Miss Katharine Sharp

Chicago, Ill.

Dear Miss Sharp: I am greatly pleased at your prosperity and the fact that the Armour is so much of a center for the Library school people. I am specially pleased that you are to have charge of the summer library work at the University of Wisconsin. That is the best place for it in the northwest and you are the best one to manage it, I should have been sorry to have it put in the hands of some librarian with no experience either in the Library school or in teaching. We have talked of doing something similar for Chautauqua and having some of our faculty take charge of the work. It can do only good. I will submit to the next faculty meeting the point in regard to the credit for your first year's work. It seems to me that there is merit in this suggestion, but you know I have great deference for the opinion of my associates and so will not commit the school till we have had a conference.

Yours very truly

Melvil Dewey
