Liberal Arts and Sciences

Chemistry

Herbert A. Laitinen Papers, 1949-1974

Box 1:

Chemical Analysis, 1949-59

Correspondence with potential collaborator Dr. Donald DeFord on Northwestern University

Notes on solubility of precipitates

Pre-publication correspondence with editors at McGraw-Hill Book Company, primarily W.

A. Benjamin

Outline material

Pre-publication notices

Chemical Analysis, 1960-66

Publication and promotional correspondence with editors at McGraw-Hill

Reactions and endorsements by scientific colleagues

Promotional activities and notices

Sales and adoption records

Book reviews

Dr. Robert Rabin, 1971-73

Plans for "An Interdisciplinary Study of Environmental Pollution by Lead and Other Materials"

Progress reports

Conference calendars

Evaluative reports on other NSF grant sites

Environmental, 1971-74

Correspondence concerning environmental studies programs

Correspondence with colleagues concerning environmental pollutants

Requests for scientific reports

Scientific papers received

General, 1959-72

Correspondence with scientific colleagues and students in England, Taiwan, Japan, the U.S.S.R., Czechoslovakia, Germany, India, and throughout the United States concerning research and sabbatical travels

Correspondence concerning editorial work done for Analytica Chimica Acta and sought for Analytical Chemistry

Lecture offers and programs

Job offers

Invitations to join honorary societies
