To have a number of men who are still enrolled as
special students. They have been carried along from
year to year without ever expecting to graduate and
they are now requesting all sorts of substitutions in
order to make it possible for them to graduate. It
would be very much more satisfactory if we could make
them get in line at the beginning of the junior year.

I submit this to you both because I assume
that it should be brought before the Council and also
because I thought such a rule might be desirable for
the other colleges of the University.

Yours very truly,

[Signature]

Acting Dean of the College of Engineering

The following committee was appointed to conduct the examina-
tion of M. O. M. Dickerson for the degree of Ph. D. — Professor
Greene; Dean Burrill, Professor Garner, Professor Daniels and
Dean Kinley.

The request of Professor Mumford to put Animal Husbandry I
in the first half, instead of the second half of next semester,
was approved.

The petition of Miss Lena Emelow to make up 3 credit hours
necessary for graduation by submitting a paper representing the
result of her reading or research was considered, and it was voted
that Professor Garner be requested to determine whether such a plan
is feasible and if so, to arrange it with the petitioner.

Adjourned,

[Signature] Secretary.
Council Meeting.  
Dec. 21, 1905.

Absent Deans Clark and Davenport.

The following rule was adopted relating to special students: 
No student may be enrolled in the University as a special student 
for more than two years, except on recommendation of the faculty 
of the college in which he is enrolled and the approval of the 
Council of Administration. The term special student, in this rule, 
refers to those persons over 21 years of age described on page 72 of the catalog of 1904-05, but not to the special students there 
described under 21 years of age as being admitted to the College of Agriculture.

The following committee was appointed to investigate and report 
upon the question of the best classification of the various kinds of special students for the University Catalog.—Dean Burrill; 
Deans Clark and Davenport.

A communication was received from the Institute and Training School of the Y. M. C. A. of Chicago, requesting the establishment of a certain credit relationship between the Institute and the University. Consideration of this matter was postponed.

It was voted that in the forthcoming catalog the general heading "College of Liberal Arts" should be placed at the head of the Colleges of Literature and Arts and of Science, and that these two colleges be put in juxtaposition in the catalog.

It was voted that the requirements for admission be described in the catalog under the separate colleges and schools.

It was voted that all general information in the catalog be put in the first part of the book.
It was voted that the University Catalog contain a list of all publications of the University.

It was voted that the names of the advisory board of the School of Pharmacy be put in the Catalog.

It was voted that the Water Survey and the Geological Survey be described in the Catalog.

It was voted that the entrance credits be described in terms of one-half year instead of one-third year.

The question of the advisability of putting the names of the different college faculties in the catalog, at the beginning of the description of each college, was deferred.

The resignation of Dean Kinley as secretary of the Council was accepted and Dean Townsend was appointed his successor.

Adjourned,

David Kinley

Secretary.
