With regard to advanced standing for high schools the following resolution was passed:—

Resolved:— That the Committee on Advanced Standings be advised to recommend in its discretion, university credits upon certificate of work in lines which have heretofore been accredited for admission by us, and which is in excess of our entrance requirements, on the basis of one year of high school work being equal to two thirds of a year of university work; that not more than a year of university credit be allowed for work done in any high school, and that such allowance be given only when the student is at least seventeen years of age. The Registrar is further advised to pursue a similar method with regard to the work done in schools accredited for advanced standing.

Voted.— That the application of Albert E. Jones for a loan of $200 from the Snyder Fund be approved.
The following action, with regard to military requirements for students on the athletic teams, was approved:

Members of the University Regiment shall be allowed credit for military drill, while active members of university athletic organizations, or candidates for membership in the same, as follows:

The University and Freshman foot-ball teams, (not to exceed thirty men for each), for that part of the first semester preceding December 1; and the University base-ball team (not to exceed fifteen men), and the University track team (not to exceed thirty men), for that part of the second semester following March 14.

The instructor in charge of competitive athletic work will make weekly report to the Professor of Military Science of the attendance on athletic duty of all students excused from drill.

Voted.— That in our judgment the position of Principal of the Preparatory School requires the full time of the incumbent and is incompatible with a candidacy for a university degree.

Voted.— That in the opinion of the Council no member of the Instructional Force above the rank of instructor should be admitted as a candidate for a university degree on the ground that persons above this rank vote upon the conferring of such degree.
