Student Rightor again called in and questioned. Said he had not been in a saloon recently, not within two weeks; did believe he had visited a saloon on Wednesday night, three weeks ago. It was the Club Saloon. "Been there several times this winter. Wednesday night had no particular reason for going in. Did drink beer there sometimes when he went in, but did not usually. Was not in there last Saturday or Friday nights. "I am pretty positive that I have not been there for a week; possibly may have been at the saloon Saturday. I talked with Mr. Coffin, the saloon keeper, when there, but did not go in. Was down town Saturday forenoon, but did not go to a saloon at that time. I myself carried no bottles from my room on Illinois street; I did not know that Ingersoll carried any away. There were eight or nine beer bottles in the house, but they were not our property. They are now in a trunk in one of the fellows rooms.

Action on this case was postponed.

The request of Dr. A. C. Barnes for a loan of $350 from the Snyder Fund was approved.

The following committee was appointed to examine Luther S. Ross for his degree of Doctor of Philosophy:— Deans Forbes and Burrill; Professors Kemp and Pettas; Dr. Folsom.

Messrs. Hayes and Powell appeared on summons to explain why the Sigma Chi Fraternity held an informal dance party on Wednesday evening last contrary to Rule 75 of the Rules for the Government of Students and in spite of express directions from the President to the contrary.

Both gentlemen said that the only excuse they had was that the lower class men wanted to give an informal to the seniors and it was impossible to hold it on a Friday because the boys had to play on Saturdays and it was impossible to find a free Saturday evening. After the arrangements were made for the hall at Crystal Lake, Mr. Brush applied to Dean Clark for permission. This permission was refused by Dean Clark by the President's express directions. The alumni of the Fraternity then said they would give the dance in their name and it was carried through in this way.

The Fraternity supposed under the changed condition that the fact that the alumni gave it released the undergraduate or active members of responsibility. Mr. Lowell said that other fraternities had such parties given them. Questioned as to what fraternity he said the Phi Betas had such a party on a week day evening. He remarked, "I am sure enough to say so." This remark made by Mr. Powell in response to a question by the President. He said that he had heard also that the Kansas Sigs had such a party, but knew nothing about either excepting that he had heard those rumors.

We talked it over and thought it would get round the letter of the law to give the party in the name of the alumni. This change did not change the character of the party. An assessment is levied to pay expenses. The money is yet in the fraternity treasury.
The Young Gentlemen were excused and in view of the circumstances it was voted by the Council to write a reprimand to the Fraternity, to publish the same, and to send a copy to the officers of the National Chapter.

The following resolution was passed by the Council.—

Resolved.—That with the opening of the fall semester the secretary be directed to address a communication to all fraternities and sororities calling attention to the advisability of limiting the duration and expenses of fraternity annuals.

Deans Barnes, Clark and Jayne were appointed a committee to draw up a report on the conditions of living in student lodging houses.

The following high schools were approved for the accredited list, as set forth on the cards filed with the High School Visitor.—

The report of the committee, appointed March 7, to consider the matter of offering science German, was made to the effect that there is no objection to forming a department to offer courses in its own work in German or any other foreign language, provided the credit given for the work is credit for the work of that department and not credit for the language. Courses in zoology and botany were approved in accordance with this decision.

The petition of Mr. F. B. Penwell to be allowed to matriculate in the College of Law on the basis of work done in the Danville High School, the Michigan Military Academy, and the Danville Business College, was approved.

The petition of Oscar Erf to be allowed to continue his work for the master's degree in absentia, was approved.

The report of the committee appointed May 23, to consider and report on a standard of regulations concerning students' lodging houses, was received and approved as follows:

To the Council of Administration:

Your committee, to whom was referred the establishment of standards and regulations concerning students' lodging houses, respectfully recommend that lists of approved houses be prepared, one of those suitable for young men and another for young women; that no house be entered upon either list which does not have suitable sanitary conditions—under which we would include bath rooms, safe sewage arrangements, and supply of city water; and that for young women there will further be required a separate bath room, and the use of a sitting room, either general or personal, for
the reception of callers. Your committee desires further to express its opinion that it is better, other things being equal, that young men and young women should room in separate houses.

For the purpose of making such lists we recommend that a committee be appointed with instructions to send a circular notice to all keepers of lodging houses in the two towns, advising them of our intention to prepare lists of approved houses, and of the conditions upon which a house will be placed upon one or both of these approved lists, and that upon the receipt of satisfactory information this committee make and report to the Council the two lists above provided for.

Respectfully submitted,

The following letter from the general officers of the Sigma Chi Fraternity was read:

Chicago, June 17 1903.

Dr. David Kinley,
Sec. of Council, Univ. of Ill.
Champaign, Ill.

Dear Sir:—

Your letter of June 2 enclosing copy of letter sent by the Council of Administration to our local Chapter at the University of Illinois received, and same was presented to the Grand Triumvirate at their last meeting.

I regret exceedingly that our boys should have broken any of the
rules of the University, especially do I regret this as I myself am an [III-55:A] Alumnus of Kappa Kappa Chapter. I have written the Chapter a strong letter as I do not at all approve of any such actions and the foundation principles of our Fraternity are against all such doings.

The Grand Triumvirs ask me to express to you the appreciation of your courtesy in advising them of the action of the faculty and they further instructed me to convey to the Chapter its strong disapproval of the Grand Triumvirs of wilful violations of University rules.

There is not very much that we can do in a case like this except to call the boys down severely for their disrespect of University regulations. I trust that in the future you will have no trouble of this kind from our boys and assure you that the Grand Officers never for a moment countenance any such actions and the next time a Grand Officer visits the local Chapter, the matter will be brought up against the Chapter. Respectfully Yours,
