✓ A communication was received from Prof. Breckenridge stating that Mr. W. B. McKinley of Champaign had offered him $300 to establish a fellowship in mechanical engineering for the coming University year for investigation and study of the power plant and other equipment of the street railway in the neighborhood, of which Mr. McKinley is president. The acceptance of this fellowship was approved and Prof. Breckenridge's recommendation of Frank Stanley Hadfield as holder of the fellowship was approved for recommendation to the Board of Trustees.

✓ Dean Kinley made a similar report on fellowships of $300 each offered respectively by Messrs. Kimball & Norton, General Agents for the Northwestern Mutual Life Insurance Co. and Mr. W. A. Hamilton, General Agent for the New York Mutual Life Insurance Co. at Terre Haute. The holders of these two latter fellowships are to be appointed at the end of the summer after a test of several applicants.

McCarty "will not be able to complete their theses before commencement day as these theses involve an investigation in beef production which will not be finished in time for their completion before commencement. They would like, of course, to graduate with their class, the University retaining their diplomas until their theses are filed."

It was voted that the petitioners may graduate and get their diplomas only on condition that they fulfill the University regulation that theses be received and certified to by the head of the department as sufficient for graduation, by the time set forth in the University regulations.

The petition of Mr. C. E. Keith of the College of Law to be allowed to matriculate without having had the technical requirements, was referred to Dean Harker for recommendation.
