It is understood that shop detail drawings shall be supplied by the contractor in accordance with the usual custom.

Architects’ fees for the above services will be 5% of the entire cost of the work (as determined from the contract price), including the survey, borings if required, fixed or detached furnishings designed or installed under their superintendence.

Payments shall be made to the Architects as follows: $15,000 upon completion of the preliminary sketches; 25% of the estimated cost of the work shall be paid, less the sum of $15,000 above stated, when the working drawings and specifications have been prepared, provided, however, that if the preparation of the plans extend over a period of more than two months, payments on account shall be made from time to time, such payments to be approximately proportioned to the progress of the work on the plans. After the contracts are let, payment of the balance (25%) of the amount of certificates issued to the contractor or contractors shall be made at the respective times such certificates are issued, and the remainder of the 5% if there be any, shall be paid at the time of issuance of the final certificate, it being understood that the total of their fees shall be 5% of the total final cost of the work.

The contract further provides that should the work be abandoned after the preliminary sketches are prepared, the Architects shall be reimbursed to the extent of the actual cost to them.

The drawings and specifications are to remain the property of the Architects and to be returned to them upon the completion of the work, one complete set to be furnished to the Stadium Committee.
The Architects are to keep a complete record of all transactions and to render monthly statements of the condition of such contracts and transactions. No extras or credits are to be ordered except upon written approval of the Stadium Committee.

I note in the press proof of the minutes of the meeting of the Board of Trustees, on May 10th, last, that the purchase of the Stoolman property, so called, was reported to the Board and was given approval.

There has been no further meeting of the general Executive Committee of the Stadium. The Building Committee is still busy working out details in connection with the Architects and I understand that this Committee went to Columbus, Ohio, for the purpose of gaining first hand information in regard to the construction work of the Ohio Stadium, which may have a bearing upon the plans for our building.

Notices calling for the payment of the second installment, due July 1st, upon Stadium pledges, are now being prepared in the office of the Secretary and Collection Manager. It may be of interest to the Board to know that a small bulletin giving information regarding Stadium developments will be enclosed with these notices.

Respectfully submitted,

C. J. Rosebery

On motion of Mrs. Grigsby, this report was received for record and the actions taken by the Stadium Executive Committee as outlined in the report were approved.
