History of the Physiology Department, 1957-1961

Box 1:

Notes on Elhardt's History of the Physiology Department

page 1 - early history of the University of Illinois; including choice of courses (8)

10-1868-69, early plant and vegetable physiology

University and class enrollments (including physiology classes), physical requirements "sidelights" Burrill established summer school (1891-94); David Kinley as head.

14- 1869-70

15- 1870-71

16- 1871-72, first physiology class under Don Carlos Taft

18- 1872-73

21- 1873-74

23- 1876-76

24- 1876-77

25- 1877-78

26- 1878-79, list of degrees to be conferred

28- 1879-80

30- 1880-81, School of Domestic Science discussed from 1874-79

32- 1881-82

33- 1882-83, Jillson succeeds Taft, description of anatomy and physiology course

36- 1883-84

37- 1884-85, name change

38- 1885-86, description of courses

41- 1887-90

42- 1890-91, Burrill Regent pro tem

44- 1891-92, Rolfe first specifically listed teacher of physiology - becomes 5-hour course

47-51- Natural History Building

52- (see for suggestions on "traffic")

53- 1892-93, Miss Barber assists Rolfe

54- 1893-94, H.E. Summers appointed ; Summers first Professor Physiology; (Rolfe was in protogeology)

55- Major or minor in physiology available in College of Natural Science

56- Description of courses

Part 1 - History of the Physiology Department - pp. 61-117

Page 61- 1894-95, Summers' description of equipment; Draper becomes President

65- 1895-96

66- 1896-97, Chicago College of Pharmacy becomes University School of Pharmacy; C.A.

Bowsher is first recorded Ph.D. graduate student in physiology
69- 1897-98, College of Physicians and Surgeons in Chicago becomes Illinois College of
Medicine; G.T. Kemp replaced Summers as professor of physiology; becomes head
of newly separate and independent Physiology Department (inserts from Science
concerning his struggles with administration)
