acquired legal residence in terms of eligibility to vote in state elections. The complete text of the proposed regulations is given below.

I recommend approval of the following new regulations.

* The examination in Theory of Accounts and the two sessions of the examination in Practical Accounting are considered as one subject in administering this rule.
Regulations

For the purpose of these regulations an "adult" student is considered a male student twenty-one years of age or over, or a female student eighteen years of age or over; a "minor" student is a male student under twenty-one years of age or a female student under eighteen years of age; and the term "the State" means the state of Illinois. The words "he" or "his" also apply to a female student unless otherwise stated or clearly indicated.

1. Evidence upon the basis of which the legal residence of each applicant for admission to the University as a student can be determined shall be submitted to the Dean of Admissions and Records at the time of application for admission, and either the resident or nonresident student fees shall be assessed, as applicable, on the basis of the evidence appearing in the records of his office.

2. In all cases where said records establish that the student's legal residence is not in the State the nonresident fee shall be assessed. A student who takes exception to the ruling that the nonresident fee is payable shall pay that fee, but may file a claim in writing for a refund of the portion thereof in excess of the resident fee within thirty days from the date designated in the official University calendar as that upon which instruction begins for the academic period for which the fee is payable, provided, however, that, if the nonresident fee was not assessed on or prior to that date, the claim for refund may be filed within thirty days after the nonresident fee was assessed and the student was given notice of its assessment. If such claim for refund is not filed within said thirty-day period, the student loses all rights to a refund of any portion of the fee assessed for the academic period for which said fee is payable.

3. The legal residence of a minor student shall be considered to be, and to change with and follow:
   a. That of his parents, if they are living together, or living parent, if one is dead; or
   b. If the parents are separated or divorced, that of the parent to whom the custody of the minor has been awarded by judicial decree or order, or, in the absence of such a judicial decree or order, that of the father unless the minor has continuously resided with the mother for a period of at least twelve months immediately preceding his registration at the University, in which latter event his legal residence shall be considered to be that of his mother; or
   c. That of the adoptive parents, if the minor has been legally adopted and without regard to whether the natural parents or one of them is living, and, in the event the adoptive parents become divorced or separated, that of the adoptive parent whose residence would govern under the foregoing rules if that parent had been a natural parent; or
   d. That of the legally appointed and qualified guardian of the minor's person if such a guardian has been appointed and both parents are deceased, or both parents (or the surviving parent if only one is living) have abandoned the minor or have been adjudicated to be incompetent or to be unfit to have the custody of the minor; or
   e. That of a "natural" guardian, such as a grandparent, adult brother or adult sister, adult uncle or adult aunt, or other adult relative with whom the minor has resided for a period of at least twelve months immediately prior to his registration at the University and by whom the minor is being supported if the minor has been legally adopted and without regard to whether the natural parents or one of them is living, and, in the event the adoptive parents become divorced or separated, that of the adoptive parent whose residence would govern under the foregoing rules if that parent had been a natural parent; or
   f. That of a "natural" guardian, such as a grandparent, adult brother or adult sister, adult uncle or adult aunt, or other adult relative with whom the minor has resided for a period of at least twelve months immediately prior to his registration at the University and by whom the minor is being supported if the minor's parents are dead or have abandoned the minor and if no legal guardian of the minor's person has been appointed and qualified.

4. No parent or guardian will be considered a resident of the State of Illinois unless he (a) maintains a bona fide and permanent place of abode within this State, and (b) lives, except when temporarily absent from the State with no intention of changing his legal residence to some other state or country, within the State.

5. If a minor has been emancipated, is completely self-supporting, and actually resides in the State, he shall be considered to be a resident of the State for the purpose of registration in the University and the assessment of student fees, even though his parents or guardian may reside outside the State. An emancipated minor who is completely self-supporting shall be considered to "actually reside in the State of Illinois" if he has maintained a dwelling place within the State uninterruptedly for a period of at least twelve consecutive
months immediately prior to his registration as a student at the University. Marriage shall be regarded as effecting the emancipation of minors, whether male or female, for the purposes of this regulation.

6. With the exception hereinafter provided (in Regulation 7 hereof), an adult student whose parents (or one of them if only one parent is living or the parents are separated and divorced) have established and are maintaining a bona fide residence in the State and who resides with them (or the one residing in the State) or elsewhere in the State will be regarded as a resident student.

7. An adult student whose parents are dead or reside outside the State, or an adult student whose parents reside in the State but who has at any time established a separate residence of his own outside the State, to be considered a resident of the State of Illinois for the purpose of registration in the University and the assessment of student fees must have been a bona fide resident of the State for a period of at least twelve months immediately preceding the beginning of any semester, term, or session for which he registers at the University, must continue to maintain a bona fide legal residence in the State during said semester, term, or session, and must present evidence satisfactory to the Dean of Admissions and Records that he is entirely self-supporting and not under parental control.

8. A married female, whether a minor or adult, shall be considered a resident of the State if she is living with her husband and he has established and maintained a bona fide residence in the State for a period of at least twelve months immediately preceding her registration at the University as a student and he is a bona fide resident of the State at the time of such registration.

9. An adult alien, who has filed a Declaration of Intention to become a citizen of the United States of America or with respect to whose application for United States citizenship a final hearing has been held without a decision having been rendered adverse thereto, may qualify as a resident of the State for purposes of registration in the University as a student if he has established and maintained a bona fide residence within the State for a period of at least twelve months immediately preceding the beginning of any semester, term, or session for which he registers at the University, and if he also meets and complies with all of the other requirements of these regulations to establish resident status which are applicable to adult students who are citizens of the United States.

10. A minor student who is an alien may qualify as a resident of the State, for purposes of registration in the University and the assessment of student fees, if his parents, or his living parent if one is deceased, are citizens of the United States, or if they have filed a Declaration of Intention to become citizens thereof or final hearings have been held upon their applications for United States citizenship without any decision having been rendered which is adverse to their application, and if all of the requirements to establish resident status of the foregoing portions of these regulations which would be applicable to said minor student if he would not be an alien have been also fully met. However, in order to maintain his status as a resident student, such student must file his own Declaration of Intention to become a United States citizen, or a final hearing must have been held upon his application for citizenship without a decision adverse to that application having been rendered, as soon as such student is permitted, under applicable Federal law and regulations, to file such a declaration or to file such an application and receive a final hearing thereon.

11. In cases of dual citizenship, in which a student, whether adult or minor, is a citizen of the United States as well as a citizen of some other country, such student, in order to qualify as a resident of the State for the purpose of registration in the University and the assessment of student fees, must comply with and meet all of the requirements to establish resident status of the foregoing regulations which would apply to him, as an adult or minor student as the case may be, if he were a citizen of the United States only and did not possess dual citizenship.

12. To the extent that the terms "bona fide residence," "legal residence," "residence," and "emancipation" are not defined in these regulations, the question of whether a student, adult or minor, his parents or parent, or his guardian has established and maintained, or is maintaining, a "bona fide resi-
dence," a "legal residence," or a "residence" in the State for whatever period of time may be required by the foregoing provisions of these regulations which may be applicable to his case and situation, and the question of whether a minor student has been "emancipated," shall be determined by according due consideration to all of the facts pertinent and material to that question and existing with respect to him and to the applicable laws and court decisions of the State of Illinois.

13. In the event a student who claims he is a resident student under the provisions of these regulations is dissatisfied with a ruling of the Dean of Admissions and Records that he is not a resident student and must pay the nonresident student fees while registered in the University, he may obtain a review of such decision of the Dean of Admissions and Records by the Legal Counsel of the University by filing with the Dean of Admissions and Records within twenty days after he has been notified of said ruling his request in writing that said ruling be referred to and reviewed by the Legal Counsel. If such written request for such review is filed with the Dean of Admissions and Records within said period, the question of whether said student is to be considered a resident or a nonresident student under the provisions of these regulations and of applicable law shall be referred by the Dean of Admissions and Records to the Legal Counsel whose decision thereon shall be final. However, if, prior to making his ruling as to whether a student shall be considered to be a resident or nonresident student under the provisions of these regulations and under applicable law, the Dean of Admissions and Records has referred that question to the Legal Counsel and the ruling has been predicated upon an opinion furnished the Dean of Admissions and Records by the Legal Counsel as to said question in the case of that student, no review of the ruling by the Legal Counsel will be granted unless new evidence bearing upon the question of residence is presented.

14. The spouse and children of persons who are actively serving in one of the Armed Forces of the United States and who are stationed and present in the State of Illinois in connection with that service shall be permitted to attend the University upon paying the same tuition and other fees assessed against resident students as long as the spouse or parent remains so stationed and present in this State and the spouse or child attending the University is also living in this State.

15. The spouse and children of staff members of the University on full time appointment at the University shall be permitted to attend the University upon paying the same tuition and other fees assessed against resident students during the period the staff member holds such appointment and is performing the duties of the University position to which he has been appointed.

16. These regulations shall become effective on and as of February 1, 1958, and shall remain in full force and effect unless subsequently amended or repealed by action of the Board of Trustees.

On motion of Mr. Johnston, these regulations were adopted.

ALLERTON HOUSE ACCOUNT AT NATIONAL BANK OF MONTICELLO

(11) The Vice-President and Comptroller and the Dean of the Division of University Extension recommend establishment of an account at the National Bank of Monticello for the deposit of funds received at Allerton House for University services. This will facilitate prompt deposit of checks and currency thus received, as members of the staff of Allerton House make frequent daily trips to Monticello, whereas at present it is necessary to bring the money to the Business Office at Urbana. Into this account at the National Bank of Monticello will be deposited Allerton House receipts with duplicate deposit tickets forwarded to the University Business Office. Checks in favor of the University will be drawn in the Business Office against this account in the amount of the deposit tickets, and these checks will be deposited in the Treasurer's Account in the First National Bank of Chicago. Since this clearing process will not require more than a week, the balance in the National Bank of Monticello account should never be greater than the receipts for a week's period which should not aggregate more than $7,000.

I concur in this recommendation.

On motion of Mr. Herrick, this recommendation was approved.
SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES
(12) The Committee on Nonrecurring Appropriations recommends assignments of funds from the General Reserve for the following purposes:

1. Graduate College, costs of symposium in commemoration of the College's fiftieth anniversary. ........................................... $ 450 00
2. Department of Botany, remodeling in Natural History Building and purchase of equipment for laboratories. ........................................... 6 142.50
3. College of Commerce and Business Administration, purchase of equipment for data processing. ........................................... 1 150 00
4. Department of Mining and Metallurgical Engineering, purchase of equipment. .......................................................... 4 725.50

Total.......................................................................................... $16 518.00

I concur.

On motion of Mr. Swain, these appropriations were made by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Nickell, Mr. Stratton.

CONDEMNATION OF PROPERTY AT 1008 WEST GREEN STREET, URBANA, ILLINOIS
(13) The University now owns all of the property on the north side of the 1000 block of West Green Street needed by it as a site for Single Graduate Student's Dormitory Unit No. 2, with the exception of the property located at 1008 West Green Street.

The property at 1008 West Green Street is owned by Mr. William R. Hunsicker. The lot is improved with an old residence which has been converted to seven utility apartments and also with a new apartment building completed in 1957, containing eight small apartments. The entire property is rented by the owner to tenants, most of whom are students. None of it is occupied by Mr. Hunsicker as his personal residence. The lot has a frontage of approximately 67 feet on Green Street and a depth of approximately 234 feet. Prior to the completion of the new apartment building, negotiations were opened by officers of the University with Mr. Hunsicker in an effort to acquire the property. Mr. Hunsicker, however, refused to sell to the University at that time. The University has had careful and detailed appraisals made of the entire property and negotiations have been conducted by officers of the University with the owner for the acquisition of this property based upon these appraisals. A great number of conferences with the owner have been held and it is now established that the owner and the University can not agree on the amount of compensation to be paid to him for this property. Mr. Hunsicker is unwilling to sell to the University except at a price which the University officers deem decidedly exorbitant and excessive.

It is therefore necessary to request that the Board of Trustees resort to its right of eminent domain in order to acquire title to this property at a fair and reasonable price, and the Vice-President and Comptroller, the Director of the Physical Plant Department, and the Legal Counsel so recommend.

I concur and recommend adoption of the following resolution.

Resolution

It is hereby resolved, found and declared by The Board of Trustees of the University of Illinois that the following described real estate, situated in the City of Urbana, County of Champaign and State of Illinois, viz.:

The West 67 feet of Lot Three (3) in Block Two (2) of Burpee, Curtiss and Somers' Addition of Out Lots to the City of Urbana,

is needed by the University of Illinois, an educational institution established and supported by the State of Illinois, as the site for a building needed and to be constructed by said University for educational purposes and to enable said University to discharge its duties to the people of said state and for public use; that funds available for the purchase of said land have been appropriated to The Board of Trustees of the University of Illinois by the General As-
that the Board of Trustees of the University of Illinois; that this Board of Trustees has negotiated with William R. Hunsicker, the owner of said land for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but he has refused to sell and convey the land to The Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems excessive and exorbitant and is unwilling, and has refused to pay therefor; and

_It is further hereby resolved, found and declared_ by said The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land cannot be agreed upon between this Board of Trustees and said William R. Hunsicker and he and it are unable to agree upon the purchase price to be paid him for the sale and conveyance by him thereof to said The Board of Trustees of the University of Illinois; and

_It is further hereby resolved, found and declared_ by this Board of Trustees of the University of Illinois that, because of said need of said University for said land for said purposes and because the compensation to be paid the said William R. Hunsicker as the owner thereof therefore cannot be agreed upon between him and this Board of Trustees, it is necessary for the Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to said William R. Hunsicker and any and all other persons who may have any right, title or interest in and to said land therefore determined in the manner provided by law for the exercise of said right of eminent domain; and

_It is further hereby resolved_ by this Board of Trustees that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction, and that the Legal Counsel of said University be, and he is hereby authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Swain, the foregoing resolution was adopted by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Nickell, Mr. Stratton.

**CONDEMNATION OF PROPERTIES AT 1013 AND 1101 WEST GREEN STREET AND 1104 WEST ILLINOIS STREET, URBANA, ILLINOIS**

(14) The University now owns property in the 1000 block and 1100 block on West Green Street and the 1000 block and 1100 block on West Illinois Street in Urbana, Illinois. Mrs. Lena M. Thompson owns four parcels of real estate; two of which front Green Street, one fronts on Illinois Street, and the fourth is an irregularly shaped parcel in the center of the block, having no street frontage but joining the other three parcels. The street addresses of the three parcels on Green Street and Illinois Street are 1013 and 1101 West Green Street and 1104 West Illinois Street. These parcels of real estate, together with other lots in the block bounded on the north by Green Street and the south by Illinois Street, are needed by the University as a site for the contemplated Single Men's Dormitories, Unit No. 4.

The property at 1013 West Green Street is occupied by Mrs. Thompson as her personal residence and is used as a rooming house, housing five students in addition to Mrs. Thompson's own apartment. The building at 1101 West Green Street is presently used as a rooming house in which ten graduate women students reside. The large frame residence converted to an apartment building at 1104 West Green Street is rented by Mrs. Thompson to tenants, who in turn
provide room and some boarding facilities for students. The property has a total frontage on Green Street of 164.25 feet, more or less, and a frontage on Illinois Street of 75 feet. The depth on the western boundary is approximately 293 feet. The total depth of the properties which adjoin north and south between Green Street and Illinois Street is about 462 feet. Another adjoining tract 66 feet by 60 feet extends south of the property owned by the University at 1011 West Green Street.

After careful appraisal of this property by University appraisers, negotiations have been conducted by officers of the University with Mr. and Mrs. Thompson and with real estate agents who purport to represent both Mrs. Thompson and her husband, Finney W. Thompson, with the view toward the ultimate acquisition of these properties by the University. Several conferences with the representatives of Mr. and Mrs. Thompson have been held, with Mr. and Mrs. Thompson personally, and it is now established that Mr. and Mrs. Thompson and the University can not agree on the amount of compensation to be paid to them for these properties. Mr. and Mrs. Thompson are unwilling to sell to the University, except at prices which the University officers deem decidedly exorbitant and excessive.

It is therefore necessary to request that the Board of Trustees resort to its right of eminent domain in order to acquire title to this property at a fair and reasonable price, and the Vice-President and Comptroller, the Director of the Physical Plant Department, and the Legal Counsel so recommend.

I concur and recommend adoption of the following resolution.

Resolution

It is hereby resolved, found and declared by The Board of Trustees of the University of Illinois that the following described real estate, situated in the City of Urbana, County of Champaign and State of Illinois, viz.:

All of Lot Nine (9) of W. M. Goodwin's Addition to the City of Urbana, except therefrom the East 60 feet thereof, and also except therefrom the South 200 feet thereof; and
The East Half (E 1/2) of Lot Ten (10) of W. M. Goodwin's Addition to Urbana, except the South 168 feet thereof; and
Commencing at the Southwest corner of Lot Nine (9) of W. M. Goodwin's Addition to Urbana, Illinois, running thence East on the North line of Illinois Street 75 feet, thence North 175 feet, thence West 75 feet, thence South on the West line of said Lot Nine (9), 175 feet to the place of beginning; and
Beginning at a point 175 feet North of the Southwest corner of Lot Nine (9) of W. M. Goodwin's Addition to Urbana, Illinois, thence East 89 1/2 feet, thence North 41 feet to the Southwest corner of a tract of land formerly owned by Lucie H. Parr, thence East 60 feet, thence South 66 feet, thence West 149 1/2 feet to the place of beginning.

is needed by the University of Illinois, an educational institution, established and supported by the State of Illinois, as the site for a building needed and to be constructed by said University for educational purposes and to enable said University to discharge its duties to the people of said state and for public use; that funds available for the purchase of said land have been appropriated to The Board of Trustees of the University of Illinois by the General Assembly of the State of Illinois; that this Board of Trustees has negotiated with Lena M. Thompson, the owner of said land and Finney W. Thompson, her husband, and with their duly authorized representatives for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but they have refused to sell and convey the land to The Board of Trustees of the University of Illinois for such price and continue to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems excessive and exorbitant and is unwilling, and has refused to pay therefor; and

It is further hereby resolved, found and declared by said The Board of Trustees of the University of Illinois that the compensation to be paid by it for said land cannot be agreed upon between this Board of Trustees and said Lena M. Thompson and she and it are unable to agree upon the purchase price
to be paid to her for the sale and conveyance thereof by her and her husband to the said The Board of Trustees of the University of Illinois; and

It is further hereby resolved, found and declared by this Board of Trustees of the University of Illinois that, because of said need of said University for said land for said purposes and because the compensation to be paid the said Lena M. Thompson as the owner thereof therefor cannot be agreed upon between her and this Board of Trustees, it is necessary for The Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to said Lena M. Thompson and any and all other persons who may have any right, title or interest in and to said land therefore determined in the manner provided by law for the exercise of said right of eminent domain; and

It is further hereby resolved by this Board of Trustees that the necessary and appropriate action be taken for the acquisition of title to said property by said The Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction, and that the Legal Counsel of said University be, and he is hereby authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name of The Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceedings.

On motion of Mr. Johnston, the foregoing resolution was adopted by the following vote: Aye, Mr. Bissell, Mr. Herrick, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Hughes, Mr. Kickell, Mr. Stratton.

**CONTRACT WITH HOSPITAL SERVICE CORPORATION (BLUE CROSS-BLUE SHIELD)**

(15) Representatives of Hospital Service Corporation and of Illinois Hospital Service, Inc. (Blue Cross-Blue Shield) have inquired about bringing the McKinley Hospital and the Research and Educational Hospitals into the Blue Cross-Blue Shield plan. This would be of advantage to patients who carry Blue Cross-Blue Shield insurance, since payments to non-contract hospitals are limited to $6.00 a day. Approximately twice as much would be paid if McKinley Hospital and the Research and Educational Hospitals were contract hospitals. Since many patients of the Research and Educational Hospitals carry this kind of insurance and are frequently unable to pay any charges not covered by insurance, the income of the Hospitals will be materially increased by execution of the contract.

The only disadvantages to execution of the contract appear to be the requirements of submitting annual operating statements, which will necessitate some additional work in modifying the statements presently prepared, and the possibility of Blue Cross disapproving payments in excess of 105 per cent of the actual per diem costs. The possibilities of any disallowances are very remote, however, since the University's rates are at cost or less.

The Vice-President and Comptroller, the Vice-President in charge of the Chicago Professional Colleges, the Dean of Students, the Medical Director of the Research and Educational Hospitals, and the Medical Director and the Acting Administrator of the University Health Services have all reviewed the proposed contract and recommend its approval. It has also been approved as to form by the Legal Counsel.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute contracts to make the McKinley and the Research and Educational Hospitals contract hospitals under the Blue Cross-Blue Shield plan.

On motion of Mr. Swain, this recommendation was approved.
ADDITION TO CONTRACT WITH CONSULTING ENGINEERING SERVICE

(16) Consulting Engineering Service, Urbana, has been employed for the engineering studies and the preparation of working drawings for air conditioning installations in the Mini Union Building under the provisions of its contract approved by the Board of Trustees on September 23, 1953.

At the time the project was authorized, the estimated cost of the engineering services was $2,500. Because of problems in finding adequate space for ducts and piping, as well as for additional ventilating equipment in the attic and extension of the installations to serve work spaces and offices in the mezzanine area, the total cost of the engineering services is now estimated at $3,460. All projects under the contract with Consulting Engineering Service involving engineering costs in excess of $2,500 require the approval of the Board, and I request that the Comptroller be authorized to execute a contract change order for this work.

On motion of Mr. Williamson, the Comptroller was authorized to execute this change in the contract.

GIFT FROM STATION WGN OF MUSIC ARCHIVES

(19) The University has received from WGN, Inc., Chicago, one of the nation's pioneer radio and television stations and one of the most active in music programming, its complete collection of music arrangements acquired during the past three decades. The collection consists of 30,000 pieces of music, many of them complete scores, from popular music to symphony, sinfonietta, chamber music, and operas. It includes many unpublished, out-of-print, and original works. The collection cost WGN at least $200,000 but much of it could not be duplicated at any price. The collection is housed in steel cabinets, worth $6,000, which were also given to the University.

The collection will be used by the School of Music for teaching, research, and for student and faculty concerts. It will also be used by the Division of University Extension as a lending library to serve music groups in high schools, colleges, community arts organizations, and other institutions, in much the same way as the Division's Audio-Visual Aids Service, which now operates the world's largest educational film lending library, serves in its field.

I am pleased to report this gift for official public record.

This report was received for record.

On motion of Mr. Bissell, the Secretary was requested to send the officials of Station WGN, Inc., an expression of appreciation for this fine gift.

REPORT OF GIFTS AND GRANTS RECEIVED BY THE UNIVERSITY

(20) The following gifts and grants of funds received by the University have been accepted by the President and are now being reported for official record. Unless otherwise specified, these grants include payments received during the period from July 1, 1956, through June 30, 1957. (In many cases a period of several months may elapse between the time an offer is accepted and the final payments have been received. Hence, to avoid complications in audits of University accounts, monetary gifts are usually reported after the funds have been deposited with the University.)

THE UNIVERSITY OF ILLINOIS STATUTES

Mrs. Watkins submitted the following report:

The Special Committee on Revision of the University of Illinois Statutes recommends adoption of the General Rules Concerning University Organization
and Procedure as contained in the press proof submitted to the Trustees in advance of today's meeting. This is the second part of the University of Illinois Statutes which your Committee has been charged with the responsibility of revising and bring up to date. The first part, the University of Illinois Statutes, was approved by the Board of Trustees on January 16, 1957, and became effective September 1, 1957.

In approving the Statutes the University Senate accepted the recommendation of the Senate Committee on Revision of the Statutes that only those sections in which the University Senates have an interest should be included in the University of Illinois Statutes, and that those sections which deal with administrative organization and the powers and responsibilities of administrative officers of the University should appear in a separate compilation, the General Rules Concerning University Organization and Procedure. (This compilation has sometimes been called Part Two in discussions of the Statutes.) Amendments to the University of Illinois Statutes are to be adopted by the procedure set forth in Section 62 thereof. Amendments to the General Rules Concerning University Organization and Procedure are to be made by the Board of Trustees on the recommendation of the President, and the Senates will not participate in the amending process. The present compilation of the General Rules Concerning University Organization and Procedure was submitted to the Senate because it contains some sections which the former University Senate had approved over the years. By approving this compilation the Senate understood that it was divesting itself of its role in amending those sections. It was understood, however, that subject matter dealt with in the General Rules Concerning University Organization and Procedure may be covered in amendments to the University of Illinois Statutes which the Senate may later propose.

The University Senate, in a special session held on July 29, 1957, and called by the President of the University for this purpose, considered the compilation of the General Rules Concerning University Organization and Procedure. The text of the sections was approved by the Senate and was submitted to the Board of Trustees for consideration and adoption. The University Senate also authorized representatives of its Committee on the Revision of the Statutes, working with the Legal Counsel, to edit the draft and to make such changes, other than in substance, as they deemed necessary. The draft as edited was then submitted to the Board of Trustees Committee and to all of the other Trustees.

The Board Committee went over the draft, section by section, making certain changes. Representatives of the University Senate Committee advised the Board Committee that these changes would not be of concern to the Senate since they are either clarifying language or deal with matters of administrative policy. At the conclusion of its deliberations, the Committee approved the draft and authorized the Secretary of the Board to have it printed for presentation to the Board of Trustees.

The Committee recommends that the General Rules Concerning University Organization and Procedure become effective as of January 1, 1958, with the exception of Section 26, "Terms of Employment and Administrative Staff," which the Committee recommends become effective September 1, 1958, since it is not feasible to change present contracts of appointment which are subject to existing terms of employment.

At the conclusion of this presentation, Mr. Johnston suggested two other changes:

Section 11, listing the duties of the Vice-President and Comptroller and of subordinate officers in the Business Office, specifies that the Bursar shall "collect all monies due the University." Other Sections authorize the President of the University and the Vice-President and Comptroller to accept funds for various purposes. A change in the language in Section 11 is indicated in the interest of consistency and to avoid possible misunderstandings of the several provisions.

In Section 21, a statement of the existing University policy on the use of University buildings and premises for political purposes should be included.
The Secretary was authorized to make these changes after con- 
fering with Mr. Johnston.¹

On motion of Mrs. Watkins, the General Rules Concerning Uni- 
essity Organization and Procedure were adopted. The complete text, 
as amended in accordance with the above changes, is printed as an 
appendix to these minutes (page 1058).

JANUARY, FEBRUARY, AND MARCH MEETINGS

The Board had previously voted to hold its January meeting in Chicago, on Thursday, January 16, 1958, at a time and place to be determined by the President and Secretary of the Board. President Livingston announced that the meeting, including meetings of Board committees, will be held in the offices of the Executive Dean of the Chicago Undergraduate Division at Navy Pier, beginning at 10:30 a.m.

On motion of Mr. Bissell, the Board voted to hold its February meeting in Chicago, on Tuesday, February 18, 1958, at an hour and place to be determined by the President and Secretary of the Board.

The By-Laws of the Board provide that it shall hold an annual meeting on the second Tuesday of March, unless the date of such meeting be changed by the Board. It was the consensus of the Board that no action be taken changing the date of this meeting which will, therefore, be held on March 11, 1958.

MEETINGS OF BOARD COMMITTEES

President Livingston announced that, with the concurrence of the chairmen concerned, meetings of Board committees will be held on Thursday, January 16, 1958, and Tuesday, February 18, 1958, preceding the Board meetings scheduled for those dates.

EXECUTIVE SESSION

At this point an executive session was requested and ordered for the consideration of the following item of business and for a meeting of the Executive Committee.

RECOMMENDATIONS OF THE UNIVERSITY PATENT COMMITTEE

("21") The University Patent Committee submits, with the concurrence of the Chairman of the University Research Board, the following recommendations relating to inventions by members of the staff.

1. A new method of introducing carbonyl functions into certain organic molecules — Bruno M. Vittimberga, former Research Assistant in the Department of Chemistry and Chemical Engineering, and Reynold C. Fuson, Professor of Organic Chemistry, inventors. This method offers a means of introducing carbonyl groups into hydrocarbons and substituted aromatic systems, transforming them in many cases to more useful compounds. The Head of the Department of Chemistry and Chemical Engineering states that in view of the doubtful commercial value and the need for extensive development work, it seems unwise for the University of Illinois to invest further money in this invention; and accordingly recommends that this invention be released to the inventors. The Patent Committee concurs in this recommendation.

2. Production of anaerobic (bacterial) spores — Robert E. Collier, Instructor in Bacteriology, and H. Orin Halvorson, Professor and Head of the Department of Bacteriology, inventors. The purpose of the invention is the development of a process for the production of bacterial spores free from vegetative cells and germinated spores and to do this in a relatively short period of time (twenty-four hours or less). The procedure consists of inoculating a suitable growth and sporulation medium with a small quantity of the desired organism and then allowing the culture to grow and develop at a suitable temperature. Normally, this culture takes from forty-eight hours to two weeks or more to
accomplish. Professor Halvorson has stated that if a patent can be obtained on this procedure, it would have little if any commercial value and that he does not recommend that any expenditures be made in order to develop it. The Patent Committee concurs in this recommendation and recommends the release of this invention to the Office of Naval Research, the sponsoring agency under which it was developed.

3. Perspiration inhibitor using malonate salts — Dr. Adolph Rostenberg, Jr., Professor and Head of the Department of Dermatology, inventor. At its meeting on July 16, 1957, the Board of Trustees approved the transfer of the University's interest in this invention to the University of Illinois Foundation, with the understanding that an application for a patent be filed and other development work carried on. It now appears that this invention has definite commercial possibilities; and accordingly, income may become available in the near future for distribution. In accordance with University policy on inventions resulting from the use of University facilities or resources, the Patent Committee recommends to the Board of Trustees proposed distribution of net income from patents obtained by the University or the Foundation. After discussing this with Dr. Rostenberg and officials of the Chicago Professional Colleges, the Patent Committee recommends that there be paid to Dr. Rostenberg fifteen percent of the net income received on the above described invention.

I concur in these recommendations.

On motion of Mr. Bissell, these recommendations were approved.

On motion of Mr. Bissell, the Board adjourned.

UNIVERSITY OF ILLINOIS
GENERAL RULES CONCERNING UNIVERSITY ORGANIZATION AND PROCEDURE

EXPLANATORY NOTE

To the Members of the Board of Trustees:

In approving the Statutes, the Senate accepted the recommendation of the Senate Committee on Revision of the Statutes that only those sections in which the Senates of the University have an interest should be included in the University of Illinois Statutes, and that those sections which deal with administrative organization and the powers and responsibilities of administrative officers of the University should appear in a separate compilation, The General Rules Concerning University Organization and Procedure (sometimes called Part II in discussions of the Statutes).

Amendments to the University of Illinois Statutes are to be adopted by the procedure set forth in Section 62 thereof. Amendments to The General Rules Concerning University Organization and Procedure are to be made by the Board of Trustees on the recommendation of the President. The Senates will not participate in the amending process. The compilation of The General Rules Concerning University Organization and Procedure was submitted to the Senate because it contains some sections which the University Senate had approved over the years. By approving this compilation, the Senate understood that it was divesting itself of its role in amending the sections. It was understood, however, that subject matter dealt with in The General Rules Concerning University Organization and Procedure may be covered in amendments to the University of Illinois Statutes which the Senate may later propose.

The University Senate met in a special session, July 29, 1957, called by President Henry, for the purpose of considering this compilation of The General Rules Concerning University Organization and Procedure. The texts of the sections were approved by the Senate and they are submitted to the Board of Trustees for consideration and adoption.

PREAMBLE

The General Rules Concerning University Organization and Procedure are supplementary to the University Statutes, which became effective on September 1, 1957.

In adopting initially The General Rules Concerning University Organization and Procedure, the Board of Trustees is acting on the advice of the University Senates. In making changes in and adopting amendments to The General Rules Concerning University Organization and Procedure, the Board of Trustees will act on the advice of the President of the University alone.

UNIVERSITY HEALTH SERVICES

Sec. 9. (a) The Director of University Health Services shall apply the established methods of preventive medicine and sanitation to campus life in order to promote the general health and physical welfare of students, faculty, and staff. He shall have authority to inspect University premises as may be necessary in the performance of his duties.

Sec. 10. (a) The Director of the University Press shall have general charge of the work of editing, designing, printing, and distributing the publications of the University and he shall perform such other functions as the President may direct.
   (b) In practice, the Press shall read and check copy prepared by departments and, when it seems desirable, recommend additions, deletions, or modifications to make the publication more effective, to reduce the cost, or to meet the limitations or take advantage of the printing process to be used. The Press normally shall not write or rewrite entire publications, but shall indicate to department authors the need for such rewriting when it exists.
(c) By mutual agreement between the Press and a college, school, or institute, responsibility for editing and distributing publications of a particular division of the University may be delegated to an editor (and assistants if needed) on the staff of that division.

(d) Establishment by any division of the University of a journal to be offered for sale to the general public shall require prior approval by the University Press Board. Such approval shall not be required, however, for periodicals whose aim is to report the activities and findings of research and service divisions established for the purpose of disseminating such information (e.g., Agricultural Experiment Station and Extension Service, Engineering Experiment Station, Institute of Labor and Industrial Relations, Bureau of Business Management, etc.).

(e) The Director of the Press shall be responsible for the administration of contracts with authors. Such contracts shall define the rights and obligations of the author and of the Press, and shall state the basis on which royalty payments are to be made to the author and the basis on which receipts from the sale of secondary rights—reprints, foreign translations, serial, dramatic, motion pictures, radio, television—are to be divided between the Press and the author. A copy of the printed agreement in use by the Press shall be made available upon request.

BUSINESS OFFICE

Sec. 11. (a) The Vice-President and Comptroller shall report to the President and perform the following and such other functions as may be assigned to him by the Board of Trustees or the President:

1. Be the general fiscal officer of the Board. He shall approve for the Board all expenditures for which a general or specific appropriation has been made by the Board.

2. Assist the Finance Committee of the Board in matters pertaining to the handling of funds and investments.

3. Report to the Board quarterly the financial condition and operations of the University, and at such times and on such other matters as it may direct.

5. Designate the place and manner in which financial records shall be maintained.

6. Be the general business officer of this University and be responsible for those offices comprising the Business Office of the University and located on all campuses of the University, whose delegated responsibilities are as described below:

a) The Auditor's responsibilities extend to all University locations. He shall:
   i) Verify by audit the transactions and records of all officers and employees responsible for the receipt or expenditure of money, for the keeping of accounts, or for the custody of property.
   ii) Review accounting systems and business procedures, test the effectiveness of the system of internal control, and assist in the installation of new procedures.
   iii) Audit or cause to be audited the accounts of all organizations required to submit financial reports to the University.
b) The Bursar (or the Business Manager of the Chicago Professional Colleges and the Chicago Undergraduate Division) shall:
   i) Collect all accounts due the University and deposit the funds as required by law and the regulations of the Board of Trustees; this shall include the negotiation and supervision of contracts or other financial arrangements to accomplish such collections.
   ii) Make payments for personal services performed by University staff and prepare and maintain payroll records.
   iii) Act as certifying officer to the University Retirement System.
   iv) Maintain detailed accounts receivable records.
   v) Administer fiscal procedures of student loan funds.
   vi) Administer fiscal operations of educational and student aid activities financed by outside agencies and individuals.
   vii) Handle investments under instructions of the Finance Committee of the Board and the Comptroller.

c) The Chief Accountant shall maintain the general financial records of the University. He (or the Division Chief Accountant at branch locations) shall also:
   i) See that all claims against the University are properly verified and approved for payment.
   ii) Prepare all warrants on the Treasurer and vouchers against state appropriations.

d) The Director of Purchases (or the Purchasing Agents at branch locations) shall:
   i) Negotiate and issue orders for the purchase of articles and materials required by all University departments, except when the Board assigns this authority to some other person or committee, and it shall be his responsibility to purchase suitable articles and materials at proper prices, complying with regulations of the Board and laws governing conduct of University business.
   ii) Advise members of the departments as to availability and cost of commodities and services. Purchases of equipment and materials for the Physical Plant Department shall be made in accordance with the recommendations of the Director of the Physical Plant.
   iii) Have supervision over general storerooms, except as otherwise provided.

c) The Business Manager in Chicago shall:
   i) Act as the Vice-President and Comptroller's representative in business and financial matters at the Chicago Professional Colleges and the Chicago Undergraduate Division.
   ii) Have supervision over the various departments of the Business Office on the Chicago campuses.

(b) Purchases shall be made in accordance with applicable state statutes on the basis of competitive prices or bidding, quality, suitability, and service considered. Purchases amounting to $2,500 or more shall be submitted to the Board of Trustees or to its Executive Committee, unless, in the opinion of the President of the University, necessity requires immediate action, in which case the President shall act and report promptly to the Board. This provision shall not apply to the purchase of food products, grain, livestock, or to any other commodities which the Board from time to time may exempt.

(1) No purchases of materials or equipment shall be made from an
employee of the University or from a concern of which an employee is a sole or principal owner or a corporation of which an employee is a major officer, except when the purchase is approved by authority of the President.

(2) In purchasing or contracting for competitive items, so far as it is practicable or required by law, sealed bids or quotations shall be secured, the announcements and advertisements to indicate the time and place when the bids will be opened. All bids shall be publicly opened in the presence of at least one member or officer of the Board of Trustees, or a designated representative.

(c) The Vice-President and Comptroller may at his discretion receive any remittance to be used to meet the expenses of a student. Expenditure of such funds shall be by voucher approved by the Dean of Men or the Dean of Women, as applicable, and the Vice-President and Comptroller.

This does not authorize the keeping of personal deposit accounts for students but is to permit the acceptance of funds sent for student aid to be disbursed in accordance with the instructions of the donor.

(d) No department shall receive any monies unless authorized by the Vice-President and Comptroller to do so. All monies shall be accounted for and paid over to the Bursar in such manner as the Vice-President and Comptroller shall direct.

(e) No obligation shall be entered into except on authority of the Board and after a general or specific appropriation has been made by the Board therefor, as evidenced by its records, and after having been approved by the Vice-President and Comptroller. All appropriations shall lapse at the end of the fiscal year, June 30, unless otherwise especially ordered.

(f) The fiscal year of the University shall begin with the first day of July of each year and end on the thirtieth day of June next succeeding.

(g) The Vice-President and Comptroller is authorized to establish and administer petty cash funds where necessary for the prompt and efficient handling of University business, providing that no single fund of more than $1,000 may be established without specific action of the Board of Trustees. The Board shall designate the banks in which petty cash funds in excess of $1,000 may be deposited.

(h) All employees shall be bonded in adequate amount and form, to be determined by the Board and the expense to be paid by the University.

(i) The Vice-President and Comptroller is permitted at his discretion to act as treasurer of student and other organizations affiliated with the University, but in so doing shall not act on behalf of the University or as a University officer or employee and shall not thereby create any liability on the part of the Board of Trustees of the University of Illinois. In all cases, the accounts of these organizations shall be kept separate from the University accounts and the funds of such organizations shall be kept apart from University funds.

II. BUSINESS PROCEDURES

STUDENT LOAN FUNDS

Sec. 12. (a) Student loan funds are for the purpose of providing financial assistance to students enrolled in the University, including interns and residents. Ordinarily such funds are received by gift and the donor may
specify conditions under which loans may be granted, although the Board of Trustees may transfer funds from other sources to be used for this purpose.

(b) The President is authorized to accept offers of gifts of loan funds which, when received, shall be reported to the Board of Trustees. Offers shall not be accepted where the terms require that loans be made on the basis of race or religious affiliation.

(c) The Finance Committee of the Board of Trustees shall determine from time to time the general policies to be followed in the granting of loans.

In general, the following types of loans shall be made.

(1) Short Term. These loans are made to students to meet temporary financial problems, and are to be repaid during the same academic session in which they are made. They are limited to relatively small amounts and ordinarily do not require security. The applications must be approved by the Dean of Students and the Vice-President and Comptroller, or their designees.

(2) Long Term. These loans are made to provide material assistance to the student during his attendance at the University, and are generally expected to be repaid from earnings after he leaves the University.

Each application must be approved by the dean or director of the college or school in which the student is enrolled, the Dean of Students, and the Vice-President and Comptroller, or their designees. Security, by means of the signature of a financially qualified cosigner on the note or by satisfactory collateral, is required unless otherwise provided in the deed of gift or waived in meritorious cases.

The Bursar shall, upon approval of the application, determine the fund from which the loan shall be made and shall make the loan on the receipt of a promissory note in the form approved by the Legal Counsel. The Bursar shall make collections on all notes and the interest thereon and, when necessary, may institute proceedings to enforce collection by referring delinquent notes to the Legal Counsel or to agencies outside the University.

(d) Income on the student loan funds may be reserved to defray expenses incidental to the administration of such funds, when not prohibited by the terms of the gift. After providing for such expenses, any balance shall be added to the principal of the funds.

(e) If at any time student loan funds are not needed for student loan purposes, they may, upon approval of the Finance Committee, be invested temporarily in prime interest bearing securities.

GIFTS AND GRANTS

Sec. 13. (a) Gifts and grants. They may be accepted from persons, corporations, or agencies outside the University under conditions specified in this section. Staff members may conduct preliminary negotiations with prospective grantors or contractors with the prior knowledge and approval of the department head or other appropriate administrative officer, but are not authorized to bind the University to accept a gift or grant.

(b) Scholarships and Fellowships. These are gratuitous payments to students to provide financial assistance during the period of their training. There are two kinds of scholarships: (1) aid to undergraduate students and (2) aid to graduate students, limited to tuition and fees. Fellowships are defined as awards involving cash stipends for students in the Graduate College. In certain exceptional cases, postdoctoral fellowships may be granted. Fellow-
ships are intended to assist the student while he pursues his educational objective; they are not awarded for carrying on specific research, and no services shall be required of a fellow by the University.

The President is authorized to accept funds for scholarships and fellowships. He generally delegates the authority for accepting scholarships to the Special Committee on Undergraduate Scholarships and authority to accept fellowships to the Dean of the Graduate College. At the Chicago Professional Colleges, the Associate Dean shall act in this capacity for the Dean of the Graduate College.

Funds for scholarships and fellowships shall not be accepted where the terms require that they be awarded on the basis of race or religious affiliation.

When funds are received from a donor for fellowships or scholarships, neither the University nor the student recipients shall be obligated to the donor in any way, except to see that established academic requirements are met. The recipient of a scholarship or fellowship shall be chosen by appropriate University agencies, in accordance with established criteria based upon scholastic attainment and financial need.

The Vice-President and Comptroller may receive and disburse funds for a donor who wishes to designate the recipient of a grant for financial assistance. In this event, the University acts only as the agent for the donor; the funds thus received are not University funds; and the grant thus administered, although perhaps designated as a scholarship or fellowship by the donor, has no official University status.

c) Endowment Gifts. The conditions of the gift as stated by the donor ordinarily specify the use to which the income shall be put, although the decision may be delegated to the Board of Trustees. Gifts may be received and accepted with the condition that the principal sum thereof may be either held intact or expended upon authorization of the Board of Trustees, or the University may transfer other funds to the endowment to be invested and only the income expended. Such funds are designated as "Funds Temporarily Functioning as Endowment."

The terms of an offer of a gift to create an endowment shall be reviewed by the department concerned, the Legal Counsel, and the Business Office. The President may accept offers of endowment funds, reporting the gift, when received, to the Board of Trustees. No endowment fund money may be accepted if it is restricted as to use on racial or religious grounds.

d) Non-monetary Gifts. Every offer of a non-monetary gift shall be reported by the department involved to the President, who is authorized to accept it on behalf of, and report it to, the Board of Trustees.

No object of art shall be accepted until its artistic quality has been determined.

Loans of property (non-monetary) are accepted subject to the condition that the University will take all reasonable care of the property but it will not be responsible for loss or damage thereto, unless otherwise agreed to in writing.

Routine loans of equipment may be accounted for and administered by the department involved, without reference to the President. However, receipt of equipment which could result in questions of University policy should be referred through established administrative channels.
RESEARCH GIFTS, GRANTS, AND CONTRACTS

Sec. 14. (a) Research conducted under the auspices of the University may be supported in whole or in part through funds provided by outside donors in the form of research gifts, grants, or contracts. Such arrangements must be approved, before acceptance, by the President or his delegate. Staff members may conduct preliminary negotiations with prospective grantors or contractors with the prior knowledge and approval of the department head or other appropriate administrative officer and the dean or director, if required by college policy, but have no authority to bind the University to enter into a contract. Such research programs shall be controlled and directed by the University and shall be conducted within the appropriate department by members of the University staff. The administrative coordination of such programs shall be under the Agricultural Experiment Station for departments in the College of Agriculture, the Engineering Experiment Station for departments in the College of Engineering, and the University Research Board for all other departments.

(b) Contracts for research shall specify that the results of scientific research conducted by the University, including patentable discoveries, are the property of the University, to be used for the benefit of the University and the public, but if such patentable discoveries have commercial value, the sponsoring agency may receive preferential consideration in the administration of the patent.

(c) The University shall not enter into an agreement with a sponsoring agency which will give it permanently the exclusive benefits of the results of such investigation or research, except under certain contracts with agencies of the United States Government, when such exceptions are in the national interest. The original records of any investigation shall be held by the University, but reports or copies of such records may be furnished to the sponsoring agency. The University shall have the exclusive right to publish, at its discretion, the results of scientific investigation and research, unless provided otherwise in contracts with agencies of the United States Government or state of Illinois. No account of a cooperative research project or reprints of scientific articles resulting from the investigation shall be published by the sponsor or by any other agency, except with the consent of the University. The sponsoring agency shall not use the name of the University in any advertisement, whether with reference to a cooperative investigation or otherwise, without the prior approval of the President of the University.

(d) If conditions imposed by the sponsoring agency require the waiver of established University policies, such as those concerned with full reimbursement for indirect costs, rights of publication, or ownership of potentially patentable inventions or developments, such conditions may be accepted by the University, if required by federal law or the established policies of the sponsor, when the sponsoring agency is governmental or non-profit in character; and if the action of the University in waiving such policies is determined to be clearly in the public interest by the committee specified in paragraph (f) following. Other than the exceptions indicated above, all gifts, grants, and contracts shall be accepted under conditions imposed by relevant University statutes and rules.

(e) The University shall generally accept funds for research from spon-
sors outside the University by an outright gift, a grant, or a written and bilaterally executed contract.

(1) Gifts. Gifts for research, which are limited in amount, may be arranged by informal negotiations and correspondence between the sponsor and the staff member who will carry on the research, subject to acceptance as hereinafter provided. The Chairman of the University Research Board, or, at the Chicago Professional Colleges campus, the Vice-President in Charge, is delegated by the President to approve and accept such gifts for the University. Financial arrangements for gifts shall be reviewed and approved by the Business Office. Consideration of the indirect costs to the University accruing on account of the acceptance of gifts shall be made at the time of budgeting the funds to be received.

(2) Grants. Grants are ordinarily made to the University by foundations, associations, or other agencies which are governmental or non-profit in character. A grant is differentiated from a gift in that it usually carries certain conditions imposed by the sponsor. Applications for grants should be prepared by the staff member who will supervise the research, approved by the head or chairman of the department and the dean or director, if required by college policy, and presented to the Business Office for review and approval of financial details. Applications should be accompanied by a budget which shall give consideration to all direct and indirect costs involved. After approval by the Business Office, applications for grants shall be considered for approval by the Chairman of the Research Board, or, at the Chicago Professional Colleges campus, by the Vice-President in Charge. Grants carrying conditions the legality of which may be subject to question shall also be referred to the Legal Counsel.

(3) Research Contracts. Contracts shall be used when required by the sponsoring agency or when it is desirable to set forth the specific conditions under which funds are to be received and administered. The University standard cooperative agreement contract form shall normally be used for projects with private sponsors. Contracts prepared by the sponsors may be used for projects with agencies of the United States Government, state governments, and in some cases private sponsors.

After informal negotiations with the sponsoring agency, the staff member who is to supervise the project shall prepare a proposal specifying in detail the research work to be carried on and the financial and other conditions. A budget shall be prepared which will provide for all direct costs of the project and the indirect costs to be reimbursed to the University. Such a proposal and accompanying budget shall be approved by the head or chairman of the department and the dean or director, if required by college policy, and submitted to the Business Office. After review and approval by the Business Office, it shall be submitted for approval to the Chairman of the University Research Board, or, at the Chicago Professional Colleges campus, to the Vice-President in Charge. It shall then be returned to the Business Office for submission to the sponsoring agency, such submission to constitute the formal offer of the University to carry on the research subject to the execution of a formal contract as hereinafter provided.

If the contract is with a private sponsor and the amount involved is relatively small, the University standard contract form may be completed by
the staff member and submitted, with accompanying budget, for University
approval in accordance with procedures stated above. The proposal shall not
be required under such conditions.

Contracts prepared by sponsoring agencies shall be referred to the Busi-
ness Office for examination as to financial terms and conformance with Uni-
versity policy.

After a proposed contract has been negotiated and received by the Busi-
ness Office, it shall be approved by the department which is to conduct the
investigation and the Legal Counsel, and signed by the Vice-President and
Comptroller and attested to by the Secretary of the Board of Trustees, who
may authorize responsible members of their staffs to execute contracts on
their behalf.

(f) Gifts, grants, and contracts for research may provide for all or a
part of the costs of a research project. When the funds from the sponsor are
to cover all or substantially all of the costs, the following items should be
considered in the preparation of the budget: salaries and wages, employer's
contribution to the University Retirement System, allowance for Workmen's
Compensation and Occupational Disease liability, expendable supplies, equip-
ment, travel expenses, other direct costs, and an allowance for indirect costs
to the University. The amount budgeted for indirect costs in any proposed
project shall be reviewed and approved by a committee composed of the
Chairman of the Research Board or his delegate, who in Chicago shall be the
Vice-President in Charge, a representative of the appropriate research agency
or department carrying on the project, and a representative of the Business
Office. In determining the amount to be budgeted for indirect costs, the com-
mittee shall give consideration to the respective benefits which shall be
received from the investigation by the sponsor, by the University, and the
public. When the budget provides for full recovery of all indirect costs, or
in those cases where some other rate of reimbursement is established by
policy of the sponsoring agency and can not be altered by the University, the
following distribution of the funds thus received shall be made:

1. Forty per cent to a reserve which will periodically lapse to general
University income. Special administrative, physical plant, or other costs
which result from such research activities may be charged directly to this
reserve.

2. Thirty per cent to a fund to be allocated by the University Research
Board, for general University research purposes.

3. Thirty per cent to the University department conducting the in-
vestigation, for research or related activities.

In those cases where less than total reimbursement of indirect costs is
received, except where this is due to the established policy of the sponsoring
agency, all sums received for this purpose shall first be applied to the general
University allocation under (1) above. After the full 40 per cent of all in-
direct costs has been realized, any balance shall then be applied to (2) above,
and after such 30 per cent has been realized, any remaining balance shall be
applied to (3) above.

On projects where limited or excessive demands are made upon Univer-
sity facilities, the committee is authorized to revise the percentage allocation
provided above.

(g) The University is often requested to accept grants and contracts

[December 17]
providing for extension work or teaching services. Policies and procedures set forth in this section and in Section 13 shall apply to such grants and contracts, except that funds appropriated by the United States Government to the Agricultural Experiment Station or the Agricultural Extension Service shall be administered by the College of Agriculture.

**DRAFTING AND EXECUTION OF UNIVERSITY CONTRACTS**

Sec. 15. (a) Contracts shall be drafted in tentative form by the University officer best acquainted with the subject matter thereof and in whose department lies the responsibility for performance, and approved by the Vice-President and Comptroller of the University, unless otherwise provided by the statutes of the University.

(b) All contracts prior to the execution thereof shall be approved as to legal form and validity by the Legal Counsel, such approval to be endorsed in writing on the contract, provided that such approval and endorsement shall not be required with respect to individual contracts or extensions or renewals thereof the form of which has been previously approved by the Legal Counsel and which contain no substantive changes or additions, other than those pertaining solely to the description of the project, the amount involved, and the term of the contract or extension.

All contracts shall be executed at least in duplicate, and the original thereof shall be filed with the Secretary of the Board of Trustees and remain in his custody. A report shall periodically be made to the Board of Trustees by the Business Office of all contracts executed on behalf of the University.

(c) Unless otherwise ordered by the Board of Trustees in specific cases, contracts to which the University is a party shall be signed by the Comptroller of the Board of Trustees and attested to by the Secretary of the Board of Trustees, to whom authority is delegated by the Board for such purposes, provided however, that:

1. Contracts involving payments by the University in one fiscal year in excess of $2,500 shall be specifically authorized by the Board of Trustees, except that when an emergency exists the President is authorized to act but must report his action to the Board of Trustees.

2. Contracts involving major changes in University policy shall be approved specifically by the Board of Trustees.

3. Funds shall have been appropriated by the Board of Trustees, either specifically or in a general appropriation for the operation of the University, for all contracts involving payments by the University, except those funds received from an agency outside the University and held by the University as a trustee or an agent.

4. All contracts must bear the seal of the University, which shall be in the custody of the Secretary of the Board of Trustees and shall be affixed by him.

5. Contracts for the purchase of fuel, stationery, and printing paper shall be reported to the Governor of the State of Illinois for approval, if required by the constitution or statutes of the state.

6. The Comptroller and Secretary are authorized to delegate to responsible members of the staff of the University authority to execute and attest to contracts in the name of the Comptroller and the Secretary of the Board.
(d) Contracts for construction work shall be awarded on the basis of sealed bids obtained by the Physical Plant Department and opened in the presence of the Secretary and the Comptroller of the Board of Trustees, or their respective representatives.

(e) All bids received for a specific item or project may be rejected, without referral to the Board of Trustees, when they are considered to be excessive or unsatisfactory as follows:

1. By the Director of Purchases (or Purchasing Agent at branch locations), when received as a result of requests for bids which he has issued.
2. By the President, on buildings and construction, upon the recommendation of the Director of the Physical Plant and the Vice-President and Comptroller, on items over $25,000, such rejections to be reported to the Board of Trustees.
3. By the Vice-President and Comptroller, on buildings and construction, on items under $25,000, such rejections to be reported to the Board of Trustees.

In the preparation of plans and estimates, the Director of the Physical Plant Department is authorized to secure information from vendors concerning materials and equipment and the prices of the same.

No employee of the University, or a concern of which an employee is sole or principal owner, or a corporation of which an employee is an officer, shall be eligible to bid on such construction work.

COMMERCIAL TESTS

Sec. 16. (a) Commercial tests or investigations for individuals, firms, institutions, or corporations may be undertaken by the University of Illinois when in the opinion of the head of the department in which the tests would be conducted and of the dean of the college it is desirable that the work be done. In general, such tests are justified when the results may be of scientific value or when the necessary facilities do not exist elsewhere or are not readily accessible. Such work shall be arranged by the head of the department with the members of his staff in accordance with the nature of their employment, as a part of their service to the University, unless such work is done at times when services are not required by the University. When necessary or desirable, special assistants may be employed to conduct a special test or investigation.

(b) A fee shall be assessed for each such test sufficient to cover all direct and indirect costs of service rendered or assistance obtained and the use of any and all facilities of the University in carrying out the test.

(c) In all cases where commercial testing is permitted to be undertaken by individual members of the faculty of the University on their own time and responsibility, it should be clearly understood by the agency requesting such tests that the tests are not to be considered as cooperative research investigations and that the University, as an institution, assumes no responsibility for the results obtained. Under these conditions, the results of these tests will be the sole property of the sponsor. The name of the University of Illinois shall not be used in publicity concerning the products tested, without its permission.

(d) The head of the department in which the tests are conducted shall keep a record of the terms of the agreement with the sponsor of the tests.
PATENTS ON INVENTIONS

Sec. 17. (a) Any discovery or invention (1) which is the result of research carried on by or under the direction of any employee of the University and having the costs thereof paid from University funds or from funds under the control of or administered by the University, or (2) which is made by any employee of the University as a direct result of his duties with the University, or (3) which has been developed in whole or in part by the utilization of University resources or facilities, belongs to the University and shall be used and controlled in ways to produce the greatest benefit to the University and to the public.

(b) Such discovery or invention must be submitted to the University Patent Committee for study as to disposition and recommendation to the President and Board of Trustees. The University Patent Committee, a subcommittee of the University Research Board, is appointed by the President to examine and study discoveries and inventions made by employees of the University in which the University may have an interest.

(c) The Board of Trustees may direct that such discovery or invention be:

(1) Released outright to the discoverer or inventor.
(2) Retained by the University in its own right or transferred to the University of Illinois Foundation for commercial development.
(3) Released to the individual or agency sponsoring the research under which the invention or discovery was made, if such action is required under the terms of the research contract with such agency or individual, or is required by law, or if the interests of the University and the public so indicate.

The discoverer or inventor may be required to apply for a patent and assign his interest therein. In unusual situations, when in the judgment of the Patent Committee immediate filing of an application for a patent is necessary to protect the interests of the University, the Committee may act to accomplish this prior to the report and recommendation to the Board of Trustees.

(d) In the event that income is received by the University or the University of Illinois Foundation from any patent assigned in accordance with the preceding paragraph, all costs of procuring and administering such patent shall first be paid from such income. A proper share of the remaining net income shall be paid to the inventor or discoverer. This share is to be determined solely by the Board of Trustees, after considering the recommendations of the President and the University Patent Committee.

(e) Contracts or grants from outside sponsors which carry the provision that the sponsoring agency may determine the disposition of patentable discoveries developed thereunder may be accepted by the University, when required by federal statute or the established policies of the sponsoring agency, and when that agency is governmental or non-profit in character, and when the action of the University in waiving its rights to such discoveries is determined to be clearly in the public interest by the committee specified in paragraph (f), Section 14.

Generally, if patentable discoveries result from research sponsored by an agency outside the University, preferential treatment in the use of any resulting patent may be accorded that agency.

(f) The foregoing stated patent policy shall not be construed to include
the ownership of copyrights, or of inventions or discoveries made by employees of the University entirely outside of their duties with the University and without the use of University facilities, resources, or financial support.

PROCEDURE ON PATENT MATTERS

Sec. 18. (a) A disclosure of any invention or discovery made by an employee of the University, or resulting from research carried on under the direction of an employee, in which the University may have an interest shall be submitted promptly by such discoverer to his supervisor or administrative officer. Such officer shall append thereto a statement setting forth his opinion concerning the scientific, technical, and economic merit of such discovery, the likelihood and desirability of obtaining a patent, and an estimate of the commercial possibilities of such a patent, and transmit such disclosure and opinion to the University Patent Committee.

(b) The Patent Committee shall review related data and information and make recommendations concerning financial terms and problems concerned with the development and administration of such inventions and discoveries, and patents secured thereon. The Committee shall make recommendations to the President, with the concurrence of the Chairman of the University Research Board, concerning the disposition and the terms of administration of such inventions and discoveries. If he concurs, the President shall transmit such recommendations to the Board of Trustees for final action.

(c) The determination as to what portion of net income shall be paid to the inventor or discoverer, after the payment of costs of securing a patent and of development and administration, from a patent held by the University or transferred by it to the University of Illinois Foundation shall be studied by the University Patent Committee, which shall make a recommendation to the President. In most cases, the University contribution in use of facilities and resources will be significant and, therefore, the inventor will have little real claim to compensation over his regular University salary. In such cases, the University Patent Committee shall recommend that the proportion of net income assigned to the inventor should fall in the range of 10 to 15 per cent of net income. In unusual cases, in which the University contribution is obviously less, this percentage allocation to the inventor may go to 25 per cent and, in rare cases, the rate may be higher.

(d) No final decision shall be reached as to where title to a patent shall vest, nor shall there be transferred to any individual or agency the rights (including a share in the net income) in an invention or discovery in which the University has an interest, without the approval of the Board of Trustees.

COPYRIGHTS

Sec. 19. (a) The right to copyright a work or to assign this right to a publisher normally belongs to the author of the work. However, when the author is specifically commissioned by the University or one of its departments to prepare a manuscript or report, the manuscript and all rights to it shall belong to the University.

(b) Research and service pamphlets and bulletins may or may not be copyrighted, at the discretion of the department issuing the work.

(c) Books published by the University Press are copyrighted as provided in Section 10.
DELEGATION OF SIGNATURES

Sec. 20. Any administrative officer is authorized to delegate to another responsible staff member his authority to sign official documents under conditions approved by the Vice-President and Comptroller. Such delegation does not relieve the administrative officer of responsibility for what is done thereunder.

III. USE OF UNIVERSITY PROPERTY

USE OF UNIVERSITY PREMISES AND FACILITIES

Sec. 21. (a) Subject to the approval of the proper University authorities, University premises and facilities may be used for meetings of student, faculty, and staff organizations recognized by the University. In no case may an admission fee be charged for any meeting on University premises except when permission is granted in accordance with University regulations. Such permission shall be given only:

(1) To student organizations when the proceeds for such gatherings go into the treasury of the organization concerned, the funds of which are expended according to University rules under the supervision and with the approval of the appropriate University authorities.

(2) To student organizations when the fee to be charged is for the sole purpose of paying the expenses of said meeting.

(3) To faculty and staff organizations recognized by the University when the fee to be charged is for the purpose of paying the expenses of the meeting.

(b) With approval of the appropriate University authorities, University facilities may be used for meetings of organizations whose activities are of an educational nature or of professional interest to members of the staff or the general student body and for meetings of a non-local character which have public or educational significance. In granting permission for the use of University facilities for such meetings, the following exceptions shall apply:

(1) The use of University facilities shall not be permitted for any purpose which, although in accord with the general purposes of the University, is of such a character or occurs at such a time or in such circumstances that it is likely to interfere with the work, either specific or general, of the University or any department. The use of buildings by local women shall be limited to organizations whose membership is made up of wives of University students, faculty, and staff.

(2) University buildings and grounds shall not be used for political purposes except that candidates for the office of President and/or Vice-President of the United States may appear in person to make political addresses.

(3) Reservations for outside organizations shall not be approved until all major University events have been scheduled.

(4) In no case may an admission fee be charged except upon permission previously obtained and then only to raise funds to offset the expenses of such meeting. When an admission fee is collected for any event on University premises, a rental fee for the use of facilities shall be charged.

(c) The use of University premises shall be subject to all applicable state and federal laws and in accord with the policies of the Board of Trustees. The use of University premises for meetings to be addressed by speakers
(other than students, members of the faculty, and members of the staffs of organizations housed in University buildings) shall be subject to approval by a committee composed of members of the faculty appointed for that purpose by the President of the University and subject to regulations formulated by that committee and approved by the President.

PRIVATE USE OF UNIVERSITY PROPERTY FORBIDDEN

Sec. 22. No one connected with the University in any capacity shall use for any personal purpose any University property of whatever description, and no one shall be permitted to remove from the buildings or grounds any property belonging to the University, even though it may seem to be of no value, unless it be temporarily removed pursuant to some well-established regulation or usage, or with the approval of the President or the Vice-President and Comptroller of the University.

CUSTODIANSHIP OF MOVABLE PROPERTY

Sec. 23. (a) Movable equipment purchased by or assigned to a department shall be the responsibility of the head of the department. An inventory of all such equipment shall be maintained in a manner to be determined by the Vice-President and Comptroller. The heads of departments shall make such reports pertaining to movable equipment as the Vice-President and Comptroller requires, in accordance with the State Property Control Act.

(b) The head of a department shall report to the Vice-President and Comptroller all items of equipment which are of no further use to that department, and the Vice-President and Comptroller shall transfer such equipment for use in another department or, if there is no further use for it in the University, shall dispose of it in accordance with the applicable provisions of the State Property Control Act.

(c) Movable equipment for general use, meaning equipment which is usable by all departments or by various departments or by the University in general, shall be considered to be in the custody of the Director of the Physical Plant Department, who shall report to the Vice-President and Comptroller on such equipment in the same manner as the head of any department of the University.

ASSIGNMENT OF PROPERTY TO DEPARTMENTS

Sec. 24. (a) Land which has been assigned by the Board of Trustees to a college or department for particular use or for a definite period may not be used for any other purpose nor beyond the period designated, without authorization by the Board of Trustees.

(b) The assignment of land, equipment, or any other property to a department or division does not give the department a title to the same, but only the right to use as long as necessary; and the use of land or equipment or other property shall not exclude its use, at the same time, for other purposes by other departments of the University, on approval of the President, provided that any such second use shall not interfere with the efficient utilization of said land, equipment, or other property for the purpose for which it was first assigned.

NAMING OF BUILDINGS, STREETS, AND DRIVES

Sec. 25. (a) Buildings given to the University may be named for their donors.
(b) Buildings should be named in such a way as to denote their general use as a matter of convenience to students as well as to visitors.
(c) Residence halls may be named for donors or for deceased former members of the Board of Trustees or of the University staff who were interested in such buildings or in student life.
(d) Campus drives and thoroughfares may be named for former presidents of the University.
(e) The designation of names shall be exclusively within the authority of the Board of Trustees.

IV. EMPLOYMENT POLICIES

TERMS OF EMPLOYMENT OF ACADEMIC AND ADMINISTRATIVE STAFF

Sec. 26. (a) The terms of employment of the academic and administrative staff, as defined in the University of Illinois Statutes, shall be explicitly stated by the nominating officer, indicating that services are required for:
  (1) The academic year, which shall consist of two semesters, or three terms at Chicago Professional Colleges.
  (2) Twelve months, including allowable vacation.
  (3) The summer session.
  (4) Other stated periods.
(b) The teaching staff shall generally be appointed with services required during the academic year and shall be free for other employment, either in the University or elsewhere, during the summer months, except that they shall report for any departmental meetings before registration and render all services requested of them in connection with registration and the preparation of materials and reports for the two semesters' work.
(c) The administrative, research, and extension staffs shall generally be appointed with services required for twelve months, including allowable vacation. Vacations are granted after the initial eleven months' service and may be taken during a one-year period extending from three months prior to nine months after the close of the fiscal year of the University. Vacations shall not be cumulative, but may be deferred at the request of the department or of the employee with the concurrence of the department. Such deferred vacation shall be taken within the next succeeding twelve months. Allowable vacation shall consist of one calendar month, unless otherwise specified. Vacations taken during the holiday recesses, other than the actual holidays recognized by the University, shall be considered a part of the annual vacation allowance of one month. Holidays recognized by the University shall be New Year's, Memorial Day, Fourth of July, Labor Day, Thanksgiving, Christmas, and such other days as may be determined by the President of the University.
(d) Minimum salaries shall be determined by the Board of Trustees for the various ranks upon recommendation of the President of the University. The minimum for eleven months' service shall be approximately two-ninths greater than the minimum for the academic year.
(e) For purposes of determining compensation for services for periods less than the full academic year, the academic year shall be considered to include the period September 16 through June 15, with the exception of the University High School in Urbana-Champaign, where the academic year shall include the number of working days established to meet the requirements of
the Superintendent of Public Instruction of the State of Illinois. Appointments requiring services for one semester shall be considered to be for the period September 16 through January 31, or February 1 through June 15. Appointments requiring services for one quarter at the Chicago Professional Colleges shall be considered to include the dates indicated in the Professional Colleges calendar covering the stated quarter. Compensation for less than one semester, quarter, or term shall be computed on the basis of the percentage of the services rendered to the services required in the academic year.

(f) Members of the staff required to render services during the academic year may be employed in the Summer Session, or to perform research or other services during a period not exceeding two months, and receive, for each month of such service, additional compensation at the rate of one-ninth of the full time rate paid for services required during the preceding academic year. Such employment may be for longer periods during the summer only upon the advance approval of the Vice-President and Provost. Staff members required to render services for twelve months, with allowable vacation, shall not receive additional compensation for services rendered during the summer. For staff members rendering services partly on a twelve months' basis and partly on an academic year basis, this regulation applies only to the twelve months' portion.

(g) Full-time employees shall not receive compensation for services in excess of a normal schedule within the University except for a reasonable amount of instruction in the Division of University Extension or grading of special examinations (outside regular course work), all to be done on off-duty hours.

(h) Exceptions may be made to this rule only with advance approval of the President or of the Vice-President and Provost. These exceptions should be held to a minimum.

(i) All staff members rendering services on a twelve months' basis with allowable vacation shall be compensated in twelve equal monthly installments.

(j) Staff members with the rank of instructor or above rendering services during the academic year shall be compensated in twelve monthly installments or on a pro rata basis for shorter periods. Teaching assistants shall be compensated for each academic year of service in ten installments, of which the first and last shall be one-half installments and the other eight shall be full installments equal to one-ninth of the annual rate.

(k) In case of termination of service of members of the academic and administrative staff through death or resignation, the following rules shall govern the determination of salaries:

(1) Services required for twelve months, with allowable vacation:
   a) During the first year of service, salary payments shall stop on the date of termination of service.
   b) After one full year of service, a pro rata share of earned vacation shall be paid.

(2) Services required for the academic year: Total payments shall equal a percentage of the annual salary determined by the services rendered from September 16 to date of termination, in relation to the period from September 16 to June 15.

(l) Every person employed by the University shall execute and file with the University the following Employee Affidavit:
United States of America

State of Illinois

I, ________________, do swear (or affirm) that I am not a member of nor affiliated with the communist party and that I am not knowingly a member of nor knowingly affiliated with any organization which advocates the overthrow or destruction of the Constitutional form of the government of the United States or of the State of Illinois, by force, violence or other unlawful means.

(m) All employees of the University, unless excepted by the President, are required to take a physical examination, in a form prescribed by the Director of the University Health Services, upon entering the service of the University. Employees securing a rating of "Unemployable" may not be employed, except on approval of the President. As deemed necessary by the Director of the Health Services, new employees are required to be immunized against communicable diseases. Employees of the University whose duties require them to handle food products shall be subject to periodic medical examinations, given under the supervision of the Director of the Health Services, and no individual shall be employed in duties of this nature who shows evidence of any communicable disease.

(n) Failure on the part of an employee to take any required physical examination, after being notified to appear for same, shall serve to make the University employment contract inoperative and salary payments shall cease.

(o) The following schedule covers the amount of work the assistants of different grades of pay give the University and the amount of graduate work to be allowed. In special circumstances, a limited amount of graduate work in excess of the amount shown may be approved by the Dean of the Graduate College.

TERMS OF EMPLOYMENT OF NONACADEMIC EMPLOYEES

Sec. 27. (a) All employment of nonacademic staff members is controlled by the law and the rules governing the University Civil Service System of Illinois. These include provisions for employment on merit through a system of examinations, the establishment of job classifications and the assignment to such classifications of all positions, and the establishment of appropriate
salary ranges for each classification. The employment of all new members of the staff and any changes in status of present members are processed through the Office of Nonacademic Personnel. Promotions either through salary increases or through changes in classification are processed through the same channels. All pay rates are subject to approval of that office. Transfers between departments should not be proposed or agreed to until they have been approved by the Personnel Office.

(b) Detailed rules and regulations are published separately in the Policy and Rules Relating to Compensation and Working Conditions, authorized and approved by the Board of Trustees.

WAGES OF STUDENT ASSISTANTS

Sec. 28. All student employees are to be paid on the basis of a classification and scale of wages of student assistants approved by the President of the University. For current schedule of wages see The Business Policy and Procedure Manual.

RETIREMENT, DEATH, SURVIVOR, AND DISABILITY BENEFITS

Sec. 29. (a) General. University policy provides for the payment of salary in case of illness or other disability for specified periods as described below. In addition to the benefits provided by the University, a system of retirement, death, survivor, and disability benefits was established by a special act of the General Assembly, approved July 21, 1941, and subsequently amended, known as the University Retirement System of Illinois, a state agency separate and distinct from the University of Illinois.

In accordance with policies adopted by the Board of Trustees on December 13, 1925, and as subsequently amended, a program of retiring allowances and death benefits is provided for the faculty, administrative, and mechanical staff retiring between September 1, 1925, and September 1, 1941, the date the University Retirement System became effective.

(b) Participation in University Retirement System. A deduction is made from the salaries or wages of all employees who are participants in the retirement system, as defined by law.

(c) Disability Benefits. The University of Illinois provides disability benefits as follows:

(1) Nonacademic Employees. For disability from any cause, each employee shall accumulate without limit disability leave with full pay at the rate of one working day for each month of service.

(2) Academic or Administrative Staff. Noncumulative leave is granted with full pay for disability in each year of service, including the first, of fifteen calendar days. In addition, a staff member is eligible for extended disability leave of ten calendar days with full pay for each year of service, the unused portion of which is cumulative in any year to a maximum of sixty days.

Subject to the approval of the President, a member who has completed at least three full years of service may be granted a disability leave with full pay for a period (including the annual and extended leaves described above) not to exceed one-half of his appointment year.

No deduction of time from the annual leave or the extended leave is made if the member is ill or disabled at a time when he is not expected to furnish regular service to the University.
After the disability benefits described above have been exhausted, a member may be granted a disability leave without pay from the University. If such a member is a participant in the University Retirement System of Illinois, he may apply for the benefits to which he is entitled under that system.

(d) **Death, Disability, and Survivor Benefits.** For employees of the University, other than students paid on an hourly basis and personnel whose principal employment is outside the University, with at least six months' service, who are not participants in the University Retirement System or any other publicly supported retirement system which pays a death benefit, a death benefit of $500 is payable by the University. For employees who are participants in the University Retirement System, death, disability, and survivor benefits are provided by that system.

**REGISTRATION OF STAFF MEMBERS IN UNIVERSITY CLASSES**

Sec. 30. (a) Persons on the academic, administrative, or permanent nonacademic staff of the University, or on the staffs of the allied surveys and laboratories located on the Urbana-Champaign campus, may register in University courses for which they are eligible for admission, without payment of the tuition fee and the laboratory, library, and supply fee, provided that their annual salary for nine months is less than the minimum salary for such period established for full-time assistants.

(b) For persons on other than a nine months' appointment, the exemption limit shall be adjusted proportionately, and if for periods of less than nine months, the exemption shall apply if compensation is less than the rate paid to full-time assistants at the minimum salary.

(c) Permanent nonacademic employees without regard to salary may also register without payment of any fees or deposits in:

(1) Any regular University courses in which the employee is requested by his department, with the concurrence of the Director of Nonacademic Personnel, to enroll for the improvement of the employee's present work.

(2) Any special course looking toward improving University service organized at the request of the Director of Nonacademic Personnel in cooperation with the teaching staff, the employee, and his department.

(d) The exemption from fees, as provided above, shall apply to graduate scholars and fellows whose stipends are paid from general appropriations of the University, but not to fellows whose stipends are paid from grants or contract funds received by the University from outside sponsors of graduate study and research.

(e) Persons on appointment for a first and second semester or a second semester who are exempt from payment of fees for courses in which they are registered during the period of their appointment are exempt also from payment of fees for courses in which they enroll in the Summer Session immediately following termination of their appointments, regardless of whether or not they are teaching in that Summer Session.

V. **GENERAL PROVISIONS**

**ADMINISTRATIVE COMMITTEES**

Sec. 31. The President of the University is authorized to appoint such administrative and other committees or boards as are necessary to assist him
in discharging his duties as the official adviser to and executive agent of the Board of Trustees.

**ADVISORY COMMITTEES**

Sec. 32. The President of the University may recommend to the Board of Trustees the appointment of consultative committees to advise the colleges and schools and other divisions of the University.

**AUTOMOBILE PARKING AND TRAFFIC**

Sec. 33. The President of the University is given authority to make such traffic and parking regulations and such changes therein as conditions from time to time may warrant.

**REIMBURSEMENT FOR TRAVEL**

Sec. 34. The University shall reimburse for actual and necessary expense of travel on University business for which proper approval has been obtained.

The regulations concerning travel, including convention travel, are published in *The Business Policy and Procedure Manual*.

APPOINTMENTS TO THE UNIVERSITY OF ILLINOIS CITIZENS COMMITTEE AND ITS EXECUTIVE COMMITTEE

(2) Appointments to the University of Illinois Citizens Committee are made by the Board of Trustees upon the recommendation of the President of the University. I submit the following:

1. Nominations for new appointments for a period of three years from January 1, 1958. These have previously been submitted to the Executive Committee of the Board.

2. Nominations for reappointments for a period of three years from January 1, 1958, of a number of members whose terms have expired.

In support of this nomination, I submit the report of the Urbana Senate Committee on Honorary Degrees recommending the award. A copy of this report is being filed with the Secretary of the Board for record.

I concur in the recommendation of the Senate.

On motion of Mrs. Holt, this recommendation was approved.

APPROPRIATIONS FOR GRADUATE FELLOWSHIPS FOR 1958-59

(8) On request of the Dean of the Graduate College, and with the concurrence of the Vice-President and Provost, I recommend that an appropriation of $228,000 be made for stipends for graduate fellowships for the year 1958-59, $210,000 to be allocated for fellowship awards at Urbana-Champaign and $18,000 for fellowships at the Chicago Professional Colleges. The amounts are the same as those for the current academic year. Funds are available in the operating budget for the current biennium.

On motion of Mr. Bissell, this appropriation was made by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton.

APPROPRIATION AND CONTRACT FOR INSTALLATION OF DATA-PROCESSING MACHINE

(9) The University has recognized the need for additional high-speed electronic equipment for data processing for educational, research, and service programs, including use by the Business Office, Admissions and Records Office, and other administrative departments. The Illiac, already operating twenty-four hours a day, is not suitable for all forms of data processing. Statistical and business problems which deal with large masses of data and permanent records require the high-speed equipment now available commercially. The International Business Machines Corporation has offered the University a "701" machine with certain auxiliary equipment at a yearly rental of about $100,000, which is 40 per cent of the regular amount charged. The machine can be installed in space made available in the Engineering Research Laboratory when the research group now using this space moves into the new Digital Computer Building. The cost of the installation is estimated to be about $60,000.

The Dean of the Graduate College, the Vice-President and Provost, and the Vice-President and Comptroller recommend the installation of IBM 701 equipment. The Committee on Nonrecurring Appropriations recommends an appropriation of $60,000 for this purpose.

I concur and recommend that the Comptroller be authorized to execute the rental contracts with the International Business Machines Corporation and that a nonrecurring appropriation of $60,000 be made from the General Reserve. Provision for the rental and service charges will be made in the annual operating budgets. This is not a continuing commitment of $100,000 of new funds as the departments which will use the equipment have been using other rented equipment which will be returned and the funds expended heretofore on data processing will be available for the rental and operation of the new IBM equipment. However, there will be some overlap and it is estimated that a nonrecurring appropriation, not to exceed $70,000, will be required for the fiscal year 1958-59 during the change-over from the present equipment and operations to the new system.

Dean Frederick T. Wall of the Graduate College made a statement in support of this recommendation.

On motion of Mr. Williamson, this contract was authorized, and an appropriation of $60,000 was made from the General Reserve Fund by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton.

AGREEMENT WITH ILLINOIS YOUTH COMMISSION FOR ESTABLISHMENT OF BOYS' CAMP AT DIXON SPRINGS AND APPROPRIATION FOR ADDITIONAL FACILITIES

(10) The Illinois Youth Commission has requested the University to enter into an agreement for the establishment and operation of a boys' camp at the Dixon
Springs Experiment Station as a part of the Commission's rehabilitation program for delinquent youths referred to it by the courts. The Commission has several camps under the control and supervision of its staff.

In 1953, a camp was established at Dixon Springs State Park, and the youths on several occasions performed some services at the Dixon Springs Experiment Station without cost to the University. This arrangement proved satisfactory, and on April 15, 1955, the Board appropriated funds for construction of a barracks at the Station so that groups of sixteen to twenty boys could be regularly assigned there.

Because of legal problems involved, it has taken considerable time to work out a formal agreement, but one has now been prepared which provides reasonable protection for the University and is satisfactory to the Legal Counsel, to the Director of the Agricultural Experimental Station, and to the Illinois Youth Commission.

In addition to aiding the rehabilitation program, in itself a worthwhile public service, the University receives for its services a considerable amount of labor.

It is desirable to construct an addition to the barracks to increase the accommodations of the camp to thirty boys. Some minor renovations in the present building, a central heating system, and a well are also needed. The estimated cost of these improvements is $6,250.

The University's obligation is to furnish quarters, including utilities, for the supervisor and for not more than thirty wards in the existing barracks building, a house (already on the grounds) for other employees of the Commission, and to provide the wards an informational lecture or tour of approximately one hour each week.

The Director of the Agricultural Experimental Station, the Vice-President and Comptroller, the Vice-President and Provost, and the Legal Counsel recommend that an agreement be entered into with the Illinois Youth Commission for the establishment and maintenance of a rehabilitation camp at the Dixon Springs Experiment Station and that an appropriation of $6,250 be made from the General Reserve Fund for camp improvements.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the agreement.

On motion of Mrs. Holt, this agreement was authorized, and the recommended appropriation of $6,250 was made from the General Reserve Fund by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton.

CONTRACT WITH UNITED STATES NAVY FOR RESEARCH IN NUCLEAR PHYSICS

(II) Since March 1, 1946, the Office of Naval Research of the Department of the Navy has been supporting basic research in nuclear physics at the University of Illinois. As of December 31, 1958, the Navy Department will have paid the University $5,141,936 for the direct and indirect costs of this program.

The Office of Naval Research desires to continue the program through December 31, 1959, and has indicated that $569,000 will be made available for this additional year. The Navy has requested the University to submit a proposal for the extension of this contract and to indicate if additional funds are needed to expand the research program, including funds required for nonrecurring expenditures. The latter would be for equipment and renovation of the Betatron to increase energy output.

The Department of Physics recommends that the University request $1,157,125 for this program during the calendar year 1959; of this amount $588,125 would be requested for expansion of the research work and nonrecurring expenditures. The University has no assurance that the additional amount will be made available, but the Department is prepared to accept and use these funds.

The Dean of the College of Engineering, the Chairman of the University Research Board, the Vice-President and Provost, and the Vice-President and Comptroller recommend that a proposal for continuation of the research program
during the calendar year 1959 and for additional funds for expansion of the research be submitted to the Office of Naval Research.

I concur.

On motion of Mr. Swain, this recommendation was approved.

**CONTRACT TO SUPPLY STEAM SERVICE TO PRESBYTERIAN-ST. LUKE'S HOSPITAL**

(12) The steam for University of Illinois buildings in the Medical Center District is produced by the Medical Center Steam Company, a separate corporation authorized by the Medical Center Commission to operate a steam plant in the District to serve the University and other institutions in that area. Under an agreement with the Commission (this was one of the basic considerations in securing its cooperation in the organization of the Medical Center Steam Company and authorization to operate a steam plant in the Medical Center District), the University also furnishes steam produced by the Company to any other government agency, charitable institution, or other institution located in the District upon its application and upon certification by the Commission that the agency or institution is a qualified applicant for steam service, subject to the availability of an adequate steam supply.

Officials of Presbyterian-St. Luke's Hospital desire to contract with the University for steam service for the new Presbyterian-St. Luke's Hospital buildings in the Medical Center District. The Board of Trustees Committee on Buildings and Grounds received a preliminary report on this proposal on November 21, 1957, and authorized the Vice-President and Comptroller to conclude negotiations with Presbyterian-St. Luke's Hospital, the terms of the contract to be subject to final approval by the Board of Trustees.

The University has, since the Medical Center Steam Company Plant was placed in operation, accepted other organizations in the Medical Center District as users of steam. The total demand from such users, other than the University, as for a maximum of 88,300 pounds of steam an hour. This, plus the University's needs of 88,200 pounds an hour, represents a total demand of 176,500 pounds an hour; the present firm capacity of the plant is 180,000 pounds an hour.

The needs of Presbyterian-St. Luke's Hospital for its new building now under construction are 85,000 pounds an hour; hence to supply the steam needed will require an addition to the steam plant by the installation of a new boiler with a capacity of perhaps 90,000 pounds an hour.

The Director of the Physical Plant Department and the Vice-President and Comptroller recommend that the University enter into an agreement with Presbyterian-St. Luke's Hospital to furnish the steam requested according to the following plan and terms:

1. The University will request the Medical Center Steam Company to add to its steam plant a new boiler, having a capacity of approximately 90,000 pounds of steam an hour, at an estimated cost of $1,250,000.

2. Presbyterian-St. Luke's Hospital will pay the Steam Company, through the University, over a period of time from the effective date of the contract to July 1, 1981, a proportionate share of the cost of the addition of the boiler to the steam plant, together with a proportionate share of the cost of financing the addition to the plant and any other indirect costs to the Medical Center Steam Company occasioned by the addition. Based on estimates that the additional boiler will produce 90,000 pounds of steam an hour, whereas Presbyterian-St. Luke's demand for steam will be 85,000 pounds an hour, the proportionate share of the cost to be borne by Presbyterian-St. Luke's will be 85/90 of the costs occasioned by the addition of the boiler.

3. Presbyterian-St. Luke's Hospital will pay for the construction of the necessary addition to the distribution system, estimated to cost $400,000. Upon completion of the necessary addition to the distribution line, which will be constructed in accordance with specifications approved by the University, title to the addition to the distribution system will be conveyed to the Medical Center Steam Company by Presbyterian-St. Luke's Hospital, and the Medical Center Steam Company will issue its notes in payment for the distribution system.

4. Presbyterian-St. Luke's Hospital, over a period of time from the effective date of the contract to July 1, 1981, will pay to the Medical Center Steam Company,
through the University, the entire cost of the addition to the distribution system, plus any investment charges and other indirect costs incurred by the Steam Company as a result of the addition to the distribution system.

5. The University will furnish steam as needed by Presbyterian-St. Luke's Hospital not to exceed 85,000 pounds an hour.

6. Steam supplied to Presbyterian-St. Luke's Hospital will be on a metered basis, in the same way as to other consumers of steam from the plant. Presbyterian-St. Luke's will be billed by the University monthly for the cost of steam produced, such costs to be determined by the formula used in contracts with other consumers. To this steam cost, the University will add an overhead charge: first $50,000 of steam cost billings in one year, 10 per cent; next $50,000 of steam cost billings in the same year, 7½ per cent; and 5 per cent of all steam cost billings in excess of $100,000 in the same year.

The Vice-President in charge of the Chicago Professional Colleges joins in this recommendation.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute a contract with Presbyterian-St. Luke's Hospital drawn up in accordance with the above terms and provisions.

On motion of Mrs. Watkins, this recommendation was approved, and the Comptroller and the Secretary of the Board were authorized to execute the contract.

ARBITRATION TO DETERMINE LABORER-ELECTRICIAN WAGE RATE

(13) Negotiations with University of Illinois Local 698, State, County, and Municipal Employees Union, to determine an appropriate wage rate for University laborer-electricians, to be effective as of July 1, 1957, having been carried on for several months without resulting in a settlement, it has now been proposed by the Director of Nonacademic Personnel and the Union: that the issue be submitted to final and binding arbitration, the arbitrator to be chosen jointly from a list of names supplied by either the Federal Mediation and Conciliation Service or the American Arbitration Association; that a hearing be held within thirty days; that both parties agree to be bound by the decision; and that the fee and expenses of the arbitrator be shared equally by both parties.

It is also proposed that the following questions be submitted to the arbitrator for decision on the basis of information to be supplied by both parties:

1. Shall the laborer-electricians receive an adjustment of twenty cents an hour effective July 1, 1957, and twelve cents an hour effective July 1, 1958, as advocated by the Union?

2. Shall the laborer-electricians receive an adjustment of seven and one-half cents an hour effective July 1, 1957, and five cents an hour effective July 1, 1958, as advocated by the employer?

3. Shall the laborer-electricians receive an adjustment effective July 1, 1957, and an adjustment effective July 1, 1958, that falls between the adjustments proposed in (1) and (2) in an amount to be determined by the arbitrator?

It is further proposed that pending a decision, laborer-electricians shall receive an increase of seven and one-half cents an hour now, retroactive to July 1, 1957, and shall receive the difference, effective July 1, 1957, if the arbitrator makes a further award.

Normally, the University prefers negotiation rather than arbitration as a means of settling wage rates, because the University must be governed by funds available, by commitments to other groups, and by rates prevailing elsewhere in the community. In this particular case, the employee group is small (presently fourteen), funds are available to provide for the requested increase if it is found equitable, and the University should not appear unyielding on an issue where the difference lends itself to the informed judgment of a third party. Hence, I recommend that the Board of Trustees authorize these proceedings and accept the findings, not as a precedent but in recognition of the circumstances which set this case apart from the usual categories of wage rate negotiations and justify such special consideration.

On motion of Mr. Johnston, this recommendation was approved.
LOEB CARDIOVASCULAR RESEARCH FUND

(14) The University has received from Mr. Allan M. Loeb, 332 South Michigan Avenue, Chicago, eighty shares of Sears, Roebuck and Company common stock to be sold and the proceeds used for the research work of Dr. Ormand C. Julian, Associate Professor of Surgery, on cardiovascular diseases. The Vice-President in charge of the Chicago Professional Colleges, acting for the President of the University, has accepted this grant and I concur.

The Vice-President and Comptroller requests authorization to sell the stock. I concur and recommend adoption of the following resolution with the provision that this authorization be exercised by the Vice-President and Comptroller at his discretion when the funds are needed and market conditions are favorable for the sale of the stock.

WHEREAS, the Board of Trustees of the University of Illinois is the owner of eighty shares of Sears, Roebuck and Company common stock, and

WHEREAS, it is the decision of said Board of Trustees to sell and dispose of the stock,

Now, Therefore, Be It Resolved that this sale be completed and that A. J. Janata, Secretary, and H. O. Farber, Comptroller, be authorized to execute all documents necessary to accomplish this.

On motion of Mrs. Watkins, the foregoing resolution was adopted.

**ENGINEERING SERVICES FOR RADAR ANTENNA TOWER FOR CONTROL SYSTEMS LABORATORY**

(17) The Control Systems Laboratory has received a large radar antenna for use in its research work which the laboratory wishes to have installed approximately one hundred feet above the ground adjacent to the Engineering Research Laboratory. The Director of the Physical Plant and the Vice-President and Comptroller recommend employment of A. Epstein and Sons, Inc., Chicago, for the design of a tower for the antenna and other necessary engineering services preliminary to the actual construction work, at a fee of $3,200. The total construction cost is estimated at $35,000.

I concur and recommend that the Comptroller be authorized to execute a change in the existing contract with A. Epstein and Sons, Inc., covering engineering services on the Digital Computer Laboratory, to include the work on the antenna tower.

On motion of Mr. Bissell, this recommendation was approved.

**REPORT OF EXECUTIVE COMMITTEE ON CONTRACT FOR CLASSROOM ADDITION TO EAST DENTISTRY-MEDICINE-PHARMACY BUILDING**

Mr. Johnston, for the Executive Committee, presented the following report.

The Board of Trustees at its meeting on November 21, 1957, referred to the Executive Committee, with power to act, the bids received for the construction of a classroom addition to the East Dentistry-Medicine-Pharmacy Building in Chicago.

After securing all necessary information, the Executive Committee found that the Carroll Construction Company, Chicago, Illinois, is the lowest responsible bidder on this project and the Committee has awarded a contract for $212,975 to
this Company for the construction. The base bid of the Carroll Construction Company is $217,475, but provides for a deduction of $4,500 for omission of stairways. The Executive Committee has approved acceptance of this alternate since construction of the stairways shown in the working drawings and specified in the bid documents is not essential at this time and can be deferred until additional stories are built.

This report was received for record.

EXCHANGE OF PROFESSORS

(3) The University of Illinois Statutes provide that on recommendation of the head or chairman of a department and with the approval of all recommending officers and the Board of Trustees a member of the faculty of professional rank may be permitted for a period of one year or one semester to exchange his position with a professor of approximately equal rank in another university provided the exchange does not involve substantial increase in the cost of instruction.

Professor Lee S. Hultén, Department of Speech, wishes to exchange his position with Mrs. Elizabeth T. Uldall, Lecturer in the Phonetics Department at the University of Edinburgh, Scotland, for the academic year 1958-59. Both have approximately the same background of professional training and experience and are teaching the same types of courses. The exchange will be stimulating and profitable to both individuals and to the departments concerned. It will involve no additional expense to the University.
I have authorized this exchange, with the understanding that the details will be subject to approval by the President of the University when arrangements have been completed, and request confirmation of my action.

On motion of Mr. Nickell, the action of the President was confirmed.

ARCHITECTURAL SERVICES ON UNIVERSITY BUILDINGS

(4) The Director of the Physical Plant Department and the Vice-President and Comptroller, after consultation with the University committee, recommend employment of architects on new University buildings as follows:

Addition to the Illini Union Building, Jameson and Harrison, Peoria, for all architectural and engineering services, other than the design, and including preparation of working drawings and specifications, at a fee of 4.7 per cent of actual construction costs. The Board of Trustees has previously employed the firm of Eggers and Higgins of New York, and Mr. Howard L. Cheney, Chicago, as Consulting Architect, for the design services, with the understanding that another firm would be employed on the remaining services of architectural and engineering work. Eggers and Higgins will be paid a fee of 1.3 per cent.

Health Services Building—Addition to McKinley Hospital. The firm of Smith, Kratz, and Associates of Urbana, for complete architectural services at the standard fee of 6 per cent of construction costs.

Submitted herewith is a statement concerning the qualifications of these firms and the considerations which led to their selection. A copy of it is being filed with the Secretary of the Board for record.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute contracts on the terms specified with these firms. The Committee on Buildings and Grounds has also considered these recommendations and approves.

On motion of Mr. Nickell, these contracts were awarded, as recommended, and the Comptroller and the Secretary of the Board were authorized to execute the same.

APPROPRIATION BY ATHLETIC ASSOCIATION

(5) The Board of Directors of the Athletic Association has approved an appropriation of $3,500 for the spring baseball trip to Tempe, Arizona. This appropriation is submitted for confirmation.

On motion of Mr. Swain, this action was confirmed.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(6) The Committee on Nonrecurring Appropriations recommends assignments of funds from the General Reserve for the following purposes:

1. Department of Electrical Engineering, equipment and facilities for Bioacoustics Laboratory ............................................................. $20,000
2. Department of Chemistry and Chemical Engineering, installation of fire stairs and partitions in the Chemistry Annex ................................... 10,000

Total .................................................................................................. $30,000

I concur.

On motion of Mr. Williamson, these appropriations were made by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins.

APPROPRIATION FOR LEGAL SERVICES OF SPECIAL COUNSEL

(7) The Legal Counsel has requested an appropriation of funds to pay for the services of special counsel and other legal expenses as follows:

Thompson, Raymond, Mayer, Jenner, and Bloomstein, 135 South LaSalle Street, Chicago 3, Illinois
For legal services as special counsel for the University in defending three suits instituted by Mrs. Mary L. Bentley, formerly employed as a nurse in the Research and Educational Hospitals, against: (a) Dr. Donald J. Caseley, Medical Director of the Research and Educational Hospitals, and Mr. Paul Hartley, formerly Associate Director of Nonacademic Personnel; (b) Dr. Joseph B. Teton, formerly Gynecologist in the Health Service at the Chicago Professional Colleges (and still a member of the faculty as a Clinical Assistant Professor); and (c) a suit for judicial review of the action of the Merit Board of the University Civil Service System of Illinois in finding her guilty of charges preferred against her by the University in ordering her discharge from employment.... $15,400.00

Reimbursement for advances and expenses paid by that firm on behalf of the University........................................... 202.66

Total...................................................................... $15,602.66

Mr. Albert E. Jenner and Mr. Prentice H. Marshall of the law firm assisted the Legal Counsel in all of this litigation and other members of the firm participated in portions of it.

The firm has submitted detailed statements of its services in this litigation covering a period of more than two years, October, 1955, to December, 1957, and an itemized statement of its expenses. These have been examined and approved by the Legal Counsel.

Chapman and Cutler, 111 West Monroe Street, Chicago

For legal services to assist the Legal Counsel in defending a suit instituted in the Superior Court of Cook County in March, 1954, which suit is still pending, by Continental Builders, Inc., seeking to recover a $10,000 bid deposit made in connection with its bid on the construction of the Small Homes Council Housing Project in 1949 and seeking recovery of alleged damages....................... $2,200.00

Reimbursement for advances and expenses paid by that firm on behalf of the University........................................... 45.05

Total...................................................................... $2,245.05

Continental Builders, Inc., was the lowest bidder on construction of thirty staff houses in the area south of Florida Avenue and immediately west of Race Street and a contract was issued, but Continental Builders, Inc., was unable to furnish a satisfactory performance bond within the time required. The University was thus compelled to secure new bids, as a consequence of which the project cost more than it would have if Continental Builders, Inc., had performed. The University retained the $10,000 bid deposit. Continental Builders, Inc., now sues to recover the amount of the deposit plus the expenses it alleges it incurred in preparing to do the work under the contract before the award was rescinded and also for the profit the plaintiff alleges would have been realized had it been permitted to go ahead with the contract. These items aggregate $70,000, the sum sued for, plus court costs.

The firm has submitted a detailed statement of its services in this litigation and an itemized statement of its expenses. These have been examined and approved by the Legal Counsel.

I recommend that these payments be authorized and that an appropriation of $17,847.71 be made from the General Reserve Fund for this purpose.

On motion of Mr. Swain, these payments were authorized, and an appropriation of $17,847.71 was made from the General Reserve Fund for this purpose. This action was taken by the following vote: Aye. Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins.
AIRPORT ADMINISTRATION BUILDING AND CONTROL TOWER

(8) The Seventieth General Assembly of Illinois appropriated $160,000 to the Department of Aeronautics of Illinois for the construction of an administration building, control tower, and necessary utilities at the University of Illinois Airport. The total project is estimated to cost $336,000. The Federal Civil Aeronautics Administration will provide one-half of this on approval of an application from the University. The remaining $8,000, which is a contingency item in the estimates of the project cost and therefore may not be needed, can be provided from the Airport Revolving Account.

The Director of the Institute of Aviation and the Vice-President and Comptroller recommend that the Board authorize the filing of an application for the federal funds and the execution of an Agency and Participation Agreement with the Department of Aeronautics which will set forth the respective responsibilities of the University and the Department and which is necessary to comply with the state and federal laws to secure allocations of funds. The University will award the contracts and supervise the construction. The Director of Aeronautics will provide the $160,000 of state funds, will disburse the federal funds, and will have the responsibility for compliance with state and federal requirements and for general policy supervision.

As reported to the Board of Trustees (minutes of October 29, 1957, page 948), the University is providing all architectural services. The Department of Aeronautics will reimburse the University for the actual architectural costs plus overhead not to exceed 60 per cent of costs.

The Director of the Institute of Aviation and the Vice-President and Comptroller recommend that the Secretary and the Comptroller of the Board be authorized to execute a project application to the Federal Civil Aeronautics Administration, an Agency and Participation Agreement with the Department of Aeronautics of the state of Illinois, and an agreement with the Department of Aeronautics for the architectural services.

I concur.

On motion of Mrs. Holt, these recommendations were approved, and the Comptroller and the Secretary of the Board were authorized to execute the documents specified. This action was taken by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins; Mr. Johnston voted "present."

CONTRACT FOR REMODELING IN RESEARCH AND EDUCATIONAL HOSPITALS

(9) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend award of a contract for $295,078 to Russell Mansfield, Chicago, Illinois, for the remodeling, including all phases of the general work and the mechanical trades, of the third and fourth floors of the general building of the Research and Educational Hospitals.

The alterations will consist of rearrangement of partitions, installation of air conditioning, installation of laboratory furniture and X-ray equipment, improvements in lighting, and addition of the necessary utilities.

Funds are not presently available for all of the remodeling planned, hence bids were taken on the minimum work desired plus alternates for additional alterations, the University reserving the right to accept or reject any or all. Submitted herewith are a schedule of all bids received and a memorandum explaining the alternates; copies are being filed with the Secretary of the Board for record.

It is recommended that the work covered by the base bid of $257,978 and two of the alternates, Nos. 1 and 5, in the amounts of $32,750 and $3,350 respectively, be contracted for at this time. Alternate 5 provides for alterations in a corridor which are necessary if any of the remodeling covered by alternate 1 is done. When additional funds become available, recommendations will be made for the award of a contract, or an increase in the contract now being recommended, for the work being omitted at this time. Russell Mansfield is the lowest bidder on the total project and on all phases of the work covered by this contract.
Funds are available in the state capital appropriations for 1957-59, subject to release by the Governor.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract, subject to release of funds.

On motion of Mr. Nickell, this contract was awarded, as recommended, and the Comptroller and the Secretary of the Board were authorized to execute the same. This action was taken by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins.

**CONTRACT FOR CONSTRUCTION OF PHYSICS BUILDING**

(10) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend award of a contract for $1,436,400 to Mayfair Construction Company, Chicago, Illinois, for the construction of the first unit of a new Physics Building. This contract will be for all construction work, including the mechanical trades.

In response to advertisements and other notices, nine bids were received on February 4, 1958. Instructions to bidders called for a base bid and a series of alternates, the University reserving the right to accept or reject any or all. The base bid and alternates submitted by Mayfair Construction Company recommended for acceptance are:

<table>
<thead>
<tr>
<th>Base bid</th>
<th>$1,408,800</th>
</tr>
</thead>
<tbody>
<tr>
<td>Additive alternates</td>
<td></td>
</tr>
<tr>
<td>Additional foundation piling west of the building</td>
<td>10</td>
</tr>
<tr>
<td>Installation of additional shelving in offices</td>
<td>4</td>
</tr>
<tr>
<td>Metal acoustical treatment in corridors</td>
<td>11</td>
</tr>
<tr>
<td>Anemostat mixing boxes for future air conditioning installation</td>
<td>1</td>
</tr>
<tr>
<td>Total</td>
<td>$1,436,400</td>
</tr>
</tbody>
</table>

The additional piling is recommended as a protection against damage to this first unit through driving of foundation piling for the adjoining second unit of the building when the latter is constructed. The other alternates are recommended as highly desirable accessories since the base bid allows sufficient funds for these provisions.

Funds are available in the state capital appropriations for 1957-59, subject to release by the Governor. The contract price is well within budget estimates for building construction.

A base bid, lower by $185,600, was submitted by Hudson Construction Company, Inc., Rantoul, Illinois, but its officers promptly reported that a basic error was made in estimating and preparation of the bid and requested permission to withdraw it. The Legal Counsel has advised that when a basic, unintentional error has been committed by a bidder—which has been verified in this case—the University may properly permit the bid to be withdrawn and return the bid deposit. The Director of the Physical Plant Department and the Vice-President and Comptroller recommend that the request of the Hudson Construction Company, Inc., be granted, including return of its deposit, and that Mayfair Construction Company be declared the lowest bidder.

Submitted herewith is a schedule of all bids received, with a report on this matter from the Director of the Physical Plant Department; copies are being filed with the Secretary of the Board for record.

I concur in the above recommendations and request that the Comptroller and the Secretary of the Board be authorized to execute the contracts subject to the release of funds.

On motion of Mr. Williamson, this contract was awarded, as recommended and the Comptroller and the Secretary of the Board were authorized to execute the same. This action was taken by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins.
EASEMENT ON UNIVERSITY PROPERTY ON ILLINOIS STREET

In purchasing the property on the south side of Illinois Street, between Mathews and Goodwin Avenues, the University acquired one-half of a row of twelve garages which, prior to University acquisition, had been constructed by a former owner and the owner of an adjoining property as a joint venture. It was obviously intended that the midpoint of this row of garages would be on the line between the two properties but when the sixth garage on University land was removed to clear the land for expansion and a parking area it was found that the midpoint of the row of garages was approximately twenty inches over on University-owned land. In removing the garages it was the University's obligation to close off the end of the six remaining units on the adjoining property. If the garages had been cut off exactly on the property line, the cost to the University of closing the end of the remaining units would have been greater since new doors would have been required; moreover, the garage unit affected would have been decreased in width and rendered unusable. The practical solution is to permit that part of the garage unit now on University land to remain until the owner removes the building. The University has no immediate need for this very small area of ground and its occupancy by the garage will not interfere with utilization of the adjoining area as a parking lot for the Biology Building across the street.

The Director of the Physical Plant Department, the Vice-President and Comptroller, and the Legal Counsel recommend that the University grant an easement to Rachel M. Simpson, Collett E. Woolman, Barbara Preston, Martha Taylor, and Margaret Ann Murphy, the adjoining property owners, for the portion of the University property on which the garage encroaches, such easement to automatically terminate whenever the garage building is destroyed or removed. The University shall have the right to terminate the easement upon six months' written notice after twenty years.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the easement.

On motion of Mr. Bissell, this recommendation was approved, and the Comptroller and the Secretary of the Board were authorized to execute the necessary documents. This action was taken by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins.

CONDEMNATION OF PROPERTY AT 1010 WEST ILLINOIS STREET, URBANA, ILLINOIS

The University now owns considerable property lying between Green Street and Illinois Street in the 1000 block of West Green and Illinois Streets which will be needed as the site for Single Men's Dormitory Unit No. 4. The property located at 1010 West Illinois Street is being purchased by Elizabeth I. Keener under contract of sale and is needed as an additional property to the site for Single Men's Dormitory Unit No. 4.

The property at 1010 West Illinois Street is owned by the Ada Lee Parker estate, an estate in probate in the County Court of Champaign County, Illinois. Prior to the death of Miss Parker, her conservator had sold the property on contract to Mrs. Elizabeth I. Keener, who is in possession of the property and who is paying the balance of the purchase price in monthly payments. The lot is improved with an old residence which has been converted to a student rooming house. Mrs. Keener occupies an apartment consisting of about three rooms on the first floor. The lot has a frontage of 62½ feet on Illinois Street and has a depth of 199.64 feet. University officers have negotiated with Mrs. Keener for the purchase of this property, the negotiations having covered several months time.

The University has had careful and detailed appraisals made of the property by six well-qualified real estate appraisers and has made an offer to purchase the property based on the values indicated in these appraisals. Several conferences have been held with Mrs. Keener in an attempt to arrive at the fair amount of compensation to be paid for the property. Mrs. Keener is willing to sell only at a price which the University officers deem decidedly exorbitant and excessive.
It therefore is necessary to request that the Board of Trustees authorize the University to resort to its right of eminent domain in order to acquire title to this property at a fair and reasonable price.

Accordingly, the Comptroller, the Director of the Physical Plant Department, and the Legal Counsel recommend the adoption of the following resolution:

**Resolution**

*It Is Hereby Resolved, Found, and Declared* by the Board of Trustees of the University of Illinois that the following described real estate, situated in the City of Urbana, County of Champaign, and State of Illinois, viz.:

Beginning at the Southwest Corner of Lot Two (2) in Block Three (3) of Burpee, Curtiss & Somers' Addition of Out Lots to Urbana, thence East on the North line of Illinois Street 63 ½ feet, thence North parallel to the West line of said Lot Two (2), 199.64 feet, thence West parallel with the South line of said Lot Two (2), 63 ½ feet to the West line of said Lot Two (2), thence South to the place of beginning,

is needed by the University of Illinois, an educational institution established and supported by the state of Illinois, as the site for a building needed and to be constructed by said University for educational purposes and to enable said University to discharge its duties to the people of said state and for public use; that funds available for the purchase of said land have been appropriated to the Board of Trustees of the University of Illinois by the General Assembly of the State of Illinois; that this Board of Trustees has negotiated with Elizabeth I. Keener, the owner and purchaser of said land, for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but she has refused to sell and convey the land to the Board of Trustees of the University of Illinois for such price and continues to refuse to sell and convey the same to it except for a consideration and price which this Board of Trustees deems excessive and exorbitant and is unwilling, and has refused to pay therefore; and

Keener and any and all other persons who may have right, title, or interest in and to said land therefor determined in the manner provided by law for the exercise of said right of eminent domain; and

*It Is Further Hereby Resolved* by this Board of Trustees that the necessary and appropriate action be taken for the acquisition of title to said property by said the Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction, and that the Legal Counsel of said University be, and he is hereby authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name of the Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor and to employ such special legal counsel and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Johnston, the foregoing resolution was adopted.

CONDEMNATION OF PROPERTY AT 1102 WEST ILLINOIS STREET, URBANA, ILLINOIS

(13) The University now owns considerable property between Green Street and Illinois Street in the 1000 block of Illinois Street which is the site for Single Men's Dormitory Unit No. 4. The University does not own the property at 1102 West Illinois Street, Urbana, Illinois.

This property is owned by the George K. Linton estate and the Havana National Bank of Havana, Illinois, Trustee under the will of George K. Linton, deceased, and is in charge of the estate property. The lot is improved with an old residence designed for single family dwelling and is occupied by Miss Ruth Linton, the daughter of George K. Linton, deceased, as her residence. It is not used commercially at this time. Miss Ruth Linton is an elderly lady who is entitled, pursuant to the will of her father, to occupy the residence rent free for the term of her natural life. The real estate has a frontage of approximately 74½ feet on Illinois Street and a depth of approximately 175 feet. All of the surrounding properties are rooming houses or family dwellings converted to apartments. The University has made an offer to purchase this property based on careful and detailed appraisals thereof and it is possible that an agreeable price can be reached for the purchase of this property. It is doubtful, however, whether the Havana National Bank, as Trustee, is authorized to sell and convey the property as long as Miss Ruth Linton wishes to occupy it as her dwelling and, therefore, it may be necessary that condemnation proceedings be instituted and carried through in order to acquire full legal title to the property, unless Miss Ruth Linton voluntarily acquiesces in the sale of the property to the University.

It therefore is necessary to request that the Board of Trustees of the University of Illinois authorize the University to resort to its right of eminent domain in order to acquire the rights of all persons entitled to the use and occupancy of the premises, and to acquire the title to this property at a fair and reasonable price.

Accordingly, the Comptroller, the Director of the Physical Plant Department, and the Legal Counsel recommend the adoption of the following resolution:

Resolution

It Is Hereby Resolved, Found, and Declared by the Board of Trustees of the University of Illinois that the following described real estate, situated in the City of Urbana, County of Champaign, and State of Illinois, viz.:

Beginning at a point 75 feet East of the Southwest Corner of Lot Nine (9) in Wm. M. Goodwin's Addition to Urbana, Illinois, thence East on the North line of Illinois Street 74½ feet to the Southeast Corner of said Lot Nine (9), thence North on the East line of said Lot Nine (9) a distance of 175 feet, thence West 74½ feet, thence South 175 feet to the place of beginning,

is needed by the University of Illinois, an educational institution established and supported by the state of Illinois, as the site for a building needed and to be constructed by said University for educational purposes and to enable said University to discharge its duties to the people of said state and for public use; the funds available for the purchase of said land have been appropriated to the Board of Trustees of the University of Illinois by the General Assembly of the State of Illinois; that this Board of Trustees have negotiated with the Havana National Bank, Trustee under the Will of George K. Linton, deceased, the owners of said land for the purchase of said land at a price which this Board of Trustees considers fair and reasonable and which it finds constitutes the present market value of said land, but Ruth Linton, having the right to use and occupy said premises, has refused to surrender her rights to the University, and therefore the Havana National Bank, as Trustee aforesaid, can not deliver a good and merchantable title to said real estate to the Board of Trustees of the University of Illinois for the purchase price offered; and
It Is Further Hereby Resolved, Found, and Declared by said the Board of Trustees of the University of Illinois that the compensation to be paid by it for said land can not be agreed upon between this Board of Trustees and the said the Havana National Bank, as Trustee aforesaid, and Ruth Linton and they and it are unable to agree upon the purchase price to be paid them for sale and conveyance by them thereof to said the Board of Trustees of the University of Illinois; and

It Is Further Hereby Resolved, Found, and Declared by this Board of Trustees of the University of Illinois that, because of said need of said University for said land for said purposes and because the compensation to be paid the said Havana National Bank, as Trustee aforesaid, as the owners thereof herein can not be agreed upon between them and this Board of Trustees, it is necessary for the Board of Trustees of the University of Illinois to take said land and acquire title thereto through the exercise by it of the right of eminent domain conferred upon it by law and to have the compensation to be paid by it to said the Havana National Bank, as Trustee aforesaid, and any and all other persons who may have right, title, or interest in and to said land therefor determined in the manner provided by law for the exercise of said right of eminent domain; and

It Is Further Hereby Resolved by this Board of Trustees that the necessary and appropriate action be taken for the acquisition of title to said property by said the Board of Trustees of the University of Illinois and to have the compensation to be paid therefor determined by the institution and prosecution to completion of a proceeding in eminent domain in a court of competent jurisdiction, and that the Legal Counsel of said University, be and he is hereby authorized to proceed accordingly, to institute and prosecute an eminent domain proceeding in the name of the Board of Trustees of the University of Illinois for the acquisition of said land and the determination of the compensation to be paid by it therefor, and to employ such special legal counsel and others as he may deem necessary or desirable to assist him in the institution and prosecution of said proceeding.

On motion of Mr. Johnston, the foregoing resolution was adopted by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins.

SETTLEMENT OF CLAIM OF DONALD IGLINSKI

14 On or about May 25, 1955, Donald Iglinski, a student in the College of Pharmacy, suffered injuries to his left wrist and hand when a glass carboy exploded while he was extracting glycerin from it to be used by him in assigned laboratory work. The carboy was equipped with a type of pump customarily used in laboratories by which air pressure is forced into the container through one tube, expelling the contents through another tube. A piece of the glass carboy struck Iglinski's left wrist, lacerating the flesh and partially dividing the median nerve to approximately one-third of its circumference. Iglinski also suffered minor surface face injuries. All wounds have healed, but he has suffered substantial impairment in use of the little finger and ring finger, and a numbness in the middle finger, of his left hand.

As a result of these injuries, Mr. Iglinski was unable to work during the summer of 1955 and investigation shows that he suffered a loss of wages in excess of $1,000 as an apprentice pharmacist.

Mr. Iglinski's testimony and the inferences drawn therefrom would be that the carboy cork was wired in, that students were instructed to hold the cork fast with one hand and operate the air pump with the other, that he followed instructions, that the glycerin was not extracted with sufficient speed to keep the air pressure in the carboy at a safe level, and that consequently it exploded. On the other hand, the laboratory assistant, who set up the equipment, would testify that the cork was not wired in, and that students were specifically instructed not to hold it fast so that it could work as a safety valve in case of excessive air pressure.

Mr. Iglinski will accept a firm offer of $2,000 to settle his claim against the University.

While the University could properly refuse to accept liability, it is the opinion of Mr. Prentice H. Marshall, Counsel for the University in this case, that there is sufficient doubt as to the verdict in the event of litigation to justify settlement and
he recommends acceptance of the offer of settlement. Mr. Palmberg, Senior Assistant to the University Legal Counsel, and the Vice-President in charge of the Chicago Professional Colleges, concur.

I also concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents to effect this settlement.

On motion of Mrs. Holt, this recommendation was approved, and the Comptroller and the Secretary of the Board were authorized to execute the necessary documents.

ILLINOIS YOUTH COMMISSION BOYS' CAMP AT DIXON SPRINGS

(15) In the consideration by the Board of Trustees at its meeting on January 16, 1958, of the agreement with the Illinois Youth Commission for the establishment and maintenance of a rehabilitation camp for boys at the Dixon Springs Experiment Station, a question was asked if there has been any evaluation of the success of this camp in rehabilitating boys sent to it by the Commission. There is submitted herewith, and a copy is being filed with the Secretary of the Board, a letter from the Chairman of the Illinois Youth Commission, in reply to an inquiry made by the Vice-President and Comptroller, which expresses the belief of the Commission that the camp at Dixon Springs has been valuable in the program of rehabilitating boys.

This report was received for record.

### QUARTERLY REPORT OF THE COMPTROLLER

(18) The Comptroller presents his quarterly report to the Board as of December 31, 1957. This report was received for record and a copy has been filed with the Secretary of the Board.

### PURCHASE OF FURNITURE FOR MEN’S RESIDENCE HALLS SM-2

(19) Bids have been taken on 1,569 desks, 1,269 single beds, and 123 double deck beds for installation in the new Men’s Residence Halls now under construction. Bidders were asked to submit bids on these bases: on University specification; on furniture of the manufacturer’s standard design and construction which would provide substantially the accommodations specified; and on an alternate of omission of storage drawers in the beds.

After reviewing the bids, it is recommended that beds with storage drawers be purchased. On this basis, the bid of $160,728 on all items by the Weger Institutional Designs, Lansing, Michigan, under the option of adapting the specifications
to the manufacturer's standard method of construction and finish, is the lowest bid. The major adaptations are an air-dried finish rather than oven-dried finish, with the elimination of the final rubbing process, and the use of white and red oak instead of all white oak.

The Director of Purchases and representatives of the Physical Plant Department have carefully studied the proposed changes and University representatives have visited the factory in which the furniture will be made. It is their opinion that the proposed modifications will not reduce the standards of material, construction, and finish expected by the University.

The Director of Purchases and the Vice-President and Comptroller recommend the award of a contract for $169,728 to Weger Institutional Designs for this furniture.

I concur.

On motion of Mr. Swain, this recommendation was approved.

REPORT OF COMMITTEE ON GENERAL POLICY ON CHICAGO UNDERGRADUATE DIVISION SITES

Mr. Johnston, for the Committee on General Policy, reported that the Committee has under consideration all of the sites suggested in the suburban areas and within the city limits of Chicago, including the area bounded by Congress Street on the north, Sixteenth Street on the south, the Chicago River on the west, and State Street on the east, which is to be cleared when a new railroad terminal in Chicago is constructed. The Committee is working toward a date for a final decision, bearing in mind that construction of buildings for the Chicago Undergraduate Division should be started no later than 1960 and that they be available for use in 1963.

REPORT OF FINANCE COMMITTEE

Mr. Swain, for the Finance Committee, reported that at the March meeting of the Board the Committee will make a recommendation for the employment of a firm of certified public accountants to audit the accounts of the University beginning with the fiscal year 1957-58. He invited the members of the Board to submit to the Finance Committee the names of any firms they wish to have considered for this assignment.

ANNUAL MEETING OF THE BOARD OF TRUSTEES

The By-Laws of the Board state that it shall hold its annual meeting on the second Tuesday of March, unless the date of such meeting be changed by the Board; and that all meetings shall be held at the University at Urbana unless otherwise ordered by vote of the Board or by the President thereof.

Mr. Livingston called attention to the fact that this year's scheduled annual meeting will be on March 11, and that it was the consensus of the Board expressed at its meeting on December 17, 1957, that no action be taken to change the date or place of this meeting. He stated that it now appears desirable to hold this meeting in Chicago because of certain matters of business which will come before the Board.

On motion of Mr. Swain, the Board voted to hold the annual meeting on March 11, 1958, in Chicago, Illinois, at an hour and place to be fixed by the President and Secretary of the Board.

The Chairman of the Committee on Buildings and Grounds, the Committee on General Policy, and the Finance Committee authorized
the Secretary to schedule meetings of these Committees on March 11 in connection with the Board meeting.

**APRIL MEETING**

On motion of Mr. Johnston, the Board voted to hold its April meeting on Thursday, April 17, 1958, at the Dixon Springs Experiment Station of the University of Illinois, and the Secretary was authorized to schedule the hour of this meeting to suit the convenience of the members of the Board and to select the place for this meeting.

**MAY MEETING**

On motion of Mr. Swain, the Board voted to hold its May meeting on Thursday, May 29, 1958, in Urbana, Illinois, at an hour and place to be determined by the President and Secretary of the Board.

**DEGREES CONFERRED FEBRUARY 8, 1958**

EXECUTIVE SESSION

At this point an executive session was requested and ordered for consideration of the following item of business.

ACQUISITION OF PROPERTY AT 1008 WEST GREEN STREET, URBANA, ILLINOIS

The Director of the Physical Plant Department and the Vice-President and Comptroller recommend the purchase of the property at 1008 West Green Street, Urbana, owned by Mr. and Mrs. William R. Hunsicker. The property consists of a lot with a frontage of approximately 67 feet on Green Street and a depth of approximately 234 feet; an old frame residence which has been converted to seven small apartments; and a new brick apartment building completed in 1957, containing eight small apartments.

The land is needed as a part of the site for a residence hall for unmarried graduate students (Stage 2 in the University's Program for Housing Students as approved by the Board January 28, 1956). The Board of Trustees on December 17, 1957, authorized the acquisition of the property through condemnation pro-
ceedings since at that time the owner was unwilling to sell except at a price which University officers deemed exorbitant and excessive. The owner has now agreed to enter into a contract to sell on these terms: price, $92,500 of which $50,000 shall be payable within twenty days after the agreements are executed and the balance of $42,500 at the time of possession; the seller to retain possession, rent free, until July 1, 1958, to pay all taxes levied for 1957, taxes levied for 1958 to be pro rata, and insurance, and to maintain the buildings during the entire period of his occupancy. The Committee on Buildings and Grounds, informed that negotiations with the owners had been reopened to determine if the property can be acquired by purchase at a price and on terms acceptable to the University, approved the steps which were being taken. The price at which the property is offered for sale is within appraisals made of it, is reasonable considering the improvements on the land, and is consistent with the policy authorized by the Committee on Buildings and Grounds to govern negotiations for property acquisitions.

Funds are available in the state capital appropriations for 1957-59 for land acquisitions and have been released by the Governor. I recommend the purchase of the property at the price and on the terms stated above, and that the Secretary and the Comptroller be authorized to execute the necessary documents for the acquisition of this property, subject to approval of the title by the Legal Counsel.

On motion of Mr. Johnston, the purchase of this property, on the terms indicated, was authorized, and the Comptroller and the Secretary of the Board were authorized to execute the necessary documents. This action was taken by the following vote: Aye, Mr. Bissell, Mrs. Holt, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mr. Williamson; no, none; absent, Mr. Herrick, Mr. Hughes, Mr. Stratton, Mrs. Watkins.

On motion of Mr. Johnston, the Board adjourned.

REPORTS OF COMMITTEES

The Board considered the following reports and recommendations from its Committees.

REPORT OF THE FINANCE COMMITTEE
ON EMPLOYMENT OF AUDITORS

The Finance Committee recommends the employment of Ernst and Ernst, Certified Public Accountants, for the audit of the University's accounts for the fiscal year ending June 30, 1958. This firm has proposed to do the work at prevailing hourly rates for college and university audits, plus cash expenses,
plus expenses for travel and subsistence of staff assigned to the audit, and with
the understanding that aggregate charges will not exceed the following amounts:
University of Illinois (all divisions) .............................................. $18,700
University of Illinois Foundation (including its retirement system) .......... 1,200
University of Illinois Athletic Association (including its retirement
system) ...................................................................................... 1,000
Alumni Association (including its retirement system) ......................... 500
University Retirement System of Illinois ....................................... 2,000

Under the present state law the Auditor-General of Illinois is responsible
for auditing, or causing to be audited, the records of the University. In pre-
vious years the Auditor of Public Accounts has had this statutory authority and
responsibility. The new Auditor-General, Mr. Frank Whitney, has expressed his
willingness to follow the practice of the University and the State Auditor of
Public Accounts of previous years; namely, he will be consulted concerning the
employment of an auditing firm, and the firm employed by the University will
submit copies of its report directly to him as well as to the Board of Trustees.
Any additional work which the Auditor-General may require will be at the
expense of his office. Mr. Whitney, who was present, stated that he was pleased
with the arrangement for the employment of an auditing firm which would
report directly to him as well as to the Board of Trustees, and that the firm of
Ernst and Ernst is acceptable to him.

On motion of Mr. Swain, this recommendation was approved.

REPORT OF COMMITTEE ON GENERAL POLICY ON SITE FOR CHICAGO UNDERGRADUATE DIVISION

Mr. Johnston, for the Committee on General Policy, presented the following report:

The prime objective in current University of Illinois planning for the relocation of the Chicago Undergraduate Division from Navy Pier to a permanent site is to have the buildings and other facilities needed ready for use in 1963. To accomplish this, construction should begin in 1960 and the appropria-
tions of funds and any other legislation needed must be secured during the 
1959 session of the General Assembly of Illinois.

This important consideration has guided the thinking of the Board of 
Trustees and its Committee on General Policy in dealing with the problem 
of land acquisition for a permanent campus for the Chicago Undergraduate 
Division.

The Committee is continuing to study the several sites in the city of 
Chicago and suburban areas proposed by interested parties and which have 
opportunities of meeting the University's criteria of land area required; of 
geographical location in terms of serving the growing metropolitan area, not 
only now but in the years ahead; of accessibility to students in terms of trans-
portation, public and private; of opportunities for good faculty housing near-
by; of an environment protected against encroachment from undesirable 
developments; and of availability in time to meet acquisition and construc-
tion schedules.

More information about these sites is needed than is now available. To 
assist the University staff and the Board, the Committee recommends the em-
ployment of Real Estate Research Corporation of Chicago for land studies and 
site analyses to develop the data and other necessary facts about all areas which 
offer promise of meeting the needs. The Committee further recommends that 
Real Estate Research Corporation be authorized to employ such engineers and 
planners as may be needed to expedite its studies and enable the Board to reach 
a firm decision to meet its objective of permanent facilities ready for use in 
1963.

On motion of Mr. Johnston, these recommendations were approved.

REPORT OF COMMITTEE ON GENERAL POLICY ON 
DISCONTINUATION OF DIVISION OF SPECIAL 
SERVICES FOR WAR VETERANS

Mr. Johnston, for the Committee on General Policy, presented the 
following report:

The Division of Special Services for War Veterans was established by 
authority of the Board of Trustees on January 29, 1944, upon recommendation 
of the University Senate, its purpose and functions, as the name implies, being 
to serve the special needs of students, both men and women, returning to the 
University from military service, and also the special needs of World War II 
veterans enrolling in the University for the first time.

The proposal of the Senate specified that the services of the Division were 
to be restricted to men and women who served in the Armed Forces, and that 
the Division would endure only until needs of returning veterans had been 
adequately met. At the time the Division was established this referred to veter-
ans of World War II, and it was planned that the Division be discontinued 
upon completion of the educational programs of students enrolled prior to 1952. 
Subsequently, and in view of the war in Korea, the Board of Trustees author-
ized the continuation of the Division of Special Services for War Veterans until 
further notice.

The Urbana Senate has now recommended that no student will be admitted 
to the Division of Special Services for War Veterans after September 1, 1958. 
No student will be re-admitted to the Division after September 1, 1958, unless 
his last registration was in the Division and he can complete the requirements 
for a degree not later than September 1, 1960. The Division of Special Services 
for War Veterans shall be dissolved at the earliest date consistent with com-
pletion of implied obligations resulting from compliance with the above. The 
exact date for dissolution (preferably not later than September 1, 1960) shall 
be left to the administrative discretion of the Vice-President and Provost.

Mr. Johnston stated that the recommendation of the Urbana Senate had 
previously been submitted by the President of the University, with his concurrence, 
to the Committee on General Policy and was duly considered.

On motion of Mr. Johnston, the recommendation of the Senate 
was approved.
REPORT OF COMMITTEE ON BUILDINGS AND GROUNDS
ON REGIONAL PLANNING OF CHAMPAIGN COUNTY

Mr. Williamson, for the Committee on Buildings and Grounds, reported that the Committee received a recommendation from the President of the University and the Director of the Physical Plant Department that the Board of Trustees authorize participation of the University in an organization for regional planning in Champaign County. The development of an organization and staff for such planning has been proposed by the Champaign County Board of Supervisors. The participants will include the cities of Champaign and Urbana, the village of Rantoul, Chanute Air Force Base, the Champaign County Forest Preserve District, the Urbana-Champaign Sanitary District, the County of Champaign, and the University.

This proposal has been duly considered by the Committee on Buildings and Grounds and a more detailed statement, including a budget, appears in the minutes of its meeting of March 11, 1958. Each participating agency will be asked to contribute funds for the expenses of this regional planning program. The University has been asked to contribute $9,000 a year. If the program is to be of any value, it must be continued over a period of years, and the expenditure therefore is a recurring obligation.

In view of the University's interest in long-range planning for the Champaign-Urbana area and the benefits to be derived from such planning, the Committee concurs in the recommendation of the University officers that the University participate in the program and assume its proportionate share.

On motion of Mr. Williamson, this recommendation was approved and an appropriation of $9,000 was made from the General Reserve Fund for the University's payment of the first year's expenses. This action was taken by the following vote: Aye, Mr. Herrick, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Bissell, Mr. Stratton; not voting, Mrs. Holt.

MEMORIAL TO DWIGHT HERBERT GREEN

Mr. Johnston offered the following resolution and moved its adoption:

The Board of Trustees of the University of Illinois records with deep sorrow the passing on February 20, 1958, of Dwight Herbert Green, Governor of Illinois and a member of this Board from January, 1941, to January, 1949.

His record as Governor of this State and his previous public services are well known and will be recorded by historians. His relations to the University of Illinois as Governor and ex-officio member of its Board of Trustees deserve a special note of public record and of tribute from his former colleagues on this Board.

He was a statesman in the discharge of his responsibilities to the University of Illinois as Governor of Illinois and as a Trustee of the University. He was understanding of its needs and always mindful of its welfare. Of the numerous University programs which received his special attention and active support, some are especially noteworthy: the University of Illinois Airport; the establishment of the College of Veterinary Medicine and of the Chicago and Galesburg Undergraduate Divisions; and a realistic expansion of University budgets to meet the post World War II needs. The students, now alumni, and faculty of the years he was Governor will remember his numerous visits to the University. Whether on official or informal occasions these visits were always in a spirit of friendliness and a desire to be of service.

In expressing this tribute to a former colleague and friend, the Board of Trustees direct that it be included as a memorial in the minutes of today's meeting and that suitable copies be sent to Governor Green's family.

Chicago, Illinois
March 11, 1958

This memorial was unanimously adopted.

REVISION OF CURRICULUM IN HOME ECONOMICS

The Urbana Senate recommends revisions of the curricula in home economics in the Colleges of Agriculture and Liberal Arts and Sciences which involve the following changes in graduation requirements for all majors in home economics:

An increase in the number of credit hours prescribed in home economics courses from a minimum of 29 to 34 or 35 semester hours.

A core of eight first-year courses (20 semester hours), replacing the present core of 17 semester hours composed of four required courses and three or four optional courses.

An increase in the number of required credit hours in advanced home economics courses from 12 to 14 or 15 semester hours.

Discontinuation of the requirement of elementary hygiene.

The nine options under the revised curriculum remain the same as at present. Changes are confined mostly to courses in home economics, one exception being the addition of organic chemistry and zoology to the laboratory sciences from which ten hours are required in the apparel design and retailing clothing and the home furnishings options.

The entire curriculum revision involves the addition of sixteen courses (new and major revisions) totalling 41 hours and the deletion of fifteen courses totalling 48 hours. The revised core program, based upon educational objectives evolved and tested on a trial basis since 1949, is designed: to present an integrated view of subject matter deemed basic to training for home making and an intelligent career choice; to provide a foundation for further professional specialization in some one of the nine prescribed options; and to include courses which can be of value to non-majors and to students minoring in home economics.

The revised curriculum is effective for students enrolling in it as freshmen after September 1, 1957. During a transition period new and revised courses will be activated and old courses deleted in accordance with a time table established by the Department of Home Economics.

In view of the revisions recommended above, the Urbana Senate also recommends that the curriculum for home economics majors in the College of Liberal Arts and Sciences be revised to include the following:

ADDRESS BY DEAN LOUIS B. HOWARD AND DR. EARL M. HUGHES
ON UNIVERSITY OF ILLINOIS PARTICIPATION IN INTERNATIONAL
COOPERATION ADMINISTRATION PROGRAM

(4) At this point Dean Louis B. Howard of the College of Agriculture and Dr.
Earl M. Hughes of the Board of Trustees addressed the Board briefly on the
services in India of the University of Illinois and certain other Land-Grant
colleges and universities under the International Cooperation Administration
program.

For several years the University of Illinois has had a contract with the
International Cooperation Administration of the United States Department of
State for services to institutions of higher education in India to assist in the
development of the agricultural resources of that country.

The University of Illinois was requested by the Chief Agriculturist for the
Technical Cooperation Mission to India to send representatives to regional
conferences held in January and February, 1958, in India. Dean Howard was
authorized to represent the University of Illinois. Officials of the Department of
State desired to include in the delegation one or more representatives aside
from those selected from the faculties and administrative staffs of colleges
of agriculture and preferably from governing boards of institutions participating
in the International Cooperation Administration program. Because of his pro-
fessional qualifications as an agricultural economist, his position on the Board
of Trustees of the University of Illinois, and his experience as a high-level
administrator of the United States Department of Agriculture, Dr. Hughes' 
services were especially requested, and he also represented the University. One
of the objectives of University of Illinois representatives was to inquire into the
advisability of future cooperation by the University under a new International
Cooperation Administration contract with Indian government agencies to aid
in the establishment of a university patterned after the Land-Grant colleges in
the United States.

The Board resumed consideration of reports and recommendations
from the President of the University.
CHANGES IN GENERAL REQUIREMENTS FOR GRADUATION FROM THE COLLEGE OF COMMERCE AND BUSINESS ADMINISTRATION

(5) The Urbana Senate recommends adoption of the following general requirements for bachelor's degrees from the College of Commerce and Business Administration to replace existing requirements:

A total of 126 semester hours, excluding credit for physical education and basic military, to be effective for all students entering the College after January 1, 1958.

A 3.0 or above average in the sophomore, junior, and senior courses (i.e., the 200- and 300-level courses as numbered in University catalogs) in the field of concentration, to be effective for all students entering the College after January 1, 1958.

A two-hour course in hygiene other than Hygiene 101, to be effective for all students entering the College after January 1, 1958.

Each student's requirements for graduation shall be those in effect when he first entered the College, provided he graduates within ten years of his first entrance.

I concur.

On motion of Mr. Williamson, these changes were approved.

CHANGES IN REQUIREMENTS FOR GRADUATION FROM THE COLLEGE OF FINE AND APPLIED ARTS

(6) The College of Fine and Applied Arts has recommended that graduation requirements in all curricula be officially stated as follows:

Bachelor of Architecture — 157 hours plus the required work in military training and physical education

Bachelor of Fine Arts (in advertising design, industrial design, history of art, painting, landscape architecture) — 122 hours plus the required work in military training and physical education

Bachelor of Music — 124 hours plus the required work in military training and physical education

Bachelor of Science (in landscape operation, city planning) — 122 hours plus the required work in military training and physical education

The effect of this is to reduce the number of credit hours required for graduation, but without changing the military training and physical education requirements, which stand. This is consistent with previous authorization of the several colleges and schools to revise the statements of their graduation requirements accordingly. Senate action is not required but the statement of the College of Fine and Applied Arts has nevertheless been approved by the Urbana Senate Committee on Educational Policy.

I concur.

On motion of Mr. Swain, these changes were approved.

FEE FOR REGISTRATION OF CANDIDATES FOR DOCTOR'S DEGREES

(7) A candidate for the doctor's degree who has passed the preliminary examinations is required to continue his registration in the Graduate College until he has passed the final examination, even though he may have completed the total unit requirements and is taking no more graduate courses.

The Committee on Fees has recommended, and the Vice-President and Provost has authorized, subject to confirmation by the Board of Trustees, the establishment of a flat fee of $6.00 each semester ($4.00 each term at the Chicago Professional Colleges) to be assessed each doctoral candidate, resident or nonresident, who registers for zero credit in accordance with the Graduate College requirement.

I concur.

On motion of Mrs. Holt, this fee was authorized.

SPECIAL APPROPRIATIONS FOR NONRECURRING EXPENDITURES

(8) The Committee on Nonrecurring Appropriations recommends assignments of funds from the General Reserve for the following purposes:

1. Department of Zoology, remodeling in Vivarium Building ........ $19,000.00
2. College of Commerce and Business Administration, furniture for Placement Office ........................................ $1,200.00
3. Department of Horticulture, purchase of truck ................ $1,000.00
4. Office of the Dean of Women, air conditioning areas in the English Building ........................................ $2,840.00
5. Department of English, remodeling in the English Building ........................................ $13,200.00

Total ........................................................................ $37,849.00

I concur.

On motion of Mr. Johnston, these appropriations were made by the following vote: Aye, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Bissell, Mr. Stratton.

APPROPRIATION FOR DEPARTMENT OF CHEMISTRY AND CHEMICAL ENGINEERING

(9) The Vice-President and Provost and the Vice-President and Comptroller recommend an assignment of $12,000 from the General Reserve Fund to the Department of Chemistry and Chemical Engineering to supplement its operating budget for the current fiscal year ending June 30, 1958. The present budgetary provision for the Department’s operations has proved inadequate to meet its needs because of increased costs of chemicals, other materials and services.

I concur.

On motion of Mrs. Watkins, this appropriation was made by the following vote: Aye, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Bissell, Mr. Stratton.

CONTRACT FOR CONSTRUCTION OF ADDITION TO ABBOTT POWER PLANT

(10) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend the award of a contract to R. V. Monahan Construction Company, 1951 West Irving Park Road, Chicago, Illinois, the lowest bidder, for the construction of an addition (Unit No. 6, Division “7-J,” Turbine Room Building) to the Abbott Power Plant.

Base bid on the main phase of the work ................................ $157,490

Bids on four additive alternates:

- Tractor House, including portions of a cinder road to the Tractor House ........................................ $8,400
- Creosoted wood planking at railroad tracks ...................... $2,956
- Finish painting ...................................................... $2,329
- Car pullers, and foundations and electric wiring ................. $9,500

Total ........................................................................ $180,675

Since bids are yet to be received on three important items on this project—piping, electrical work, and equipment erection—it is recommended that this contract be awarded on the base bid of $157,490 plus the four alternates, with the University reserving the right to accept or delete any one or all of the alternates at the price bid, provided the University informs the contractor of its intention on or before June 30, 1958. R. V. Monahan Construction Company will accept the contract on these terms.

The lowest bid is in line with engineering estimates of the cost. Funds are available in the state capital appropriations for 1957-59, subject to release by the Governor.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute the contract or contracts drawn in accordance with the conditions stated.

Submitted herewith is a report from the Physical Plant Department on the bidding on this contract, including a schedule of all bids received, a copy of which is being filed with the Secretary of the Board for record.
On motion of Mr. Johnston, this contract was awarded, as recommended, and the Comptroller and the Secretary of the Board were authorized to execute the same. This action was taken by the following vote: Aye, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Bissell, Mr. Stratton.

**CONTRACT FOR EXTENSION OF PNEUMATIC TUBE SYSTEM IN RESEARCH AND EDUCATIONAL HOSPITALS**

(11) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend award of a contract for $13,923 to the Lamson Corporation, Chicago, Illinois, for extension of the pneumatic tube system in the Research and Educational Hospitals to the third and fourth floors of the general hospital building. This is part of the remodeling for which a contract was awarded by the Board on February 18.

Funds are available in the state capital appropriations for 1957-59.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute this contract.

On motion of Mr. Swain, this contract was awarded, and the Comptroller and the Secretary of the Board were authorized to execute the same.

**CONTRACT FOR INTERIOR DECORATING SERVICES ON ADDITION TO ILLINI UNION BUILDING**

(12) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend employment of Ernst C. Von Ammon, 920 North Michigan Avenue, Chicago, Illinois, for interior decorating services in the proposed addition to the Illini Union Building. The areas to be covered by Mr. Von Ammon’s services are the dining rooms, lounges, ballroom, art display room, banquet rooms, meeting rooms, and guest rooms. He has agreed to do this for a fee of $6,000 which is less than 3 per cent of the estimated costs of the furnishings for which he will be responsible. This is a very reasonable fee.

There is submitted herewith a letter from Mr. Von Ammon outlining in detail the work he proposes to do for the fee of $6,000; a copy of this letter is being filed with the Secretary of the Board for record. The Committee on Buildings and Grounds has also considered this recommendation and supports it.

I concur and recommend that the Comptroller and the Secretary of the Board be authorized to execute a contract with Mr. Von Ammon for these services.

On motion of Mrs. Holt, this contract was awarded, as recommended, and the Comptroller and the Secretary of the Board were authorized to execute the same.

**PAYMENT OF ADDITIONAL COMPENSATION IN LIEU OF VACATION**

(13) The *Policy and Rules Relating to Compensation and Working Conditions of Nonacademic Employees*, as approved by the Board of Trustees, include a specific provision that extra pay in lieu of vacation will not be allowed. There are situations and circumstances in which exceptions to this provision would be warranted to avoid injustice to an employee and in the interest of economy. I recommend that the President of the University be authorized to approve payment of additional compensation, in lieu of vacation, to nonacademic employees when the interests of the University, as well as justice to the employees concerned, will be clearly served thereby; provided that this approval shall be given only in rare and unusual cases, and that the additional compensation paid shall be on the basis of the regular rate of pay. It is not the intention of this recommendation to establish a general practice of making exceptions, but flexibility in the existing policy is desirable to permit dealing with special cases on their merits.

On motion of Mr. Johnston, this recommendation was approved.
ESTATES OF GRETCHEN JOHANNA SCHILLING
AND PAUL CHARLES SCHILLING

(14) The Continental Illinois National Bank and Trust Company of Chicago is Trustee of a trust created by the will of the late Gretchen Johanna Schilling of Chicago. Under the provisions of the trust, the income was paid to her brother, Paul Charles Schilling, during his lifetime and upon his death 90 per cent of the residual assets are to be transferred to the University and 10 per cent to Seeing Eye, Incorporated, Morristown, New Jersey. The trust assets are securities worth approximately $81,000 plus certain real estate described below.

Paul Schilling has died and the Continental Illinois National Bank and Trust Company is the Executor of his estate. His will provides that the remaining assets of his estate are to be distributed in the same way as the assets of the trust created by his sister. Mr. Schilling’s will and Miss Schilling’s trust both provide that the assets transferred to the University are to be used to assist worthy, indigent students, provided that not more than $500 be given to one student in any one year.

The estate of Paul Charles Schilling consists of personal property valued at approximately $19,000, plus a parcel of real estate valued at approximately $5,000. His will directs the Executor to liquidate all of the assets, real and personal, and make distribution in cash; the Gretchen Johanna Schilling trust gives the Trustee authority to distribute in cash or in kind.

The Gretchen Johanna Schilling trust estate owns a residence property at 4027 Roscoe Street, Chicago, formerly occupied by Paul Schilling. There are also farm properties in Richland County, Illinois, consisting of 186 acres of which Gretchen Johanna Schilling owned seven-ninths and Paul Schilling owned two-ninths; forty acres of which Gretchen Schilling owned two-thirds and Paul Schilling one-third; another forty acres owned entirely by Gretchen Schilling; and forty acres owned entirely by Paul Schilling. Not all of these tracts are contiguous.

The Trustee reports that the estimated value of the real estate is: Roscoe Street property, $14,500; Richland County farm properties, $21,000. There are three producing oil wells on the forty-acre tracts in Richland County; however, the Pure Oil Company which operates the wells estimates their remaining life at two or three years. Large areas of these three forty-acre tracts have been flooded with salt water from the oil wells and have little agricultural value. On the 186-acre tract is a large brick residence, about one hundred years old and in very poor condition, and a few other buildings also in poor condition and of little value. Approximately 150 acres of the farm lands are under cultivation. The advice of the Trustee and of the First National Bank of Chicago (the University’s investment counsel) will be secured and a recommendation will be made to the Board of Trustees on the disposition of the assets after the Trustee has secured a reliable appraisal of the real estate and other assets of the estates. In the meantime, it is necessary to inform the Trustee whether or not the University will accept the bequests for the purpose indicated in the trust and will of Miss Schilling and Mr. Schilling. I recommend acceptance and that the following resolution be adopted.

Resolution

WHEREAS the Board of Trustees of the University of Illinois is a beneficiary under the Trust created by Gretchen J. Schilling in her Last Will and Testament with the Continental Illinois National Bank and Trust Company of Chicago, as trustee; and

WHEREAS said Board is a beneficiary under the will of Paul C. Schilling, probated February 10, 1958, under which the Continental Illinois National Bank and Trust Company is appointed as Executor; and

WHEREAS said Wills specify that nine-tenths of the residual assets of said Estates shall be delivered to the University to assist worthy indigent students; and

NOW, therefore, be it resolved by the Board of Trustees of the University of Illinois, a public corporation of the State of Illinois, that the devises and bequests made to this public corporation under the Last Will and Testament of Gretchen Johanna Schilling and the Last Will and Testament of Paul Charles Schilling be, and they hereby are, accepted upon the terms and conditions set
forth in said Wills; and be it further resolved by this Board of Trustees that the Comptroller, H. O. Farber, and the Secretary, A. J. Janata, of this corporation be, and they hereby are, authorized and directed, to execute in the name and in behalf of, this corporation such documents and to take such other action in connection therewith as said Comptroller and Secretary may deem to be necessary or desirable to evidence or show the acceptance of said devises and bequests by this corporation and to effectuate the conveyance of title to, and the transfer of possession of, the assets thereof to this public corporation.

On motion of Mr. Herrick, the foregoing resolution was adopted.

**BEQUEST OF MRS. ALMA ESCHER FOR THE GERTRUDE ESCHER LOAN FUND**

Under a trust created on June 7, 1956, by the late Mrs. Alma Escher of Chicago, who died on January 5, 1958, the University of Illinois has been named a residuary beneficiary, after other provisions of the trust have been fulfilled. The Mutual National Bank of Chicago, Trustee of the Escher’s estate, is prepared to turn over to the University the residuary assets of the trust consisting of certain parcels of real estate and securities. The estimated value of the residuary trust assets is approximately $100,000, and may be higher depending on what the real estate will bring when sold. Lists of the assets comprising the trust were submitted to the First National Bank of Chicago (the University’s investment counsel) for advice. The Bank recommends that the real estate be sold, but that certain of the securities held by the Trustee, if offered to the University, be retained.

The Vice-President and Comptroller recommends, and I concur, that the Board of Trustees suggest to the Mutual National Bank of Chicago that the real estate be sold. The disposal or retention of securities will be referred to the Finance Committee of the Board. At the time of her death Mrs. Escher had in the bank in her name approximately $7,000 which, under her will, is bequeathed to the Mutual National Bank of Chicago as Trustee and thus becomes a part of the assets of the trust she created.

The trust agreement specifies that at the time of making the transfer of the residuary assets, the Trustee is to inform the Board of Trustees of the University of Illinois “that it is the desire of the Donor that they invest the principal of the Trust Estate so delivered in securities deemed safe for the investment of other funds under their control and use the income therefrom as loans to worthy students at the University of Illinois. That this gift be identified as the Gertrude Escher Loan Fund and, if it is consolidated with other trust funds under the control of said Trustees, its identity on the books of the University be retained under that title.”

While the donor obviously intended to create a loan fund, under the specific provisions of the trust the University must invest the funds received and realized from the sales of the assets in an endowment and use only the income for loans, rather than loaning the principal as is usually done with loan funds.

The Vice-President and Comptroller recommends, and I concur, that the following resolution be adopted:

**Resolution**

**WHEREAS** Mrs. Alma Escher departed of this life on January 5, 1958, and

**WHEREAS** Mrs. Escher had created a trust with the Mutual National Bank of Chicago and transferred to that bank as Trustee, certain securities and several parcels of real estate, and

**WHEREAS** under the terms of the trust agreement, the Board of Trustees of the University of Illinois is the residual beneficiary,

Now therefore, be it resolved by said Board of Trustees that the assets of this trust be accepted by the University to be administered in accordance with the provision of the Trust, the principal to be invested and the income used to create a student loan fund, and

Be it further resolved that the Mutual National Bank of Chicago be authorized to sell the parcels of real estate, and that A. J. Janata, Secretary, and H. O. Farber, Comptroller, be hereby authorized and empowered to execute all
documents necessary to complete such sales and to accept the Trust assets when conveyed to the University.

Mrs. Escher's daughter, Gertrude Escher, graduated from the University in June, 1925, and died in March, 1926. This gift is in memory of the daughter, and as the trust agreement specifies, the endowment shall be known as the Gertrude Escher Loan Fund.

On motion of Mrs. Watkins, the foregoing resolution was adopted.

APRIL MEETINGS

Mr. Livingston called attention to the decision of the Board at its meeting on February 18, 1958, to hold the April meeting on Thursday, April 17, 1958, at the Dixon Springs Experiment Station. He suggested that for reasons of business expediency, and for the convenience of some of the Trustees, the Board might wish to reconsider its decision.

On motion of Mrs. Watkins, the Board voted to hold the April meeting on Thursday, April 17, 1958, at Urbana-Champaign instead of at the Dixon Springs Experiment Station, and the President and Secretary of the Board were authorized to determine the hour and place. It was the consensus of the Board that the May meeting scheduled for Thursday, May 29, 1958, be held at Dixon Springs Experiment Station but that final decision on this be deferred until the April meeting.

The Secretary was authorized by the Chairmen of the Committees on General Policy, Buildings and Grounds, and Finance to schedule meetings of these Committees on April 17 in connection with the Board meeting on that day.

EXECUTIVE SESSION

At this point an executive session was requested and ordered for the consideration of the following items of business.

PURCHASE OF PROPERTIES AT 1013 AND 1101 WEST GREEN STREET AND AT 1104 WEST ILLINOIS STREET, URBANA

(i8) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend the purchase from Mrs. Lena M. Thompson and her husband, Finney W. Thompson, of the properties at 1013 and 1101 West Green Street and at 1104 West Illinois Street, Urbana, and two adjoining small tracts without street designations. The legal descriptions of the properties covered by this recommendation are:

All of Lot Nine (9) of W. M. Goodwin's Addition to the City of Urbana, except therefrom the East 60 feet thereof, and also except therefrom the South 200 feet thereof; and
The East Half (E½) of Lot Ten (10) of W. M. Goodwin's Addition to Urbana, except the South 166 feet thereof; and
Commencing at the Southwest corner of Lot Nine (9) of W. M. Goodwin's Addition to Urbana, Illinois, running thence East on the North line of Illinois Street 75 feet, thence North 175 feet, thence West 75 feet, thence South on the West line of said Lot Nine (9), 175 feet to the place of beginning; and
Beginning at a point 175 feet North of the Southwest corner of Lot Nine (9) of W. M. Goodwin's Addition to Urbana, Illinois, thence North 25 feet, thence East 89½ feet, thence North 41 feet to the Southwest corner of a tract of land formerly owned by Lucie H. Parr, thence East 60 feet, thence South 66 feet, thence West 149½ feet to the place of beginning.
These properties, together with adjoining properties already owned by the University in the 1000 and 1100 blocks on the south side of West Green Street and 1000 and 1100 blocks on the north side of West Illinois Street, will be needed by the University as a site for men's residence halls (Stage 4 of the University's program for housing students, approved by the Board of Trustees in January, 1956).

The frame building at 1013 West Green Street is now used by Mrs. Thompson as her personal residence and as a rooming house, housing five students. The frame building at 1101 West Green Street is presently used as a rooming house in which ten graduate women students reside. The large frame residence, converted to an apartment building, at 1104 West Green Street is rented by Mrs. Thompson to tenants, who in turn provide room and some boarding facilities for students. The properties have a total frontage on Green Street of 165 feet, and a frontage on Illinois Street of 75 feet. The depth on the western boundary is approximately 293 feet, the total depth of the properties which adjoin north and south between Green Street and Illinois Street is about 462 feet. Another adjoining tract, 66 feet by 60 feet, extends south of property owned by the University at 1011 West Green Street.

The Board of Trustees on December 17, 1957, authorized the institution of a proceeding in eminent domain for the acquisition of the properties after negotiations for purchase had failed because the owners were unwilling to sell except at a price which University officers could not recommend. Subsequently, negotiations were reopened and the owners are now willing to sell on these terms: price, $132,500 of which $39,500 shall be payable within twenty days after the agreements are executed and the balance of $93,000 on or before January 20, 1959, provided that at the option of the University the final balance may be paid in two equal installments of $46,500 each, one on or before January 20, 1959, and the other on or before January 20, 1960; the sellers shall retain possession, rent free, until September 10, 1958; the sellers may remove certain shrubbery and landscaping from the premises at their expense, provided that it is removed prior to September 10, 1958; the sellers may remove the following equipment prior to September 10, 1958: from 1013 West Green Street—two hot water radiators and one Ruud hot water heater, from 1101 West Green Street—one Ruud hot water heater, from 1104 West Illinois Street—two Ruud hot water heaters; the sellers shall assume the costs necessary to bring abstracts of titles up to date, shall pay all taxes levied for 1957 and prorated for 1958 for the entire period they occupy the premises; and shall provide insurance and maintain the buildings during the entire period of their occupancy.

The price is within appraisals made of the properties and is consistent with the policy authorized by the Committee on Buildings and Grounds to govern negotiations for property acquisitions.

Funds are available in the state capital appropriations for 1957-59 and have been released by the Governor.

I recommend the purchase of these properties at the price and on the terms stated above, and that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents for the acquisition of the properties, subject to approval of titles by the Legal Counsel.

The Committee on Buildings and Grounds is prepared to support this recommendation.

On motion of Mr. Williamson, the purchase of these properties, on the terms indicated, was authorized, and the Comptroller and the Secretary of the Board were authorized to execute the necessary documents. This action was taken by the following vote: Aye, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Bissell, Mr. Stratton.

PURCHASE OF PROPERTY AT 1011 WEST SPRINGFIELD AVENUE, URBANA

(19) The Director of the Physical Plant Department and the Vice-President and Comptroller recommend the purchase of the property at 1011 West Springfield Avenue (southeast corner of Springfield Avenue and Harvey Street), Urbana.
at a price of $15,000. The plat indicates the lot to have a land area of 66 feet by 132 feet; however, the owner, the late George Fiock, claimed and occupied one-half of the width (33 feet) of Harvey Street which abuts his property on the west, and one-half the width (20 feet) of the old Illinois Terminal Railroad right-of-way abutting this property on the south and also one-half of that portion of the right-of-way abutting the south of the two lots east of 1011 West Springfield Avenue. Harvey Street, which runs north and south, is no longer a thoroughfare south of Springfield Avenue. The Illinois Terminal Railroad crossed the University Campus south of Springfield Avenue and the University purchased for a small sum the right-of-way from Sixth Street to Wright Street in Champaign, and from Mathews Avenue to Gregory Place in Urbana, a total distance of four city blocks, shortly after the railroad discontinued its operations in that area. Title to the one-half of the strip of right-of-way abutting the south side of Mr. Fiock's property and the two lots east of it has been in dispute by him and the University for a number of years. Assuming the validity of his claim to part of Harvey Street and to the one-half of the strip of the Illinois Terminal Railroad right-of-way abutting the three lots on the south, the total land area to be purchased is 90 feet by 152 feet. On the basis of the land area as platted, the cost of acquisition at the price proposed would be $1.72 per square foot; based on the land area claimed by Mr. Fiock the cost would be $1.00 per square foot. The price is in line with independent appraisals made of this property.

While the University has no immediate need for it, the land will be needed within the next ten years and should be acquired as a part of long-range planning. In the meantime, it could be used for parking in an area where there is need for parking space.

In view of the dispute over the strip of right-of-way and the owner's claim to part of Harvey Street, it is recommended that any contract for the purchase of this property should provide for conveyance to the University of the following described area:

Title to Lot 1, Block 3, Urbana Railroad Company's Addition to the City of Urbana, would be conveyed by Warranty Deed and Quit Claim Deeds secured for adjacent areas occupied or claimed by the owner of Lot 1, which would include Harvey Street and the portion of the Illinois Terminal right-of-way abutting said lot and also Lots 2 and 3 of said Urbana Railroad Company's Addition to the City of Urbana.

I concur in the recommendation for the purchase of this property, subject to approval of the title or titles by the Legal Counsel, and I recommend that the Comptroller and the Secretary of the Board be authorized to execute the necessary documents.

On motion of Mr. Swain, the purchase of this property, on the conditions and at the price recommended, was authorized by the following vote: Aye, Mr. Herrick, Mrs. Holt, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Nickell, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Bissell, Mr. Stratton.

On motion of Mr. Johnston, the Board adjourned.

Appointments in the Summer Session budget provide for an eight-week term at Urbana-Champaign, June 16 through August 9, and at the Chicago Undergraduate Division, June 20 through August 16; and two six-week terms, June 30 through August 9, and August 11 through September 20, in the College of Pharmacy.

The salaries of members of the University faculty recommended for appointment to the Summer Session staff are computed on the basis of the authorized formula of two-ninths of the salary of the academic year for the eight-week Summer Session and proportionate amounts for other periods or for part-time service.

The budget totals $691,997 plus a reserve of $984 for Urbana-Champaign; $13,019 for the Chicago Professional Colleges; and $96,546 plus a reserve of $3,454 for the Chicago Undergraduate Division.

I recommend that the appointments to the Summer Session staff be approved as submitted, and that the President of the University be authorized to accept resignations and make such changes in adjustments and additional appointments as are necessary in accordance with the needs of the University within the estimated income.

On motion of Mrs. Watkins, these appointments and the Summer Session budget were approved, and the President was given authority as recommended. This action was taken by the following vote: Aye, Mr. Herrick, Mr. Hughes, Mr. Johnston, Mr. Livingston, Mr. Swain, Mrs. Watkins, Mr. Williamson; no, none; absent, Mr. Bissell, Mrs. Holt, Mr. Nickell, Mr. Stratton.

**RECOMMENDATIONS FROM THE UNIVERSITY SENATE**

(6) The Urbana Senate has approved for transmission to the Board of Trustees
the following proposals relating to new educational programs and changes in
existing programs.

**Undergraduate Program in Liberal Arts and Sciences and Engineering**

The Colleges of Liberal Arts and Sciences and Engineering have recommended
establishment of a combined Liberal Arts and Sciences-Engineering five-year
undergraduate program which will lead upon full completion to the degrees of
Bachelor of Arts in Liberal Arts and Sciences and Bachelor of Science in Engi-
neering. It is comparable to similar arrangements made within or between other
institutions in response to a growing need for college graduates having both a
liberal arts and engineering background. It involves no significant alteration in
the requirements for admission or graduation already established by the respective
colleges. Submitted herewith is an outline of the courses of instruction to be
included in the program and a statement of the conditions under which it will
operate, and copies are being filed with the Secretary of the Board for record.

The program will be administered in accordance with rules approved by the
two Colleges and the Urbana Senate which include provisions that the degrees
will be awarded simultaneously and only upon completion of the full program,
that students will be governed by the probation and drop regulations of the college in which they are registered, and that students who drop out of the program will then be subject to all existing requirements of the college of their choice. The effective date is September 1, 1958.

I concur in this recommendation.

Revised Curriculum in Chemical Engineering

The College of Liberal Arts and Sciences has recommended revisions in the undergraduate curricula in chemical engineering. The present two curricula, chemical engineering and bioengineering, will be replaced by a single curriculum with a common program for the first two years and three options: engineering, physical science, and bioengineering. The engineering option is identical with the present undergraduate curriculum in chemical engineering. The physical science option, by eliminating certain chemistry, chemical engineering, theoretical and applied mechanics, and electrical engineering courses and substituting certain physics and mathematics courses, provides a program more heavily weighted in mathematics and physical science and one which has as its primary purpose the preparation of students for graduate work. The bioengineering option involves substituting for the same courses omitted in the physical science option certain courses in chemistry, biochemistry, and bacteriology. In all options the number of electives is substantially the same. Submitted herewith is a complete outline of the revised curriculum and a copy is being filed with the Secretary of the Board for record. The effective date is September 1, 1958.

I concur in this recommendation.
