Sidney B. Gaythorpe Papers, 1903-1944, 1954, 1961

Biographical Note

Gaythorpe, Sidney Bertram, amateur historian of astronomy; employed as a die engraver and draftsman in family business; interested in classics, mathematics, astronomy, photography, English literature and music.

Born February 5, 1880, Barrow-in-Furness

Died November 25, 1964, Barrow-in-Furness

Educated: Higher Grade School (now Barrow Grammar School)

Military Service: Stretcher-bearer in the First World War; Draughtsman for the Air Force

Member: British Astronomical Association, Fellow of the Royal Astronomical Society

Publications: Gaythorpe published papers in the Journal of the British Astronomical Association and the Monthly Notices of the Royal Astronomical Society

"Gaythorpe's contributions to astronomy were historical and his published papers in the Association's Journal and the Monthly Notices of the Royal Astronomical Society range from a method of working out the focal length and magnification of early telescopes from the descriptions of celestial objects by the observers that used them, to subjects like the astronomy in Virgil's poetry . . . Gaythorpe's main work was connected with Jeremiah Horrox, the brilliant young astronomer who lived from 1619 to 1641, and of whom Newton thought so highly," Colin Ronan, "Obituaries Sidney Bertram Gaythorpe," Journal of the British Astronomical Association, 75 (June, 1965), 285-6.

Two of his papers are:

Gaythorpe, S. B., "On a method for deducing approximately the focal lengths and magnifying powers of early telescopes," Monthly Notices of the Royal Astronomical Society, v. 85, 659.

"On Horrock's treatment of the evicition and the equation of the center, with a note on the elliptic hypothesis of Albert Curtz and its correction by Boulliau and Newton," Monthly Notices of the Royal Astronomical Society, v. 85, 858.

Correspondence, 1903-1909

Box 1

March 19, 1903, letter from C. T. Whitmell, Invermay, Hyde Park, Leeds re astronomical calculations

December 17, 1903, postcard from c. T. Whitmell, Invermay, Hyde Park, Leeds re an article on Horrocks in "The Observatory" of November, 1883

October 25, 1906, letter from Charles W. Sutton, Free Reference Library, King Street Manchester,

thanking Gaythorpe for a copy of the Church Congress Guide and information about a review of Whatton's Book on Horrocks

- February 4, 1907, letter from C. T. Whitmell, Invermay, Hyde Park, Leeds; re rainbows
 February 5, 1907, letter from C. T. Whitmell, Invermay, Hyde Park, Leeds; more on rainbows
 June 1, 1907, letter to R. Griffiths, 1904 Argburk Road, Liverpool re Toxeth Chapel and Park and matters concerning Horrocks
 August 6, 1909, letter from F. H. Cheetham, 258, Portland Street, southport re plans of Carr House including approximate plans of first floor of the house where Horrocks is said to have observed the transity
 August 8, 1909, letter to Mr. Cheetham evidently from Sidney Gaythorpe's father re Carr House
 August 25, 1909, letter from F. H. Cheetham, 258, Portland Street, Southport replying to above letter about Carr House. Also, an undated letter to Mr. Mart on "The length of telescopes and the distance at which the screen would have to be placed to obtain an image of the right size" with regard to Carr House
 August 27, 1909, letter to Mr. Cheetham from Sidney Gaythorpe's father, Harper Gaythorpe, thanking him for material on Carr House
 December 15, 1909, letter from J. Norman Mart, Whitestake, re the area of Hoole and Carr House
 December 20, 1909, letter to Mr. Mrt re Carr House
 December 30, 1909, letter from J. Norman Mart, Whitestake, more on Carr House and the Hoole Church

Correspondence

- January 18, 1910, postcard from J. Brownbill, Lancaster, re Jeremiah Horrocks and whether he had been ordained
 June 23, 1910, postcard from C. T. Whitmell, Invermay, Hyde Park, Leeds, re paper on Horrocks
 August 7, 1911, letter to Mr. Brownbill explaining why Gaythorpe would be unable to write a paper on Horrocks for the Lancaster and Chec. Historic Society and also why he cannot serve as the Society's local Secretary
 September 5, 1915, letter from C. T. Whitmell, invermay, Hyde Park, Leeds, re a geometry problem
 August 20, 1916, letter from C. T. Whitmell, Invermay, Hyde Park, Leeds, re an article by Gaythorpe
 February 6, 1917, a postcard from C. T. Whitmell, Invermay, Hyde Park, Leeds re an article on Horrocks in The Journal of the Royal Astronomical Society of Canada, December 1916
 January 22, 1918, letter from C. T. Whitmell, Invermay, hyde Park, Leeds re formula
 January 23, 1918, letter to C. T. Whitmell replying to above letter on the formula
 July 14, 1919, letter from Walter Heath, Uplands, Cobham, surrey, re "Horrock's observations in Althaus's biography of Hartlib"
 July 27, 1919, letter from Walter Heath, Uplands, Cobham, surrey, re "Horrock's observations in Althaus's biography of Hartlib"
 August 19, 1919, letter from Walter Heath, Uplands, Cobham, Surrey re Horrocks manuscript

- August 30, 1919, letter from Thomas W. Hand, City Librarian, Central Public Library, Leeds, re copy of the "Ducatus Leediensis" annotated by Wilson and Lucas; "no trace can be found of the names Horrocks, Crabtree and Gascoigne" in the book
- September 1, 1919, letter to T. W. Hand, in reply to above letter including a copy of Gaythorpe's original letter to Hand
- September 5, 1919, letter from Walter Heath, Uplands, Cobham, Surrey re "Hamstead's views about Horrocks's Lunar Theory"
- October 25, 1919, letter from C. T. Whitmell, Invermay, Hyde Park, Leeds re various matters on astronomy
- November 6, 1919, letter from Walter Heath, Uplands, Cobham, Surrey, re Althaus and Mercator and Horrocks
- November 12, 1919, letter to Mr. Brownbill re "The family history of a former vicar of St. Botolph's, Boston, Rev. John Cotton, who emigrated to Boston, U.S.A. in 1633 and was the maternal grandfather of Cotton Mather."
