

2/9/9

President

Arthur C. Willard (1934-1946)

Scientific Research and Development Correspondence File, 1940-1947

Box 1:

SUBJECT FILE-Correspondence

- C, Correspondence, Miscellaneous, 1944-1946
Correspondence with National Defense Research Committee (Miscellaneous), 1940 - 1944
- N, National Defence Research Committee
 - A, 48-Adams, Johnstone, et al.-Preparation of certain derivatives of aniline, 1941-1946
 - O, 47, 48, 49; Office of Emergency Management Scientific Research-102, 108, 109
(old correspondence-see also National Defense Research Committee- 48)
1940-1941
- O, Office of Emergency Management Scientific Research
 - B, 299-Bailar, Audrieth-Preparation of compound 1120, Investigations fluorine derivatives for use in war gases, 1941-1946
 - 276-Buswell- Anti-Vesticants in Fabric, 1942-1943
 - C, 439-Clark-Crystalline and Molecular structure of penicillin, 1944-1947
 - 102-Coming, Johnstone-Formation of smokes, (2 folders), 1941-1945
 - F, 300-Fuson-Mustard gas and decontaminating agents, 1942-1945
 - 570-Fuson- Transferred from contract Office of Emergnecy Management Scientific Research-300, 1945-1946
 - H, 1476-Huntington-Effects of explosion on structures, 1945-1946
 - K,484-Keeton, Cole, Mitchell- Estimating speed of - - Calloway, postoperative convalescence, 1944-1945
 - 241-Kerst -Almy during absence x-rays for radiography of thick metal sections, folder 1 of 2, 1941-1946

Box 2:

SUBJECT FILE-Correspondence

- O, Office of Emergency Management Scientific Research
 - K, 241-Kerst -Almy during absence x-rays for radiography of thick metal sections, folder 2 of 2, 1941-1946
 - M, 564-Marvel-Interpretation of data on synthetic analytical, and inorganic problems, 1942-1943
 - 227-Mitchell-Effect of high temperatures on vitamin requirements of man, 1942-1945
 - 227-Mitchell, Keaton-Effect of specific dietary factors on human body to withstand cold, 1942-1944

- P, 321-Price, Charles-Synthesis of organic compounds for potential antimalaria drugs, 1943-1946
593-Price, Charles and Buswell, A.-Chemical warfare agents in water and methods for removal or neutralization, 1942-1946
- R, 469-Reed, Frank and Finger, Glenn-Aromatic fluorine compounds, 1942-1946
421-Reynolds-Penicillin in treatment of compound fractures, 1944-1945
318-Richart-Speed of loading on stress-strain relationship of concrete, 1942-1945
1452-Rodebush-Concentrated hydrogen peroxide solution, 1945
108-Rodebush, Wall-Dispersion of solids and gases and smoke filtration, 1942-1945
- S, 607-Snyder-Boron compounds of possible use as chemical warfare agents, 1942-1946
- W, 1421-Wilson-Factors responsible for cleavage (brittle) fracture of ship plate, 1943-1945
- S, Salaries of Staff Members, 1942-1944
