Meeting of July 6, 1907.

A special meeting of the Board of Trustees of the University of Illinois was held at the Auditorium Annex in Chicago July 6, 1907, pursuant to the following notice which was sent out by the Secretary June 26th:

Upon the call of the president of the board, Mr. W. L. Abbott, there will be a special meeting of the Board of Trustees of the University of Illinois at the Auditorium Annex in Chicago, at 9:00 o'clock a. m., Saturday, July 6, 1907, to take action upon matters submitted for consideration by President James, and to transact such other business as may be duly presented.

When the board met pursuant to this call, the members present were Messrs. Abbott, Davison, Hatch, Lehman, McLean and Mrs. Evans and Mrs. Busey. Mr. Madden came in a little later. President James was present.

The minutes of the meeting of the Executive Committee held June 28, 1907, were considered. See p. 135.

The resolution giving the chairman of the Executive Committee authority to take such steps as might be necessary to protect the interests of the University in the matter of laying a street car line across the University was confirmed.

A suggestion in regard to Professor Forbes' salary was confirmed.

Also the authority given the president to appoint Messrs. Vernier, Flickinger, Kuhlman, Wilczynski, Dewsnup and McCurdy.

The recommendation with regard to Professor W. F. M. Goss was adopted.

The recommendation with regard to fees of applicants for admission to the C. P. A. examination was adopted.

Mr. Robert Buchanan was appointed a member of the board of examiners which examines candidates for certified public accountants for the term of three years from July 1, 1907.

The contract for furnishing cadet uniforms for the years 1907-8 and 1908-9 reported by the Comptroller, Professor S. W. Shattuck, was confirmed.

Matters Presented by President James.

Street Car Line Across Campus.

1. An opinion from Judge O. A. Harker, Counsel for the University, as to the right of the Urbana and Champaign Railway, Gas and Electric Company to operate a car line over the campus of the University of Illinois, also a copy of a resolution relating to this same matter, passed by the last Legislature.

Ordered to be printed in the minutes of the board.

As to the right of the Urbana and Champaign Railway, Gas and Electric Company to operate its car line over the campus of the University of Illinois.

I can find no record of a specific permission allowing the street railway company to cross the campus at any point. I do find, however, that at a
meeting of the board of trustees held in December, 1883, the Executive Committee reported that Dr. Peabody, Regent, was given authority “to sign on behalf of the University the requisite petitions to secure a street railway in front of the property of this University on Wright street and Green street, the condition of the petition to be such that the track of such railway shall be so constructed as not to disfigure the street and shall be kept in good order with road bed full and level so as to form no obstruction to carriage crossing at any point opposite the University land; and no depot building shall be erected opposite the University buildings without the consent of the board of trustees; the construction and conditions above to be embodied in the ordinance and a guarantee that sufficient cars shall daily run on the proposed line to accommodate the needs of the travel to and from the University.”

I can find no record showing that Dr. Peabody ever acted under the authority above mentioned.

Although the record does not show a specific permission to that effect I make no doubt that at some time permission by the board was given to the company to lay its track and operate its road through the campus along Green street. Such permission was granted probably some time during the administration of Dr. Peabody. At all events, it has been repeatedly recognized by the board in official communications to officers of the company and by resolutions indicating the manner in which the permission should be exercised since his time. There is nothing to show, however, that the board ever contemplated permission to operate for any definite period. The view entertained by the board is quite well shown by a resolution passed at its September meeting, 1895, to the effect that the company had no permission to occupy the grounds of the University “except as a tenant at will.” Moreover, in the light of the present legislation and the title by which the grounds of the University are held, the board has never had legal authority to make a higher grant than one “by sufferance.”

The title to the grounds is held by the board in its corporate capacity for educational purposes. I speak, of course, of the legal title. In an equitable point of view, the State owns the property and has the right to control it in any way consistent with the original grant: The board is without power to divert it from the purposes of the grant. In my opinion, no grant of a right-of-way to a street railway company over the grounds could be made without authority of the State so to do. Furthermore, I am of the opinion that such authority can be granted only by legislative enactment.

With regard to the contention that the action of the board in opening up Green street over the grounds and allowing its free use by the public amounts to a dedication for street purposes, I am of the opinion that no such construction legitimately follows. Nor can lapse of time, with user, be construed to establish, as against the University, a prescriptive right to use the land as a street; for in reality, the State owns the land and through the board of trustees has the right to control it. The authorities uniformly hold that right by prescription cannot be gained by adverse possession against the State. It follows, then, that the city of Urbana has no authority to give to the railway company any right to operate its line on any part of Green street not dedicated to the public before the University acquired the ground.

By virtue of a deed, executed by Drusilla G. Preble on October 6th, 1863, right to operate a road over grounds now occupied by the University was given, and in accordance therewith a track was laid along the route now used by the “Interurban” between the mechanical engineering wood-shops and the metal shops. Over that route a road was operated until sometime in 1891 or 1892, when the company ceased to run cars over it and subsequently removed most of the iron. By virtue of a provision in the Preble deed, to the effect that if the railroad company should at any time cease permanently to use and occupy said road as constructed, or abandon the same, the premises should revert, the company thereby lost its right to the strip and the University became invested with it. An arrangement was subsequently made, however, which allowed the laying of “interurban” tracks, the details of which I have not been able to ascertain.
In obedience to instructions from the Board of Trustees, made some months ago, I drafted a bill, to be introduced in the last General Assembly, giving to educational boards of State institutions the power to grant rights-of-way over grounds controlled by them. The bill was not introduced for the reason that I was assured by members of that body that it could not pass. It was urged that there was a strong disposition on the part of legislators to restrict rather than enlarge the powers of educational boards. I was informed, however, that the same thing could be accomplished by joint resolution of the House and Senate, and at the suggestion of Senator Gardner, although I questioned the legality of the proceedings, I drafted a joint resolution authorizing the board of trustees, under certain restrictions, to grant a right-of-way to the railway company to cross the grounds on a direct line from Daniel street in Champaign to California avenue in Urbana. Copies of the resolution, with a “blue print” showing route of the proposed line, etc., I furnished to Senator Gardner and other members who assured me the resolution would pass. Subsequently, however, without any intimation to me as counsel for the University or anyone else authorized to represent the University in the matter, a resolution was introduced and passed the Senate granting to the railway company a right-of-way from Oregon street in Urbana across the grounds to John street in Champaign. In addition to the objectionable feature that the resolution took out of the board of trustees any authority to grant a right-of-way, as contemplated by the original resolution, the route proposed was very objectionable in that it passed diagonally through the square of ground immediately south of the Library Building and west of University Hall.

A resolution was finally passed, in both bodies of the General Assembly, which granted to the railway company a right-of-way across the campus from California avenue in Urbana to Daniels street in Champaign. The route proposed by this resolution allows a curve upon a radius of one hundred (100) feet at the intersection of California avenue with Mathews avenue in Urbana, and a curve upon a radius of one hundred (100) feet at the intersections of Wright street with Daniels street and of Wright street with John street in Champaign. I call attention to the fact that the resolution does not allow the board of trustees to grant the right-of-way, but purports to make a direct grant from the State. The right of the State by mere resolution of the Legislature to grant right-of-way over ground in which the State holds title is to my mind questionable. I am not prepared to say positively, that it has not such right. I feel quite sure, however, in view of the facts by which title to the University grounds was acquired and is now held, that rights-of-way over the campus cannot be legally granted by mere joint resolution of House and Senate. I do not believe that power and control of the board of trustees over its grounds can be taken away in such manner. I may say, however, that a concurrence in the action of the Legislature in passing the resolution by the board’s acting under it would doubtless put the railway company in the same position that it would be in provided the State held legal title to the grounds. What I mean is this: If as a matter of legal authority, the General Assembly may, by joint resolution, grant a right-of-way over lands in which the State holds legal title, then, although the State does not hold legal title to this land, a concurrence by the board of trustees would give the railway company full and complete right to construct and operate its railroad across the campus in accordance with the resolution.

Respectfully submitted,

O. A. Harker,
Counsel for the University.

JOURNAL OF THE SENATE

Resolutions.

Resolutions, House of Representatives, the Senate concurring therein, that permission and authority are hereby granted to the Urbana and Champaign Railway, Gas and Electric Company, for its full and complete right to construct and operate its railroad across the campus in accordance with the resolution.
signs, to enter in, along, upon and across the grounds now occupied by the University of Illinois, for the purpose of constructing a single track railway, the same to be constructed and operated upon a strip of land twenty-five feet wide extending from the east line of the property now occupied by the said University of Illinois to the west line thereof, and being more particularly described as a strip of land twelve and one-half feet on each side of a line within the boundaries of the property now occupied by the said University of Illinois, along a line to be approved by the board of trustees of the University of Illinois connecting with the track or tracks of the said street railway company at the west end of Oregon street, thence along Mathews avenue in the city of Urbana, Illinois, thence across the grounds of said University north of the site of the present Agricultural building, to a point on the west line of the property of said University, and thence on Wright street in the city of Champaign, Illinois, so as to connect with the railway of said railway company at the intersection of John street with Wright street in the city of Champaign, Illinois. Said railroad to be constructed and maintained on a surface grade to be approved by said board of trustees, and wherever necessary to construct a curve or curves in said railway on said University grounds, said curve or curves be on a radius of one hundred feet. Upon the completion of the construction of said railway the land upon each side thereof shall be restored to its original condition as far as practicable without expense to said board of trustees. Said railway may be operated by electricity or any other motive power except steam, and the board of trustees of the University of Illinois shall have power and authority to regulate the speed and operation of cars while in and upon said premises, and the rights and privileges hereby granted shall continue and remain in full force and effect for a period of twenty years from then and after the passage of this resolution; Provided, however, that unless the railway hereby authorized shall be completed and in operation within two years from the date of the passage of this resolution, all rights hereby granted shall cease and determine.

Adopted by the House, May 11, 1907.

B. H. McCANN,
Acting Clerk of the House of Representatives.

The foregoing message from the House of Representatives was taken up for consideration and read.

And the question being, “Shall the Senate concur with the House of Representatives in the adoption of the resolution?” it was decided in the affirmative.

TINTING WALLS OF AUDITORIUM.

2. The report of the Committee on Buildings regarding the tinting of the walls of the Auditorium, with recommendation that the contract be granted to English Brothers, in accordance with the proposition herewith submitted:

CHAMPAIGN, ILL., June 20th, 1907.

Dean James M. White:

Dear Sir—We will furnish all labor and material necessary to complete the tinting of the walls of the Auditorium using a glue, soap and alum size for the sum of eight hundred seventy-five dollars; we will use a hard oil size for thirty-five dollars additional.

We will paint the plaster under balcony one coat size and two coats of white lead and oil in colors to suit owner for the sum of one hundred eighty-five dollars.

Trusting that this will be satisfactory, we are yours truly,

ENGLISH BROS.

Per E. C. E., Jr.

I recommend hard oil size and oil colors under balcony.

JAS. M. WHITE.

Voted that the recommendation of said committee be approved:
### APPOINTMENTS AND SALARIES.

3. These recommendations as to appointments and salaries:

1. That the following persons be appointed to the positions indicated; wherever the salary is increased the increase is indicated; or in the case of new appointments the full salary is given.

8. That the following secretaries, clerks, and stenographers be appointed:

- John G. Wilson, Chief Clerk in President's Office, $1,500
- Jessie A. Smith, Clerk and Stenographer in President's Office, $900
- Albert R. Lee, Assistant Clerk in President's Office, $750
- Elmer C. Harris, Clerk and Bookkeeper in Business Office, $900
- M. E. Thompson, Clerk and Stenographer in Business Office, $780
- A. W. Merrifield, Clerk and Stenographer in Purchasing Agent's Office, $900
- L. A. Boice, Clerk in Registrar's Office, $1,000
- Tabitha Broadhurst, Clerk in Registrar's Office, $600
- Eva I. Saxton, Stenographer in Registrar's Office, half time, $420
- Olive F. Saxton, Stenographer in Dean of Undergraduate's Office, $840
- Sue W. Ford, Clerk in College of Engineering (Dean's Office), $900
- Mae Manspeaker, Stenographer in College of Engineering, $600
- Marjorie Asche, Stenographer in College of Engineering, $480
- Elizabeth A. Swift, Secretary Engineering Experiment Station from July 1st, $1,080
- G. M. Wood, Clerk in Mechanical Engineering Department, $600
- Mrs. Jennie M. Laflin, Clerk and Stenographer, Dean; College of Literature and Arts, $900
- Stenographic and clerical help in Dean Kimberly's Office, $960
- Stenographic and clerical help in Professor Hollister's Office, $660
- Grace Maxwell, Stenographer in College of Agriculture, $780
- Catharine McIntire, Secretary of College of Agriculture, $1,200
- Addie F. Wilson, Stenographer in Vice-President's Office, $600
- Stenographer in Dean Townsend's Office, $600
- Stenographer in Professor Noye's Office, $600
- Stenographer in Professor Parr's Office, $480
- Beulah Burroughs, Stenographer to Librarian, $600
- Stenographer half time to Director Library School, $300
- Carl F. Miller, Clerk in Chemical Laboratory, $720
9. That the following additional appointments be made:

- E. Atkinson, Superintendent of Grounds, $1,300
- O. L. Gearhart, Photographer, $1,000
- J. A. Morrow, Superintendent of Buildings, $1,800

10. That the following positions be authorized and the President requested to make nominations for the same:

- Professor of Education and Director School of Education, $3,000
- Professor of Education (new), $2,500
- Professor of Secondary Education (new), $2,500
- Professor of Sociology (new), $2,500
- Professor of General Economics (new), $3,000
- Professor of Accountancy (new), $3,000
- Courses in Journalism (new), $1,200
- Instructor or Assistant Professor in Insurance and Statistics (new), $2,000
- Assistant Professor in the Department of Mechanical Engineering; Engineering Experiment Station, $1,800
- Professor in Classics, $3,000
- Professor in Classics (new), $2,500
- Associate or Assistant Professor in Physics (new), $1,500
- Assistant Professor in Electrical Engineering, $1,700
- Professor of General Chemistry, $2,500
- Assistant Professor of Music, $1,700
- Private Secretary to the President, $2,000
- A Dean of Women, $1,500
- Associate in Classics, $1,500
- Associate in History (new), $1,300
- Associate in Theoretical and Applied Mechanics, $1,400
- Associate in Chemistry, $1,200
- Instructor in Economics, $1,000
- Instructor in English (new), $1,000
- Assistant Professor in Romanic Languages, $2,000
- Instructor in German, $1,000
- Instructor in Philosophy (new), $1,500
- Instructor in Political Science (new), $1,000
- Instructor in Architecture (new), $1,000
- Instructor in Architecture (new), $1,200
- Custodian of Architectural Library (new), $500
- Instructor in Civil Engineering, $1,100
- Instructor in Civil Engineering, $1,100
- Instructor in Civil Engineering (new), $1,100
- Instructor in Mechanical Engineering, $700
- Instructor in Ceramics (new), $1,500
- Assistant Professor in Dairy Husbandry, $2,000
- Instructor in Dairy Husbandry, $1,500
- Reference Librarian (new), $1,000
- Instructor in Vocal Music, $900
- Reference Assistant in Library, $600
- General Assistant in Library, $300
- Shelf Assistant in Library, $480
- Library Assistants, $300
- Catalog Reviser, $300
- Assistant in Economics, $150
- Assistant in Economics (new), $500
- Assistant in Economics (new), $600
- Assistant in Rhetoric, $350
- Assistant in History (new), $300
- Assistant in Civil Engineering (new), $700
Mos. Salary

Assistant in Electrical Engineering (new) ... 10 $700
Assistant in Electrical Engineering, half time (new) ... 10 300
Assistant in Mechanical Engineering—Foundry (new) ... 10 700
Assistants (two) in Tool room Mechanical Engineering Department, 360 each ... 10 720
Assistant in General Engineering Drawing ... 10 700
Assistant in Chemistry ... 10 600
Assistant in Chemistry ... 10 600
Graduate Assistant in Chemistry (new) ... 10 400
Graduate Assistant in Chemistry (new) ... 10 400
Laboratory Assistant in Physiology (new) ... 10 800
Assistant in Electrical Engineering ... 10 700

First Assistant in the Department of Mechanical Engineering; Engineering Experiment Station ... 12 1,200
Assistant in Physics, half time (new) ... 10 600
Storekeeper in Department of Physics (new) ... 12 600
Student Assistant in Botany (new) ... 12 1,000
Assistant in Piano ... 10 850
Assistant in State Water Survey ... 10 800
Instructor in Physical Training for Women ... 12 720
Stenographer in President's Office ... 12 720

11. That the following new appointments be made:

Herbert F. Moore .Assistant Professor in the Department of Theoretical and Applied Mechanics; Engineering Experiment Station ... 12 $2,000
F. W. Marquiss .First Assistant in Department of Railway Engineering; Engineering Experiment Station from July 1st ... 12 1,200
Bernice M. Bradford Assistant in Public Speaking ... 10 600
M. L. Enger .Instructor in Theoretical and Applied Mechanics ... 10 1,000
Otto Stuhlman, Jr .Assistant in Physics, half time ... 10 500
Herford Hope .Assistant in Ceramics, half time ... 10 700
Geo. E. Carscallen .Assistant in Mathematics ... 10 500
H. P. Kean .Assistant in Mathematics ... 10 500
W. W. Denton .Assistant in Mathematics ... 10 500
R. L. Borger .Instructor in Mathematics ... 10 1,100
J. H. McClelland .Associate in Zoology ... 12 1,400
C. H. Oathout .Assistant in Soil Fertility in the Agricultural Experiment Station ... 12 840
A. F. Gustafson .Assistant in Soil Physics in the Agricultural Experiment Station ... 12 720
N. W. Hepburn .Assistant in Dairy Manufactures in the University and Assistant in Dairy Manufactures in the Agricultural Experiment Station ... 12 900
C. B. Coleman .Assistant in Dairy Husbandry in the University, and Assistant in Dairy Husbandry in the Agricultural Experiment Station ... 12 840
O. S. Watkins .Assistant Chemist in Horticulture in the Agricultural Experiment Station ... 12 900
Helena M. Pincomb .Assistant in Household Science ... 10 400
Phillip B. Hawk .Professor of Physiological Chemistry in the University and Assistant Chief of Physiological Chemistry in the Agricultural Experiment Station from August 1st ... 12 2,500
Mos. Salary

W. J. McNeal ....... Assistant Chief in Bacteriology in the Agricultural Laboratory of Physiological Chemistry from July 1st .................. 12 $1,800
F. W. Gill ............. First Analyst in the Laboratory of Physiological Chemistry .................. 12 1,500
G. C. Keeler ........... Instructor in History and Science in the Academy .................. 10 800
Alva J. Hill ........... Instructor in Mathematics in the Academy .......................... 10 900
E. V. Lawrence ....... Instructor in Military Science .................................... 10 24
Fletcher Lane ........ Assistant Instructor in Gymnasium, part time. .......................... 10 400
E. B. Murray ........... Instructor in Fencing, part time ................................ 10 200
Elizabeth Nuckolls .... Assistant in Physical Training for Women .......................... 10 200
W. H. Schulzke ....... Instructor in Military Science and Tactics .......................... 10 100

Salaries and Appointments in Dental Department—Concluded.

Department of Obstetrics:
- Professor Rachalle Yarros ........................................... $900 00
- One graduate assistant ............................................. 320 00
- One nurse (expenses only) ........................................... 100 00
- One servant (Bessie Newman) ....................................... 300 00

Total for Medical Department ........................................ 1,360 00

Library:
- Metta M. Loomis ...................................................... $720 00
- Two student assistants ............................................... 100 00

Total Library ............................................................. 820 00

Museum:
- Grace E. Amadon ..................................................... $500 00
- George S. Jones (dissecting room) ................................ 600 00

Total Museum ............................................................ 1,100 00

Curator of Laboratories:
- H. W. Cole, curator. This includes care of microscopes .......... 840 00

Dispensary:
- One druggist (Dr. E. J. Danek) ................................. $480 00
- One nurse (Mrs. Josephine Allen) ............................... 480 00

Total Dispensary ......................................................... 960 00

Clinics:
- One nurse ...................................................................... 720 00

Miscellaneous services:
- Professor Frank B. Earle, secretary ................................ $1,200 00
- William H. Browne, superintendent .............................. 2,000 00
- Elizabeth M. Heelan, clerk .......................................... 720 00
- Margaret Vaughn, stenographer .................................... 720 00
- J. S. Tomlinson, actuary’s clerk .................................. 1,200 00
- J. C. Southwell, engineer ............................................ 1,200 00
- One night engineer, (4 months) .................................... 240 00
- Two firemen ............................................................... 1,440 00
- One night watchman ................................................... 480 00
- One head janitor ......................................................... 540 00
- One elevator man ....................................................... 360 00
- Four janitors .............................................................. 1,440 00

Total Miscellaneous Services ........................................ 11,540 00

Total for Medical Department ........................................ $30,120 00

Budget for Dental Department—

Estimated income ......................................................... $8,550 00

Salaries for instruction .................................................. 3,000 00

Salaries for service ....................................................... 2,070 00

Fuel and light .................................................................... 1,000 00

Stationery and printing ................................................... 1,440 00

Laboratories and clinics ................................................ 2,000 00

Advertising and announcement ....................................... 1,000 00

Furniture and fixtures .................................................... 500 00

Incidentals ........................................................................ 100 00

Balance ........................................................................... 16,920 00

Total Salaries and Appointments in Dental Department—

George W. Cook, Acting Dean, Professor of Bacteriology and Pathology .......................... 1,000 00

Charles E. Jones, secretary, Associate Professor Prosthetic Technic, Materia Medica, and Therapeutics ............................ 1,200 00

George W. Dittmar, Associate Professor of Operative Dentistry, Technic, and Superintendent of infirmary ...................... 1,200 00

J. A. Burrell, Professor of Orthodontia ................................ 400 00

F. E. Roach, Professor of Prosthetic Dentistry, Technic, History, and Porcelain Work .................. 800 00

T. L. Grimacore, Professor of Dental Chemistry and Metallurgy ........................................ 200 00

F. B. Moorehead, Professor of Oral Surgery ................................ 200 00

Adjunct Professor of General and Regional Anatomy .................. 600 00

J. F. Borkholder, Professor of Physiology ................................ 300 00

E. D. Brothers, Professor of Dental Jurisprudence ...................... 100 00

S. E. Meek, Professor of Comparative Anatomy .................. 50 00

Demonstrators—

Louis E. Bake, porcelain and technic department ...................... 800 00

Arthur G. Nauman, operative department ................................ 300 00

Louis Miller, operative department and Theracs ..................... 200 00

Henry C. Lee, operative department ..................................... 300 00

C. B. Meek, prosthetic department ....................................... 200 00

Total: $8,550 00

To pay salaries and to meet the ordinary expenses of the College of Agriculture and Agriculture Experiment Station during the coming year:

**College**
- For Department of Agronomy ................................................... $13,000.00
- For Department of Animal Husbandry ...................................... 13,000.00
- For Department of Dairy Husbandry ........................................ 13,000.00
- For Department of Horticulture ............................................ 13,000.00
- For Department of Household Science ...................................... 8,500.00
- For College Extension .......................................................... 8,000.00
- For office and miscellaneous .................................................. 6,000.00
- For drainage, fences, and repairs ......................................... 5,000.00
- To cover unexpended balances ............................................... 7,000.00
- For fire proof storage for samples ........................................ 5,500.00

**Station**
- From State Station Funds:
  - For Investigation in Animal Husbandry ................................ $25,000.00
  - For Investigation Dairy Husbandry ....................................... 15,000.00
  - For Investigation Orchards ................................................ 15,000.00
  - For Investigation Farm crops ............................................ 15,000.00
  - For Investigation Soils ..................................................... 25,000.00
  - For Investigation Floriculture .......................................... 7,500.00

**From U. S. Station Funds**
- Hatch Fund as follows:
  - Department of Agronomy .................................................... $2,000.00
  - Department Animal Husbandry ............................................. 2,000.00
  - Department Dairy Husbandry .............................................. 2,000.00
  - Department Horticulture .................................................. 2,000.00

Voted to refer the proposed increase of salary for Professor Fraser and also the one for Professor Mosier to the Committee on Agriculture, and that the rest of the salaries submitted be approved.

Voted further that the budget as submitted by the Executive Faculty of the Medical School and approved by the Medical Committee of the board be approved.

Voted further that the budget of the School of Pharmacy be referred to the Committee on the School of Pharmacy for further report. Voted also that the balances due the instructors of the school on salaries of 1906-'7 be paid.

Voted that the list of departmental appropriations be made in accordance with the recommendations submitted.

On motion of Mrs. Busey it was voted that appointments to the corps of instruction for the ensuing year be made so far as practicable at the March meeting.

FLORICULTURE.

4. A communication from the Director of the Agricultural Experiment Station as to the action of the Florist's Advisory Committee concerning the expenditure of the appropriation made for floriculture at the last Legislature.

Urbana, Ill., June 29, 1907.

President E. J. James, University of Illinois:

Dear Mr. President—I beg to advise you that the Florist's Advisory Committee has had a meeting under the new law providing for investigations in floriculture and gardening under glass. It was agreed in conference with this committee to make the following recommendations:

1. That studies be made of the actual conditions in commercial greenhouses, particularly concerning the enemy known as thrips, and to some extent other greenhouse pests.

2. That $3,000.00 of the first year's appropriation be set aside as a building fund for the erection of a portion of a commercial greenhouse plant, to be used for experimental purposes.

The approval of these recommendations by the board of trustees is necessary before the work can be undertaken, and I would be glad if you will bring the matter to the attention of this body at its coming meeting.

I may say that a resolution was presented asking the trustees to appropriate $5,000.00 for the erection of greenhouses for experiments under this law. I informed the members of the committee that I could not join them in such a request, and that if they desired to take such action it would have to be taken as an independent action. You may hear from them at a later date. I, of course, informed them that the University expected each line of work to provide for its own expenses, and I felt that such a request was against University custom and policy.

Respectfully yours,

E. Davenport, Director.

Voted that the recommendation of the committee be approved.

The request for an appropriation of five thousand dollars from the general fund for the erection of a greenhouse was denied.
STATE LABORATORY OF NATURAL HISTORY.

5. Report of the Director of the State Laboratory of Natural History.

Voted that it be printed in the minutes.

June 25, 1907.

To the Board of Trustees of the University of Illinois:

The most important present operation of the State Laboratory of Natural History is the accumulation of statistical data for an enumeration and analysis of the bird life of Illinois, reference to which was made in my last report. Two observers beginning August 28, 1906, had traveled on foot 1,139 miles up to May 29th of the present year, collecting exact information as to the bird population of 22,374 acres in Illinois, distributed in all parts of the State from the extreme northern boundary to the southern extremity, and from the Indiana line to the Mississippi River.

The entire number of birds identified for this area is 22,824—an average distribution of 721 birds per square mile, or 1 ½ per acre. The lowest average thus far found was 266 per square mile for central Illinois in December; and the highest average was for extreme southern Illinois during the period of the fall migrations in the early days of November, when 3,271 per square mile were found in the country between Cairo and Anna.

The product of one of the early trips of these observers, covering a distance of 191 miles between the Indiana line beyond Danville and the Mississippi river at Quincy, has been thoroughly worked up and published by me as an article in the Bulletin of the Illinois State Laboratory of Natural History under the title "An Ornithological Cross-Section of Illinois in Autumn."

A mathematical assistant is engaged in making the necessary computations from the field data of these observers, putting the subject into form for further study and report. The two observers referred to, Mr. A. O. Gross and Mr. H. A. Ray, are under engagement until September 1st.

Studies on the entomology of the State, made with reference to the Natural History Survey, are so interwoven with the work of the State Entomologist's office that it is difficult to give a separate account of them. No opportunity is missed by the economic assistants to add to the knowledge of our entomological species or to their distribution and life histories, whether these are of economic significance or not, provided that such general observation may be made without serious interference with economic investigation. The work of Mr. Hart and one or two assistants during the last year has been mainly in the line of faunal entomology, and he has now nearly finished, with the aid of an undergraduate student, a complete list of the orthopterous insects of the State.

Another assistant, Mr. F. E. Wood, is studying the mammals of Illinois with the view to the preparation of a bulletin containing an account of all our species. He has studied this spring an extraordinary and serious injury to corn in Morgan county, due to the work of moles.

The distribution of insects to Illinois high schools was continued during the past winter, each of fifty-eight sets being accompanied by an illustrated descriptive pamphlet, and much material has been accumulated for the preparation of sets of economic species of Illinois insects for all the high schools on our list.

Work on the State fish report has been considerably delayed by an unusually strenuous legislative campaign and by the necessity of finding additional assistants and organizing new work in consequence of enlarging appropriations made to the entomologist's office.

The State Laboratory of Natural History receives, during the coming two years from the Legislature, appropriations identical with those made at the preceding session. A request for an addition to our printing fund sufficient to enable me to issue a second volume on the plankton work of the Biological Station and to print also the report on the fishes of the State was not granted by the Appropriations committees, and I shall consequently be
obliged to make other provisions for this printing. I see no better way than to ask the University to join me in this matter, the State Laboratory returning an equivalent to the University in the form of teaching and part payment of salaries for two instructors—a proposition which I have presented in full in a separate communication to President James.

Respectfully submitted,
S. A. FORBES,
Director of Laboratory.

FEES IN GRADUATE SCHOOL.

6. Request of the faculty of the Graduate School that assistants and instructors employed in the University and registered in the Graduate School should be permitted to take work without the payment of incidental fees, when it is of a grade to count for a higher degree.

Voted that said request be granted.

7. Request of the Tennis Association that the University take care of the tennis courts at its own expense.

Voted that the president be authorized to have the requisite attention given to these courts.

8. A communication from Professor Edwin G. Dexter resigning his position as Professor of Education in the University.

URBANA, ILL., July 3, 1907.

To the Board of Trustees of the University of Illinois:

I hereby tender my resignation as Professor of Education and Director of the School of Education in the University of Illinois, to take effect September 1, 1907. It is not without many regrets that I take this action, the seven years of my association with the University having been uniformly marked by fair and courteous treatment on your part and that of the other officers of the University with whom I have been associated. President Roosevelt has, however, offered me the Commissionership of Education in Porto Rico and it is to make possible the acceptance of that position that I am tendering my resignation.

With best wishes for the future of your great University and making bold to express the hope that the particular interests which I am laying down be more fully emphasized under my successor than they have ever been under me, I am

Yours very truly,
EDWIN G. DEXTER.

Voted that indefinite leave of absence without pay be granted to Professor Dexter to act for the federal government as United States Commissioner of Education in Porto Rico.

9. A request from the Director of the Agricultural Experimental Station for an appropriation of $5,500.00 or so much thereof as may be necessary to erect a house and barn for an attendant on the south farm in connection with the dairy investigations, to be charged to the special appropriation for dairy investigations.

Voted to approve such recommendation.

FUNDS ASSIGNED.

10. A recommendation that the funds granted by the Legislature for the biennium 1907-09 be assigned to the various purposes indicated in the law, subject to the usual appropriation acts by the Board of Trustees of the University.

Voted that such recommendation be approved.
11. A plan for assigning and appropriating the special funds granted for the enlargement and improvement of the Engineering College and equipment of the Engineering Experiment Station.

*Appropriations 1907-1909.*

For maintenance and extension of College of Engineering and equipment of the Engineering Experiment Station $75,000.00 per annum.

$58,000.00

Voted that such assignment and appropriation be approved.

12. A recommendation that the sum of five hundred dollars be paid to Judge O. A. Harker for his services as counsel for the University up to September 1, 1907, and the same amount for the year ending August 31, 1908.

Voted to approve said recommendation.

**RECESS.**

During the consideration of matters proposed by President James a recess was taken until 2:00 o'clock. When the board met after the recess the same members were present as at the morning session except Mr. Madden.

Professor Goss was given leave of absence until November 1, 1907, on full pay.

**RAILWAY ACROSS THE CAMPUS.**

It was voted that the route for crossing the south campus proposed by the joint resolution passed by the General Assembly was not satisfactory, and the special committee to which the matter was referred (see minutes June 10, 1907) was directed to confer with Mr. McKinley with regard to its modification, and with regard to other matters which should be settled at the same time that the permit to cross is granted.

It was ordered that the plat which had been prepared showing the property lines of the University and street lines for a portion of the campus should be printed in the minutes,
AUDITORIUM.

It was voted to accept the bid of English Bros. to complete the tinting of the walls of the Auditorium, using hard oil size for $910.00, and to paint the plaster under the balcony one coat of size and two coats of white lead in colors to suit for $185.00.

The Committee on Building and Grounds was given authority to extend the tunnel to the building, and to contract for wiring for lights and for drainage.

President Abbott, President James, and the Supervising Architect, Mr. White, were given authority to get chairs for the Auditorium at a cost not exceeding $2.20 a chair.

ADVISORY COMMITTEES.

On motion of Mr. Lehman, the secretary was directed to inquire of the Attorney General as to how far the power of the board of trustees is affected by the provisos in the act making appropriations for the College of Agriculture and the Agricultural Experiment Station appointing advisory committees.

APPROPRIATIONS FOR STATE ENTOMOLOGIST'S OFFICE.

A communication from Professor Forbes making certain requests with regard to the State appropriation for the State Entomologist's office, was held for further information with regard to the appropriation.

COMMERCIAL GREENHOUSES.

The question of site for commercial greenhouses was referred to the Committee on Buildings and Grounds for investigation and report to the board.

REPAIRS.

The making of necessary repairs to University buildings was referred to the Committee on Buildings and Grounds with power to act.

ELEVATOR IN UNIVERSITY HALL.

The Committee on Buildings and Grounds, to which had been referred the question of an elevator in University Hall, was given power to act as it might deem best in the premises.

DEAN OF WOMEN.

After discussions as to whether it were better to appoint an Advisor of Women for the ensuing year or to appoint now a Dean of Women, it was decided that a Dean of Women should be appointed, and the President was given authority to appoint Dr. Lily E. Kollock at a salary not to exceed $2,000.00.
STUDENT'S FEES.

The secretary presented his report of fees due from students as follows:
1. Of fees for the year 1906-7 of students of the College of Medicine.
2. Of fees for the year 1906-7 of students of the College of Dentistry.
3. Of fees for the year 1906-7 of students of the School of Pharmacy.
4. Of fees for the second semester for the year 1906-7 of University students at Urbana.
5. Of fees for the second semester for the year 1906-7 of Academy students.

These were referred to the Finance Committee.

COAL, 1907-8.

The Committee on Buildings and Grounds was directed to advertise for bids for proposals for coal for the year beginning September 1, 1907, and for hauling the same, and was authorized to contract for coal and hauling if satisfactory bids were received.

The board adjourned to meet at the University at 2:00 p. m. Friday, July 12, 1907.

---

Adjourned Session.

JULY 12, 1907.

When the board met pursuant to adjournment, there were present Governor Deneen and Messrs. Abbott, Blair, Davison, Hatch, McLean, and Mrs. Evans, and Mrs. Busey. President James was present.

STREET RAILWAY ACROSS SOUTH CAMPUSS.

The secretary was directed to ask the Attorney General as to the legal effect of the joint resolution of the Forty-fifth General Assembly purporting to give the Urbana and Champaign Railway, Gas and Electric Company authority to cross the grounds of the University of Illinois. The following resolution was adopted:

Resolved, That the proposition of the Street Railway Company with regard to crossing the University campus as presented to the board by President McKinley is unsatisfactory.

Upon the nomination of President James, Mr. Ellery B. Paine was appointed Assistant Professor of Electrical Engineering at a salary of $2,000.00 a year from September 1, 1907.

SELECTION OF ARCHITECT FOR NEW BUILDINGS.

The board considered in committee of the whole the question of the selection of an architect. Mr. Abbot was chairman of the committee and Mr. Pillsbury secretary.

The committee rose and reported that it was advisable that there be a consultation with regard to the matter between the President of the...
