**Series 1: Research-related papers, 1938-1992**

This series consists of James Sternburg's professional correspondence, grant applications, and conference papers as well as departmental newsletters. This series also contains Sternburg's research notebooks, a photographic record book on DDT research, and correspondence with Professor Clyde Kearns, who co-authored several of articles on DDT resistance with James Sternburg. This series is arranged alphabetically.

**Series 2: Course Materials, 1954-1988**

This series includes James Sternburg's teaching materials, handouts, lecture notes, lab instructions, and assignments for entomology courses at the University of Illinois. This series is arranged first by course number and then chronologically. Folders without a course number contain lecture notes, most of which are related to Entomology 410 in the early 1980s. They were therefore all listed after Ent. 410 (1982), original order was maintained regardless of whether they were related to fall or spring semester courses.

**Processing Notes:**

Secondary literature, duplicates, and intro-level course materials and lecture notes were weeded. Pages were removed from those research notebooks that were largely empty and placed in folders. Folder titles added by archivists are indicated by []. Processed by Olivia Hagedorn, under the supervision of Susanne Belovari.
